CLINIC 4 – our very first level of baseball that will run once a week where the kids learn the basics of throwing and hitting

**** Coaches and parents are a must at this level. If we do not have any volunteers, we cannot host this division.**

Tee Ball – Our first level of baseball where the kids get to learn the game

Coach Pitch – The next step in our kid's baseball careers, the coaches pitch to the kids as they begin to understand the game even more.

Kid Pitch 8 – Our kids first level of "REAL" Baseball, there are balls and strikes and 3 out per inning. This is where the love of the game begins.

Minor Leagues – The next step starts here, there are some modified rules, but this is baseball. Let's find our next MLB All-Star.

Major Leagues – This is it, "REAL BASEBALL". This is the level where kids have a chance to go to the Little League World Series.

Junior League – Time to prep for High School, this level is where the kids move to the "BIG FIELD". Games are played at Veterans Field where the dimensions are the same as Major League Baseball. 60/90, meaning a 60-foot pitching mound and 90-foot basepaths.
