THE CHELSEA
CENTER
EXPERIENTIAL LEARNING

Who are we?

The Chelsea Detrick Experiential Learning Center is embedded in Webster Groves High School, and works to match students with experiences aligning with careers they want to explore, passion areas of interest, and service learning opportunities. We ask students: "What lights you up inside?"

Our elective-credit classes, diverse array of opportunities, and personal assistance are available to ALL students at WGHS. Chelsea Center staff supports students as they endeavor to dream, do, and grow!

What is experiential learning?

Experiential education is hands-on-learning often occurring outside of the traditional classroom, and works in a cycle of carefully chosen experiences supported by reflection, analysis, and experimentation. It's not just the *thing*. It's the *thinking* about the thing. We provide a structure that encourages students to take initiative, make decisions, and be accountable for the results through actively wondering, designing, tinkering, collaborating, adapting, and communicating their growth.
