INDEPENDENT AUDITOR'S REPORT

To the Members of the School Board
Brookline School District
Brookline, New Hampshire

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Brookline School District, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Brookline School District, as of June 30, 2024, and the respective changes in financial position thereof, and the budgetary comparison for each major fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Brookline School District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a

guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with governance regarding, among other matters, the planned scope and timing of the audit, any significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and pension and OPEB schedules on pages 4-12 and 41-45 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Brookline School District's basic financial statements. The combining nonmajor and individual general fund schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor and individual general fund schedules are fairly stated in all material respects, in relation to the basic financial statements as a whole.

**BROOKLINE SCHOOL DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
FISCAL YEAR ENDING JUNE 30, 2024**

This section of the Brookline School District annual financial report presents our discussion and analysis of the district's financial performance during the fiscal year that ended June 30, 2024. Responsibility for the accuracy of the data, and the completeness and fairness of this presentation (including all disclosures) rests with management. To the best of our knowledge and belief, the data contained herein is accurate in all material performance as a whole. With this in mind, please also refer to the district's financial statements, which immediately follow this section. The MDA is an element of required supplementary information specified in the Governmental Accounting Standards Board (GASB) Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued in June 1999.

The District administration is responsible for establishing an accounting and internal control structure designed to ensure that the physical, data, informational, intellectual, and human resource assets of the District are protected from loss, theft and misuse, and to ensure that adequate accounting information is maintained and reported in conformity with generally accepted accounting principles (GAAP). Management also strives to ensure these assets are put to good and effective use. The internal control structure is designed to provide reasonable assurance that these objectives are attained.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the district:

1. The first two basic financial statements provide both short-term and long-term information about the district's overall financial status.
2. The remaining basic financial statements are fund financial statements that focus on individual parts of the district, reporting the district's operations in more detail than the district-wide statements. The basic financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The basic financial statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the district's budget for the year. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

DISTRICT-WIDE STATEMENTS

The district-wide statements report information about the district as a whole. The statement of net position includes all of the district's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. Net position – the difference between the district's assets and liabilities – is one way to measure the

**BROOKLINE SCHOOL DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
FISCAL YEAR ENDING JUNE 30, 2024**

district's financial health or position. The district-wide statements present an aggregate view of the finances of the school district by answering the question, "How did the school district do financially during the 2023-24 school year?" These statements report all assets and liabilities using the accrual basis of accounting used by most private-sector enterprises. The accrual basis takes into account all of the district's current-year revenues and expenses regardless of when they were paid or received.

In the district-wide financial statements the district's activities are listed as governmental activities, which includes most of the district's basic service, such as regular and special education, transportation, and administration. Property taxes and state revenue finance most of the activities.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the district's most significant funds – not the district as a whole. Funds are accounting devices the district uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by state law and by bond covenants. The district establishes other funds to control and manage money for particular purposes (like repaying long-term debts) or to show that it is properly using certain revenues (like federal grants).

The district has two types of funds:

- **Governmental funds** – Most of the district's basic services are included in governmental funds, which generally focus on (1) how cash (and other financial assets that can be readily converted to cash) flows in and out and (2) the balances left at year end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the district's programs. This information does not encompass the additional long-term focus of the district-wide statements. We provide additional information with the governmental funds statements that explain the relationship (or differences) between them. An annual appropriation budget is adopted for governmental funds. A budgetary comparison has been provided for the General and Grant funds to demonstrate compliance with this budget.
- **Fiduciary Funds** – The district is the trustee, or fiduciary, for assets that belong to others, such as the student activities funds. The district is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the district's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in the fiduciary net position. These activities are not included in the district-wide financial statements because the district cannot use these assets to finance its operations.

Revenues:

As a total, revenue received was \$1,588,227 higher in Fiscal Year 2024 than in Fiscal Year 2023. Details on the major revenue sources are listed below, with the corresponding increases or decreases from prior year.

Increases in revenue from FY 2023 to FY 2024

- Special Education aid (+ \$146K)
 - This is state aid based on approved expenses for special education students after the district pays the first \$55,000 per student. The revenue is received the year after the expenses are incurred.
- Local Property Tax Assessments (+ \$1,532,415)
 - The assessment revenue is based on what the district approves at its annual meeting
- Medicaid (+ \$ 8K)
 - These are federal funds, coming from the state of NH, for reimbursable costs to Medicaid approved students.
- Adequacy Aid grant (+ \$ 67K)
 - Adequacy Aid is a state aid program, and is based on the average daily membership (ADM) of resident students.

Decreases in revenue from FY 2023 to FY 2024

- Food Service Revenue (- \$1K)
 - Annual state matching funds, and State of NH DOE reimbursements. This is offset by the food service revenue from cafeteria sales.
- Grants (including Title II, ESSER II and ESSER III, and IDEA) (- \$ 65K)
 - Title II is a Dept. of Education grant program that provides supplemental funding to help support effective instruction.
 - ESSER = Elementary and Secondary School Emergency Relief Program.
 - IDEA = Individuals with Disabilities Education Act. These are federal funds based on the number of special education students.
- New Hampshire Retirement System (- \$54K)
 - Legislation enacted in 2022 (HB 1221) required the State to reimburse 7.5% of local employer contributions made in fiscal year 2022. We received this in FY23, but nothing in FY24.
- Tuition (- \$ 15K)
 - Non-resident students paying for tuition, as well as Preschool payments.

**BROOKLINE SCHOOL DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
FISCAL YEAR ENDING JUNE 30, 2024**

Expenditures:

As a total, expenditures were \$779,388 higher in FY 2024 than in FY 2023.

INCREASED EXPENSES

- Special Education legal services
- Contracted Services for speech and language, and occupational therapy
- Special Ed Transportation
- Contracted staffing for regular and Special Education positions
- Health and Dental due to higher rates and changes in enrollment
- Salary increases and corresponding benefits (taxes and retirement)

FISCAL YEAR ENDING JUNE 30, 2024**

Revenue recognized by the Brookline School District's general fund amounted to \$110,006 more than was budgeted, as detailed in the chart above. The primary increase in general fund revenue came from the following sources:

- Tuition, where the district received \$4500 more than budget.
- Other Local Revenue was increased by interest income of \$31K, and catastrophic aid of \$69K.

An explanation of what comprises local, state, and federal revenue is the following:

- "Other Local" revenue includes vocational education revenue, impact fees, interest, and non-resident tuition.
- "State" revenue includes the adequacy grant, building aid, impact fees, and special education aid.
- "Federal" revenue includes Medicaid funds and grants.

** All revenue sources are explained in greater detail on page 7.

Expenditures recognized by the Brookline School District's general fund amounted to \$271,836 less than was budgeted, as detailed in the chart above. Areas which contributed to these savings are as follows:

- Savings in staff positions
- Savings in professional development
- Savings in facilities accounts – heating oil

Break-down of Costs

The district's expenses are predominately salaries and benefits which are illustrated below. "Other" expenses account for contracted services, transportation, operation & maintenance of plant, debt service, and general operational materials. The disbursement of cost has slightly varied from the prior fiscal year (FY23) expenditures (45% salary, 31% other, 24% benefits) with a 2% decrease in benefits and a 2% increase in other.

Capital Assets

The Brookline School District's investment in capital assets for its governmental activities as of June 30, 2024, totals \$6,465,391 net of accumulated depreciation. These assets include land improvements, buildings, machinery, and equipment.

**BROOKLINE SCHOOL DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
FISCAL YEAR ENDING JUNE 30, 2024**

DEBT ADMINISTRATION

The Brookline School District currently has one lease. The new B-SMART Lease, which is being used for capital improvement for RMMS was issued in July of 2023 in the amount of \$1,500,000 and this will expire in October of 2038. The yearly payment is \$128,379.57.

Other Discussion

The district's financial status is sound. Being that the majority of cost is associated with salary and benefits the budget is rather predictable from year to year. The district adopted for the 2023-2024 fiscal year the ability to retain fund balance for emergency expenditures and over-expenditures. This tool will greatly improve the financial position of the district to deal with unexpected costs that may arise during the course of operations. Were a situation to arise prior to the adoption of this mechanism, the district would have had to rely on excess revenues or additional taxation.

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the district's finances and to demonstrate the district's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Business Administrator at SAU #41, 4 Lund Lane, Hollis, NH 03049, by telephone at 603-324-5999, or via email at kelly.seeley@sau41.org.

NOTES TO THE FINANCIAL STATEMENTS

**BROOKLINE SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2024**

I. Summary of Significant Accounting Principles

I.A. Introduction

The accounting and reporting framework and the more significant accounting principles and practices of the Brookline School District (the School District) are discussed in subsequent sections of this note. The remainder of the notes is organized to provide explanations, including required disclosures, of the School District's financial activities for the fiscal year ended June 30, 2024.

I.B. Financial Reporting Entity – Basis of Presentation

I.B.1. Entity Defined

The Brookline School District is a municipal corporation governed by a school board consisting of five members elected by the voters. These financial statements present the financial position and activity of the primary government. Component units are organizations for which the primary government is financially accountable, or other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete. Based on the stated criteria, the School District's financial statements do not include any component units.

I.B.2. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the School District as a whole. Individual funds are not displayed.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report tuition, fees, and other charges for the School District's services; (2) operating grants and contributions, which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which finance the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. The school district assessment from the town, unrestricted state aid and revenue from other sources not properly included with program revenues are reported as general revenues.

**BROOKLINE SCHOOL DISTRICT

Fund Financial Statements

Fund financial statements are provided for governmental funds. Major individual, governmental funds are reported in separate columns with a composite column for nonmajor funds.

I.B.3. *Measurement Focus, Basis of Accounting and Financial Statement Presentation*

The financial statements of the School District are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The School District's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

The government-wide statements report using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). Reimbursements are reported as reductions to expenses. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants are recognized when grantor eligibility requirements are met.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The School District considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported as expenditures in the year due.

Major revenues susceptible to accrual are the school district assessment from the town, tuition, investment income and federal and state grants. In general, other revenues are recognized when cash is received.

I.B.4. *Fund Types and Major Funds*

Governmental Funds

The School District reports the following major governmental funds:

General Fund – Reports as the primary fund of the School District. This fund is used to account for all financial resources not reported in other funds.

Food Service Fund – Reports as a special revenue fund and accounts for the revenues and expenditures of the School District's food service operations.

**BROOKLINE SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2024**

The School District also reported five nonmajor governmental funds: grants, student activities, other special revenue, capital project, and permanent.

I.C. Assets, Liabilities, and Net Position or Fund Equity

I.C.1. *Cash and Investments*

The laws of the State of New Hampshire require that the School District's treasurer have custody of all monies belonging to the School District with the exception of trust funds which are held by the Town of Brookline Trustees of Trust Funds, and pay out the same only upon orders of the School Board. The treasurer shall deposit all monies in participation units in the public deposit investment pool established pursuant to N.H. RSA 383:22 or in solvent banks in the state. Funds may be deposited in banks outside the state if such banks pledge or deliver to a third party custodial bank or the Federal Reserve Bank, collateral security for such deposits, United States government or government agency obligations, or obligations of the State of New Hampshire in value at least equal to the amount of the deposit in each case.

New Hampshire law authorizes the School District to invest in obligations of the United States government; the public deposit investment pool established pursuant to RSA 383:22; savings bank deposits; prime bankers' acceptances; or certificates of deposit and repurchase agreements of banks incorporated under the laws of the State of New Hampshire or in banks recognized by the state treasurer.

Any person who directly or indirectly receives any such funds or monies for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at the time of such deposit or investment an option to have such funds secured by collateral having a value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the School District. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 386:57 shall be eligible to be pledged as collateral.

I.C.2. *Inventory*

Inventory is valued at cost using the first-in/first-out (FIFO) method. The inventory of governmental funds is recorded as expenditures when consumed rather than when purchased.

**BROOKLINE SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2024**

I.C.3. Capital Assets and Depreciation

The School District's capital assets with useful lives of more than one year are stated at historical cost and reported in the government-wide financial statements. Donated assets are stated at acquisition value on the date donated. The School District capitalizes assets with cost of \$10,000 or more and an estimated useful life of one year or more as purchase and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed of, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. Estimated useful lives, in years, for depreciable assets are as follow:

	Years
Land improvements	20
Buildings and building improvements	10-75
Machinery, equipment and vehicles	10-20

I.C.4. Deferred Outflows/Inflows of Resources

Although certain revenues and expenditures are measurable, they are not available or recognized, because the activity represents a consumption or acquisition of equity that applies to a future period and so will not be recognized as an outflow or inflow of resources until then.

Deferred inflows of resources in the governmental fund financial statements represent donated commodities that are held in inventory to be used in the subsequent year. In addition to these, deferred outflows and inflows of resources in the governmental activities consist of resources related to pensions and OPEB that will be recognized in a subsequent period.

I.C.5. Long-Term Debt

In the government-wide financial statements, outstanding debt is reported as liabilities. The balance of long-term debt is not reported in the governmental funds.

I.C.6. Compensated Absences

Full-time, permanent employees are granted vacation and sick leave benefits in varying amounts to specified maximums. Support staff employees are entitled to a portion of their sick leave upon termination.

Compensated absences are reported as accrued in the government-wide financial statements. Governmental funds report only matured compensated absences payable to currently terminated employees which are included in wages and benefits expenditures.

**BROOKLINE SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2024**

I.C.7. Termination Benefits

Teachers are entitled to a retirement incentive after meeting certain employment requirements. Termination benefits are reported as accrued in the government-wide financial statements. Governmental funds report only matured termination benefits payable to currently terminated employees which are included in wages and benefits expenditures.

I.C.8. Equity

The government-wide statement of net position reports net position in the following components:

- Net investment in capital assets, which is computed as the total capital assets less accumulated depreciation, net of outstanding debt used to acquire those assets.
- Restricted for endowments, which consists of the expendable and nonexpendable portions of endowments held by the Town of Brookline Trustees of Trust Funds for School District purposes.
- Unrestricted, which consists of the remaining balance of net position.

The governmental funds report the following components of fund balance:

- Nonspendable, which represents prepaid items in the General Fund; the balance of inventory reported in the Food Service Fund; and the principal portion of endowments for school purposes in the Permanent Fund.
- Restricted, which represents the expendable portion of the Permanent Fund.
- Committed, which represents the balance of the expendable trust funds established by School District Meeting for special education and support services (maintenance), whose purpose can only be changed by vote of the same; and the balances of special revenue funds.
- Assigned, which represents encumbrances for support services and authorized by approved purchase orders.
- Unassigned, which represents the fund balance in the General Fund in excess of that classified as nonspendable, committed or assigned.

**BROOKLINE SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2024**

I.C.9. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

II. Stewardship, Compliance and Accountability

II.A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all major governmental funds. Unless encumbered, all appropriations lapse at year-end. The School District is required to use beginning unassigned fund balance to balance the budget. In fiscal year 2024, \$20,387 of the fund balance from the fiscal year 2023 was so used, and \$55,000 was appropriated from surplus.

Encumbrance accounting is employed by the governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as assigned fund balance and do not constitute expenditures or liabilities because the assignments will be added to the appropriations voted for the subsequent year.

Revenues are budgeted by source. Expenditures are budgeted by functions as follow: instruction, student support, instructional staff, general administration, executive administration, school administration, operation and maintenance of plant, student transportation, central, other support services, non-instructional services, and debt service. Management can transfer appropriations among budget line items as necessary, but the total expenditures cannot legally exceed the total appropriations unless permission is received from the Commissioner of Education.

The notes continue on the following page.

III. Detailed Notes on Funds and Government-Wide Statements

III.A. Assets

III.A.1. Receivables

Significant receivables consist of reimbursements and intergovernmental amounts arising from Medicaid, grants, reimbursements from other school districts for shared services and the trust funds being in the custody of the Town of Brookline trustees of trust funds

Receivables are recorded on the School District's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation and collectability.

III.C. Balances and Transfers – Payments Within the Reporting Entity

III.C.1. *Receivables and Payables*

Generally, outstanding balances between funds reported as “interfund receivables/payables” include outstanding charges by one fund to another for goods or services, subsidy commitments outstanding at year-end, or other miscellaneous amounts. Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is also reported as “interfund receivables/payables.” The \$6,148 due to the General Fund from the Nonmajor Governmental Funds represents overdrafts of pooled cash.

III.C.2. *Transfers*

Transfers within the reporting entity are substantially for the purposes of distributing taxes to the fund for which the appropriation was made and distributing trust income and certain voted amounts to the applicable fund. The government-wide statement of activities eliminates transfers reported within the governmental activities columns. The Nonmajor Permanent Fund transferred \$1,937 to the General Fund representing the distribution of trust income. The General Fund also transferred \$180,000 to the capital reserve funds, but because these funds are reported within the General Fund, this transfer is not apparent in the basic financial statements.

III.D. Equity

III.D.1. *Components of Fund Equity*

The components of fund balance, as described in Note I.C.8., are classified for the following purposes:

III.D.2. Changes to or within the Financial Reporting Entity

Correction of an Error in Previously Issue Financial Statements

During fiscal year 2024, an error correction for a capital asset acquired in the prior year but not reported, resulted in the restatement of beginning net position. The effect of the error correction are noted on Exhibit 2.

IV. Other Information

IV.A. Risk Management

The School District's risk management activities are reported with governmental activities and recorded in the general fund. During the fiscal year, the School District was a member of the New Hampshire Public Risk Management Exchange (Primex) Workers' Compensation and Property/Liability Programs. These programs are considered public entity risk pools, currently operating as common risk management and insurance programs for member governmental entities.

The Primex Workers' Compensation and Property/Liability Programs are pooled risk management programs under RSA 5-B and RSA 281-A. Workers compensation and property/liability coverage run from July 1 to June 30. Primex provided property and employer's liability coverage in varying amounts and statutory coverage for workers' compensation.

Contributions paid for fiscal year 2024 to be recorded as an insurance expenditure/expense totaled \$28,088 for property liability, and \$14,903 for workers' compensation coverage. There were no unpaid contributions for the year ended June 30, 2024. The School District also paid \$4,112 for unemployment compensation for the fiscal year. The member agreement permits Primex to make additional assessments to members should there be a deficiency in assets to meet its liabilities. At this time, Primex foresees no likelihood of any additional assessments for past years.

IV.B. Retirement Pensions

The New Hampshire Retirement System (NHRS) is a multiple-employer, cost-sharing, contributory public employee defined benefit plan qualified under section 401(a) of the Internal Revenue Code, and funded through a trust which is exempt from tax under Internal Revenue Code section 501(a). The NHRS provides service, disability, death and vested retirement benefits for employees and their beneficiaries. The New Hampshire Legislature establishes the provisions for benefits and contributions. The NHRS issues a separate financial report that is available at www.nhrs.org or by contacting the NHRS at 54 Regional Drive, Concord, NH 03301.

BROOKLINE SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2024

Both the members and the School District make contributions to the NHRS. Member rates of contribution are set by the Legislature. Employer rates are determined by the NHRS trustees based on an actuarial valuation. The rate of contribution was 7% of gross earnings for all employees. The rates of contribution from the School District were 19.64% for teachers and 13.53% for other employees. Employer contributions from the School District during the fiscal years 2022, 2023 and 2024 were \$785,014, \$808,822 and \$817,775, respectively. The amounts were paid on a monthly basis as due.

Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

At June 30, 2024, the School District reported a liability of \$7,546,444 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2022 rolled forward to the measurement date of June 30, 2023. The School District's proportion of the net pension liability was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating municipalities and school districts, actuarially determined. As of June 30, 2023, the School District's proportion was 0.1348%, which was a decrease of 0.0009% from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the School District recognized pension expense of \$851,412. At June 30, 2024, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in proportion and differences between employer contributions and proportionate share of contributions	\$ -	\$ 283,839
Net differences between projected and actual earnings on pension plan investments	109,134	-

**BROOKLINE SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2024**

The School District reported \$817,775 as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date, which will be recognized as a reduction of the net pension liability in the year ending June 30, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follow:

Year Ended June 30,	
2025	\$ 154,615
2026	(239,776)
2027	319,484
2028	(20,615)
	<u>\$ 213,708</u>

Actuarial Assumptions

The total pension liability was determined using the actuarial valuation as of June 30, 2022 rolled forward to June 30, 2023, using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry-Age Normal
Amortization Method	Level Percentage-of-Payroll, Closed
Remaining Amortization Period	Multiple periods of 17-20 years
Asset Valuation Method	5-year smoothed market for funding purposes, 20% corridor
Price Inflation	2.0% per year
Wage inflation	2.75% per year (2.25% for Teachers) in the 2019 valuation
Municipal Bond Rate	3.86% per year
Salary increases	5.4% average, including inflation
Investment rate of return	6.75% net of pension plan investment expense, including inflation

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of the most recent actuarial experience study, which was for the period of 2015 – 2019.

Mortality rates were based on the Pub-2010 Healthy Retiree Mortality Tables with credibility adjustments for each member classification (Police and Fire combined) and projected fully generational mortality improvements using Scale MP-2019.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 6.75%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate.

	1% Decrease (5.75%)	Current Discount Rate (6.75%)	1% Increase (7.75%)
School District's proportionate share of net pension liability	\$ 10,239,611	\$ 7,546,444	\$ 5,245,297

Other actuarial assumptions, as well as detailed information about the pension plan's fiduciary net position, are available in the separately issued NHRS report.

IV.C. Contingent Liabilities

The School District has received federal and state grants for specific purposes that are subject to review and possible audit by the grantor or pass-through agencies. Any such audit may result in a requirement to reimburse the grantor agency for costs disallowed. The School District feels that the chance of disallowance is unlikely, and if it should occur, that the amount would not be material.

IV.D. Other Postemployment Benefits

Plan Description

Benefits provided to retirees follow New Hampshire Revised Statutes Annotated 100-A:50 (Medical Insurance Coverage). This statute states that the School District "shall permit its employees upon retirement to continue to participate in the same medical insurance or healthcare group or plan as its active employees. Retired employees shall be deemed to be part of the same group as active employees of the same employer for purposes of determining medical insurance premiums. Coverage for spouses, other family members and beneficiaries of retirees shall also be permitted to the extent that coverage is provided for the spouses, other family members and beneficiaries of active employees ..." In addition, the statute states "Each political subdivision, as employer, may elect to pay the full cost of group medical insurance or health care coverage for its retirees, or may require each retiree to pay any part or all of the cost of the retiree's participation."

**BROOKLINE SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2024**

The School District offers postemployment medical benefits to School District retirees and their covered dependents. The School District offers coverage as follows:

- Employees hired before July 1, 2011: retire after (1) attaining age 60 or (2) attaining age 50 with 10 or more years of service or (3) age plus service is at least 70 with 20 or more years of service
- Employees hired on or after July 1, 2011: retire after (1) attaining age 65 or (2) attaining age 60 with 30 or more years of service

Medical coverage continues to the spouse after the death of the retiree, provided the spouse makes the required contributions. Dental and life insurance benefits are not offered to retirees. The current monthly medical premium rates are as follow:

<u>Non-Medicare Plans</u>	<u>Individual</u>	<u>2-Person</u>	<u>Family</u>
AB10IPDED(07L)-RX10/20/45/3K(L)	\$1,067.05	\$2,134.10	\$2,881.04
ABSOS20/40/1KDED(07L)	\$829.99	\$1,659.98	\$2,240.97
BC3T10(07L)-RX10/20/45/3K(L)	\$1,170.17	\$2,340.35	\$3,159.47

Currently, there are 80 active and 1 retired employees that receive health benefits from the School District. The School District recognizes the cost of providing health insurance annually as expenditures in the General Fund as payments are made. For the year ended June 30, 2024, the School District recognized nothing for its share of insurance premiums for currently enrolled retirees.

With the medical insurance subsidy plan, there is a payment made by the NHRS to the former employer or its insurance administrator toward the cost of health insurance for the qualified retiree, his/her qualified spouse, and dependent children with disability who are living in the retiree's household and being cared for by the retiree. If the health insurance premium is less than the medical subsidy amount, then only the premium amount is paid by the NHRS. If the insurance premium is more than the medical subsidy amount, then the retiree or other qualified person is responsible for paying the balance of the premium. Benefits are based on age, creditable service, and retirement or hire dates. This plan is closed to new entrants.

Total OPEB Liability

The School District's total OPEB liability of \$614,029 consists of \$135,995 for the implicit rate subsidy that was determined by an actuarial valuation as of July 1, 2023, and \$478,034 for the medical insurance subsidy that was determined by an actuarial valuation as of June 30, 2022 rolled forward to the measurement date using actuarial assumptions, applied to all periods included in the measurement.

**BROOKLINE SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2024**

Actuarial Assumptions

The total OPEB liability was determined using the following actuarial assumptions and inputs:

Implicit rate subsidy:

Discount Rate: 3.93%, compounded annually, for the measurement as of June 30, 2024

Actuarial Cost Method: Entry Age Normal. The cost of each employee's postemployment benefits are allocated at a level basis over the earnings of the employee between date of hire and assumed exit age

Amortization Method: Level dollar amount over thirty (30) years on an open amortization period for pay-as-you-go funding

Healthcare Cost Trend Rates:	<u>Year</u>	<u>Trend</u>
	1	7.50%
	2	7.00%
	3	6.50%
	4	6.00%
	Ultimate	4.00%

Mortality Rates: Pre-Retirement: PubG-2010 headcount-weighted Employee General Mortality Tables, projected with fully generational mortality improvements using Scale MP-2021

Post-Retirement: 102% of PubG-2010 headcount-weighted Retiree General Mortality Tables for males and 107% of PubG-2010 headcount-weighted Retiree General Mortality Tables for females, projected with fully generational mortality improvement using Scale MP-2021

Inflation: 2.5 percent, based on current economic data, analyses from economists and other experts, and professional judgment

The assumptions used for the medical insurance subsidy were the same as those used to calculate the pension liability, as previously described in Note IV.B.

**BROOKLINE SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
JUNE 30, 2024**

Discount Rate

The discount rate was based on the *Bond Buyer 20-Bond General Obligation Index* based on a tax-exempt, high-quality municipal bond rate.

Healthcare Cost Trend Rates

Healthcare cost trend assumptions begin at current levels and grade down over a period of years to a lower level equal to some real rate plus inflation. Trend rates after Year 5 grade down to the ultimate rate utilizing the *Society of Actuaries Getzen Medical Trend Model*. The ultimate trend rate is reached in 2075. The principal components of healthcare cost trends are medical inflation, deductible erosion, cost shifting, utilization, technology and catastrophic claims. The overall effect of these components is expected to decline year by year.

Sensitivity of Total OPEB Liability to Changes in Rates

Assumptions and methods used to determine the total OPEB liability are sensitive to changes in the discount and healthcare cost trend rate. The following presents the total OPEB liability calculated using the current discount rate, as well as what the total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher.

Implicit Rate Subsidy:

	1% Decrease (2.93%)	Current Discount Rate (3.93%)	1% Increase (4.93%)
School District's total OPEB liability	\$ 145,617	\$ 135,995	\$ 126,889

Medical Rate Subsidy:

	1% Decrease (5.75%)	Current Discount Rate (6.75%)	1% Increase (7.75%)

	1% Decrease (6.50%)	Current Healthcare Cost Trend Rate (7.50%)	1% Increase (8.50%)
School District's total OPEB liability	\$ 121,012	\$ 135,995	\$ 153,613

OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB

For the year ended June 30, 2024, the School District recognized a credit to OPEB expense of \$21,234. At year-end, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net differences between projected and actual earnings on pension plan investments	\$ 575	\$ -
Changes in assumptions	3,066	13,751

INDEPENDENT AUDITOR'S COMMUNICATION TO MANAGEMENT

To the Members of the School Board
Brookline School District
Brookline, New Hampshire

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Brookline School District as of and for the year ended June 30, 2024, in accordance with auditing standards generally accepted in the United States of America, we considered the Brookline School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses, and therefore, material weaknesses may exist that have not been identified. We did not identify any material weaknesses during our audit. However, as discussed below, we identified an instance of noncompliance with laws or regulations.

Food Service Fund Resource Management

Sections 210.14(b) and 210.19(a) of the Cost Principles of Title 2, U.S. Code of Federal Regulations, Part 200, *Uniform Administration Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) require the School District to limit its net cash resources in the Food Service Fund to the maximum allowable amount of three months of average expenditures. We noted that the Food Service Fund's net cash resources exceeded the maximum allowable amount by \$128,947. We recommend that the School District develop and complete a spend-down plan to reduce the Food Service Fund's net cash resources below the maximum allowable amount.
