

We are all created unique and special.

He made us all perfect having our own uniqueness.

1 Peter 4:10-11 "God has given each of you a gift from his great variety of spiritual gifts. Use them well to serve one another."

Dear Parents/Carers,

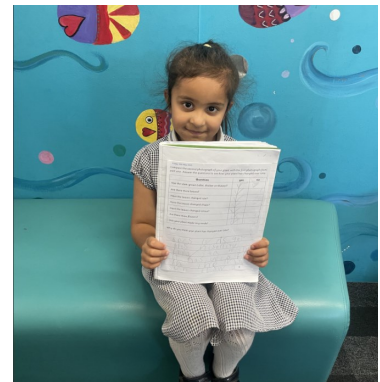

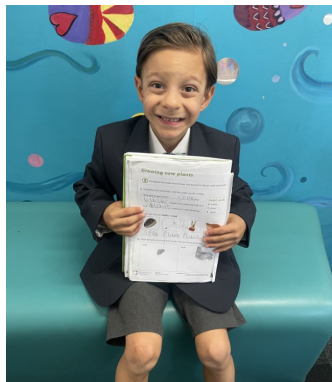

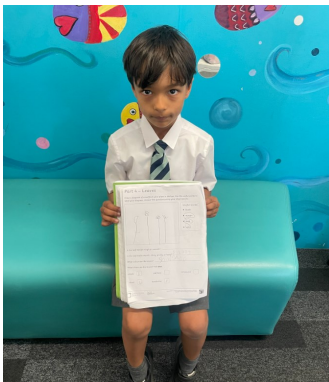

This week has been a little quiet at school as our year 3 and 4 children headed off on their residential trip to Grittleton House. I have enjoyed keeping up with what they have been up to and it looks like they have had a fabulous time. We have had a brilliant week of school attendance and have had 4 days this week where we have achieved 100% attendance!

Wishing you a lovely weekend, Emma Stanford-Smith (Headteacher)

LEARNING SNAPSHOTS

Year 1 have been enjoying their Plant Parts Science topic this term. The children have all picked a plant from the garden and have observed it's parts and all the parts of it's leaves. Today, they observed how their plant has changed from the beginning of the topic to now.

Ask me: What are the parts of a plant called?

Year 2 have been learning to tell the time on an analogue clock and have already wowed us with their ability read o'clock and half past. In topic the children have looked at royal portraits in detail and have then created their own by striking a regal pose and creating their own royal outfits. In English, the children have been taking on different roles to interview characters from The Egg Box Dragon story.

Ask me: Which hand is the minute hand and which hand is the hour hand?

Year 3 and 4 Home

The children have had a great few days at school and have enjoyed the timetable of activities planned for them. They have enjoyed cooking activities, an art history workshop, PE and 3D printing. Thank you to Mrs Marotte who has made the time so fun for them.

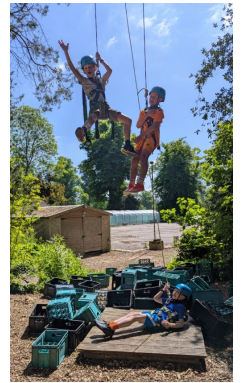

Ask Me: What was my favourite activity?

Year 3 and 4 Away

The children have enjoyed a fabulous three days away and have had the perfect weather to enjoy all of their activities. They have taken part in a range of activities including archery, crate stack challenge, fire lighting and den building. In the evenings they enjoyed a night hike and a disco! The children have all been superstars and will need a weekend of rest after a few busy days. We are pleased to have such positive feedback about our use of a WhatsApp broadcast to communicate with parents and share photos throughout the trip. I'm sure you will join me in thanking all of the staff who have volunteered their own time to make the trip a success!

Ask Me: What was my favourite activity?

Reception have continued their Animal Safari learning, discussing animals you might want to have as a pet and those you wouldn't and why. We have spent time exploring the words 'herbivore' and 'carnivore' and then sorting a selection of animals into each. The end of the week has seen the children create and then role play with an animal mask they have made with paper plates.

Ask me: What does a Herbivore eat? What does a Carnivore eat?

Walk to School Week

Next week we will be taking part in 'Walk to School Week'

Walk to school week is a nationally recognised sustainable travel week. The aim is to get to school without using cars as much as possible. Children can walk, scoot or cycle any way they can. Classes will keep a record of who has walked, scooted or cycled to School each day. The school is taking part because of the many benefits we believe it will have on the School community. It is one of the easiest ways for children to get exercise each day and it is also great for mental health. It also has a positive impact on the environment and improves air quality.

We recognise that not everyone can walk to school due to time and travel restrictions but maybe you could drive and park a little further from school so you can walk some of the way.

Have a great walk to school week!
