Northwest HS – Renovations & Additions

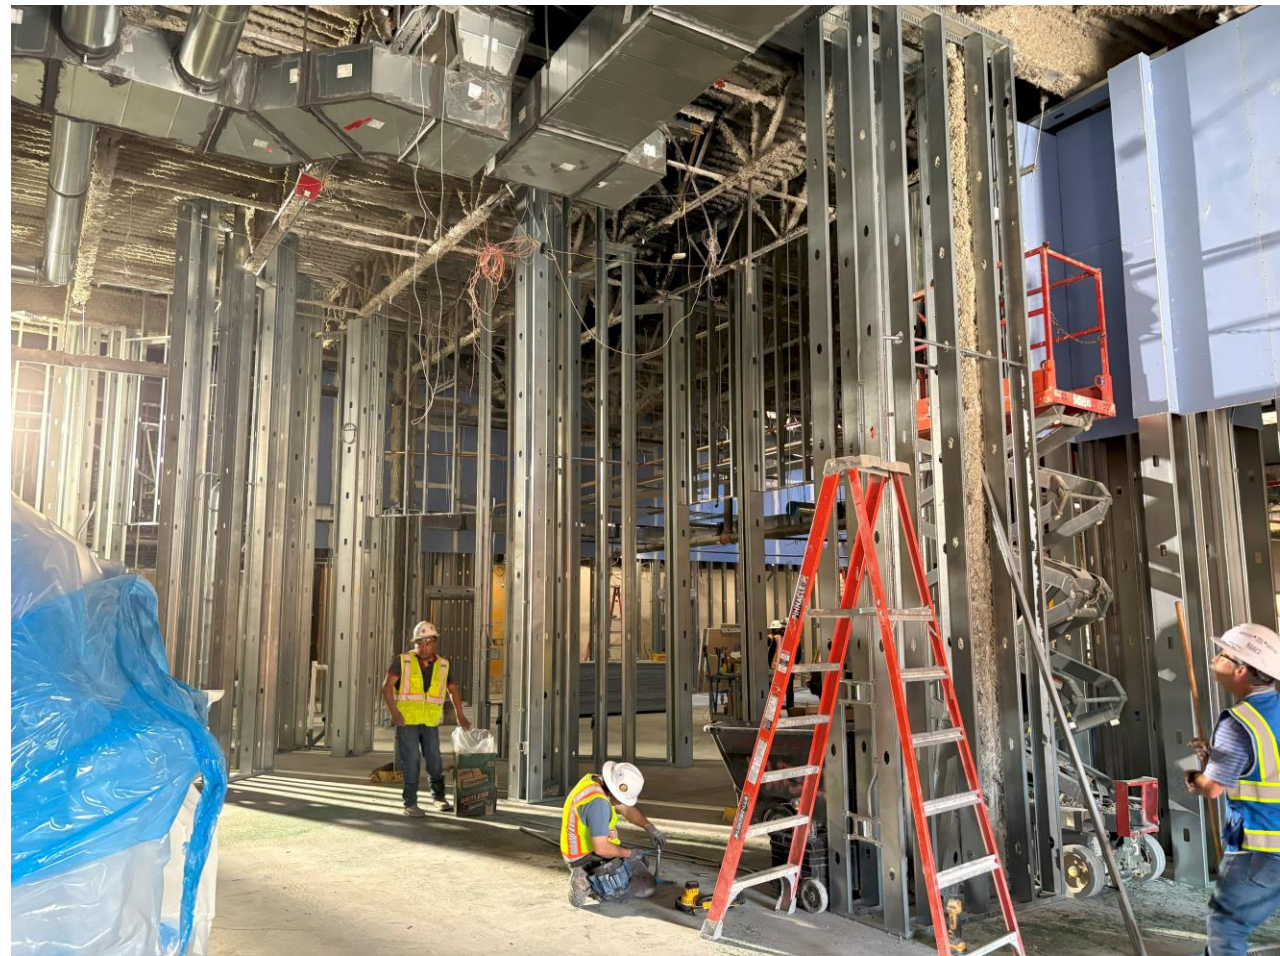

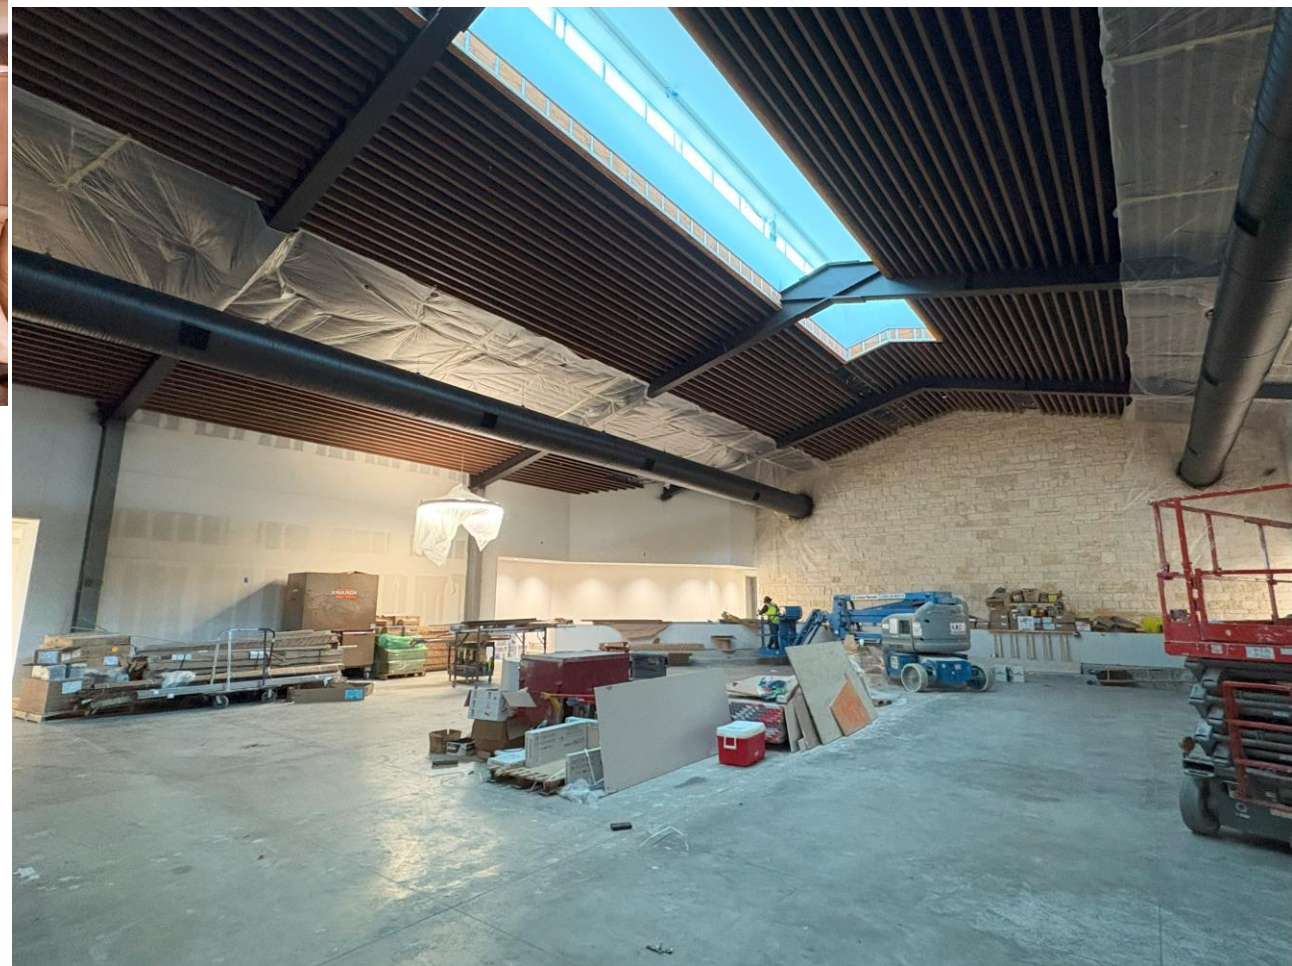

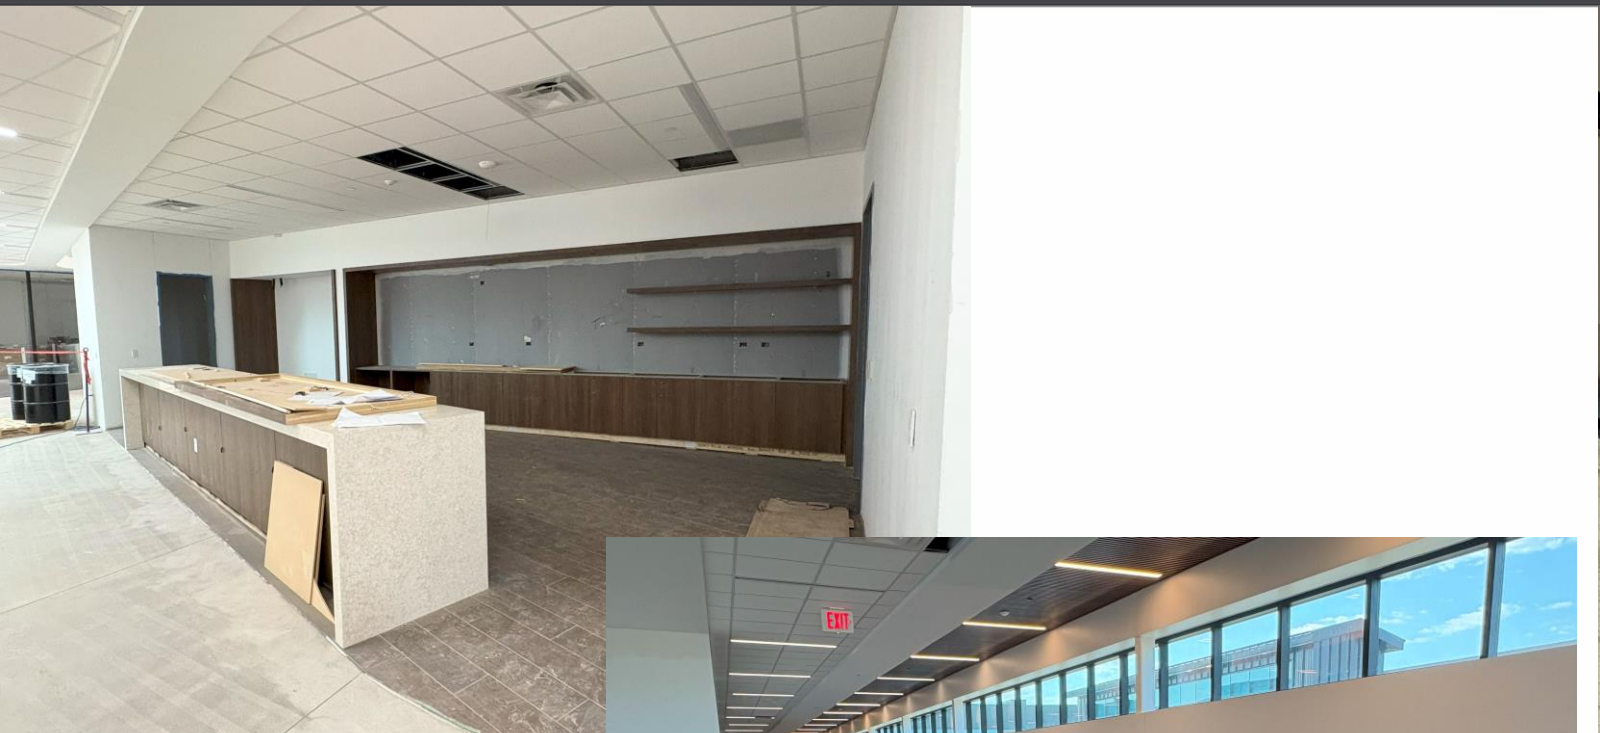

New NISD Administration Building

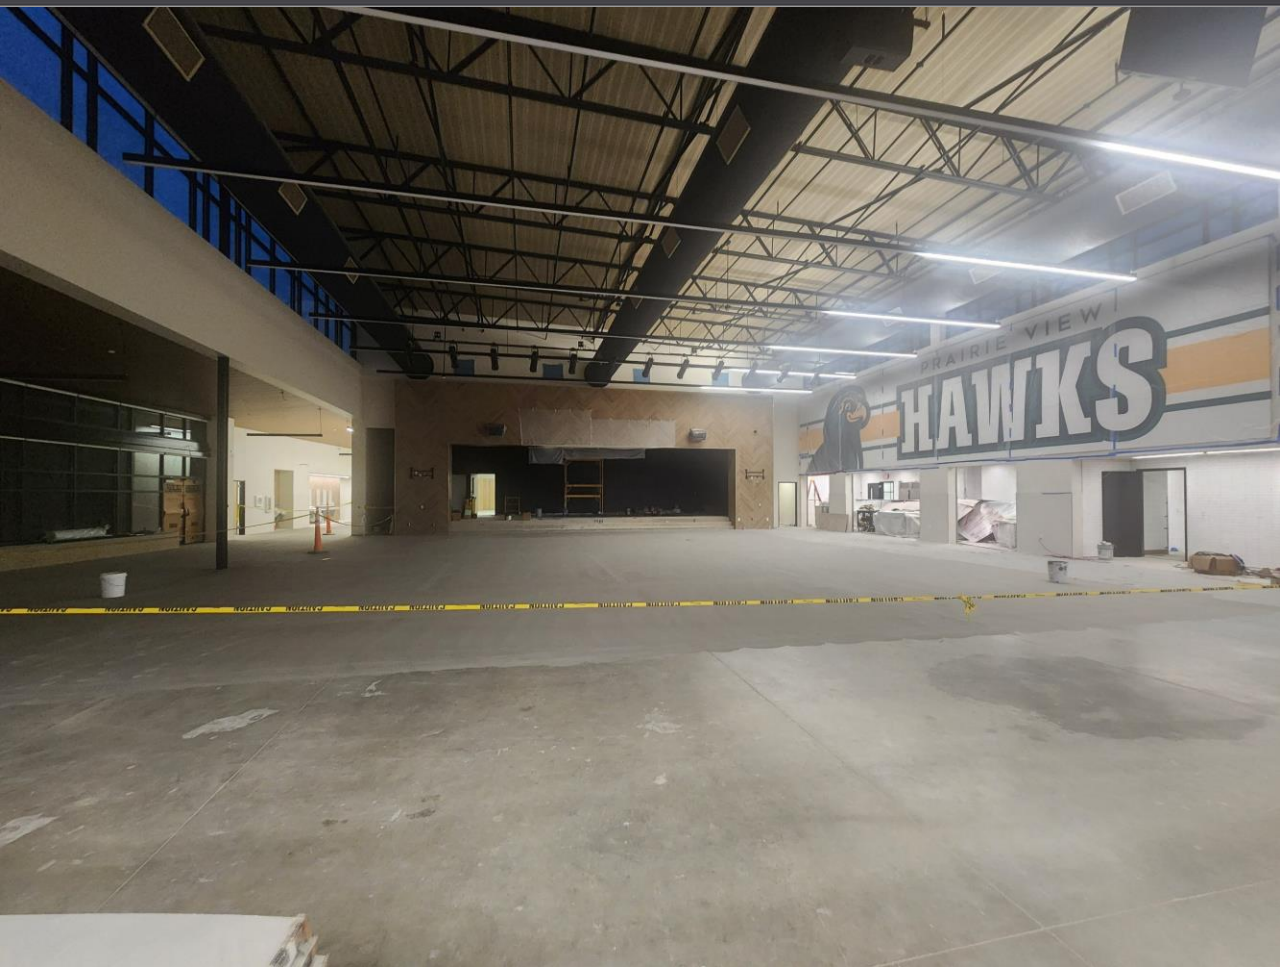

Prairie View Replacement ES

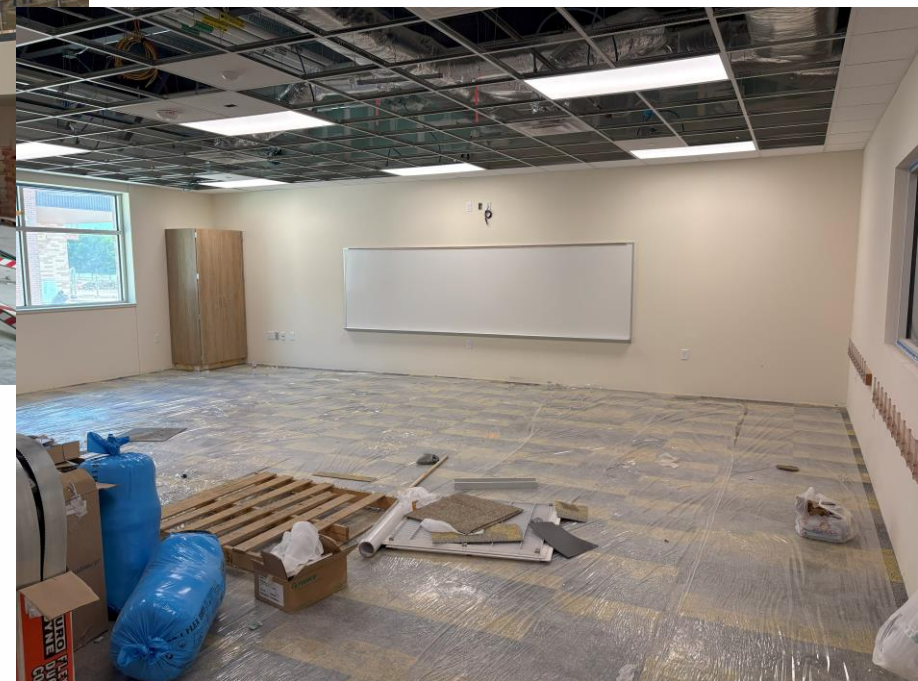

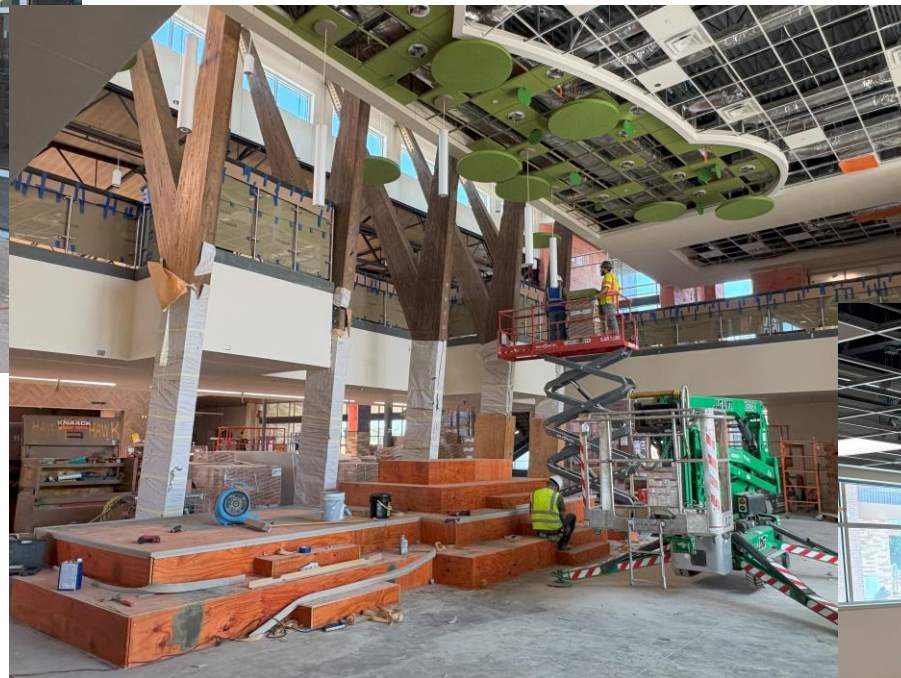

Justin Replacement ES

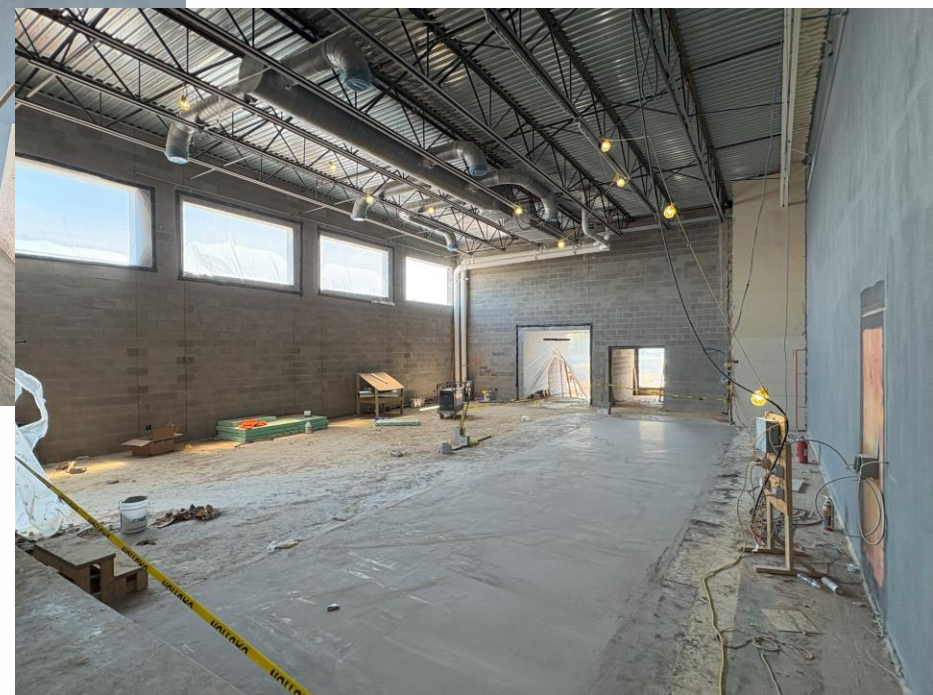

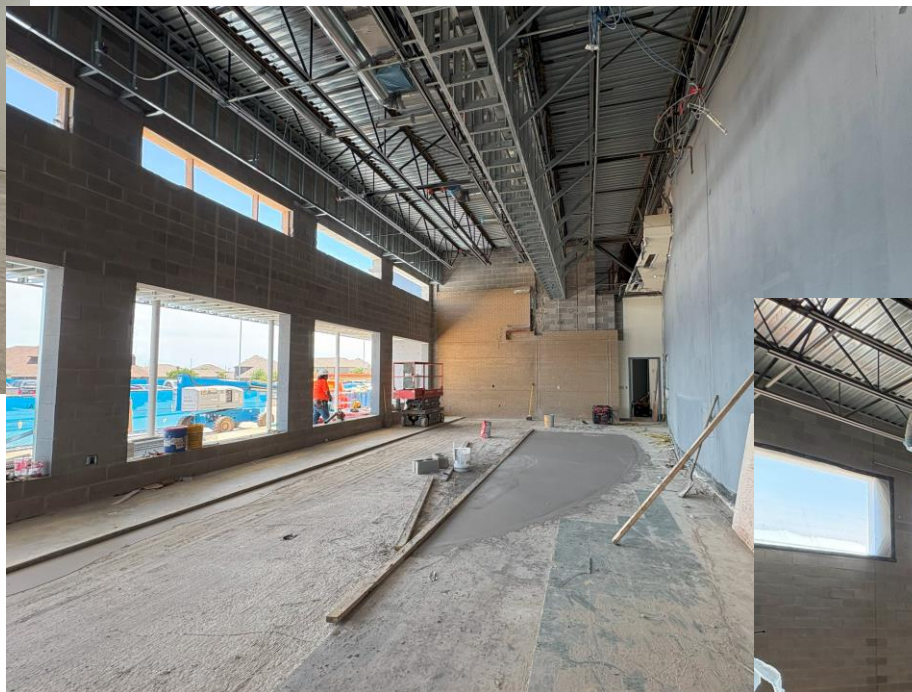

Nance ES Additions & Renovations

NISD Distribution Center

Barksdale Middle School #8

High School #4

Early Childhood Center #1

Romer Elementary School #24

An aerial photograph of a large-scale construction project for a school building. The main structure is a long, multi-winged building with a dark grey exterior and a flat roof. Some sections are under construction, showing steel framing and concrete walls. A large red crane is positioned near the center of the building. The site is surrounded by dirt roads, parking lots filled with cars and trucks, and various construction materials like steel beams and concrete blocks. In the background, there are other school buildings, a baseball field, and a residential area under a clear blue sky.
