ITEM TITLE:

Accept Chula Vista Elementary School District 2023-24 Annual Audit Report

BACKGROUND INFORMATION:

All funds of the District were examined as of June 30, 2025. The comprehensive Annual Audit Report (Audit) includes analyses of revenues, expenditures, changes in fund balances, notes to the financial statements, and many other schedules. The report prepared by Wilkinson Hadley King & Co. LLP states:

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

ADDITIONAL DATA:

There are no 2024-25 financial statement changes based on the audit. However, there are two findings with a fiscal impact totaling \$387,313 that are included in the attached "Schedule of Findings and Questioned Costs" (pages 118-121 of the Audit). The fiscal impact of the finding will impact the 2025-26 or subsequent fiscal year. Mr. Brian Hadley of Wilkinson Hadley King & Co. LLP will be present at the Board meeting to respond to questions.

A copy of the entire Audit is available for review in the Office of the Assistant Superintendent of Business Services and Support.

FISCAL IMPACT/FUNDING SOURCE:

None.

STAFF RECOMMENDATION:

Recommend acceptance.

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Chula Vista Elementary School District (the District) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as identified in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB) who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financials statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The accompanying combining financial statements and additional supplementary information, identified in the table of contents, as required by the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, prescribed in Title 5, *California Code of Regulations, Section 19810* are presented for purposes of additional analysis and are not a required part of the financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the accompanying combining and individual nonmajor fund financial statements, the schedule of expenditures of federal awards, and the additional supplementary information as identified in the table of contents, are fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Information

Management is responsible for the other information included in the audit report. The other information comprises the Other Information section of the audit report as identified on the table of contents, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

CHULA VISTA ELEMENTARY SCHOOL DISTRICT
Management Discussion and Analysis
for the Fiscal Year Ended June 30, 2024
(Unaudited)

This section of the Chula Vista Elementary School District's (CVESD) annual financial report presents the discussion and analysis of the District's financial performance during the fiscal year that ended June 30, 2024. This Management Discussion and Analysis (MD&A) should be read in conjunction with the District's financial statements that immediately follow this section.

FINANCIAL HIGHLIGHTS

- In 2023-24, the District's net position was \$274,064,756 an increase of \$72.6 million from the previous year. The District's net position in 2022-23 was \$201,515,345.
- Overall revenues were \$589,528,955 with overall expenditures at \$516,979,544.
- Total District annual average daily attendance (ADA), including 5 dependent charters, increased by 310 ADA from 26,643 to 26,931. The 5 charters decreased by <22> ADA and the District schools increased by 288 ADA.
- In 2023-24, there were seven charter schools in the District with approximately 6,367 ADA. Five charter schools—Arroyo Vista, Chula Vista Learning Community, Discovery, Feaster, and Mueller—are included in the District's audit with 5,711 ADA. The sixth charter – Leonardo da Vinci Health Sciences with 244 ADA began operations in 2009-10 as a K-6 charter school organized under the Nonprofit Public Benefit Corporation Law. The seventh charter—Learning Choice Academy with 412 ADA began operations in 2018-19 as a K-12 charter school organized under the Nonprofit Public Benefit Corporation Law. The District's audit does not contain financial information for Leonardo da Vinci Health Science, and Learning Choice Academy.
- The District records its ending fund balances in compliance with GASB Statement No. 54.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: (1) the MD&A (this section), (2) basic financial statements, and (3) required supplementary information. The basic financial statements include two kinds of statements that present different views of the District.

- The first two statements are *Districtwide financial statements* that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the District and report the District's operations in more detail than the Districtwide financial statements.
 - The *governmental funds* statements tell how basic services, such as general and special education, were financed in the short term as well as what remains for future spending.
 - *Proprietary funds* statements offer short-term and long-term financial information about the activities the District operates like businesses.
 - *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

The Districtwide statements report information about the District as a whole using accounting methods similar to those used by private sector companies. The statement of net position includes all the District's assets, deferred outflow of resources, liabilities and deferred inflow of resources. All the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash was received or paid.

CHULA VISTA ELEMENTARY SCHOOL DISTRICT

Management Discussion and Analysis for the Fiscal Year Ended June 30, 2024 (Unaudited)

The two Districtwide statements report the District's net position and how it has changed. Net position—the difference between the District's assets plus deferred outflow of resource and liabilities plus deferred inflow of resource—is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are indicators of whether its financial position is improving or deteriorating, respectively.
- To assess the overall financial health of the District, one must consider additional factors, such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the Districtwide financial statements, the District's activities are divided into two categories:

- Governmental activities. All the District's basic services are included here, such as general and special education, transportation, and administration. Property taxes and the Local Control Funding Formula finance most of these activities.
- Business-type activities. The District does not operate any business-type activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds—not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes, such as repaying its long-term debts, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds.

- Governmental funds. Most of the District's basic services are included in governmental funds, which generally focus on: (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the Districtwide statements, additional information is provided at the bottom of the governmental funds statements that explains the relationships (or differences) among them.
- Proprietary funds. Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as Districtwide statements. Enterprise funds or internal service funds are the two types of proprietary funds. The District does not operate any enterprise funds.

Internal service funds are used to report activities that provide supplies and services for the District's other programs and activities. The District currently accounts for Workers' Compensation Self Insured Activities and Other Post-Employment Benefits Insurance Activities in the self-insurance fund.

- Fiduciary funds. For assets that belong to others, such as the OPEB Trust Fund, the District is the trustee or fiduciary. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All the District's

CHULA VISTA ELEMENTARY SCHOOL DISTRICT

Management Discussion and Analysis for the Fiscal Year Ended June 30, 2024 (Unaudited)

fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. These fiduciary funds are excluded from the District wide financial statements because the District cannot use assets in these funds to finance its operations. The District currently reports one fiduciary fund which is the OPEB Trust Fund.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position

The District's combined net position of \$274,064,756 increased by \$72,549,411 from the net position of previous year. The Statement of Net Position (see Table A-1) provides the perspective of the District as a whole. All the data is from the District's governmental activities. The District does not operate any business-like entities.

CHULA VISTA ELEMENTARY SCHOOL DISTRICT

Management Discussion and Analysis for the Fiscal Year Ended June 30, 2024 (Unaudited)

The District's increased financial position, resulting in an increase in net position of approximately \$72.5 million is the product of several factors.

- Current assets increased by approximately \$54.5 million primarily due to the increase of \$77.1 million in cash which is offset by the decrease of <\$22> million in receivables.
- Capital assets increased by approximately \$61.1 million primarily due to the Sotomayor Elementary project which is scheduled to open in July.
- Total Liabilities increased by approximately \$116.8 million primarily due to the increase in long term liabilities mainly from general obligation bond issuance and the District's net pension liability.
- Deferred Outflow of resources increased by \$66.5 million while deferred inflow of resources decreased by <\$7.3> million. The changes in deferred outflow and inflow of resources are mainly due to deferrals associated with pension and other post-employment benefits.

Changes in Net Position

The District's total revenues decreased by approximately 9.8 percent to \$589,528,955 (see Table A-2). General revenues increased by approximately \$41.9 million due to increased Federal and State Aid Not Restricted for Specific Purposes, Interest and Investment Earnings while program revenues decreased by <\$106> million. Approximately 69 percent of the total revenue represents property taxes and state/federal formula aid not restricted for specific purposes, 24 percent was received as state and federal aid for specific operating grants, and the remainder represents miscellaneous revenues and charges for services.

Total Expenses	\$ 517.0	\$ 510.8	1%
Increase (Decrease)	\$ 72.5	\$142.8	

The total cost of all programs increased by \$6.2 million or 1 percent to \$517 million. 75 percent of District expenses (instruction/instruction related and pupil services) directly supports the education and care of students (see Table A-2). General Administration expenses includes data processing services, maintenance and operations, ancillary services, and community services. The purely administrative activities (other administration and data processing services) account for just 4.5 percent of total costs. Other Outgo represents interest on long term debt and payments to the county office of education for student services.

for the Fiscal Year Ended June 30, 2024
(Unaudited)

In 2024, total revenues exceeded expenses by approximately \$72.5 million. In 2023, total revenues exceeded expenses by approximately \$142.8 million.

Governmental Activities

Revenues from the District's governmental activities decreased by approximately <10> percent, while total expenses increased by approximately 1 percent. Total government revenues were \$589,528,955 (see Table A-3) while government expenditures were \$516,979,544 (see Table A-4).

Property taxes and federal and state aid represent over 92 percent of general revenues with the remaining 8 percent of general revenues consisting of interest earnings, other agency transfers, and miscellaneous income. Program revenues consist of 95 percent from federal, state, and local operating grants and contributions and 5 percent from charges for services.

The table A-4 presents a two-year cost comparison of six of the District's largest functions: instruction, instruction related, pupil services, general administration, plant services, and other (which includes interest on long-term debt and other outgo).

Table A-4 also shows the net cost of each function. The net cost is the total cost of each function less program revenues. Program revenues consist of charges for services, operating grants and contributions, and capital grants and contributions associated with each function.

- The cost of all governmental functions this year was \$517 million, an increase of 1 percent.
- Net costs of services were \$365.9 million, representing an increase of 44 percent.
- Most of the District's net costs of \$365.9 million are paid from taxes levied for general purposes (\$187.1 million) and federal and state aid not restricted for specific purposes (\$217.4 million).

CHULA VISTA ELEMENTARY SCHOOL DISTRICT

Management Discussion and Analysis for the Fiscal Year Ended June 30, 2024 (Unaudited)

- Specific administrative costs, such as data processing and other general and administrative costs is representing 4.53 percent of all expenditure.

Business-Type Activities

The District did not operate any business-type activities.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance as a whole is reflected in the District's governmental funds. As the District completed the year, the governmental funds reported a combined fund balance of \$465.4 million.

General Fund Budgetary Highlights

Table A-5 presents a comparison of revenues, expenditures, and other sources/uses from the adopted budget to the year-end budget.

Table A-5 Budget to Actual Variances Year Ended June 30, 2024 (in millions)			
	Adopted Budget	Year-End Budget	Actuals
Total Revenues	\$402.3	\$417.9	\$424.8
Total Expenditures	(366.5)	(423.5)	(405.3)
Total Other Sources/Uses	0.0	0.0	0.1
Net Increase/(Decrease) in Fund Balance	\$35.8	<\$5.6>	\$19.6

Over the course of the year, the District revised the annual operating budget several times. The budget amendments generally fell into the following categories.

- The net increase in total revenues from the adopted budget to the year-end estimated budget was approximately \$15.6 million and was due primarily to the increase in LCFF, state and local revenues.
- The net increase in total expenditure from the adopted budget to the year-end estimated budget of \$57.0 million was due mostly to the salaries and benefits, supplies and services.

A comparison of the District's 2023-24 year-end actuals general fund ending balance and the year-end estimated fund balance showed a \$25.2 million increase in the ending fund balance. The major factor that led to the increase is noted below.

- An increase in total revenues of \$6.9 million due mostly on increase in state and local revenues.
- A decrease in total expenditures of <\$18.3> million due mostly decreases in salaries and benefits, supplies and operating services.

CHULA VISTA ELEMENTARY SCHOOL DISTRICT

Management Discussion and Analysis for the Fiscal Year Ended June 30, 2024 (Unaudited)

- The net position liability represents the District's proportionate share of CalSTRS and CalPERS liabilities. In 2023-24, the net pension liability increased by \$50.6 million.
- Governmental Accounting Standards Board (GASB) Statement 87 requires the District to recognize lease assets and liabilities that exceed 12 months in length. In 2023-24 the capital lease decreased by <\$1> million.
- Bond rating information. The District maintains an "A+" rating from Standard & Poor's for the COPs issuance that closed in December 8, 2021. The District maintains an "AA-" rating from Standard & Poor's for the 2018 General Obligation Bond Series A issuance and 2020 General Obligation Bond Series M issuance that closed in July 13, 2023.
- Limitation on debt. The state limits the amount of debt a district can issue to 1.25 percent of the assessed value of property within a district's boundaries. CVESD's combined direct debt ratio was 0.751 percent as of June 30, 2024.

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that could significantly affect its financial health in the future.

- The State of California budget impact due to the slowing or lower state revenues, and economic recovery.
- The escalating employer pension costs continue to cause a material impact to the District.
- The District will continue to monitor the local housing market and its effect on District enrollment.

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position June 30, 2024

Total fund balances governmental funds:	\$ 465,422,318
--	-----------------------

Amounts reported for assets, deferred outflows of resources, liabilities, and deferred inflows of resources for governmental activities in the statement of net position are different from amounts reported in governmental funds because:

Capital assets: In governmental funds, only current assets are reported. In the statement of net position, all assets are reported, including capital assets, lease assets, accumulated depreciation, and accumulated amortization.

Capital assets relating to governmental activities, at historical cost	907,756,344	
Accumulated depreciation	<u>(336,026,211)</u>

Lease assets relating to governmental activities, at historical cost	10,476,529	
Accumulated amortization	<u>(3,817,188)</u>	
Net		6,659,341

Unamortized costs: In governmental funds, debt issue costs are recognized as expenditures in the period they are incurred. In the government-wide statements, debt issue costs for prepaid debt insurance are amortized over the life of the debt. Unamortized debt insurance costs included in deferred outflows of resources on the statement of net position are:

283,384

Unmatured interest on long-term debt: In governmental funds, interest on long-term debt is not recognized until the period in which it matures and is paid. In the government-wide statement of activities, it is recognized in the period that it is incurred. The additional liability for unamatured interest owing at the end of the period was:

(6,710,916)

Long-term liabilities: In governmental funds, only current liabilities are reported. In the statement of net position, all liabilities, including long-term liabilities, are reported. Long-term liabilities relating to governmental activities consist of:

General obligation bonds payable	292,883,132	
Certificates of participation payable	177,573,164	
Leases payable	6,933,843	
Net pension liability	357,782,111

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position, Continued June 30, 2024

Deferred gain or loss on debt refunding: In the government wide financial statements deferred gain or loss on debt refunding is recognized as a deferred outflow of resources (for a loss) or a deferred inflow of resources (for a gain) and subsequently amortized over the life of the debt. Deferred gain or loss on debt refunding recognized as a deferred outflow of resources or deferred inflow of resources on the statement of net position was:

2,693,859

Deferred outflows and inflows of resources relating to pensions: In governmental funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported.

Deferred outflows of resources relating to pensions	156,024,338	
Deferred inflows of resources relating to pensions	<u>(39,587,610)</u>	
Net		116,436,728

Deferred outflows and inflows of resources relating to other postemployment benefits (OPEB): In governmental funds, deferred outflows and inflows of resources relating to OPEB are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to OPEB are reported.

Deferred outflows of resources relating to OPEB	12,152,683	
Deferred inflows of resources relating to OPEB	<u>(15,511,842)</u>	
Net		(3,359,159)

Internal service funds: Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost-recovery basis. Because internal service funds are presumed to operate for the benefit of governmental activities, assets, deferred outflows of resources, liabilities, and deferred inflows of resources of internal service funds are reported with governmental activities in the statement of net position. Net position for internal service funds is:

Chula Vista Elementary School District

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2024

Total change in fund balances governmental funds: \$ 84,667,247

Amounts reported for governmental activities in the statement of activities are different from amounts reported in governmental funds because:

Capital outlay: In governmental funds, the costs of capital assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets are allocated over their estimated useful lives as depreciation expense or amortization expense. The difference between capital outlay expenditures and depreciation or amortization expense for the period is:

Expenditures for capital outlay	81,332,625	
Depreciation expense	(18,822,903)	
Amortization expense	<u>(1,405,495)</u>	
Net		61,104,227

Debt service: In governmental funds, repayments of long-term debt are reported as expenditures. In the government-wide statements, repayments of long-term debt are reported as reductions of liabilities. Expenditures for repayment of the principal portion of long-term debt were: 109,998,981

Debt issue costs for prepaid debt insurance: In governmental funds, debt issue costs are recognized as expenditures in the period they are incurred. In the government-wide statements, debt issue costs for prepaid debt insurance are amortized over the life of the debt. The difference between debt issue costs for prepaid insurance incurred in the current period and prepaid insurance costs amortized for the period is: (13,765)

Debt proceeds: In governmental funds, proceeds from debt are recognized as Other Financing Sources. In the government-wide statements, proceeds from debt are reported as increases to liabilities. Amounts recognized in governmental funds as proceeds from debt were: (198,644,820)

Unmatured interest on long-term debt: In governmental funds, interest on long-term debt is recognized in the period that it becomes due. In the government-wide statement of activities, it is recognized in the period that it is incurred. Unmatured interest owing at the end of the period, less matured interest paid during the period but owing from the prior period was: 1,141,230

Compensated absences: In governmental funds, compensated absences are measured by the amounts paid during the period. In the statement of activities, compensated absences are measured by the amounts earned. The difference between compensated absences paid and compensated absences earned was:	(466,060)
Pensions: In governmental funds, pension costs are recognized when employer contributions are made. In the statement of activities, pension costs are recognized on the accrual basis. This year, the difference between accrual-basis pension costs and actual employer contributions was:	18,479,585
Other postemployment benefits (OPEB): In governmental funds, OPEB expenses are recognized when employer OPEB contributions are made. In the statement of activities, OPEB expenses are recognized on the accrual basis. This year the difference between OPEB expenses and actual employer OPEB contributions was:	(5,975,629)
Amortization of debt issue premium or discount or deferred gain or loss from debt refunding: In governmental funds, if debt is issued at a premium or at a discount, the premium or discount is recognized as an Other Financing Source or an Other Financing Use in the period it is incurred. In the government-wide statements, the premium or discount, plus any deferred gain or loss from debt refunding, is amortized as interest over the life of the debt. Amortization of debt issue premium or discount, or deferred gain or loss from debt refunding for the period is:	2,320,255
Internal Service Funds: Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost-recovery basis. Chula Vista Elementary School District

Notes to the Financial Statements

For the Year Ended June 30, 2024

A. Summary of Significant Accounting Policies

Chula Vista Elementary School District (District) accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

1. Reporting Entity

The District operates under a locally elected Board of Education form of government and provides educational services to grades K-6 in their regular school programs and K-12 in their charter school programs as mandated by the state. A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments and agencies that are not legally separate from the District. For the District, this includes general operations, charter school operations, special revenue funds, capital facilities funds, debt service funds, and student-related activities.

2. Component Units

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete.

The District and the Chula Vista Community Facilities District (the CFD) have a financial and operational relationship which meet the reporting entity definition criteria of the Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, for inclusion of the CFD as a component unit of the District. Therefore, the financial activities of the CFD have been included in the basic financial statements as a blended component unit.

The following are those aspects of the relationship between the District and the CFD which satisfy Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, criteria:

a. Manifestations of Oversight

The governing body of the CFD is substantively the same as the District's Board of Directors.

The CFD has no employees, the District's Superintendent and Deputy Superintendent function as agents of the CFD. Neither individual received additional compensation for work performed in this capacity.

The District exercises significant influence over operations of the CFD as it is anticipated that the District will be the sole lessee of all facilities owned by the CFD.

Chula Vista Elementary School District

Notes to the Financial Statements, Continued

June 30, 2024

b. Accounting and Fiscal Matters

All major financing arrangements, contracts, and other transactions of the CFD must have the consent of the District.

The District will assume a “moral obligation”, and potentially a legal obligation, for any debt incurred by the CFD.

c. Scope of Public Service and Financial Presentation

The CFD was created for the sole purpose of financially assisting the District.

The CFD was created pursuant to a joint powers agreement between the District and the California Statewide Communities Development Authority, pursuant to California Government Code, commencing with Section 6500. The CFD was formed to provide financing assistance to the District for construction and acquisition of major capital facilities. Upon completion the District intends to occupy all CFD facilities.

The CFD’s financial activity is presented in the financial statements in the Capital Projects Fund for Blended Component Units and Debt Service Fund for Blended Component Units.

Based upon review of the applicable GASB pronouncements, the District is not a component unit of any other entity.

3. Basis of Presentation

Government-Wide Statements. The statement of net position and the statement of activities display information about the primary government (the District). These statements include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenue, and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenue for each function of the District’s governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reserved for the statement of activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting of operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from general revenues of the District.

Fund Financial Statements. The fund financial statements provide information about the District's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

Governmental funds are used to account for activities that are governmental in nature. Governmental activities are typically tax-supported and include education of pupils, operation of food service programs, construction and maintenance of school facilities, and repayment of long-term debt.

Major Governmental Funds

The District reports the following major governmental funds:

General Fund: The general fund is the primary operating fund of the District. It is used to account for all activities except those that are required to be accounted for in another fund.

Charter School Fund: This fund is used to account separately for the operating activities of District operated charter schools.

Building Fund: This fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code §15146*) and may not be used for any purpose other than those for which the bonds were issued. Other authorized revenues to the Building Fund are proceeds from the sale or lease-with-option-to-purchase of real property (*Education Code §17462*) and revenue from rentals and leases of real property specifically authorized for deposit into the fund by the governing board (*Education Code §41003*).

Capital Projects Fund for Blended Component Units: This fund is used to account for capital projects financed by Mello-Roos Community Facilities Districts and similar entities that are considered component units of the District under generally accepted accounting principles (GAAP). The Mello-Roos Community Facilities Act of 1982 (*Government Code §5311 et seq.*) allows any county, city, special district, school district, or joint powers authority to establish, upon approval of two-thirds of the voters in the district, a "Community Facilities District" (CFD) for the purpose of selling tax-exempt bonds to finance public improvements and services. The District has one CFD reported as a blended component unit.

Debt Service Fund for Blended Component Units: This fund is used to account for the accumulation of resources for the payment of principal and interest on bonds issued by Mello-Roos Community Facility Districts and similar entities that are considered blended component units of the District under generally accepted accounting principles (GAAP). The Mello-Roos Community Facilities Act of 1982 (*Government Code §5311 et seq.*) allows any county, city, special district, school district, or joint powers authority to establish, upon approval of two-thirds of the voters in the district, a "Community Facilities District" (CFD) for the purpose of selling tax-exempt bonds to finance public improvements and services. The District has one CFD reported as a blended component unit.

Non-Major Governmental Funds

The District reports the following non-major governmental funds categorized by the fund type:

Special Revenue Funds: Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The District maintains the following nonmajor special revenue funds:

Associated Student Body Fund: This fund is used to account separately for the activities of associated student body organizations operated by the District.

Child Development Fund: This fund is used to account separately for federal, state, and local revenues to operate child development programs.

Cafeteria Special Revenue Fund: This fund is used to account separately for federal, state, and local resources to operate the food service program (*Education Code §38091 through §38093*). The Cafeteria Special Revenue Fund shall be used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code §38091 and §38100*).

Capital Projects Funds: Capital projects funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds). The District maintains the following nonmajor capital projects funds:

Capital Facilities Fund: The Capital Facilities Fund is used primarily to account separately for moneys received from fees levied on developers or other agencies as a condition of approving a development (*Education Code §17620 through §17626*). The authority for these levies may be county or city ordinances (*Government Code §65970 through §65981*) or private agreements between the District and the developer. All funds, including interest earned, are restricted to the purposes specified in *Government Code §65970 through §65981* or *Government Code §65995*, or items specified in agreements with the developer (*Government Code §66006*).

County School Facilities Fund: This fund is established pursuant to *Education Code §17070.43* to receive apportionments from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School Facilities Fund (Proposition 47), the 2004 State School Facilities Fund (Proposition 55), the 2006 State School Facilities Fund (Proposition 1D) or the 2016 State School Facilities Fund (Proposition 51). The fund is used primarily to account for new school facility construction, modernization projects, and facility hardship grants as provided in the Leroy F. Green School Facilities Act of 1998 (*Education Code §17070.10 et seq.*).

Debt Service Funds: Debt service funds are established to account for the accumulation of resources for and the payment of principal and interest on general long-term debt. The District maintains the following nonmajor debt service fund:

Bond Interest and Redemption Fund: The Bond Interest and Redemption Fund is used for the repayment of bonds issued for the District (*Education Code §15125 through §15262*). The County of San Diego Auditor maintains control over the District's Bond Interest and Redemption Fund. The principal and interest on the bonds must be paid by the County Treasurer from taxes levied by the County Auditor-Controller.

Internal Service Funds: Internal service funds are created principally to render services to other organizational units of the District on a cost-reimbursement basis. These funds are designed to be self-supporting with the intent of full recovery of costs, including some measure of the cost of capital assets, through user fees and charges. The District maintains the following internal service fund:

Self-Insurance Fund: Self-insurance funds are used to separate moneys received for self-insurance activities from other operating funds of the District (*Education Code §17566*).

4. Basis of Accounting – Measurement Focus

Government-Wide Financial Statements. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. The governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

5. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid or at year end, whichever is sooner.

Chula Vista Elementary School District

Notes to the Financial Statements, Continued

June 30, 2024

6. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District's governing board must adopt a final budget no later than July 1st. A public hearing must be conducted to receive comments prior to adoption. The District's governing board has satisfied these requirements.

These budgets are revised by the District's governing board and district superintendent during the year to give consideration to unanticipated income and expenditures.

Formal budgetary integration was used as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts.

7. Revenues and Expenses

a. Revenues – Exchange and Non-Exchange

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 60 days. However, to achieve comparability of reporting among California districts and so as to not distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, property taxes, interest, certain grants, and other local sources.

Non-exchange transactions are transactions in which the District receives value without directly giving equal value in return, including property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

b. Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the government-wide financial statements.

8. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position

a. Deposits and Investments

Cash balances held in banks and in revolving funds are insured to \$250,000 by the Federal Depository Insurance Corporation (FDIC). All cash held by the financial institutions is fully insured or collateralized. For purposes of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased.

In accordance with Education Code §41001, the District maintains substantially all its cash in the San Diego County Treasury. The county pools these funds with those of other districts in the county and invests the cash. These pooled funds are carried at cost, which approximates market value. Interest earned is deposited quarterly into participating funds, except for the Tax Override Funds, in which interest earned is credited to the general fund. Any investment losses are proportionately shared by all funds in the pool.

The county is authorized to deposit cash and invest excess funds by California Government Code §53648 et seq. The funds maintained by the county are either secured by federal depository insurance or are collateralized.

Information regarding the amount of dollars invested in derivatives with San Diego County Treasury was not available.

b. Stores Inventories and Prepaid Expenditures

Inventories are recorded using the purchases method in that the cost is recorded as an expenditure at the time individual inventory items are purchased. Inventories are valued using the first-in/first-out (FIFO) method and consist of expendable supplies held for consumption. Reported inventories are equally offset by a non-spendable fund balance designation, which indicates that these amounts are not “available for appropriation and expenditure” even though they are a component of net current assets.

The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditures during the benefiting period.

c. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Chula Vista Elementary School District

Notes to the Financial Statements, Continued

June 30, 2024

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Buildings & Improvements	20 - 50 Years
Land Improvements	10 - 25 Years
Equipment	5 - 15 Years

d. Lease Assets & Lease Liabilities

A lease is defined as a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles and equipment. In accordance with GASB Statement 87, the District records lease assets and lease liabilities with a capitalization threshold of \$5,000. Lease assets are amortized over the shorter of the useful life of the underlying asset (as defined in capital assets policy) or the lease term. Lease liabilities are reduced as principal payments on the lease are made.

e. Subscription Assets & Subscription Liabilities

A subscription based information technology arrangement (SBITA) is a contract that conveys control of the right to use another party's information technology software, alone or in combination with tangible capital assets, as specified in the contract for a period of time in an exchange or exchange-like transaction. SBITAs result in a subscription asset and subscription liability on the date of inception in accordance with GASB Statement 96 which are recorded at present value using an imputed interest rate based on the best available borrowing rate for the District in the year of inception. The District has established a capitalization threshold for subscription assets and liabilities of \$5,000. The subscription assets are amortized over the subscription term. The subscription liabilities are reduced as principal payments on the agreements are paid.

f. Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as liabilities of the District. The balance of the liabilities is recognized in the government-wide financial statements at year end.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

g. Unearned Revenue

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the occurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized.

Chula Vista Elementary School District

Notes to the Financial Statements, Continued

June 30, 2024

h. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers in and transfers out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

i. Fund Balances – Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid items) or legally required to remain intact (such as revolving cash accounts or principal of a permanent fund).

Restricted Fund Balance represents amounts that are subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations, or may be imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance represents amounts that can only be used for a specific purpose because of a formal action by the District's governing board. Committed amounts cannot be used for any other purpose unless the governing board removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the governing board. Commitments are typically done through adoption and amendment of the budget or resolution. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the governing board or by an official or body to which the governing board delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service, or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund convey that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself.

Unassigned Fund Balance represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

Chula Vista Elementary School District

Notes to the Financial Statements, Continued

June 30, 2024

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

j. Minimum Fund Balance Policy

The District maintains a minimum reserve for economic uncertainties of 8% of the District's general fund annual operating expenditures. The District is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredicted expenditures. If the reserve for economic uncertainties drops below 8%, it shall be recovered as soon as fiscally possible. In the event of unanticipated changes in revenues or expenditures, it is the responsibility of the Superintendent/Designee to report the projections to the Board when they become known. Because amounts in the nonspendable, restricted, committed, and assigned categories are subject to varying constraints in use, the Reserve for Economic Uncertainties consists of balances that are otherwise unassigned.

k. GASB 54 Fund Presentation

GASB Statement No. 54 defines a special revenue fund as a fund that has a special revenue source that is either restricted or committed to the financing of particular activities, that compose a substantial portion of the inflows of the fund, and that are reasonably expected to continue. The Pupil Transportation Fund (Fund 15) does not have continuing revenue sources that are either restricted or committed in nature. As such, this fund does not meet the definition of special revenue funds under the provisions of GASB Statement No. 54. This fund has been combined with the general fund for reporting purposes. The fund was closed out by the end of the 2023-24 fiscal year and all activities previously accounted for in the fund will be accounted for in the general fund.

l. Deferred Inflows and Deferred Outflows of Resources

Deferred outflows of resources is a consumption of net position that is applicable to a future reporting period. Deferred inflows of resources is an acquisition of net position that is applicable to a future reporting period. Deferred outflows of resources and deferred inflows of resources are recorded in accordance with GASB Statement numbers 63 and 65.

9. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources relating to pension, deferred inflows of resources relating to pension, pension expense, information about the fiduciary net position of the CalPERS Schools Pool Cost-Sharing Multiple-Employer Plan (CalPERS Plan) and CalSTRS Schools Pool Cost-Sharing Multiple Employer Plan (CalSTRS Plan), and additions to/deductions from the CalPERS Plan and CalSTRS Plan fiduciary net positions have been determined on the same basis as they are reported by the CalPERS Financial Office and CalSTRS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain timeframes. For this report, the following time frames are used:

Valuation Date	June 30, 2022
Measurement Date	June 30, 2023
Measurement Period	July 1, 2022 to June 30, 2023

10. Postemployment Benefits Other than Pensions (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows of resources related to OPEB and deferred inflows of resources related to OPEB, and OPEB expense have been determined by an independent actuary. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms.

Generally accepted accounting principles require the reported results must pertain to liability and asset information within certain defined timeframes. For this report the following timeframes are used:

Valuation Date	July 1, 2023
Measurement Date	June 30, 2024
Measurement Period	July 1, 2023 to June 30, 2024

11. Property Taxes

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County Auditor-Controller bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

12. Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

13. Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles as defined by Governmental Accounting Standards Board (GASB) Statement No. 72. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy is detailed as follows:

Level 1 Inputs:	Quoted prices (unadjusted) in active markets for identical assets or liabilities that a government can access at the measurement date.
Level 2 Inputs:	Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
Level 3 Inputs:	Unobservable inputs to an asset or liability.

14. New Accounting Pronouncements

The District has adopted accounting policies compliant with new pronouncements issued by the Government Accounting Standards Board (GASB) that are effective for the fiscal year ended June 30, 2024. Those newly implemented pronouncements are as follows:

Description	Date Issued
GASB Statement No. 99 <i>Omnibus 2022</i> (Portions related to leases, PPPs, and SBITAs)	Apr-22
GASB Implementation Guide No. 2021-1 <i>Implementation Guidance Update 2021 (Portion Related to Question 5.1)</i>	May-21

Implementation of these standards did not result in any changes to financial accounting or reporting for the District.

B. **Compliance and Accountability**

1. Finance Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, “Certain Financial Statement Note Disclosures”, violations of finance-related legal and contractual provisions, if any are reported below, along with actions taken to address such violations:

C. Fair Value Measurements

The District's investments at June 30, 2024, categorized within the fair value hierarchy established by generally accepted accounting principles, were as follows:

	Amount	Fair Value Measurement Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
External investment pools measured at fair value				
San Diego County Treasury	\$ 447,350,775	\$ -	\$ 447,350,775	\$ -
Total external investment pools	447,350,775	-	447,350,775	-
Other investments measured at fair value				
Cash with Fiscal Agent - Money Market Funds	1,144	1,144	-	-
Total other investments	1,144	1,144	-	-
Total Investments	\$ 447,351,919	\$ 1,144	\$ 447,350,775	\$ -

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code §41001). The fair value of the District's investments in the pool is reported in the accounting financial statements as amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of the portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

The San Diego County Treasury is not registered with the Securities and Exchange Commission (SEC) as an investment company; however, the County Treasury acts in accordance with investment policies monitored by a Treasury Oversight Committee consisting of members appointed by participants in the investment pool and up to five members of the public having expertise, or an academic background in, public finance. In addition, the County Treasury is audited annually by an independent auditor.

Investments in money market funds are amounts held by fiscal agents for community facilities districts special tax bonds.

1. Cash in County Treasury

In accordance with Education Code §41001, the District maintains substantially all of its cash in the San Diego County Treasury as part of the common investment pool (\$454,197,627 as of June 30, 2024). The fair value of the District's portion of this pool as of that date, as provided by the pool sponsor, was \$447,350,775. Assumptions made in determining the fair value of the pooled investment portfolios are available from the County Treasurer.

2. Cash on Hand, In Banks, and in Revolving Fund

Cash balances on hand and in banks (\$22,015,895 as of June 30, 2024) and in revolving fund (\$145,030 as of June 30, 2024) are insured up to \$250,000 by the Federal Depository Insurance Corporation (FDIC).

3. Cash with Fiscal Agents and Investments

The District's cash with fiscal agent (\$1,144 as of June 30, 2024) represented amounts held in a trust fund for the Community Facilities Districts. These funds were held in money market accounts with maturities less than 30 days. The funds were reported at fair market value.

4. Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized for the District by the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy.

5. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The county treasury is restricted by Government Code §53635 pursuant to §53601 to invest only in time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements. The ratings of securities by nationally recognized rating agencies are designed to give an indication of risk.

At June 30, 2024, credit risk for the District's investments was as follows:

<u>Investment Type</u>	<u>Rating</u>	<u>Rating Agency</u>	<u>Amount</u>
County Treasurer's Investment Pool	Unrated	Not Applicable	\$ 447,350,775
Money Market Funds	Unrated	Not Applicable	1,144

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

At June 30, 2024, the District's bank balances exceeded FDIC limitations by \$21,910,925 and as such were exposed to custodial credit risk. Money market and county treasury investment pool balances of \$435,042,572 were not FDIC insured and therefore exposed to custodial credit risk.

Chula Vista Elementary School District

Notes to the Financial Statements, Continued

June 30, 2024

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond the amount stipulated by the California Government Code. Investments in any one issuer that represent five percent or more of the total investments are either an external investment pool and are therefore exempt. As such, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District maintains pooled investments with the San Diego County Treasury with a fair value of \$447,350,775. The average weighted maturity for this pool was 449 days at June 30, 2024.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

6. Investment Accounting Policy

The District is required by GASB Statement No. 31 to disclose its policy for determining which investments, if any, are reported at amortized cost. The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

The District's investments in external investment pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is a 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission (SEC) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

G. Lease Receivable

The District holds a facilities lease agreement with Child Development Association, Inc. (CDA) to lease property at Finney Elementary School to be used to operate a California State Preschool program. The lease began July 1, 2020 and extends through June 30, 2031. The lease calls for payments of \$170 per month through June 30, 2025 followed by payments of \$175 per month through June 30, 2031. The lease receivable is measured as the present value of the future minimum rent payments expected to be received during the lease term at a discount rate of 1.5%, which is an imputed rate.

The District holds a facilities lease agreement with Child Development Association, Inc. (CDA) to lease property at Hilltop Elementary School to be used to operate a California State Preschool program. The lease began July 1, 2020 and extends through June 30, 2031. The lease calls for payments of \$170 per month through June 30, 2025 followed by payments of \$175 per month through June 30, 2031. The lease receivable is measured as the present value of the future minimum rent payments expected to be received during the lease term at a discount rate of 1.5%, which is an imputed rate.

The District holds a facilities lease agreement with Seniors on Broadway Limited Partnership to lease property at Chula Vista Learning Community Charter School to be used to operate a senior rental housing center containing senior residential dwelling units. The lease began March 1, 2005 and extends through December 15, 2081. The initial lease amount was an annual payment of \$5,000 with payments increasing by \$5,000 until the amount reached \$60,000 in the twelfth year. Beginning in the 13th year, the lease amount increases annually by 2.5% each year. For the first fifteen years, payments can be made based upon available cash flow with all payments due and payable no later than the end of year fifteen of the lease. The lease receivable is measured as the present value of the future minimum rent payments expected to be received during the lease term at a discount rate of 1.5%, which is an imputed rate.

The District holds a facilities lease agreement with Davila to lease property owned by the District to be used as outlined in the agreement. The lease began July 1, 2022 and extends through June 30, 2028. The lease calls for payments averaging \$128,637 per year. The lease receivable is measured as the present value of the future minimum rent payments expected to be received during the lease term at a discount rate of 2.4%, which is an imputed rate.

The lease began September 1, 2020 and extends through August 31, 2028. Payments began at \$23,930 per month with annual increases up to \$37,610 per month. The lease payable is recorded at the net present value of lease payments utilizing an imputed interest rate of 1.5%.

The District holds two lease agreements with William Scotsman, Inc for the right to use facilities for Mueller Charter School. The leases began July 1, 2019 and extends through June 30, 2029. Payments on the first lease are \$1,499 per month and payments on the second lease are \$434 per month. The leases payable are recorded at the net present value of lease payments utilizing an imputed interest rate of 1.5%.

Balances were retroactively adjusted to show beginning balances resulting from an accounting change for implementation of GASB Statement No. 87.

Activity for leases payable during the year ended June 30, 2024 are as follows:

O. Pension Plans

1. General Information about the Pension Plans

a. Plan Descriptions

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and Local Government resolution. Support by the State for the CalSTRS plan is such that the plan has a special funding situation as defined by GASB Statement No. 68. CalSTRS and CalPERS issue publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on their respective websites.

b. Benefits Paid

CalSTRS and CalPERS provide service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at 62 for normal benefits or at age 55 with statutorily reduced benefits. Employees hired prior to January 1, 2013 are eligible to retire at age 60 for normal benefits or at age 55 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. All members are eligible for death benefits after one year of total service.

c. Contributions

CalSTRS

For the fiscal year ended June 30, 2024, California Education Code §22950 requires members to contribute monthly to the system 10.205% (if hired on or after January 1, 2013) or 10.25% (if hired before January 1, 2013) of the creditable compensation upon which members' contributions under this part are based. In addition, the employer required rates established by the CalSTRS board have been established at 19.10% of creditable compensation for the fiscal year ended June 30, 2024. The CalSTRS Board has the authority to increase or decrease percentages paid specific to reflect the contribution required to eliminate by June 30, 2046, the remaining unfunded actuarial obligation with respect to service credited to members before July 1, 2014, as determined by the Board based upon a recommendation from its actuary. Those adjustments are limited to 1% annually, not to exceed 20.25% of creditable compensation.

CalPERS

California Public Employees' Retirement Law §20814(c) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on July 1 following notice of a change in the rate. The CalPERS Board retains the authority to amend contribution rates. The total plan contributions are determined through CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of the employees. For the fiscal year ended June 30, 2024, the employee contribution rate was 7.00% for employees hired prior to January 1, 2013 and 8.00% for employees hired on or after January 1, 2013, and the employer contribution rate was 26.68% of covered payroll.

On Behalf Payments

Consistent with California Education Code §22955.1, the State of California makes contributions to CalSTRS on behalf of employees working for the District. For the fiscal year ended June 30, 2024 the State contributed 10.828% of salaries creditable to CalSTRS. Consistent with the requirements of generally accepted accounting principles, the District has recorded these contributions as revenue and expense in the fund financial statements (current financial resources measurement focus). The government-wide financial statements have recorded revenue and expense for pension expense paid on behalf of the District (economic resources measurement focus). Contributions reported for on behalf payments are based on the District's proportionate share of the States contribution for the fiscal year. Contributions made by the state on behalf of the District and the State's pension expense associated with District employees for the past three fiscal years are as follows:

CalSTRS			
Year Ended	On Behalf	On Behalf	On Behalf
June 30,	Contribution	Contribution	Pension
	Rate	Amount	Expense

2. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2023 (measurement date) the District reported net pension liabilities for its proportionate share of the net pension liability of each plan as follows:

	<i>Governmental Activities</i>
CalSTRS	\$ 232,073,874
CalPERS	125,708,237
Total	<u>\$ 357,782,111</u>

The District's net pension liability for each Plan is measured as the proportionate share of the total net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2023. The total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2022 rolled forward to measurement date June 30, 2023 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, as actuarially determined.

The District's proportionate share of the net pension liability for each Plan as of June 30, 2023 and June 30, 2024 were as follows:

	CalSTRS			CalPERS
	District's Proportionate Share	State's Proportionate Share*	Total for District Employees	District's Proportionate Share

c. Actuarial Assumptions

Total pension liabilities for the fiscal year ended June 30, 2024, were based on actuarial valuations determined using the following actuarial assumptions:

	CalSTRS	CalPERS
Fiscal Year	6/30/2024	6/30/2024
Measurement Date	6/30/2023	6/30/2023
Valuation Date	6/30/2022	6/30/2022
Actuarial Cost Method	Entry Age Normal	Entry Age Normal
Experience Study Period	2015 - 2018	2000 - 2019
Actuarial Assumptions:

Inflation	2.75%	2.30%
Payroll Growth	3.50%	Varies ⁽³⁾
Investment Rate of Return	7.10%	6.90%
Post Retirement Benefit Increase	2.00% Simple ⁽¹⁾	2.00% - 2.30% ⁽⁴⁾
Mortality	CalSTRS Data ⁽²⁾	CalPERS Data ⁽⁵⁾

(1) CalSTRS post-retirement benefit increases assumed at 2% simple (annually) maintaining 85% purchasing power level.

(2) CalSTRS base mortality tables are custom tables derived to best fit the patterns of mortality among CalSTRS members. The projection scale was set to equal 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table issued by the Society of Actuaries.

(3) Varies by entry age and service.

(4) CalPERS post retirement benefit increases assumes 2.00% until PPPA floor on purchasing power applies, 2.50% thereafter.

(5) CalPERS mortality table was developed based on CalPERS specific data. The table includes 15 years of mortality improvement using the Society of Actuaries 90% of scale MP-2016. For more details on this table, please refer to the December 2021 experience study report (based on CalPERS demographic data from 2000 to 2019) that can be found on the CalPERS website.

d. Discount Rate

The discount rate used to measure the total pension liability was 7.10% for CalSTRS and 6.90% for CalPERS. The projection of cash flows used to determine the discount rates assumed the contributions from the plan members, employers, and state contributing agencies (where applicable) will be made at statutory contribution rates. To determine whether the District bond rate should be used in the calculation of a discount rate for each plan, CalSTRS and CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current discount rates are adequate, and the use of the discount bond rate calculations is not necessary for either plan. The stress test results are presented in detailed reports that can be obtained from CalPERS and CalSTRS respective websites.

The CalPERS discount rate was increased from 7.50% to 7.65% at measurement date June 30, 2015 (Fiscal year June 30, 2016) to correct for an adjustment to exclude administrative expenses. Subsequently CalPERS discount rate was decreased from 7.65% to 7.15% at measurement date June 30, 2017 (Fiscal year June 30, 2018) to adjust for changes resulting from actuarially determined amounts. Finally, the CalPERS discount rate was decreased from 7.15% to 6.90% at measurement date June 30, 2022 (Fiscal year June 30, 2023) resulting from a new actuarial experience study completed.

The CalSTRS discount rate was adjusted from 7.60% to 7.10% for measurement date June 30, 2017 (Fiscal year June 30, 2018) to adjust for changes resulting from a new actuarial experience study.

According to Paragraph 30 of GASB Statement No. 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The investment return assumption used in the accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. Using this lower discount rate has resulted in a slightly higher total pension liability and net pension liability. CalSTRS and CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

CalSTRS and CalPERS are scheduled to review actuarial assumptions as part of their regular Asset Liability Management (ALM) review cycle. CalSTRS completed their ALM November 2019 with new policies in effect on July 1, 2021. CalPERS completed their ALM in 2021 with new policies in effect on July 1, 2022. Both CalSTRS and CalPERS conduct new ALM's every 4 years.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalSTRS and CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and long-term (11-60 years) using a building block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest quarter of one percent.

P. Postemployment Benefits Other than Pension Benefits (OPEB)

A. Plan Description

The California Public Employees Retirement System (CalPERS) administers the Chula Vista Elementary School District Retiree Benefits Plan (Plan) through the California Employers' Retiree Benefit Trust (CERBT). The plan is a single-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for employee groups as follows:

The District provides the ability to enroll in retiree health benefits (including medical, dental and vision) to eligible retirees and their dependents. The District's financial obligation is to pay for retiree medical for the retiree only coverage to age 65 subject to an annual maximum benefit allotment. The retiree pays for any amounts above the annual maximum and for the cost of covering dependents. Retirees can elect dental and vision coverage on a self-pay basis. The District does not contribute any retiree health benefits beyond the retiree's attainment of age 65. The current applicable maximum benefit allotments and eligibility for coverage are described below.

Notes to the Financial Statements, Continued

June 30, 2024

Certificated Employees (Including Charter Schools)

The annual maximum is \$7,750 effective January 1, 2024. The District also provides \$1,200 for any eligible retiree waiving coverage provided the employee was on a waiver effective January 1, 2016 and remained on a waiver to retirement. Certificated charter employees are eligible for the \$1,200, regardless of current or future coverage status. Eligibility for retiree health coverage requires retirement under STRS or PERS on or after age 55 with at least 10 years of service (5 years for employees hired prior to October 1, 2007). Certificated staff that were not on waiver prior to January 1, 2016 cannot choose waiver coverage.

Classified Employees (Including Charter Schools)

For classified employees who were benefit eligible prior to 2008, and who retire with at least 10 years of continuous service, the last 5 of which must be benefit eligible service, shall be grandfathered to a District post-employment health care benefit contribution up to \$8,800 to be applied toward the monthly premium of the District group medical insurance program. The District also provides \$1,200 for any eligible retiree waiving coverage.

For those classified employees hired on or after 2008, and who retire with at least 10 years of continuous service, the last 10 of which are benefit eligible service, the District shall contribute up to \$8,800 to be applied toward the monthly premium of the District group medical insurance program. The District also provides \$1,200 for any eligible retiree waiving coverage.

Eligibility for retiree health coverage requires retirement under PERS or STRS on or after age 55 with at least 10 years of continuous service. The last 10 years (5 years for employees who had health benefits prior to 2008) must be benefit eligible service.

Non-Represented Employees

For non-represented employees who were benefit eligible prior to 2008 and who retire with at least 10 years of continuous service, the last 5 years of which must be benefit eligible service, shall receive an annual maximum of \$7,750 effective January 1, 2024, to be applied toward the monthly premium of the District group medical insurance. The District also provided \$1,200 for any eligible retiree waiving coverage.

For non-represented employees who were hired on or after 2008 and who retire with at least 10 years of continuous service, the last 10 years of which must be benefit eligible service, shall receive an annual maximum of \$7,750 effective January 1, 2024, to be applied toward the monthly premium of the District group medical insurance. The District also provided \$1,200 for any eligible retiree waiving coverage.

Eligibility for retiree health coverage requires retirement under PERS or STRS on or after age 55 with at least 10 years of service (5 years of service for non-represented certificated employees hired prior to October 1, 2007).

Board Representation

Management of the Plan are vested in the CalPERS Board, which consists of thirteen members. The Board is made up of:

Six Elected Members – Two elected by and from all CalPERS members. One elected by and from all active state members. One elected by and from all active CalPERS school members. One elected by and from all active CalPERS public agency members. Finally, one elected by and from retired members of CalPERS.

Three Appointed Members – Two appointed by the Governor consisting of an elected official of a local government and an official of a life insurer. One appointed jointly by the Speaker of the Assembly and the Senate Rules Committee.

Four Ex Officio Members – The State Treasurer, the State Controller, the Director of the California Department of Human Resources, and a Representative of the State Personnel Board.

Employees Covered by Benefit Terms

At measurement date, June 30, 2024, Plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	152
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	<u>3,245</u>
	<u><u>3,397</u></u>

Benefits Provided

In general, the District provides medical benefits to eligible retirees through age 65 up to an annual maximum. Effective in 2007, eligibility for retiree health benefits requires at least 10 years (5 years for certificated employees hired prior to October 1, 2007) of service and retirement under CalSTRS or CalPERS on or after age 55. Detailed plan provisions applicable to each employee group are notated above. The District participates in several partially experienced rated insurance products for its retiree medical coverage. The premiums billed for retiree medical coverage under age 65 are the same as those for active medical coverage resulting in a rate subsidy.

Contributions

The District makes contributions to CERBT to fund as much of the OPEB liability as determined feasible in current operating budget. Contributions are determined by management of the District based on budget implications. Plan members are not required to contribute to the plan.

B. Net OPEB Liability of the District and the Plan

The District’s net OPEB liability was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1, 2023.

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2023, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Fiscal Year	July 1 st to June 30 th
Measurement Date	June 30, 2024
Valuation Date	July 1, 2023
Funding Policy	Pay-as-you-go
Asset Return	6.00% per annum
Discount Rate	4.21% per annum
Inflation	2.75% per annum
Payroll Growth	2.80% per annum
Medical Trend Rates	8.00% decreasing to 4.50%

Discount Rate

The discount rate of 4.21% is a blended rate between the rate of return at 6.00% and the average of 3-20 year municipal bond rate indices: S&P Municipal Bond 20 Year High Grade Rate Index, Bond Buyer 20-Bond GO Index, and Fidelity GO AA 20 Year Bond Index.

The discount rate has increased from the June 30, 2023 discount rate of 4.13%.

Actuarial Cost Method

The actuarial cost method used to determine the allocation of the retiree health actuarial liability to the past (accrued), current and future periods is the Entry Age Normal (EAN) cost method. The EAN cost method is a projected benefit cost method which means the cost is based on the projected benefit expected to be paid at retirement.

The EAN normal cost equals the level annual amount of contribution from the employee’s date of hire (entry date) to their retirement date that is sufficient to fund the projected benefit. As required by GASB 75, the normal cost is calculated to remain level as a percentage of pay. The EAN actuarial accrued liability equals the present value of all future benefits for retired and current employees and their beneficiaries less the portion expected to be funded by future normal costs.

Actuarial Value of Assets

Any assets of the plan are valued on a market value basis.

Long-Term Expected Rate of Return

The long-term expected rate of return on OPEB plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major class included in the OPEB plan's target asset allocation as of June 30, 2024 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	49%	5.50%
Fixed Income	23%	2.35%
Treasury Inflation Protected Securities (TIPS)	5%	1.50%
Real Estate Investment Trusts	20%	3.65%
Commodities	3%	1.75%
Cash	0%	0.00%

Long-term expected rate of return is 6.00%.

Payables to the OPEB Plan

At June 30, 2024, the District did not have any payables to the OPEB plan outstanding.

Q. Risk Management

The District is exposed to risk of losses due to:

- Torts,
- Theft of, damage to, or destruction of assets,
- Business interruption,
- Errors or omissions,
- Job related illness or injuries to employees,
- Natural disasters,
- Other risks associated with public entity risk pools

Risk management is the process of managing the District's activities to minimize the adverse effects of these risks. The main element of risk management are risk control (to minimize the losses that strike an organization) and risk financing (to obtain finances to provide for or restore the economic damages of those losses). Risk financing techniques include risk retention, risk transfer to and from an insurer, and risk transfer to a non-insurer.

The District has implemented the risk financing technique of risk transfer to an insurer. The District has purchased property & liability insurance as well as workers compensation insurance to cover any losses resulting from the risks identified above.

There have been no significant changes in property and liability or workers compensation coverage during the current fiscal year.

Chula Vista Elementary School District

Notes to the Financial Statements, Continued
June 30, 2024

R. Participation in Joint Powers Authorities

The District is a member of three joint powers agreements (JPA) entities, the San Diego County Schools Risk Management (SDCSRM), the San Diego County Schools Fringe Benefits Consortium (SDCSFBC), and Self-Insured Schools of California (SISC) for the operation of a common risk management and insurance programs for property and liability coverage, workers compensation, and other employee benefits. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from coverage in the prior year.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. Audited financial statements are available from the respective entities.

S. Commitments and Contingencies

1. State and Federal Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

2. Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District as of June 30, 2024.

3. Construction Commitments

As of June 30, 2024, the District had the following commitments with respect to unfinished capital projects:

	<u>Commitment</u>	<u>Expected Date of Completion*</u>
Construction in Process:		
HVAC and Roof Replacement	\$ 1,300,000	August 2025

Notes to Required Supplementary Information

For the Year Ended June 30, 2024

A. Budgetary Comparison Schedule – General Fund

As described in Note A to these financial statements, for purposes of reporting in conformity with GASB Statement No. 54, the District's Pupil Transportation Fund (Fund 15) was included with the General Fund as the fund did not meet the definition of a special revenue fund under GASB Statement No. 54. The Budgetary Comparison Schedule included in the Required Supplementary Information is based on the legally adopted budget for the General Fund only. Below is a table reconciling between the General Fund as reported in the Basic Financial Statements and the General Fund as reported in the Budgetary Comparison Schedule.

General Fund - Basic Financial Statements Ending Fund Balance	\$ 170,093,253
Fund 15 Fund Balance	-
General Fund - Budgetary Comparison Schedule Ending Fund Balance	<u>\$ 170,093,253</u>
General Fund - Basic Financial Statements Net Change in Fund Balance	\$ 19,355,656
Fund 15 Net Change in Fund Balance	231,266
General Fund - Budgetary Comparison Schedule Net Change in Fund Balance	<u>\$ 19,586,922</u>

B. Excess of Expenditures Over Appropriations

As of June 30, 2024, the District's expenditures which exceeded appropriations in the following categories:

<u>Appropriations Category</u>	<u>Excess Expenditures</u>	<u>Reason for Excess Expenditures</u>
General Fund:		
Other Outgo	\$ 183,698	The District underestimated the costs of transfers to county offices of education.
Transfers of Indirect Costs	5,686	The District underestimated the indirect costs charged to other funds.
Debt Service	122,494	The District did not budget for lease payments as debt service.
Charter School Fund:		
Debt Service	1,117,458	The District did not budget for lease payments as debt service.

Amounts in excess of appropriations were not considered a violation of any laws, regulations, contracts or grant agreements and did not have a direct or material effect on the financial statements.

C. Schedule of District's Proportionate Share – CalSTRS

1. Benefit Changes: Changes in benefits reflect changes enacted by law for benefits offered and eligibility criteria.
2. Changes in Assumptions: Assumptions used in determining the total pension liability of the CalSTRS Plan changed due to actuarial experience studies performed by CalSTRS.

D. Schedule of District's Contributions – CalSTRS

The total pension liability for California State Teachers' Retirement System (CalSTRS) for measurement date June 30, 2023, was determined with a valuation completed June 30, 2022 (released in May 2023). In determining the total pension liability, the financial reporting actuarial valuation used the following actuarial methods and assumptions:

(1) – Net of investment expenses but gross of administrative expenses.

CalSTRS uses a generational mortality assumption, which involves the use of base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among CalSTRS members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table issued by the Society of Actuaries.

Additional information can be obtained by reviewing the CalSTRS Actuarial Experience Study on the CalSTRS website.

Schedule of Average Daily Attendance, Continued

Year Ended June 30, 2024

N/A – There were no audit findings which resulted in revisions to average daily attendance (ADA) for any of the charter schools included in this report.

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts and charter schools. This schedule provides information regarding the attendance of students by grade span and adjustments to the attendance as a result of an audit finding when applicable.

Notes:

1. AU-C §725.05 requires the following conditions be met to provide an opinion on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole:
 - a) The supplementary information was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements.
 - b) The supplementary information relates to the same period as the financial statements.
 - c) The auditor issued an audit report on the financial statements that contained neither an adverse opinion nor a disclaimer of opinion.
 - d) The supplementary information will accompany the audited financial statements or such audited financial statements will be made readily available by the District.

Three of the above columns are not related to the same period as the financial statements and as such we do not provide an opinion on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole. Additionally, the analysis presented utilizes information from periods outside the period of the financial statements and as such we do not provide an opinion on whether the analysis is fairly stated, in all material respects, to the financial statements as a whole. The information has been presented for analysis only and has not been audited.

2. Available reserves consist of all unassigned fund balances contained within the general fund.
3. Long term debt consists of general obligation bonds, certificates of participation, and leases payable.
4. Average daily attendance (ADA) at P2 consists of ADA generated by the District as well as ADA generated by the District's charter schools.
5. As described in Note A to these financial statements, for purposes of reporting in conformity with GASB Statement No. 54, the District's Pupil Transportation Fund (Fund 15) does not meet the definition of a special revenue fund and was therefore combined with the General Fund for financial statement reporting. The above Schedule of Financial Trends and Analysis contains only the financial information of the General Fund.

Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2024

Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with requirements of 2 CFR §200.502 *Basis for Determining Federal Awards Expended* and 2CFR §200.510(b) *Schedule of Expenditures of Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

Summary of Significant Accounting Policies

The expenditures reported on the schedule are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the schedule, if any, represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Indirect Cost Rate

Indirect costs were calculated in accordance with 2 CFR §200.412 *Direct and Indirect Costs*. The District used an indirect cost rate of 4.38% based on the rate approved by the California Department of Education for each program which did not have a pre-defined allowable indirect cost rate. The District did not elect to use the 10% de minimis cost rate as covered in 2 CFR §200.414 *Indirect Costs*.

Schoolwide Program

The District operates “schoolwide programs” at all school sites. Using federal funding, schoolwide programs are designed to upgrade an entire educational program within a school for all students, rather than limiting services to certain targeted students. The following federal program amounts were expended by the District in its schoolwide programs:

Program	AL #	Amount Expended
Title I	84.010	\$ 7,834,570

Independent Auditor's Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial
Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Education
Chula Vista Elementary School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Chula Vista Elementary School District (the District), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 13, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses or significant deficiencies. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Chula Vista Elementary School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2024. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 *US Code of Federal Regulations Part 200, Uniform Administrative requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Independent Auditor's Report on State Compliance and on
Internal Control over State Compliance

To the Board of Education
Chula Vista Elementary School District

Report on Compliance for Applicable State Programs

Opinion on Each Applicable State Program

We have audited the Chula Vista Elementary School District's (the District) compliance with the requirements specified in the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, prescribed in Title 5, *California Code of Regulations*, Section 19810 identified below for the year ended June 30, 2024.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above on each of its applicable state programs for the year ended June 30, 2024.

Basis for Opinion on Each Applicable State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, prescribed in Title 5, *California Code of Regulations*, Section 19810 (the Audit Guide). Our responsibilities under those standards and the Audit Guide are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each applicable state program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Audit Guide will always detect material noncompliance when it exists.

The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each applicable state program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Audit Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over state compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Audit Guide, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.
- Select and test transactions and records to determine the District's compliance with the state laws and regulations applicable to the following programs:

We did not perform the tests for independent study because the ADA reported was below the level which required testing.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, prescribed in Title 5, *California Code of Regulations*, Section 19810 and which are described in the accompanying schedule of findings and questioned costs as items 2024-001 and 2024-002. Our opinion on each applicable state program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over State Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over state compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over state compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, prescribed in Title 5, *California Code of Regulations*, Section 19810. Criteria or Specific Requirement

California Education Code §44630(a) establishes a requirement that attendance included in the calculation of ADA be generated by pupils while engaged in educational activities required of the pupils while under the immediate supervision and control of an employee of the District who possess a valid certification document, registered as required by law.

California Education Code §80025.3 authorizes an individual holding a substitute credential to fill in as a day-to-day substitute teacher in any classroom for a maximum of 30 days with a single teacher during the school year.

Chula Vista Elementary School District

Schedule of Findings and Questioned Costs, Continued

Year Ended June 30, 2024

Condition

In our review of teacher credentials and assignments we identified one teacher at Chula Vista Hills Elementary School that was assigned to teach a transitional kindergarten class for the majority of the school year without a valid teaching credential. The employee held a substitute credential which authorizes the teacher to fill in as a day-to-day substitute teacher in any classroom for a maximum of 30 days with a single teacher during the school year (Education Code §80025.3).

Cause

Due to a continuing shortage of qualified educators, the District was not able to find a fully qualified educator to cover services for this class during the 2023-24 school year. The District allowed the teacher to fulfill the teaching assignment with a substitute credential.

Effect

The District is out of compliance with teacher credential requirements under Education Code §80025.3. Additionally, the District claimed ADA for a transitional kindergarten class that did not meet requirements for ADA under Education Code §44630(a).

Potential Fiscal Impact

Under Education Code §45037(b) the District may be required to pay a penalty of \$180,427 calculated as follows:

Number of days taught by teacher without valid credential	163
Less: 30 Day Emergency Substitute Credential	<u>(30)</u>
Net days assigned without valid credential	<u>133</u>
 Number of days taught by all teachers in the District	 <u>196,493</u>
 Ratio of invalid credential days to valid credential days	 <u>0.000676869</u>
 District's LCFF Entitlement for 2023-24	 <u>\$ 266,561,009</u>
 Teacher Credential Penalty	 <u><u>\$ 180,427</u></u>

Additionally the District may have to repay apportionment of \$194,460 for ADA claimed in a class that was not under the immediate supervision and control of an employee of the District possessing a valid certification document.

<u>Grade Span</u>	<u>ADA Questioned at P2</u>	<u>ADA Questioned at Annual</u>	<u>Derived Value of ADA</u>	<u>Potential Financial Impact</u>
TK/K-3	15.65	16.75	\$ 12,425.55	\$ 194,460

Chula Vista Elementary School District

Schedule of Findings and Questioned Costs, Continued

Year Ended June 30, 2024

Context

We tested fifty three teachers assigned to supervise students while engaged in educational activities at the District. One teacher tested did not have a valid credential.

Recommendation

We recommend that the District establish procedures to only hire full-time teaching positions based on fully valid credentials. Substitutes should be monitored to ensure compliance with the limitation of no more than thirty days for one teacher.

Finding Number: 2024-002
Repeat Finding: No
Description: Immunizations
Type of Finding: State Compliance (40000)

Criteria or Specific Requirement

Health and Safety Code §120325-120375 require certain immunizations in order to attend public elementary and secondary schools. Medical exemptions are required to be issued through the California Immunization Registry for Medical Exemption.

Condition

In our review of immunizations we identified one student in kindergarten who did not have appropriate immunization but was permitted to attend and for whom ADA was claimed by the District. In further review, the school site had a note from a physician indicating that the student was not able to get the immunizations until treatment for cancer was completed. The school site accepted the physicians note without obtaining the medical exemption from the California Immunization Registry for Medical Exemptions as required to be considered a valid medical exemption.

Cause

The school did not realize medical exemptions were required to be issued through the California Immunization Registry for Medical Exemptions. The School was acting in good faith to serve a student who had documentation of an illness that would have qualified the student for a valid medical exemption.

Effect

The student was not eligible for ADA without a valid medical exemption issued through the California Immunization Registry for Medical Exemption.

Potential Fiscal Impact

Loss of ADA for the student results in potential fiscal impact of \$12,426 calculated as follows:

<u>Grade Span</u>	<u>ADA Questioned at P2</u>	<u>ADA Questioned at Annual</u>	<u>Derived Value of ADA</u>	<u>Potential Financial Impact</u>
TK/K-3	1	1	\$ 12,425.55	\$ 12,426

Recommendation

Provide training to all school sites to the requirements for medical exemptions to ensure they are guiding parents to obtain medical exemptions through the California Immunization Registry for Medical Exemption.

Planned Corrective Action: 30 Day Emergency Substitute Credential restrictions have been communicated with staff responsible for placing substitute teachers. The Substitute Desk will not place a substitute in a long term assignment more than 30 days unless the substitute has a valid multiple subject credential. When school staff request to extend a substitute filling a vacancy, the vacancy will not be extended beyond 30 days unless the substitute has a valid multiple subject credential. If the substitute has only a 30 Day Emergency Credential, then the vacancy will be opened up to the substitute pool. At each payroll cycle, the substitute payroll report will be reviewed to ensure that substitutes with more than 30 days have a valid multiple subject credential.
