Opportunities to engage in the relocation process

OUR VISION

We envision sending OUR STUDENTS into the world with the CREATIVE CONFIDENCE to solve meaningful problems with EMPATHETIC and INNOVATIVE responses. They will BE PREPARED with the SKILLS, MINDSETS, and DISPOSITIONS necessary to successfully thrive in the FUTURE.

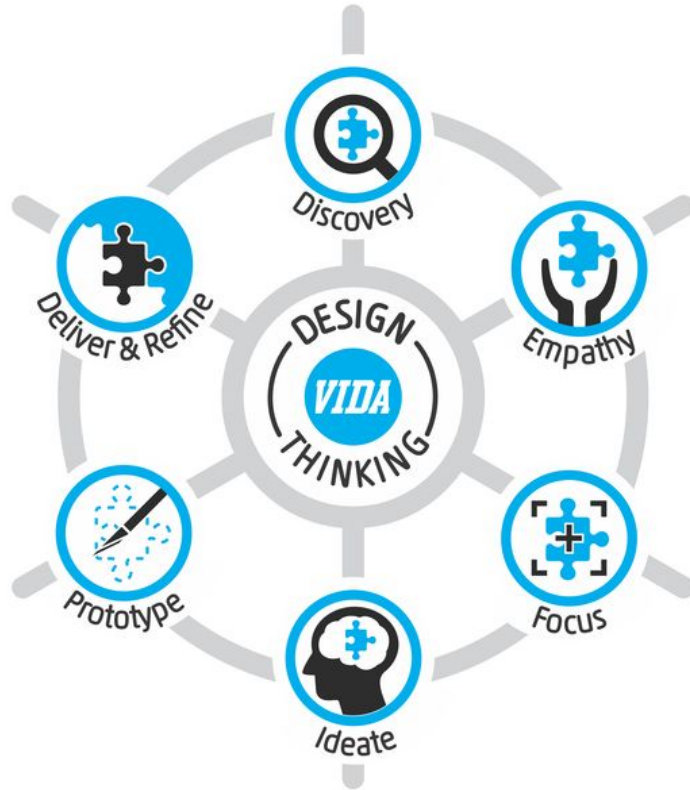

OUR MISSION

We dare to IGNITE THE CREATIVE GENIUS OF EACH STUDENT as they discover their unique STRENGTHS, hone their INTERESTS, and understand their VALUE. We utilize the DESIGN THINKING PROCESS as a common framework to SOLVE PROBLEMS across all disciplines.
