

School Year 2023-2024

School Highlight: SOAR Charter Academy believes students must possess two kinds of literacy in the 21st century: academic and social. These two kinds of literacy will enable students to become self-motivated, competent, and lifelong learners who are prepared for college and career. Students not only need a strong academic foundation in reading, writing, math, science, social studies, technology, and the arts, but also solid skills in critical thinking, problem solving, creativity, communication, leadership, and cooperation. It is crucial for them to understand who they are in light of others and develop character traits that will lead them, as well as others, in bettering our diverse community.

Finance Snapshot
