Dear OJR Families

We want to thank you for registering your child for the Owen J. Roberts High School Behind the Wheel Program! We appreciate your commitment to ensuring your child receives comprehensive driver education.

As we move forward in the program, we want to provide you with some essential details regarding the next steps. First and foremost, we encourage you to actively engage in the Behind the Wheel experience with your child. Before they are eligible to drive with our instructors for the mandatory 6-hour session, we recommend completing the minimum of 65 hours of supervised driving practice.

This practice time is invaluable for your child's development as a safe and confident driver. It allows them to refine their skills in various traffic conditions, gain experience in different environments, and build a strong foundation for responsible and defensive driving.

The first contact from our end will take place around the time of your child's test eligibility date. At this point, we will provide you with all the necessary details for scheduling, instructor assignments, and any additional information relevant to the program. Please ensure that you are available and attentive to communication through your preferred channels, as we will reach out via [email/phone] with the relevant information.

Thank you for your cooperation and dedication to the safety and education of your child. We look forward to working together to make this Behind the Wheel experience positive and enriching.

Best Regards,

Owen J. Roberts High School Driving Instructors
