FROM THE PRINCIPAL'S DESK

MCMS Families,
It is hard to believe that we are down to our final days of a very successful 2024-2025 school year. Our students have grown exponentially this year, and we have loved seeing them grow. It has been fun hearing all the exciting stories about the summer adventures that await them.
As we get closer to the end of the school year, our students and staff will continue to work hard as we approach the finish line. We will maintain our expectations of responsibility, accountability, and kindness until the final bell on the last day of school Thursday. Your encouragement and reinforcement to uphold these expectations is crucial to our success. As always, we appreciate your support!

Athletics/Activities

Summer Activities are being posted to the [MCMS Website](). Check out the information!

If you need to pick up your child for an appointment, please be sure to plan ahead and arrive 5-10 minutes early. Lockers take extra time!

Where Teens Can Just Be

A low-pressure group for neurodivergent teens who want connection without expectations.

Weekly connection for teens with ADHD, dyslexia, autism, anxiety, or just feeling different.

At Summit Ranch, we've created something different, because not every teen wants therapy, and not every space feels safe enough to be real.

This 8-week group is designed for neurodivergent teens who are navigating school stress, social exhaustion, or just feeling out of step with the world around them. Here, they can connect, create, move, and breathe—no fixing, no judgment.

Parenting Skills Class

An nine-week class to make you a more confident, empowered parent

This class, created by parents and mental health professionals, is designed to empower caregivers to feel more confident in their parenting journey. Parenting can be a mix of joy, challenges, and exhaustion, and we're here to help. In this class, you'll gain practical skills and effective strategies to support your children and strengthen your family as a whole.

Are you navigating the complexities of parenting strong-willed children or children facing challenges such as:

- Managing screen time and behavioral outbursts
- Defiance or refusal to help with tasks at home
- Feeling disconnected from your child
- Screaming, profanity, or physical aggression
- Impulsive or unsafe behaviors
- Concerns about drug or alcohol use

Join us for a 9-week class to connect with fellow caregivers going through similar experiences and creating a safe space to learn ways to better connect with your child and become confident in areas like parent-child attachment, establishing expectations, parent burnout and self-care, managing crises, and much more.

Class Information:

In-Person Option

Sessions will be held **In-Person** on Mondays from **6 - 7:30 p.m** starting **June 2**

Virtual Option:
