

**SUBJECT: HAZARDOUS WASTE AND HANDLING OF TOXIC SUBSTANCES BY  
EMPLOYEES**

The Board of Education recognizes the need to protect human health and the environment from damage resulting from the improper handling of hazardous wastes.

The management of hazardous waste from its point of generation to the ultimate disposal is regulated through specific Federal and State laws.

The Board directs the Superintendent to adopt rules to ensure District implementation of applicable Federal and State laws pertaining to the identification, transportation, treatment, storage, and disposal of hazardous wastes.

**Hazard Communication Standard**

All personnel will be provided with applicable training to comply with the New York State "Right-to-Know" Law and the Hazard Communication Standard. Both the "Right to Know" poster and the "Labor Law Information Relating to Public Employees" poster must be posted in common areas informing workers of relevant work hazards and associated rights.

The Superintendent or designee will maintain a current record of the contact information of every employee who handles or uses toxic substances and which substance(s) were handled or used by the employee.
