September 13, 2024

Dear Parents and Guardians,

The most recent strategic plan approved by the Somerset Hills Board of Education included the completion of a feasibility study regarding the installation of LED lights on Olcott Field at Bernards High School. That study was conducted throughout the prior calendar year and delivered to the Board in July. You can reference the report on the District website by clicking District, then Superintendent, where you will find documents in the [Olcott Field Lights Focus Group folder](#).

To continue to consider the installation of LED lights at Bernards High School, the Board of Education has scheduled a meeting on Monday, September 16, 2024, in the Community Room at Bernards High School.

The Board will open the meeting in public at 6:00 pm and will then go into closed/executive session to receive legal/attorney-client advice. At 7:00 pm, the Board will return to public session for the presentation by the Board's architects and technical consultants concerning the project and anticipated next steps related to the same.

The public session will include an opportunity for members of the public to address the Board.

The Board may elect to take formal action regarding the lights.

Sincerely,

Brian Brotschul, Ed.D.

Superintendent of Schools
