

## Dallas ISD Literacy Theory of Action

IF we...	Launch then strengthen the K-8 implementation of adopted high-quality English Reading Language Arts and Spanish Reading Language Arts curriculum (Amplify) aligned to the science of teaching reading
And IF we also...	implement a suite of curriculum-aligned assessments
And IF we also...	Strengthen literacy unit and lesson internalization (unpacking) systems grounded in the science of teaching reading and culturally and linguistically responsive teaching practices to develop teachers' understanding of, effective preparation for, and implementation of curriculum lessons
And IF we also...	Develop the capacity of leaders to provide more effective PLCs to support teachers with delivering effective literacy instruction using adopted curriculum and Content-Based Language Instruction for emergent bilingual students to promote biliteracy and/or English language acquisition
And IF we also...	Design/refine/affirm and implement a set of goals and structures for progress monitoring, feedback loops, and change management in literacy
Then....	Teachers' research-based literacy knowledge and self-efficacy will be positively impacted by the streamlined literacy practices
Which will then LEAD to an increased likelihood that...	Students experience more rigorous, grade-aligned literacy instruction
Which will RESULT in an increased likelihood that...	Students will grow in their literacy abilities and will ultimately be more college and career-ready.
