Approximately seven community members and administrators were present to hear discussion on the potential purchase of 39.285 acres of land that connects to the high school and elementary school campuses. President Stroud opened the discussion by thanking everyone for coming and proceeded to explain to the public why the board of education feels it would be a good move to purchase the land. Purchasing this land would open up the future options such as building a new middle and/or high school and having all school buildings on one site. After Mr. Stroud explained the board of education’s position, he opened the meeting up for community comments. Mr. Jim Faust was the first community member to speak and Mr. Faust listed the numerous benefits for the district if the district purchased the property. Mr. Faust did agree that having the option to build a new middle school or new high school on the land would benefit the district by having all schools at one location, or the district would have room to expand the current vocational program. Mr. Don Hastings and Mr. Gary West was also present and spoke briefly in favor of purchasing the property.
