

To ensure that students, families, staff and community members are protected against COVID-19 as school is underway, the **Saddle Brook School District** and city health officials will offer free COVID-19 vaccination on **Saturday, January 15, 2022**.

As the school semester is underway, getting a COVID-19 vaccine this week will allow everyone enough time to receive a second dose before the end of the year, guaranteeing the best possible protection against COVID-19 and the highly transmissible Delta variant.

Everyone, 5 years and older, is recommended to get a COVID-19 vaccine. COVID-19 vaccines are free regardless of insurance or immigration status.

A choice of four vaccines – Pfizer (both formulations for 12+ and children 5-11), Moderna (18+) and Johnson & Johnson (18+) will be available to accommodate families and staff who need first, second or booster doses, in addition to students. Currently, only the Pfizer vaccine formulations are available to individuals 5-17 years of age.

Vaccination staff will be available at each school site to answer any questions. Vaccines will be provided by **DocGo**.

This vaccination event, in collaboration with the New Jersey Department of Health (NJDOH), will occur at the location and times below.

Free COVID-19 vaccination events available to students, staff and families:

Location	Date	Hours
Saddle Brook Middle/High School @ 355 Mayhill Street Please enter through side parking lot door. Vaccinations will take place in Cafeteria B across from the main gymnasium.	Saturday, January 15th	1:00pm - 7:00pm
