

Algebra Readiness Assessment

Jeffery Kurczeski

May 8, 2025

Rahway Academy Math Course Sequence

Algebra Readiness Assessment

- Standards-based assessment focusing on key 6th, 7th, and 8th grade standards essential for success in Algebra 1
- All 6th and 7th grade students take the assessment the week of May 26th during the school day. A letter was sent to families about the assessment.
- The score on the assessment is one piece of data to determine whether students are ready for Algebra and other higher level math courses at the Academy

Accelerated and Honors Criteria

Students must hit specific criteria in each area to be eligible for the Accelerated and Honors courses at the Academy, including:

- NJSLA Math score
- Spring iReady or Star Assessment Diagnostic Results
- Marking Period grades
- Teacher recommendation
- Algebra Readiness Assessment score

See this [link](#) for the specific criteria for each course.

Algebra Readiness Summer Program

- Students who perform somewhat well on the Algebra Readiness Assessment are eligible to be enrolled in the Algebra Readiness Summer Program
- The program is designed to provide students with some extra support in their foundational skills to help them be prepared for Algebra and other higher level math classes at the Academy
- Students will be able to take the assessment again to show their growth and may become eligible for the higher level math courses
