The football stadium updated parking lot should be completed before the start of the new school year.

Dirt work has begun on the new intermediate school with foundation work to begin in May. Construction on the Stone Ridge storm shelter will begin after school ends but should be completed before next school year.

There was additional discussion regarding the proposed traffic flow. Engineers and architects were involved in the proposed design. There was discussion that most of the roads are two lane roads so traffic will always be a concern but the design should assist in mitigating the circumstances.
