**Central Catholic Community Ministry partners with Education Across Borders to offer service immersion experiences for our students in the Dominican Republic over Spring Break and during the summer.**

The goals of Education Across Borders immersions are to:

- Promote personal growth...by providing a safe, fun, and transformative service experience, connecting you to a bigger world
- Make an authentic difference...in our partner communities, by listening, learning, and engaging in community-identified projects that meet real needs today
- Advance the cause of justice...locally and globally, through the practice of reflection, and by inspiring commitments to life-long service
