

## Community Relations

**SUBJECT: PARENT INVOLVEMENT**

The Board of Education believes that the citizens of the Sweet Home School District should play an integral part in the functioning of the School District. The Board of Education strongly supports parents/guardians and parent groups and requests that all school employees cooperate with parents/guardians in furthering their children's education and family well-being.

The District should continue to provide opportunities which inform parents/guardians about the K through 12 curriculum and the many other programs provided by the School District.

The Board also encourages the expansion of various forms of parent/guardian involvement to be developed at the District or building level.

The Board affirms the importance of parents/guardians and schools working closely together to guarantee the best education that the District can offer.

**Parent-Teacher Association/Organization**

The Board of Education recognizes that the goal of the Parent-Teacher Associations/Organizations is to develop a united effort between educators and the general public to secure for every child the highest achievement in physical academic and social education. Therefore, staff members and parents are encouraged to join the Parent-Teacher Association/Organization and to participate actively in its programs.
