OWEN J. ROBERTS STUDENT PARKING INFORMATION

Students should be aware of the following parking procedures for the 2022/23 school year.

The permits were manufactured to be installed on the **OUTSIDE** of the vehicle's window. Because the permits need to withstand the outdoor elements, they are made with a stronger adhesive. It is recommended that they be placed only on non-painted surfaces. District policy requires they be place on the lower corner of the rear, driver's side window as indicated here.

Place Permit Here

This year, all student permits have a number displayed on the permit. This number corresponds to the parking lot that you are assigned to. During school hours, the permit is **only valid for the assigned lot.** All parking lots have signage indicating the number of the parking lot. You must park in the assigned parking lot or you may be ticketed and lose your parking privileges.
