2025

SIGN UP!

Available Sessions (9AM to 4PM)

- July 1-2, 2025
- July 29-30, 2025
- August 5-6, 2025
- August 19-20, 2025
- August 26-27, 2025

Description

Are you ready to explore your future career in medicine with like-minded students? SSF's Mini Medical School is an academic summer opportunity for students with a strong interest in pre-med or medically related fields that uses hands-on, lab-based learning.

Students will have the opportunity to dissect real human cadaveric specimens, work with the latest technology in a state-of-the-art medical facility, and network with leading physicians, residents, and fellows. The course is designed to provide a fun and relaxed environment for all participants while teaching about entrance into medical professions and the intricacies of the human body.

We recommend that participants be at least 16 years old and entering their junior or senior year in high school. Current college or university students are also encouraged to attend.
