Prepping for End of Year

End of Year Prep

- To help us with support, let us know if your LEA is participating with ADSY
- ECDS, we've noticed a few LEAs that have not yet submitted their data, submitting early not only give you a head start but also allows you to identify and address any potential issues with your SIS. As with all your data we encourage you to submit your data as soon as possible.

Update ECDS PreK issue

Notification ECDS ISSUES

The TEA is aware of an issue affecting ECDS PK students that results in a fatal error (40110-0216) - If EntryGradeLevel is "PK" (PreKindergarten), then PKProgramType must not be blank. A PreKindergarten student must be reported with a PKProgramType. This occurs when PKProgramType and PKFundingSources are not promoted due to an EndDate being set on or before the ECDS PK submission deadline.

This issue will be included in the next update of the Known Issues Knowledge Base (KB) article and will be addressed in an upcoming deployment.

Notification ECDS ISSUES Temporary Workaround

Temporary Workaround:

If your Local Education Agency (LEA) needs to complete the ECDS PK submission while awaiting this fix, you can use the following workaround:

1. Remove the EndDate from the PKProgramType and PKFundingSource record or put an EndDate after the ECDS PK submission due date of 6-26-25.
2. Re-promote and re-validate the data to clear the fatal business validation error (40110-0216).
3. Before finalizing, verify the data in the ECD0-000-006 report to ensure that PKProgramType and PKFundingSource values are accurate.

Course Transcript Entity Update

Course Transcript Entity Update – Actions Tried

A change was made to course transcripts to help resolve issues with course completion duplicates.

TSDS Support has tried a couple of options to resolve this issue such as Joining Session Name and Term, but this did not resolve all the situations.

Course Transcript Entity Update – Resolution

The CourseTranscript Entity was extended and is now the CourseTranscriptExt Entity

The Section Reference and Course Sequence were added to the updated entity

This should resolve not only the duplicate issues coming into the IODS but the promotion issues as well.

Course Transcript Entity Update – Actions Tried

TSDS has held meetings with the vendors regarding the update and is working with them to plan for the implementation as this weekend.

The IODS is scheduled to make the change on Friday, 05/16/2025.

Some vendors have reported that they will be ready by then, while other vendors have indicated that they may need additional time to deploy the update.

The change in tweds was published on 05/13/2025 2024-2025.

Course Transcript Entity Update – Vendor Timeline

Question, when will vendors have the update ready?

Please check with your vendors on release timeline for this.
Some vendors will be ready sooner than others.

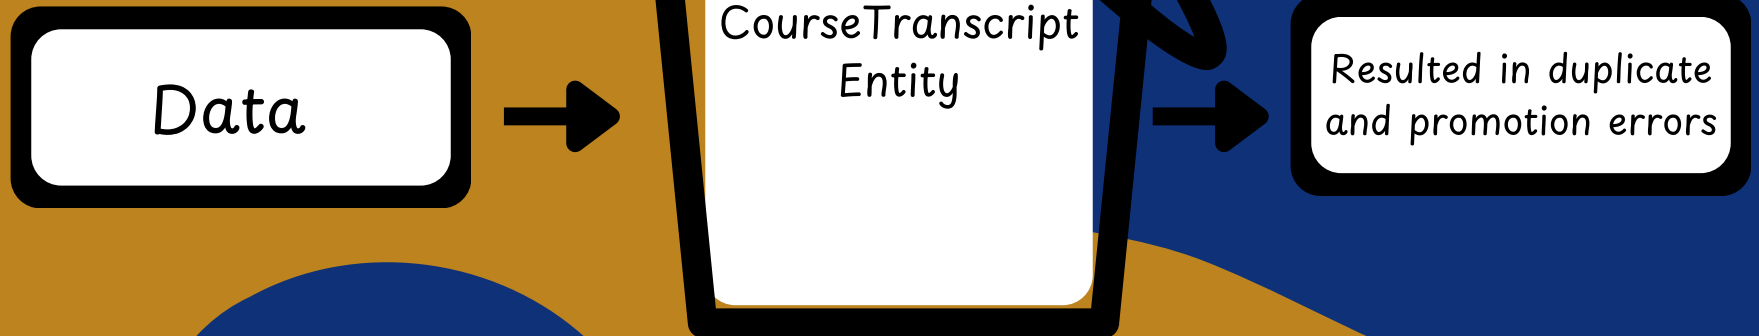

Course Transcript Entity Update – Explained

Currently, all data is being sent to the existing CourseTranscript Entity.

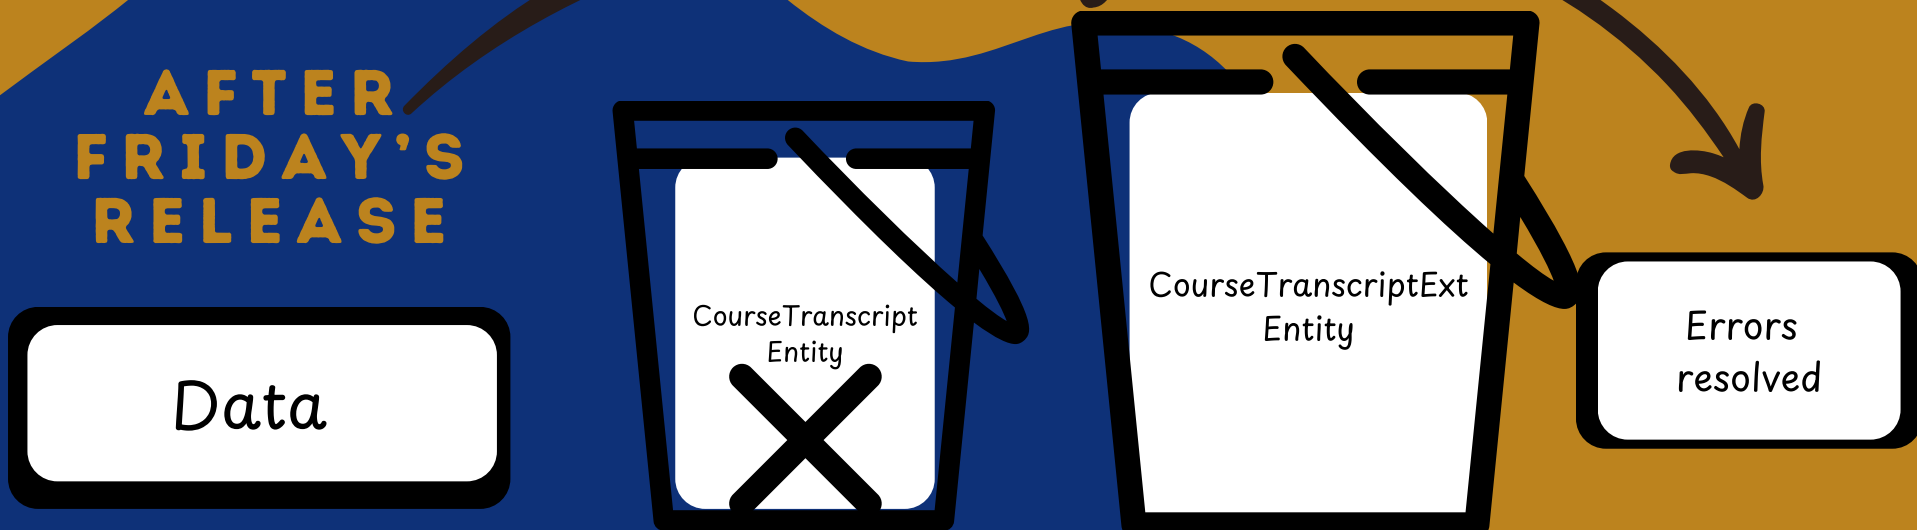

This is the entity that is being updated to the new CourseTranscriptEXT Entity.

When the new CourseTranscriptEXT entity goes live on Friday, all data will be automatically redirected to the new CourseTranscriptExt entity.

CURRENT FLOW OF DATA

AFTER FRIDAY'S RELEASE

Course Transcript Entity Update – No Deletes

- No Deletes needed.
- The current data will just sit out there for the rest of the year in the CourseTranscript Entity, nothing will be done with it, and it will not have to be deleted.
- After Friday, if your vendor has implemented the update, all data will be redirected to the new, CourseTranscriptEXT entity

Course Transcript Entity Update – What does this mean

- After 05/17/2025, depending on when your vendor is ready, your data will be redirected from the CourseTranscript Entity, to the new “Bucket” called CourseTransferEXT entity
- Once your data has been redirected you can search the IODs to confirm that your data has landed successfully.
- CourseTranscriptEXT Entity is the source data that TEA will ultimately pull and promote from.

Course Transcript Entity Update – What to do now

Continue to work on your course transcript information.

And early next week, or when your vendor is ready, your data will be redirected and start flowing and LEAs can begins promoting the data.
