

Walla Walla High School

"Home of the Blue Devils"

Welcome to Walla Walla High School!

Walla Walla High School, proudly known as Wa-Hi, has a long-standing tradition of excellence as a comprehensive high school. Our mission, *"Intellectually, socially, personally, transformative for all,"* drives everything we do. At Wa-Hi, students have access to a robust and diverse curriculum, including a wide range of Dual Credit courses, STEM programs based on national curriculum standards, strong visual and performing arts programs, engaging Career and Technology classes. Beyond academics, Wa-Hi Blue Devils can explore various extracurricular opportunities such as sports, clubs, after-school activities, and field trips. We believe that a collaborative partnership among parents, students, and staff creates a positive and successful high school experience for every student. Stay informed about upcoming events and opportunities by visiting our website at www.wahibluedevils.org. Welcome to the Wa-Hi community!

John Schumacher, Principal

Chris Ferenz, Athletics and Activities Director

Susan James, Assistant Principal

Claudia Salazar, Assistant Principal

Carina Stillman, Assistant Principal

Jerry Maher, CTE/SEATech Director

Rob Ahrens, Walla Walla Online/Opportunity Director

OUR WA-HI VISION

Ensuring high academic achievement, building meaningful relationships and empowering all students to own their futures.

Walla Walla Public Schools does not discriminate in any programs or activities on the basis of sex, race, creed, religion, color, national origin, age, veteran or military status, sexual orientation, gender expression or identity, disability, or the use of a trained dog guide or service animal and provides equal access to the Boy Scouts and other designated youth groups, as per RCW 49.60 Law Against Discrimination.

Walla Walla Public Schools will also take steps to assure that national origin persons who lack English language skills can participate in all education programs, services and activities.

GRADUATION REQUIREMENTS

In order to graduate from Walla Walla High School, students must complete the following requirements:

1. Earn the Required High School Credits: Students must earn the total number of credits noted below in each of the required subjects. Students need to take at least six classes each year to be best prepared for post high school options. *State graduation requirements do not necessarily meet all college entrance requirements – see pages 9 & 10.*

Subject Area	Requirement	
English	4.0 credits	
Math	3.0 credits (1.0 Algebra 1, 1.0 Geometry, 1.0 3rd Year math) The 3rd Year math is chosen by the student based on their interest and High School and Beyond Plan.	
Science	3.0 credits (2 credits must be a lab science)	
Social Studies	3.0 credits (1.0 Social Studies Elective offerings, 1.0 US History, .5 from Contemporary World Problems and .5 Civics)	
Physical Education	1.5 credits	
Health	.5 credit	
Career Technical Education/CTE (Occupational Education)	1.0 credit	
Fine Arts	2.0 credits (College Ready Plan) -or- 1.0 credit (Career Ready Plan)	CAREER READY PLAN Only: Personalized Pathway Electives: 3 credits <i>(in place of 1 Art and 2 World Language)</i>
World Languages	2.0 credits (College Ready Plan) -or- 0.0 credits (Career Ready Plan)	
Electives	4.0 credits	
Total Credits	24	

*A change from the College Ready to the Career Ready Diploma removes 1 Fine Art and the 2 World Language credits. These are replaced with three Personalized Pathway electives. These electives consist of courses aligned with the student's specific post-high school career or educational goals, as outlined in their High School and Beyond Plan. For more details, refer to pages 76 -77.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

2. Complete a Graduation Pathway in *both* ELA and Math, or complete a pathway option that meets the requirement for both subjects. Grad Pathways must align with the student's High School and Beyond Plan.

ELA	MATH
Assessments (cut scores) <input type="checkbox"/> SBA ____ (2548) <input type="checkbox"/> ACT (w/Writing) ____ (14) <input type="checkbox"/> SAT ____ (410) <input type="checkbox"/> AP: (3+) Courses <input type="checkbox"/> AP: (Lang, Lit, Psych, US Hist, Gov) <input type="checkbox"/> Dual Credit= 100+level (RS, CIH) <input type="checkbox"/> Transition (Bridge to College ELA) <input type="checkbox"/> Performance Based	Assessments (cut scores) <input type="checkbox"/> SBA ____ (2595) <input type="checkbox"/> ACT ____ (16) <input type="checkbox"/> SAT ____ (430) <input type="checkbox"/> AP: (3+) Courses <input type="checkbox"/> AP: (PreCalc, Calc, Stats, Comp Sci A, CompSciPrin) <input type="checkbox"/> Dual Credit: 100+ Level (RS, CIH) <input type="checkbox"/> Transition (Bridge to College Math) <input type="checkbox"/> Performance Based

<input type="checkbox"/> CTE Pathway: Course 1: _____ Course 2: _____ = Pthwy Completed: _____	
<input type="checkbox"/> ASVAB Score: _____ (Cut score = 31)	

3. Develop a High School and Beyond Plan: Developing a High School and Beyond Plan is an essential process for students to prepare for graduation and their future goals. Students must create a comprehensive plan that includes:

- Results of their annual career interest inventory
- A summary of their future college, career, or military goals
- A 4-year course plan to prepare for post-secondary opportunities
- A completed profile or resume of activities, achievements, and experiences throughout high school

Students will complete their 4-year course plan in [SchoolLinks](#) annually during the registration process, with opportunities for updates as they gain insights about themselves and new opportunities. Counselors will support students through Advisory lessons, classroom presentations, and individual appointments to ensure they stay on track.

This plan allows students to receive 0.25 elective credits annually, adding up to a full general elective credit by senior year. The plan helps students develop a schedule tailored to their individual strengths, weaknesses, interests, and future aspirations. It also takes into consideration:

- Graduation requirements
- Educational pathways and post-secondary goals
- Curricular offerings and opportunities for post-high school education, such as 4-year colleges, community colleges, career and technical programs, apprenticeships, and more
- Entrance requirements for educational and career opportunities
- Scholarships and financial aid resources

The High School and Beyond Plan ensures students are equipped with a roadmap for success, both during and after high school.

4. Complete Community Service Hours: 40 hours (or 10 hours per year of enrollment) submitted before senior culminating project presentation (usually in March of senior year). Hours are documented in [SchoolLinks](#), under the School Tab, "Experience Tracking."

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

5. Complete a Culminating Project: The Culminating Project is a portfolio-based project which will provide students the opportunity to examine their skills and abilities as well as articulate plans for their future. In early spring, every senior will make a presentation to a panel of community members outlining their school work over the past four years.

Culminating Project presented to Community Panel:

- My Personal Story
- Best Works
- Community Service Hours (40 hours. Document hours in [SchoolLinks](#))
- High School and Beyond Plan

6. Other Grad Requirements:

Milestones

- **Washington State History:** This requirement is not applicable if a student successfully completed it in middle school. For students transferring from another state, completion of that state's history requirement fulfills this requirement. Juniors or seniors transferring from another state may also be eligible for a waiver.

Additionally, in order to participate in the graduation ceremony, all students that are not on track to graduate must:

- A. Be either enrolled in credit retrieval classes no later than the beginning of second semester at Wa-Hi or the beginning of the spring quarter at WWCC (Running Start), or be able to complete up to 2.0 credits of required courses in summer school.
- B. Provide evidence to the principal or their designee that any extension, correspondence, or community college classes (other than WWCC) are completed by the end of the institution's grading period.

Seniors who are not eligible to participate in the graduation ceremony because they have not met the above conditions will be notified by the principal, as will their parent/guardian. A plan will be made with the student and their parent/guardian to complete graduation requirements the following year. Refer to Walla Walla Public Schools Administrative Procedure No. 2410.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

ACADEMIC PROGRAMS

School Year: Wa-Hi operates on a semester system. If a student successfully completes the class requirements, one half (.5) credit is earned and grades are posted to the student's transcript. There are two semesters in a year.

Freshmen through Seniors will be enrolled in at least six classes (or 3.0 credits) per semester. Additionally, Wa-Hi offers limited 0 period options and students may enroll in a maximum of seven classes, based on curricular needs. Freshmen are strongly encouraged to take only six classes to start their high school career successfully.

Grading System: The State Board of Education has established the following grades and unweighted GPA points used by all high schools in the State of Washington. Class Rank is determined by weighted rank points and may be viewed at the top of the Skyward Gradebook.

Walla Walla High School Grade Descriptors, Grade Ranges, & GPA Points

*For **GPA** calculations, the traditional, **unweighted** 4.0 scale will be used (as shown in the blue column below). Continuing the use of unweighted grades in the student GPA calculation is meant to recognize that college and university admissions offices will actually recalculate the GPA of applicants whose GPA is calculated using weighted grades so that admissions committees can more easily and accurately compare applicants' GPAs before further examining how many challenging courses the student took.

*Class ranking changes based on weighted GPA will start with the class of 2026. With **Class Ranking** calculations for the classes of 2026-2028, the weighted rank points (as shown below in green) will be used with AP, College Enrichment, and Honors courses being **weighed** heavier. For the Classes of 2029 and beyond, the weighted rank points will be used with Dual Credit Courses offered at WWPS that can be directly transcribed at a 4-year institution and honors classes. Rankings that use weighted GPAs reflect students' efforts in challenging courses, while those using unweighted GPAs do not. The Rank will be used when considering academic recognition, including **Honor Roll, Valedictorian & Salutatorian selection, and NHS candidate eligibility**. Adopting the use of weighted grades in the student ranking is meant to further encourage students to challenge themselves in high school by taking more challenging courses over the course of their high school career.

		GPA	Class Ranking		
Proficiency Level/ Descriptor	Letter Grade	Unweighted GPA Points [All Courses]	Weighted Rank Points [All other courses]	Weighted Rank Points [Honors Courses]	Weighted Rank Points [AP and College Enrichment Courses]
Advanced Proficiency	A	4	4	4.5	5
	A-	3.7	3.7	4.2	4.7
Proficient	B+	3.3	3.3	3.8	4.3
	B	3	3	3.5	4
	B-	2.7	2.7	3.2	3.7
Minimal Proficiency	C+	2.3	2.3	2.8	3.3
	C	2	2	2.5	3
	C-	1.7	1.7	2.2	2.7
Approaching Proficient	D+	1.3	1.3	1.8	2.3
	D	1	1	1.5	2
Insufficient Evidence / Not Proficient	F	0	0	0	0

AP, College Enrichment, and Honors courses are designated as such in the course catalog.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

All Other Courses	Honors Courses that are offered at WWPS	Dual Credit Courses Offered at WWPS that can be directly transcribed at a 4-year Institution
See designation in Course Catalog	See HONORS designation in Course Catalog	DUAL CREDIT designation in Course Catalog include: <ul style="list-style-type: none"> • Advanced Placement (AP) • Arizona State University (ASU) • College in the High School (CIH) • College Enrichment*

Additionally, a P (Pass) or NC (No Credit) may be given under special circumstances. These grades will not be figured into a student's GPA.

College Enrichment Programs: The Whitman College ([Whitman Enrichment Program](#)) and Walla Walla University ([Walla Walla University Enrichment Program](#)) Enrichment Programs offer outstanding Wa-Hi juniors and seniors the opportunity to expand their academic experience by enrolling in one college course that provides content not available at Wa-Hi. Students will earn both college and high school credit upon successful completion, but they must submit their college transcripts to the high school registrar for credit transcription. Whitman College waives tuition and fees, while Walla Walla University offers a reduced credit hour rate. However, students are responsible for textbooks, supplies, materials, fees, and transportation. Participation requires a full Wa-Hi course load unless administrative approval is granted. These programs are highly competitive and rigorous, and students must apply through the Wa-Hi Counseling Department in the spring prior to enrollment. For more details and application instructions, visit the respective program websites.

Honors Program: The Honors Program is designed to prepare students to successfully complete Advanced Placement courses. These classes have rigorous academic demands such as extensive reading, analytical writing, long-term projects, and/or challenging lab experiences as well as high expectations. The courses are designed for the self-motivated student who is an independent learner.

Dual Credit Course Offerings: For the 2025-2026 school year, students could earn high school and college credit by taking any of the following courses. Requirements for earning the college credit differ between courses and are communicated in course syllabi. Courses are indicated as "DUAL CREDIT" throughout this course catalog.

<u>Advanced Placement (AP)</u>	<u>College in the High School (CIH)</u>	<u>Career & Technical Education (CTE)</u>	<u>ASU Courses (Num of Courses)</u>
AP 2-D Art & Design AP Biology AP Calculus AB AP Calculus BC AP Chemistry AP Computer Science A AP Computer Science Principles AP Drawing AP Environmental Science AP Human Geography AP Language & Composition AP Literature & Composition AP Pre-Calculus AP Physics AP Psychology AP Research AP Seminar AP Spanish Language AP Spanish Literature & Culture AP Statistics AP US Government & Politics AP US History	ATMS 111: CIH Global Warming Issues ENG 101: CIH AP Lang & Comp GEOS 200: CIH AP Human Geography GEOS 230: CIH AP Human Geography HIST 111: CIH AP US History Sem 1 HIST 112: CIH AP US History Sem 2 MATH 121: CIH Statistics MSC 960: CIH American Military History POLI 100: CIH AP Government & Politics PSYC 100: CIH AP Psychology	Accounting 1 Animal Biology Biotechnology Business Law Culinary Methods Culinary Principles Floriculture Horticulture/Landscaping Microsoft Office Applications Personal Finance Plant Biology Veterinary Assistant Welding & Metal Fabrication	Business (25) Education (1) Engineering (6) Health & Nursing (5) Humanities & Arts (11) Law & Public Service (5) Science (9) Social & Behavioral Sciences (6) Technology (17)

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

Career and Technical Education (CTE): A variety of subjects and programs are available in these career and technical areas: Agriculture Education, Business and Marketing Education, Family and Consumer Sciences, Health Sciences, Military Science, Skilled and Technical Sciences, and STEM (Science, Technology, Engineering, Math). Juniors and Seniors may also pursue Career and Technical Education course offerings through the WWPS SEATech Skills Center program and the WWCC Running Start program. Career and Technical Education (CTE) courses at Walla Walla High School can enhance both post high school educational pursuits and life long career objectives.

Southeast Area Technical Skills Center (SEATech): Junior and Senior students enrolled at the Skills Center will receive 1.5 credits per semester for each program completed. Students will be expected to take at least three classes at Wa-Hi while enrolled at the Skills Center. Course offerings and their descriptions are on pages 71-75. Students who are interested in any of these programs should contact their high school counselor for more detailed information. Students in these programs may qualify for Walla Walla Community College Credit.

Running Start: The Running Start program allows eligible juniors and seniors to take tuition-free courses at local community colleges or career/technical schools. While tuition is covered by the school district, students are responsible for books, supplies, fees, and transportation. Courses must be numbered 100 or above. Students can attend college full-time or combine high school and college classes, scheduling accordingly.

To participate, students must apply to Walla Walla Community College (WWCC) and follow placement guidelines. High school graduation requirements are set by Wa-Hi, and students should consult their counselor to ensure college courses count toward graduation. Credit conversion: a 5.0-credit college class equals 1.0 high school credit; a 3.0-credit class equals 0.5 high school credit. For more details, visit the Wa-Hi Counseling Department or the WWCC Running Start webpage.

Middle School Credit: Some students earn high school credit in middle school. Beginning with the 2019-2020 school year, RCW 28A.230.090(4)(a)(b) and WAC 180-51-030 require that all high school rigor courses taken and passed by students in grades 7 and 8 will be awarded high school credit and placed on the high school transcript. The credits can be removed if requested by the student or parent/guardian prior to the end of the student's grade 11 school year. At the request of the student or parent/guardian, credits that are to remain on the high school transcript may be transcribed with a non-numerical grade, e.g., Pass. The non-numerical grade is not included in the GPA calculation, but the credit will apply to fulfilling graduation requirements.

Outside Credit: Students have the option of earning credit from outside-accredited institutions. The principal must approve all of this coursework prior to enrolling in the class. Students must contact their counselor before starting this process.

Repeated Courses: Students may repeat a course. For some courses, the original grade they earned in the course will stay on their transcript. The higher grade earned will be used in the calculation of the student's Grade Point Average. Other courses may be repeated for original credits. Students should see their counselor for these options.

Contract Based Education (Opportunity Program): Walla Walla School District's Contract Based Education program, *Opportunity*, offers classes that are developed by a certificated teacher and documented in an individually written student learning plan for any student who meets the definition for enrollment specified by WAC 392-121-106. This program may be a good fit for students who struggle in a traditional high school setting or for students who are unable to attend a regular school day. Please see your school counselor for further information.

Student Athletes: At the beginning of the school year, freshman and transfer students must have passed five classes the previous semester in order to be eligible for athletics. Student athletes must be enrolled in and passing at least five classes each semester to remain eligible for participation in athletics. Please see page 10 for NCAA eligibility information.

Students Transferring to Walla Walla High School: Students who transfer to Walla Walla High School during the school year will meet with a counselor to review the student's transcript, credit history, state testing results, class schedule, and grades from their previous school. Counselors will then develop a schedule for the student, placing the student in similar classes to those they had been enrolled at their previous school. The school nurse will also review immunization records. All Walla Walla High School graduation requirements as well as additional state testing requirements are applicable to transfer students.

Credit for Competency/Proficiency: The Board recognizes alternative ways for students to receive credit through the Seal of Biliteracy and State and National Assessments. For more information, see Board Policy No. 2409 and Board Policy No. 2410.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

- ❖ **Seal of Biliteracy:** The district will award the Washington State Seal of Biliteracy to students who have attained a high level of proficiency in speaking, reading and writing in one or more world languages in addition to English. Students who meet the criteria as established in WAC 392-410-350 will be awarded the seal on their high school diploma and transcript. The school district provides two ways for students to earn this credit: the STAMP test and the AP Language test. These tests are given in the spring.
- ❖ **State and National Assessments:** State and national test scores may be used to show competency in two ways: challenging courses or as a tool for students to recover credit for previously failed courses in math or English. Students who want to use test results to challenge courses, or for recovery of credit may request that the competency grade (P) be posted to their transcript for certain courses. Students who are not planning to replace the course with a credit-bearing course in that subject area should be advised of the potential adverse effect on college admission.

COLLEGE ENTRANCE REQUIREMENTS

It is important for all students to remember that each university and college has their own entrance requirements, which often exceed high school graduation requirements. Students need to be aware of the requirements for the specific colleges in which they are interested. Please see your counselor for more information.

Public In-State Washington Requirements: All Washington state public universities require the same minimum standards. These standards are known as CADRs (College Academic Distribution Requirements). In addition, students are required to have a GPA of 2.0. The following table lists the required courses:

English	4 credits
Math	3 credits - including Algebra II or Integrated Math III
Social Studies	3 credits
Science	3 credits - 2 credits of laboratory science, one of which is Algebra-based
World Languages	2 credits of the same world language
Art	1 credit
Senior Year Math Based Quantitative Course	1 credit of a meaningful math senior year

For more information, please see the [College Academic Distribution Requirements \(CADRS\)](#)

Testing Information: There are a variety of testing opportunities available at Walla Walla High School:

- **ACT and SAT:** These tests are also an excellent way to meet a grad pathway. Students are still encouraged to take the SAT (Scholastic Aptitude Test) and/or the ACT (American College Testing) in the spring or summer of their junior year. Scores from these tests may be accepted as part of the admissions application by four-year colleges and universities in Washington State. Each test is administered several times during the year at off-site locations and one time on-site; they may be taken more than once if desired. Students can register and pay for the test online. Registration materials and fee waivers are available in the counseling office. See the [ACT](#) and [SAT](#) test websites for additional information.
- **PSAT:** The [PSAT](#) (Preliminary Scholastic Aptitude Test) can be taken during a student's sophomore and junior years. This test acts as the "practice test" for the SAT. It is useful to practice taking college admissions tests, as it allows students to feel more comfortable with the material on these tests. Additionally, juniors may qualify for the National Merit Scholarship through taking the PSAT. The PSAT is given in the fall.
- **ASVAB:** The [ASVAB](#) (Armed Services Vocational Aptitude Test) is a test that measures a student's abilities in academic and career areas. While the test is provided and administered by the military, student scores are for personal and school use only. They are not utilized by the armed services without the student's consent. The test is free and is usually given once a year in fall. Passing the ASVAB with a 31 or higher meets a students' graduation pathway requirement in math and English, if this aligns with their HSBP.

Community College Requirements and Information: Seniors on track for graduation are automatically accepted to Walla Walla Community College as part of the Blue Devil to Warrior Program. Students planning to attend a community college and then transfer to a four-year college or university are advised to take the same college prep courses they would have taken had they

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

gone directly to a four-year college or university. A student planning to transfer to a program in engineering, computer science, or business administration is advised to take four years of high school mathematics in preparation.

An Overview for Students and Parents: Students may meet high school requirements with courses taken in middle school, provided the courses are part of a sequence which is successfully continued in high school, or the courses are included on the high school transcript as high school level courses. Please check specific entrance requirements for colleges you are interested in and with your counselor to ensure that your High School and Beyond Plan matches those colleges' requirements.

English – Four (4) credits of English language arts are required. Must include three (3) credits of college preparatory coursework, including literature and composition (may include Bridge to College English). One (1) credit of elective English may be included.

Mathematics –Three (3) credits of mathematics are required. These credits must include Algebra I, Geometry, and Algebra II or or higher level mathematics.

Senior Year Math-Based Quantitative Course: Students are required to take a math-based quantitative course during their senior year. This requirement is to ensure students continue to participate in rigorous math during their senior year, a main predictor of postsecondary success. Examples of a math-based quantitative course include additional math (such as Bridge to College Mathematics, statistics, precalc), algebra based science, math-based career and technical courses, or AP computer science. Students who have completed math beyond Algebra II or Integrated Math III, prior to the senior year, are exempt from this requirement. **Note:** *The senior-year math requirement does not mean a 4th credit of math is required, nor does it require a higher level of math; the intent is for seniors to take meaningful math.*

Science – Three (3) credits of science are required. 2 Two (2) credits must be earned in lab courses, including one algebra-based course and one course in biology, chemistry or physics. A single course may meet multiple requirements. For example, a biology, chemistry, or physics course may also be lab-based. **Note:** *Western Washington University specifies that one credit must be an algebra-based chemistry or physics course.*

World Languages - Two (2) credits of the same world language are required. Examples include Spanish, French, Japanese, American Sign Language, and American Indian languages. Additional World Language coursework is encouraged. Some institutions will require three credits to meet college graduation requirements. **Note:** *The World Language requirement can be fulfilled if a student successfully completes two years of the course in middle school. However, students are encouraged to earn at least one World Language credit in high school, as many universities require at least one high school-level World Language credit for admission.*

Social Science – Three (3) credits of social sciences are required. These credits must be earned in history or any of the social sciences. Examples include anthropology, contemporary world problems, economics, geography, government, political science, psychology, civics, or sociology.

Arts – One (1) credit of art is required. This credit must be earned in fine, visual, or performing arts. Substitution of one credit from another CADR subject area is allowed. However, some institutions limit the waiver—students should check with the admissions offices at the institutions to which they plan to apply. **Note:** *The University of Washington specifies one-half credit in fine, visual or performing arts. The other half may be in the arts or in an academic elective. Western Washington University requires one semester or trimester of fine and performing arts. For more information, go to <http://www.wsac.wa.gov/college-admissions>.*

College Admission Distribution Requirements “CADRs”: Students enrolling in college/universities must meet additional admission requirements. View detailed information on CADRs [here](#).

NCAA Requirements: Students interested in participating in sports at the NCAA Division 1 or 2 level must meet additional requirements. If a student wishes to participate, they need to submit an application to the [NCAA Clearinghouse](#) at the end of their junior year. The Clearinghouse determines a player's eligibility based on their GPA and test scores in the core-course requirements. For more information please visit the following website:
<https://www.ncaa.org/sports/2021/2/8/student-athletes-future.aspx>.

Note to the NCAA: For year long classes, transcripts will display first semester courses utilizing the course code displayed in the course catalog and the second semester will be displayed with a modified course code. For example, CP Algebra 2 would be transcribed as MAT460 for the first semester and MA 460 for second semester.

SCHEDULING INFORMATION

Registration: Students will complete registration in the spring for the following year. Information gained through this process will be used to help develop the Master Schedule. Parents and students need to be thoughtful in choosing their course selections and choosing classes that align with their High School and Beyond plan. Students need to check the prerequisite for each class to ensure that they will be allowed to register for the course. Selecting a class indicates a commitment to that course; students will be expected to remain in any course they select.

Schedules: In August, after completion of the back-to-school checklist, students will receive a final schedule of classes. Time allotted for schedule changes for returning students is limited. See below.

Request for Schedule Changes: Schedule changes may be made after the first week of the semester for the following reasons:

1. Student has failed a class required for graduation
2. College entrance/graduation requirements need to be added
3. Incomplete schedule (i.e. fewer than 6 classes)
4. Student was academically misplaced

Schedule changes are not made for the following reasons: requesting a different lunch, requesting a different teacher, joining a class with a friend, attending classes in a different order.

Grading Considerations:

- Dropping a course after 10 days of the term will result in a grade of 'W' on the transcript.
- Dropping a course after the first (or third) quarter (half way through the semester) may result in a grade of "F" or "NC" entered on the transcript, depending on teacher recommendation and the current course grade at the time of the drop.
- If changing a schedule to an equivalent course/same subject (e.g. Honors to standard level of the same subject), the current course grade will be transferred to the new course.

Non-attendance: If students have not attended Wa-Hi by September 5, 2025 without a pre-trip or notification to the school, their schedule will be dropped. If a student attends after that date, they will need to meet with their counselor and create a new schedule.

Problem Solving Process: We encourage students and parents to work closely with their teachers and counselor when challenges arise in the classroom. While we understand that difficulties can come up, we ask that schedule change requests not be made as the first step. If there has been consistent effort and communication between the student, parent, teacher, and counselor, and improvement is still not seen, we may then consider a schedule change with approval from an administrator.

Course Offerings Limitations: Walla Walla High School endeavors to offer all classes listed in this Course Catalog. However, if an insufficient number of students enroll in a class, it may be necessary to cancel the class and enrolled students will be moved to one of their alternate courses.

Please note: Wa-Hi reserves the right to change student schedules for administrative reasons at any time (e.g. leveling class size, etc.).

COUNSELING AND CAREER SERVICES

School Counseling: Wa-Hi School Counselors implement a comprehensive school counseling program that supports students in building meaningful relationships, empowers all students to own their own futures, and facilitates discovery & pursuit of their educational pathway to achieve high academic success. Counselors provide information and services in classroom presentations, individual counseling appointments, advisory lessons and small groups.

All students are designated to a counselor by their last name and are encouraged to meet with them regarding:

- Academics: Course planning and registration, Graduation Pathways, Schedule changes, academic support/resources
- College and Career Planning: High School and Beyond Plan, post-secondary options, Graduation Pathways, college application tracking, transcripts, financial aid support
- Personal/Social: Emotional health, effective communication skills, SEL development, anti-bullying assistance, connection to school/community resources, family outreach crisis response

Wa-Hi Counseling Team: Contact counselors via email or phone, appointments may be booked online, or by contacting the front office: <https://www.wahibluedevils.org/student-services/counseling>

- Ms. Ashley Cesena: A – C
- Mrs. Angie Gardea: D – Ha
- Mrs. Becky Jo Gifford: He – Mc
- Mr. Jacob Croft: Me – R
- Mrs. Shari Widmer: S – Z

Career Center: The Career & College Center helps students discover their options for life beyond Wa-Hi, assisting students with:

- Career Services: Career exploration, job search and application support, career fairs, job shadows, employment verification forms
- College Services: Financial aid/scholarship information, application help, specific college presentations, connection to college representatives, college fairs
- Culminating Project: Volunteer information

College and Career Specialist: [Karen Ruzicka](https://www.wahibluedevils.org/student-services/wa-hi-career-center) <https://www.wahibluedevils.org/student-services/wa-hi-career-center>

College and Career Navigators: College and Career Navigators are located in the Career Center. They are available to provide mentorship, individualized support, and to connect students to opportunities in higher education, workforce training, and other pathways.

Scholarships and Financial Aid: Financial aid and scholarships are important for anyone pursuing technical, 2-year, or 4-year institutions. A list of scholarships is consistently updated in [SchoolLinks](#) and in announcements. The Career & College Center support staff offers assistance in applying for financial aid, including completion of the FAFSA, WASFA, and CSS. Assistance is available at evening events or by making an appointment with the Career Center and/or Financial Aid Specialist. Students who need assistance with college applications or testing fees can contact their counselor for a fee waiver.

Health Center: The Health Center offers basic medical, behavioral health, and care management services to students during school hours to promote the overall health of students so they can benefit fully from their educational program. Licensed medical and mental health professionals provide all services. Some of these services include administering pain relievers to help treat pain or headaches, providing a counselor for students to talk with, and helping connect students to care available in the community. All services are FREE and available to all students once they are registered with the Health Center. No insurance or government documentation is required (though insurance may be billed).

<https://www.thehealthcenterww.org/clinics/walla-walla-high-school>

WSU GEAR UP: The GEAR UP staff provide college readiness resources for the Class of 2026 and the Class of 2027 as follows:

- Academic Support: Tutoring services, assistance with the senior Culminating Project, and class support
- College Support: College campus visits, financial literacy training, and college application support
- Parent Support: Workshops are available that cover information about post-secondary options

TWO FOR ONE POLICY

CTE TWO for ONE Policy: Students who take CTE equivalent courses will satisfy two graduation requirements while earning one credit for a single year long course; hence, “two for one”. The purpose of this policy is to create flexibility for students to choose more elective courses or to address other graduation requirements.

Course Title	Course Code	Graduation Requirement Met
ACCOUNTING 1	BUS746	Occupational Education AND 3 rd Year Math
MSL 314 MILITARY HISTORY	MSC960	Occupational Education AND Social Studies Elective OR Contemporary World Problems
ANIMAL BIOLOGY	AGR851	Occupational Education AND Lab Science
AP COMPUTER SCIENCE A	TIE883	Occupational Education AND 3 rd Year Math

AVID Elective

Advancement Via Individual Determination (AVID) is an academic elective course that prepares students for college readiness and success, and is scheduled during the regular school day as a year long course. Each week, students receive instruction utilizing a rigorous college preparatory curriculum provided by AVID Center, study groups, motivational activities and academic success skills. In AVID, students participate in activities that incorporate strategies focused on writing, inquiry, collaboration, organization and reading to support their academic growth. To participate in AVID, students can self-nominate or a teacher may nominate a student. Once nominated, students submit an application, interview with a team, and are selected based on AVID criteria for student success in the program. Students wishing to self-nominate should see their counselor or an AVID teacher.

AVD109 9th GRADE AVID ELECTIVE

Credit: 1.0

Term: Year

Open to: 9

Prerequisite: Application

Graduation Requirement Satisfied: Occupational Education if taken 3 consecutive years AND Elective

The ninth grade AVID Elective course will introduce the AVID philosophy and strategies. Students will work on academic and personal goals and communication as well as adjusting to the high school setting. Students will increase awareness of their personal contributions to their learning as well as their involvement in their school and community. There is an emphasis on breaking down prompts and setting personal goals and advancing skills. They will take an active role in field trips and guest speaker preparations and presentations. Their college research will include building their knowledge on colleges and careers of interest.

AVD110 10th GRADE AVID ELECTIVE

Credit: 1.0

Term: Year

Open to: 10

Prerequisite: Application

Graduation Requirement Satisfied: Occupational Education if taken 3 consecutive years AND Elective

During the tenth grade AVID Elective course, students will refine the AVID strategies to meet their independent needs and learning styles. As students increase the rigorous course load and school/community involvement, they will refine their time management and study skills accordingly. Students will expand their writing skills to include supporting arguments and claims, character analysis and detailed reflections. Text analysis will focus on specific strategies to understand complex texts and increase academic vocabulary. Students engage with community members to learn soft skills for career success as they develop resumes and will narrow down their college and careers of interest based on personal strengths and goals.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

AVD111 11th GRADE AVID ELECTIVE

Credit: 1.0

Term: Year

Open to: 11

Prerequisite: Application

Graduation Requirement Satisfied: Occupational Education if taken 3 consecutive years AND Elective

The eleventh grade AVID Elective course focuses on writing and critical thinking expected of first and second year college students. Students study in depth exceptional leaders in contemporary society and examine the effect these individuals have had on culture, politics, education, history, science and the arts. The course requires that students read essays, speeches, articles and letters by these leaders, as well as at least one full-length work by the leader or about the leader. In addition to the academic focus of the AVID seminar, there are college-bound activities, methodologies and tasks that should be undertaken during the junior year to support students as they apply to 4 year universities and confirm their postsecondary plans. Students will have the opportunity to participate in a 4 year college visit.

AVD112 12th GRADE AVID ELECTIVE

Credit: 1.0

Term: Year

Open to: 12

Prerequisite: Application

Graduation Requirement Satisfied: Occupational Education if taken 3 consecutive years AND Elective

The AVID Elective twelfth grade course focuses on writing and critical thinking expected of first and second year college students. In addition to the academic focus of the AVID senior seminar, there are college-bound activities, methodologies and tasks that should be achieved during the senior year that support students as they apply to 4-year universities, complete scholarships and financial paperwork, and analyze financial packages. Students will also be exposed to entrepreneurship, personal budgeting, finances, credit, taxes. They will confirm their postsecondary plans.

Dual Credit Courses: There are several courses, primarily in specific Career and Technical areas, where a student can earn both high school and college credit at the same time through Walla Walla Community College or other Community and Technical College(s). These courses are indicated throughout this course catalog as “Dual Credit” courses. Students who complete the courses with a grade of “B” or better (in most cases) and meet the requirements of the articulated course from the college granting the credit can earn Community/Technical college credit. Programs at Wa-Hi include Agriculture Education, Business Education, Child Development, Culinary Arts, Teacher Academy, and Welding and Metal Fabrication. A service fee for Dual Credits may apply.

NOTE: Courses that are Dual Credit will indicate Dual Credit in the course description.

****Indicates course not offered during the 205-26 school year.**

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

CAREER & TECHNICAL EDUCATION COURSE DESCRIPTIONS

BUSINESS AND MARKETING EDUCATION

****BUS720** [MICROSOFT OFFICE APPLICATIONS](#) (Dual Credit) **Credit:** .5 **Term:** Semester **Open to:** 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education

Students will learn how a computer works and how to best utilize it as a tool for academic and professional work. Email, word processing, desktop publishing, spreadsheet, and presentation fundamentals will be covered using Microsoft Office 2019 software. After each application, students will have the opportunity to use what they learned to complete the Microsoft Office Specialist (MOS) 2019 certification exams. Upon completion of this course, students should have a good understanding of how to use Microsoft Office 2019 and the skills to help students pass the computer literacy requirement at many colleges and universities. Students may repeat this semester class to take full advantage of the above description. According to a recent nationwide report of job posting across the USA (job posting data from over 45,000 sources), of the top 10 hard skills posted in job postings, the 1st, 2nd, 5th, 6th, and 7th ranked skills employers are looking for included Microsoft applications (JobsEQ, 2024). You can build your resume, level up your skills, and earn certifications employers are looking for with this class.

BUS726 [CAREER PLANNING](#) **Credit:** .5 **Term:** Semester **Open to:** 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education

Students will learn the skills necessary to be successful in the world of work and life after high school. Students will learn more about themselves and explore careers and post-secondary training and education options. They will develop work readiness skills including resumes, job applications, interviewing skills, problem-solving, communication and teamwork. **This course may apply to all CTE program areas for graduation pathways.**

BUS727 [PERSONAL FINANCE](#) (Dual Credit) **Credit:** .5 **Term:** Semester **Open to:** 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education

Students will learn personal finance skills necessary for life after high school. Students will learn more about income, money management, spending and credit, as well as saving and investing. Students will design personal and household budgets utilizing checking and savings accounts, gain knowledge in finance, debt and credit management, and evaluate and understand insurance and taxes. This course will prepare students for multiple Business Marketing pathways, including, but not limited to Accounting 1 and 2.

BUS728 [FINANCIAL EDUCATION AND TRAFFIC SAFETY EDUCATION](#) **Credit:** .5 **Term:** Semester **Open to:** 9-12

Prerequisite: Instruction permit, prioritized by age and must be 15 ½ or have approval

Graduation Requirement Satisfied: Occupational Education

Research shows that teenagers who take a driver's education class are much safer on the road. This semester-long course will focus on traffic safety education and personal finance through a blended semester developing student independence. The traffic safety education quarter will cover the state requirements for earning a driver's license in the state of Washington. Students will be required to complete a minimum of six hours of supervised drives with a certificated driving instructor outside of the school day. Students are required to have a driving permit during or prior to taking this course. During financial education, students will learn personal finance skills necessary for life after high school. Students will learn about income, money management/budgeting, spending and credit, as well as saving and investing (topics will be covered in depth in the Personal Finance semester course). Students will need to have a driver's permit to participate.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

****BUS734** [SOCIAL MEDIA MARKETING](#)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education

Students will learn the different aspects of social media and how it is used in our society today. Students will learn to research, to think critically, and to communicate effectively through social media. They will be able to adapt those skills to the ever-evolving social media technologies. Students will learn skills they will be able to apply in real life and future careers as well as how to make themselves more marketable online. In this class, students will also be responsible for writing for the Wa-Hi Journal, the online newspaper, and making ads for social media events. Students will need to use judgment, show responsibility, independently produce original work, be accurate and fair, and adhere to legal limitations as they exercise their free expression rights. Students will need to work outside of class time.

BUS736 [YEARBOOK STAFF](#)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Graphic Arts Design (BUS772) and Digital Photography (ART250) recommended

Graduation Requirement Satisfied: Occupational Education

Students will document the history of Wa-Hi through the publication of Wa-Hi's yearbook, "The Royal Blue" and online newspaper, "The Wa-Hi Journal." In this course, students will be responsible for interviewing, researching, writing, photography, layout and design, and meeting all deadlines. Students must be self-motivated, able to work individually and enjoy working as a team. Students will be **REQUIRED** to attend and photograph student events outside of the school day, this includes evenings and weekends. This course may be repeated more than once.

BUS743 [MARKETING OPERATIONS](#) (Student Store)

Credit: .5 or 1.0

Term: Sem or Year

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education

Students will be required to apply their knowledge of management and leadership by planning, organizing and controlling activities for the student store. This course emphasizes the importance of teamwork, responsibility, and decision-making. A large part of this class will be a hands-on experience in. Both in the store and in the classroom, the student will work in areas such as promotions, sales operations, human relations, communication and more.

BUS744 [WORKSITE LEARNING](#)

Credit: .5 or 1.0

Term: Sem or Year

Open to: 11-12

Prerequisite: Career Planning (BUS726) enrollment/completion of CTE course that aligns with job experience/HSBP

Graduation Requirement Satisfied: Occupational Education

Students will extend their learning from the classroom to the worksite. Students can earn credit through their learning experiences at a worksite that supports their program of study, and "High School and Beyond Plan." Under the supervision of school and worksite personnel, students receive opportunities to develop related occupational and employability skills, and networking resources. Students qualify to earn .5 credit for every 180 hours worked. Students must be currently enrolled in or have successfully completed a CTE class related to the student's career pathway and worksite, **be age 16** before enrolling, and provide personal transportation during the Worksite Learning experience. Required: Career Planning or qualifying course. This course may be applied to Agriculture Education, Business and Marketing, Family and Consumer Sciences, Health Sciences, Skilled and Technical Sciences, or STEM, depending upon the qualifying course and WSL experience.

BUS746 [ACCOUNTING 1](#) (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math

Students will learn the "language of business." Areas include keeping track of money for business and personal use, and record and understand the transactions that occur in a business. Students will learn how to reconcile a checking account with the bank, understand accounting concepts, principles and practices, and apply procedures using the computerized accounting program, QuickBooks. This class will provide students with foundational knowledge and skills applied in Accounting 2.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

BUS776 [BUSINESS LAW](#) (Dual Credit)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND .5 credit Contemporary World Problems OR 1.0 Social Studies Elective; Completion of both semesters satisfy .5 credit of Civics OR Social Studies Elective

Students will study criminal, civil and contract law, which involves sales, insurance, banking, employment, and buying and renting property, and the basics of personal finance. Students will review Supreme Court cases and research current and historical developments in law.

BUS786 [ACCOUNTING 2](#)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Accounting 1 (BUS746)

Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math

Study will cover manual and computerized accounting, partnerships, departmental, and corporate accounting practices. This course is a must for students who want to: become accounting clerks upon graduation, obtain the accounting skills necessary to advance to the level of junior or assistant accountant following experience as accounting clerks, go to college and major in accounting or some phase of business, or broaden and improve knowledge, understanding, and application of accounting competencies.

TIE874 [INTRODUCTION TO COMPUTER PROGRAMMING](#)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education

Students will learn the basics of computer programming along with the basics of computer science. The material emphasizes computational thinking and helps develop the ability to solve complex problems. Students will learn to program using the Python language. This course will cover beginning computer science, number calculations and data, making decisions, repetition with loops, and graphics, loops, text and string processing, subprograms, arrays, 2-D arrays, and the Internet. This course will prepare students for AP Computer Science Principles and AP Computer Science A.

TIE881 [AP COMPUTER SCIENCE PRINCIPLES](#) (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Introduction to Computer Programming (TIE874) recommended but not required.

Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math

Students will explore the 7 "Big Ideas" in computer science using project-based approaches. The course introduces students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity, and how computing impacts our world. Students will develop the computational thinking skills needed to fully exploit the power of digital technology and help build a strong foundation in core programming and problem-solving. This course is designed to be equivalent to a first-semester introductory college level computing course. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

TIE883 [AP COMPUTER SCIENCE A](#) (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Concurrent enrollment of CP Algebra 2 (MAT460) or Higher AND Introduction to Computer Programming (TIE874) recommended but not required

Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math

AP Computer Science A is equivalent to a first-semester, college level course in computer science. The course introduces students to computer science with the fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structure), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object-oriented and imperative problem solving and design using Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

FAMILY AND CONSUMER SCIENCE

HFL753 [FOODS AND YOU](#)

Credit: .5

Term: Semester

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education

In this semester-long course, techniques in food preparation are developed as well as the basic kitchen utensils and equipment usage. Topics covered will include basic nutrition concepts for health and fitness, current dietary recommendations for maximizing well-being and minimizing risk of chronic disease, as well as unique nutrition needs for selected stages of the life cycle, methods for evaluating credibility of nutrition claims, principles of vegetarian nutrition, principles of energy balance, basic elements of food safety, diet for exercise and sports, personal dietary evaluation techniques. Participate in multiple food labs and “eat your homework.” Participation in FCCLA project activities will be used as assessments. Food Handler’s Permit is included in this course. This class will provide students with foundational knowledge and skills applied in Culinary Arts and/or Food Production Services - Culinary Arts Internship.

HFL764 [CULINARY METHODS](#) (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Lab Science; with a maximum of 1.0 Science credit for Culinary Methods and/or Principles

Culinary Methods is a National Restaurant Association approved program. Students work in teams to prepare and serve food. They develop an understanding of the Restaurant and Food Industry, Service and Management. This class focuses on the identification of ingredients, employing various cooking techniques, and the selection and proper use of tools and equipment. Students learn professional knife cuts, various types of moist and dry heat cooking methods and preparation methods for a variety of dishes and introduction to baking such as cookies, cakes, and desserts. All students will obtain a food handlers card included in the class. ServSafe will be taught and testing will be offered to the student. Students passing the ServSafe test will earn 6 credits through Walla Walla Community College. Upon completion of this class a student will earn 6 credits towards a Culinary Degree at Walla Walla Community College. Students have opportunities to compete in cooking contests and will participate in National ProStart level testing and ServSafe Certification.

Note: The hat and jacket are provided/or students may purchase their own.

HFL765 [FOOD PRODUCTION SERVICES CULINARY ARTS INTERNSHIP](#) **Credit:** 1.0 **Term:** Year - 400 hour Internship **Open to:** 10-12

Prerequisite: Culinary Methods/Principles (HFL764/HFL766) AND Foods and You (HFL753)

Graduation Requirement Satisfied: Occupational Education

This course will be held at a Personal and Culinary Services Cooperative work site. Upon completion of a ProStart National Certification of Achievement, work-based learning opportunity a student will earn 1 high school credit. This class helps you get and keep a job by teaching valuable skills in hospitality/food service professions. The student will complete a paid or non-paid internship with a mentor working in the food industry. Job site mentors will work with students to provide them with training related to important job skills. The internship combined with classroom experience will prepare students for the world of work or career advancement in the culinary field. Students must be taking the Culinary Arts class to receive work credit for on-the-job training. The culmination of 400 hours can be earned anytime throughout a student’s high school career.

HFL766 [CULINARY PRINCIPLES](#) (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Lab Science; with a maximum of 1.0 Science credit for Culinary Methods and/or Principles

Culinary Principles is a National Restaurant Association approved program. Students work in teams to prepare and serve food, practicing entry-level culinary skills needed to work in the food industry. In addition to developing professional cooking and baking skills, students will learn budgeting, purchasing, marketing, personnel management and menu planning. A hands-on introduction to the fundamentals of professional cooking, includes kitchen safety operations, professional knife skills, basic food cooking and stock preparation, meat and seafood fabrication, teamwork, leadership, general housekeeping, sanitation, clean up and inventory. Students completing this class with a B or better are eligible to earn 12 community college credits towards a Culinary Degree at Walla Walla Community College. This class will provide students with foundational knowledge and skills applied in Food Production Services.

Note: The hat and jacket are provided/or students may purchase their own.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

SKILLED AND TECHNICAL SCIENCES

ART250 [DIGITAL PHOTOGRAPHY](#)

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Fine Arts

Students will learn the basics of manual camera operation and image exposure as well as compositional use of principles and elements. Specific assignments take each student through a progression of camera operation, exposure experience and compositional learning. Cameras are provided, however, students may use their own manual DSLR. This course will prepare students with foundational knowledge and skills applied in Graphic Arts Design, Yearbook Staff, Social Media Marketing, or Careers in Media and Entertainment at SEATech Skill Center.

BUS772 [GRAPHIC ARTS DESIGN](#)

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Fine Arts

Students will explore and apply the principles of design to create computer-generated art. Areas of study will include typography, vector and bitmap imaging, illustration, video, motion graphics, and 2D animation. Graphic Arts combines the design skills of the artist with computer techniques used in today's digital media industry. This course will prepare students for Yearbook Staff, Social Media Marketing, and Careers in Media and Entertainment at SEATech Skill Center.

ITE762 [GEOMETRY IN CONSTRUCTION](#) (Two Period Block)

Credits: 2.0

Term: Year

Open to: 9-11

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND 1.0 Geometry

Geometry in Construction (GeoCon) is a two period block course that combines Geometry and construction to give students an incredible opportunity with a hands-on introduction to the construction building trades. This integrated hands-on approach for learning math blends Geometry concepts with real-world construction skills. Students will be exposed to construction careers such as engineering, architecture, construction trades and management, interior design, and surveying. Students will learn: geometry in the context of construction, safety, problem solving, employability and leadership skills, tool use, and drawing interpretation as they build a functional, full sized structure on campus. Leadership and 21st century skills development is an integral component of this program. This class will provide students with foundational knowledge and skills applied in the Construction Technology program at SEATech Skill Center.

MSC930 [MILITARY SCIENCE 1](#): Introduction to Citizenship

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years

Introduction to citizenship, basic duties of the branches of the military, understanding of our national symbols (Anthem, flag, etc.), and organizational principles. This course introduces teamwork and leadership development through team building scenarios, group activities, and team sports. Continual discussion and practice of fitness and healthy lifestyles. This class will provide students with foundational knowledge and skills applied in Military Science 2.

MSC940 [MILITARY SCIENCE 2](#): Introduction to Leadership Development

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Military Science 1 (MSC930) and Teacher Permission

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years

Discussion of managerial techniques, the aspects of mutual respect (leader/subordinate relationship), duties of a leader/manager, the building of teamwork and team spirit, the flow of communications, and the problem-solving process. Students begin the process of transitioning to college or the workplace through instruction and practical application. This class will provide students with foundational knowledge and skills applied in Military Science 3.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

MSC945 [LEADERSHIP TECHNIQUES](#): Introduction to Leadership Development **Credit:** 1.0 **Term:** Year **Open to:** 10-12
Prerequisite: Military Science 1 (MSC930) and Teacher Permission

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken JROTC taken 2 consecutive years (American Military History not included).

Discussion of managerial techniques, the aspects of mutual respect (leader/subordinate relationship), duties of a leader/manager, the building of teamwork and team spirit, the flow of communications, and the problem-solving process. Students begin the process of transitioning to college or the workplace through instruction and practical application. This class will provide students with foundational knowledge and skills applied in Military Science 2-4. This class will teach cadets the necessary techniques they need to use to be successful on the JROTC team(s) they plan to participate in.

MSC949 [RIFLE MARKSMANSHIP 1](#) **Credit:** 1.0 **Term:** Year **Open to:** 9-12
Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years

Introduction to firearms safety, and rifle marksmanship. Instruction is performed with the use of air rifles and includes the opportunity to participate as a member of the Wa-Hi Competition Rifle Team. This class will provide students with foundational knowledge and skills applied in Rifle Marksmanship 2.

MSC950 [MILITARY SCIENCE 3](#): Intermediate Leadership Development **Credit:** 1.0 **Term:** Year **Open to:** 11-12
Prerequisite: Military Science 2 (MSC940) and Teacher Permission

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years

Discussion of managerial techniques, the aspects of mutual respect (leader/subordinate relationship), duties of a leader/manager, the building of teamwork and team spirit, the flow of communications, and the problem-solving process. Students begin the process of transitioning to college or the workplace through instruction and practical application. This class will provide students with foundational knowledge and skills applied in Military Science 4.

MSC960 [MSL 314 MILITARY HISTORY](#) (Dual Credit) **Credit:** .5 or 1.0 **Term:** Sem or Year **Open to:** 10-12
Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Contemporary World Problems OR Social Studies Elective

The class examines the development of western warfare from the Greeks to the Civil War first semester and World War I to modern day second semester. The course includes technological and weapon development, battle tactics, great warrior leaders, and the relationship between the military, this nation, and society. Course instruction includes lectures, discussion of current events and links to the past, historical video presentations, hands on artifacts, and real world in-class presentations and experiences from military veterans. (5 CIH credits available from Central Washington University.)

MSC969 [RIFLE MARKSMANSHIP 2](#) **Credit:** 1.0 **Term:** Year **Open to:** 10-12
Prerequisite: Rifle Marksmanship 1 (MSC949) (or Hunter Education with a B average or higher)

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years

Advanced Rifle Marksmanship offers the theory and practice of Three Position air rifle shooting. Curriculum includes sports physiology, and the technical aspects of Olympic caliber competition rifles and equipment. Students also learn many components of leadership theory and application and aspects of peer coaching using the Army JROTC model. This course is offered to advanced competitive rifle shooters and requires instructor permission.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

MSC980 [MILITARY SCIENCE 4](#): Advanced Leadership Development **Credit:** 1.0 **Term:** Year **Open to:** 12
Prerequisite: Military Science 3 (MSC950), Senior Standing and Teacher Permission
Graduation Requirement Satisfied: Occupational Education AND Physical Education

Students will learn the psychology of leadership, moral aspects of leadership, group relations and behavior, communications management of resources. Students assume leadership roles and manage major projects throughout the year. This course also prepares for post high school endeavors including college, managerial employment, and service in the military. Students learn basic real world financial management including insurance, investment, banking, and day-to-day budgeting.

TIE806 [AMPED/ALGEBRA 1](#) (Two Period Block) **Credits:** 2.0 **Term:** Year **Open to:** 10-12
Prerequisite: Completion of GeoCon (ITE762) or Geometry (MAT488)
Graduation Requirement Satisfied: 1.0 Algebra 1 AND 1.0 Occupation Education

Algebra 1 in Manufacturing Processes, Entrepreneurship and Design (AMPED on Algebra) is a two period block learning experience. Students will learn and apply Algebra concepts and practices while running an advanced lab business. This business customizes and manufactures textile products and other merchandise composed of wood, metal, an/or plastic. Students will develop skill sets and engineering techniques in composite technologies, laser cutting and engraving, and computer graphics and design. This class also deals with principles of entrepreneurship and use of spreadsheets. Students will receive fundamental knowledge and skills that can be applied in Welding and Fabrication at Wa-Hi and Advanced Manufacturing and Welding at SEATech Skill Center, while also ensuring students have covered the essential topics in Algebra allowing them success in future math classes.

AGRICULTURE EDUCATION

AGR841 [VETERINARY ASSISTANT](#) (Dual Credit) **Credit:** 1.0 **Term:** Year **Open to:** 11-12
Prerequisite: None
Graduation Requirement Satisfied: Occupational Education AND Lab Science

This course is designed to prepare students for careers relating to veterinary science. Students in this class will learn about companion animals and livestock with emphasis in animal handling, restraint procedures, medical examinations, vaccinations, routine medical procedures, office administration skills, patient and owner management, animal health, and nutrition. Students will have the opportunity to bring their own animals to class for examinations and assist with the birthing and care of school farm animals. Be prepared to get your hands dirty. Students will also have the opportunity to earn the Elanco Veterinary Medical Applications Certification.

****AGR843** [PHYSICAL SCIENCE IN AGRICULTURE](#) **Credit:** 1.0 **Term:** Year **Open to:** 10-12
Prerequisite: None
Graduation Requirement Satisfied: Occupational Education AND Lab Science

Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 2 in a 3-year sequence designed to meet high school and college requirements. The focus of this class is to expose students to mechanics, power, technology, and career options in the world of agriculture. Students participating in this course will have experiences in various mechanical and engineering concepts with hands-on activities, projects, and problems. Students' experiences will involve the study of energy, tool operation and safety, material properties, machine operation, and structural components. Students will acquire the basic skills to operate, repair, engineer, and design agricultural tools and equipment. Throughout the course, students will apply the engineering principles to the construction of machines and structures. Students will explore projects and problems similar to those that a technician or engineer may face in their respective careers. In addition, students will understand specific connections between science, math, and technical skills applied to Supervised Agricultural Experiences and FFA components that play an important role in developing an informed agricultural education student. Students will investigate, experiment, and learn about documenting a project, solving problems, and communicating their solutions to their peers and members of the professional community. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied in Plant Biology, Animal Biology, or Agricultural Mechanics. This course will prepare students for the WCAS, Washington's State Science Assessment.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

AGR845 [WELDING AND METAL FABRICATION](#) (Dual Credit) **Credit:** 1.0 **Term:** Year **Open to:** 10-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education

This course may be repeated with instructor approval. Students will complete units emphasizing skills in operation and safety of shop equipment. First semester will primarily be developing basic skills in SMAW (Arc) and OAW (oxy-fuel) welding. Second semester will include instruction in GMAW (Mig) and GTAW (Tig) welding, Plasma CNC operation along with individualized projects. In addition, students will understand specific connections between science, math, and technical skills applied to supervised agricultural experiences and FFA components that play an important role in developing an informed agricultural education student. Students' shop safety is an essential part of this class. Coveralls or other acceptable protective clothing must be worn in shop classes and are the responsibility of each student unless other arrangements are made with the instructor. This class will provide students with foundational knowledge and skills applied in Agricultural Mechanics 1 or 2 or Advanced Manufacturing and Welding at SEATech Skills Center.

AGR847 [FLORICULTURE](#) (Dual Credit) **Credit:** 1.0 **Term:** Year **Open to:** 10-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Fine Art

This course is designed to provide students with introductory training and skills needed for employment as a floral designer or employment related to nursery management and ornamental horticulture. Students will design and fashion live, cut, dried, and artificial floral arrangements for special events. Activities include learning retail-pricing methods, gaining knowledge of design and design patterns, use of industry standard supplies, and employment opportunities. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied to Horticulture and/or Biotechnology.

AGR850 [AGRICULTURAL MECHANICS 1](#) **Credit:** 1.0 **Term:** Year **Open to:** 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education

Agricultural Mechanics is an introductory course that explores a wide variety of mechanical processes. Students will use scientific and mathematical applications through relevant mechanical topics. In addition, students will complete numerous lab-based and project-based activities that will give students the opportunity to develop an understanding of the scientific process and increase hand-eye coordination and motor skills. Areas of study in this course include careers in agriculture mechanics, mechanical safety and hazards, and safe operation of hand and power tools. Topic clusters in this course include metallurgy, electrical power, plumbing, irrigation, hydraulics, small gas engines, measuring and scale drawing, tap & dye, basic welding and fabrication and more. In addition, students will understand specific connections between science, math, and technical skills applied to Supervised Agricultural Experiences and FFA components that play an important role in developing an informed agricultural education student. This class will provide students with foundational knowledge and skills applied in Welding or Agricultural Mechanics 2.

AGR851 [ANIMAL BIOLOGY](#) (Dual Credit) **Credit:** 1.0 **Term:** Year **Open to:** 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Lab Science

Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 1 in a 3-year sequence designed to meet high school and college requirements. Animal Biology is designed to provide learning experiences for students in the areas of animal nutrition, cell structures, anatomy and physiology. Students will investigate, experiment, and learn about documenting a research project, solving problems, and communicating their solutions to their peers and members of the professional community. Leadership development in FFA will also be encouraged. This course will prepare students for the WCAS, Washington's State Science Assessment.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

AGR855 [AGRICULTURAL MECHANICS 2](#)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Agricultural Mechanics 1 (AGR850)

Graduation Requirement Satisfied: Occupational Education

Agricultural Mechanics 2 is an advanced course for students interested in studying in depth subjects relating to mechanics, technology and agricultural engineering. The goal of this course is designed to prepare students with advanced level experiences in selected major areas of agricultural mechanics technology which may include small engine maintenance and repair, metal fabrication and design, concrete construction, building construction, plumbing, electricity and wiring, maintenance of agricultural machinery, equipment and tractors, and soil and water conservation. Learning activities include information, skill development and problem solving.

AGR856 [AGRICULTURE EQUIPMENT MAINTENANCE & TECHNOLOGY](#)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Agricultural Mechanics 1 (AGR850) and Agricultural Mechanics 2 (AGR855) and/or Instructor Recommendation

Graduation Requirement Satisfied: Occupational Education

Agriculture Equipment Maintenance & Technology is an advanced course for students interested in obtaining skills and experience to pursue a career as an Agriculture/Equipment Technician. This course includes hands-on identification and cause and correction of equipment failures in electrical, fluid, diesel, precision, and mechanical systems Learning activities include information, skill development and problem solving.

AGR860 [HORTICULTURE/LANDSCAPING](#) (Dual Credit)

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education

This course is open to students interested in studying career opportunities in horticulture and in developing skills of the orchardist, vegetable grower, and greenhouse operator. Emphasis will be given to vegetable crops, ornamental plant materials and management, plant propagation, and basic landscape design. Classroom safety is an integral part of this class. Although not a required prerequisite, this class will provide students with foundational knowledge and skills that could be applied in Floriculture and/or Biotechnology.

AGR861 [PLANT BIOLOGY](#) (Dual Credit)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Lab Science

Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 1 in a 3-year sequence designed to meet high school and college requirements. Plant Biology is designed to provide "hands-on" activities, projects, and problems. Student experiences will include the study of plant anatomy and physiology, soil science, hydroponics and the fundamentals of growing and propagating plants. Students will learn how to apply scientific knowledge and skills to use plants effectively for agronomic, forestry, and horticultural industries. Students will discover the value of plant production and its impact on the individual, the local, and the global economy.

SCI594 [AP ENVIRONMENTAL SCIENCE](#) (Dual Credit)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Honors Geometry (MAT448) OR Geometry (MAT480) OR Geometry in Construction (ITE762)

Graduation Requirement Satisfied: Occupational Education AND Lab Science

This course is designed to be the equivalent of a one-semester, introductory college course in environmental science covering the following topics: energy conversions underlie all ecological processes, the Earth itself is one interconnected system, humans alter natural systems, environmental problems have a cultural and social context, human survival depends on developing practices that will achieve sustainable systems. Successful completion of this course will prepare students for AP Biology, AP Chemistry, or AP Physics. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify. All 9th and 10th grade students are required to have a recommendation from their previous science teacher to enroll in this course.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

TIE882 [BIOTECHNOLOGY](#)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Successful completion of a biology class: Biology (SCI564), Animal Biology (AGR851), or Plant Biology (AGR861)

Graduation Requirement Satisfied: Occupational Education AND Lab Science

Animal and Plant Biotechnology, provides students with experiences in industry appropriate applications of biotechnology related to plant and animal agriculture as well as medicine. Students will complete hands-on activities, projects, and problems designed to build content knowledge and technical skills involving micro-pipetting, bacterial cultures and transformations, electrophoresis, polymerase chain reaction, bioremediation and tissue culture.

HEALTH SCIENCE

SCI580 [EXERCISE AND SPORTS SCIENCE](#)

Credit: .5

Term: Semester

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Science Elective OR Physical Education

This introductory elective course will introduce students to the world of sports and athletic performance through the lenses of biomechanics, exercise physiology and sports psychology. Students will understand the physiological factors affecting health, fitness and performance and how the body responds to exercise, how natural laws and forces affect the body in sports movement and performance, learn how to analyze technique and learn about the mind and body connection focusing on the concepts of self-efficacy, factors affecting anxiety and stress and motivation, and mental preparation.

This is a great course to complement Human Body Systems and Sports Medicine. Students interested in the medical field, physical therapy, athletic training and/or coaching will find this course both engaging and informative.

SCI585 [HUMAN BODY SYSTEMS](#)

Credit: 1.0

Term: Year

Open to: 9*; 10-12

Prerequisite: *9th graders required to be concurrently enrolled in an approved 9th science class in addition to Human Body Systems (SCI585).

Graduation Requirement Satisfied: Occupational Education AND Lab Science

Students investigate the structures and functions of the human body, engage in a series of hands-on laboratory and special projects about human anatomy and physiology. Students learn about a variety of human organ systems, diseases associated with each, and how each system is connected with another. With each of the systems, students explore science in action, building clay organs and tissues on a skeletal Maniken, and using the Anatomage virtual dissection table. The goal of the course is to prepare and equip students with basic skills and terminology they will need for college and career development in the medical field.

TIE895 [SPORTS MEDICINE 1](#)

Credit: 1.0

Term: Year

Open to: 9*-12

Prerequisite: *Freshman should have a strong science background and/or interest in a medical field

Graduation Requirement Satisfied: Occupational Education AND Science Elective OR Health

Sports Medicine 1 students will be introduced to the concept of the sports medicine team and the wide variety of professions within that field. They will also gain basic knowledge and skills related to the lower extremity, human performance, concussions, medical terminology, medical research, emergency procedures, and become certified in First Aid and CPR. Students will also participate in community/school engagement activities. Students will be expected to get practical experience working with the athletic training staff during practices and athletic competitions. The Sports Medicine program will include hands-on classroom and lab instruction on how to safely evaluate, treat, rehabilitate, and tape to support athletic injuries. Students will also have the opportunity to compete in the Washington Career and Technical Sports Medicine Associate state competition. Leadership development in the Washington Career and Technical Sports Medicine Association will be encouraged.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

TIE898 [SPORTS MEDICINE 2](#)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Sports Medicine 1 (TIE895)

Graduation Requirement Satisfied: Occupational Education AND Science Elective OR Health

Sports Medicine 2 students will build upon basic knowledge gained in Sports Medicine 1, with a focus on the upper extremity, head, neck, spine, general medical conditions, and current events in sports medicine. Students will also participate in and lead community/school engagement activities. Students will be expected to get practical experience working with the athletic training staff during practices and athletic competitions. The Sports Medicine program will include hands-on classroom and lab instruction on how to safely evaluate, treat, rehabilitate, and tape to support athletic injuries. Students will also have the opportunity to compete in the Washington Career and Technical Sports Medicine Association state competition. Leadership development in the Washington Career and Technical Sports Medicine Association will be encouraged.

STEM (Science, Technology, Engineering, Math)

ITE768 [ENGINEERING DESIGN 1](#)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education

Students dig deep into the engineering design process, applying math, science, and engineering standards to hands-on projects. They work both individually and in teams to design solutions to a variety of problems using 3D modeling software, and utilize current and innovative trends in materials and technology. This class will provide students with foundational knowledge and skills applied in multiple courses including, but not limited to Engineering Design 2, and Advanced Manufacturing and Welding at SEATech Skills Center.

ITE798 [ENGINEERING DESIGN 2](#)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Engineering Design 1 (ITE768)

Graduation Requirement Satisfied: Occupational Education

Through problems that engage and challenge, students explore a broad range of engineering topics, including mechanisms, the strength of materials and structures, automation, and motion. Students develop skills in problem solving, research, and design while learning strategies for design process documentation, collaboration, and presentation. This class will provide students with foundational knowledge and skills applied in Advanced Manufacturing and Welding at SEATech Skills Center.

TIE821 [DRONES](#)

Credit: 1.0

Term: Year

Open to: 9*-12

Prerequisite: None (*9 with teacher approval)

Graduation Requirement Satisfied: Occupational Education

Students will learn the skills for a "safety-inspired foundation" for any flight operation involving small unmanned aircraft systems (sUAS) and flown for commercial purposes. This course prepares students to obtain their Federal Aviation Administration (FAA) Part 107 license, if they desire. They must be 16 years or older to earn this license. Key topics will include safety, crew and resource management, and Federal Aviation Regulations. Several hours of structured drone flying will be a component of the course. This class will provide students with foundational knowledge and skills applied in aviation. Optional test fees apply.

ENGLISH COURSE DESCRIPTION

ENG335 FRESHMAN ENGLISH

Credit: 1.0

Term: Year

Open to: 9

Prerequisite: None

Graduation Requirement Satisfied: Freshman English

Graduation requirement - Students will develop skills related to the reading of informational and literary texts. They will identify the author's purpose, determine and trace the development of themes and central ideas, and analyze literary and informational elements. The course includes a focus on supporting claims and analysis with textual evidence. Students also develop skills in argumentative, informative, and narrative writing, including writing a modified research paper in which they incorporate relevant information from resources. Students are also encouraged to select and read books of interest to them.

ENG345 SOPHOMORE ENGLISH

Credit: 1.0

Term: Year

Open to: 10

Prerequisite: None

Graduation Requirement Satisfied: Sophomore English

Graduation requirement - Students will continue to develop skills related to the reading of informational and literary texts with an emphasis placed on comprehension. The course includes a focus on supporting claims and analysis with textual evidence. Students also develop skills in argumentative, informative, and narrative writing, including writing a modified research paper in which they incorporate relevant information from resources. Students are also encouraged to select and read books of interest to them.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

ENG359 JUNIOR ENGLISH: AMERICAN LITERATURE AND COMPOSITION **Credit:** 1.0 **Term:** Year **Open to:** 11

Prerequisite: None

Graduation Requirement Satisfied: Junior English

Graduation requirement - Students will continue to develop skills related to the reading of informational and literary texts through a study of American Literature. Students also develop skills in argumentative, informative, and narrative writing, including writing a research paper in which they incorporate relevant information from resources. Students are also encouraged to select and read books of interest to them. (5 CIH credits available from Eastern Washington University; CIH AM LIT & COM ENG358)

ENG362 SENIOR BRIDGE TO COLLEGE ENGLISH **Credit:** 1.0 **Term:** Year **Open to:** 12

Prerequisite: TBD

Graduation Requirement Satisfied: Senior English

Bridge to College is an English Course designed for **college-bound** seniors to prepare them for success in English 101 once they enter college (2-year or 4-year). Students who receive a grade of B or better in the course will automatically be placed in English 101 at Washington State Community Colleges or Eastern Washington University without having to test into it or take remedial classes. The course includes six units over two semesters focusing on improving rhetorical reading and writing skills, and public speaking in a highly interactive environment.

ENG364 SENIOR ENGLISH: CREATIVE WRITING **Credit:** 0.5 **Term:** Semester **Open to:** 12

Prerequisite: None

Graduation Requirement Satisfied: Senior English

Graduation Requirement - This course provides an opportunity for Senior high school students to pursue advanced creative writing work. The purpose of this course is to engage students in the careful reading and critical analysis of imaginative/creative literature, thus deepening their understanding of the ways writers use language to provide both meaning and pleasure for their readers. It will also enable students to create works of literature in various genres, including, but not limited to: short story/fiction, creative nonfiction, drama, and poetry. Finally, it will prepare students with the reading, analytical, and writing skills necessary for success in this course and later in their college work.

ENG365 SENIOR ENGLISH: FILM AS LITERATURE **Credit:** 0.5 **Term:** Semester **Open to:** 12

Prerequisite: None

Graduation Requirement Satisfied: Senior English

Graduation Requirement - Students will apply their literary analysis skills to various film types and genres. They will build their knowledge around the use of cinematic techniques and how these techniques establish characterization, complex themes, imagery/setting, mood, conflicts, foreshadowing, dramatic irony, and symbolism. Students will learn about cinematic history and learn about various directors' backgrounds, influences, and how this establishes their cinematic style. The course will integrate cinematic style analysis essays, discussions, and research using MLA (Modern Language Association) format.

ENG366 SENIOR ENGLISH: TRUE CRIME/MYSTERY **Credit:** 0.5 **Term:** Semester **Open to:** 12

Prerequisite: None

Graduation Requirement Satisfied: Senior English

The class will begin with a unit exploring the key attributes of detective or mystery fiction, and then examine a sampling of works in the genre. Students will analyze the characterization of detectives, suspects, and criminals, and consider the author's plotting, building of tension, and inclusion of clues. The course will include Mystery Fiction and True Crime. Throughout the coursework, students will be engaged in hands-on projects that may include a murder-mystery event, creating their own short works, research, and argument writing.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

ENG367 SENIOR ENGLISH: College Application and Scholarship Writing

Credit: 0.5

Term: Semester

Open to: 12

Prerequisite: None

Graduation Requirement Satisfied: Senior English

The semester-long senior-level English course, *College Application and Scholarship Writing*, provides students with essential writing and communication skills for post-secondary success. The course emphasizes personal narrative development, guiding students through writing impactful college application essays, scholarship essays, and college-level writing assessments. Students learn to express their unique stories and articulate personal perspectives to make a meaningful impression in high-stakes applications. Alongside narrative writing, students engage in research on a topic of personal or academic interest, gaining readiness for college-level research writing. Instruction includes academic formatting, citation standards, and techniques for evaluating and synthesizing sources, enabling students to construct well-organized, evidence-based arguments that meet college expectations.

The research process concludes with a formal class presentation, allowing students to develop public speaking and presentation skills critical for academic and professional settings. The presentation experience builds confidence in persuasive communication, effective use of visual aids, and clear information delivery. Feedback on writing and presentations throughout the course fosters continuous improvement, preparing students to effectively share their stories and ideas in any future academic or career setting.

ENG377 HONORS FRESHMAN ENGLISH

Credit: 1.0

Term: Year

Open to: 9

Prerequisite: None

Graduation Requirement Satisfied: Freshman English

Graduation requirement - Honors Freshman English is a rigorous course designed for **motivated and hard-working** college-bound students, committed to completing reading and writing homework. The course focuses on foundational skills for the sophomore, junior, and senior Advanced Placement courses. The course takes a faster, more demanding approach to the skills taught in other 9th grade English courses. Students will develop skills related to the reading of informational and literary texts with an emphasis placed on close critical reading. They will identify the author's purpose, determine and trace the development of themes and central ideas, and analyze literary and informational elements. The course includes a focus on supporting claims and analysis with textual evidence. Students also develop skills in argumentative, informative, and narrative writing, including writing a modified research paper in which they incorporate relevant information from resources. Students are also required to read books selected for them or from a short reading list, both during the school year and encouraged to continue reading over the summer.

ENG388 AP SEMINAR (DUAL CREDIT)

Credit: 1.0

Term: Year

Open to: 10

Prerequisite: None

Graduation Requirement Satisfied: Sophomore English

Graduation requirement - AP Seminar is a rigorous course designed for motivated college-bound students. College Board describes the course as one "that engages students in cross-curricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Students learn to investigate a problem or issue, analyze arguments, compare different perspectives, synthesize information from multiple sources, and work alone and in a group to communicate their ideas." This college-level course includes reading and analyzing cross-curricular texts (fiction, poetry, peer-reviewed and newspaper articles, images, videos, etc.), researching in databases, collaborating, and presenting. The AP score comes from an end-of-course AP exam and two performance tasks: a team research project and presentation and an individual research project and presentation.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

ENG393 ENG 101 AP LAN (DUAL CREDIT)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: None

Graduation Requirement Satisfied: Junior English

Graduation Requirement; Potential College Credit - This college-level course focuses on rhetorical analysis, composition with an emphasis on argument, and an in-depth examination of several important works of American literature. A summer reading assignment and personal reading are required of students enrolled in this course. This course has met the College Board criteria, and the studies will include college level content. **Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.** (5 CIH credits available from Eastern Washington University. CIH AP LAN & COM ENG393)

ENG394 AP RESEARCH (DUAL CREDIT)

Credit: 1.0

Term: Year

Open to: 11

Prerequisite: AP SEMINAR MUST BE COMPLETED PRIOR TO ENROLLING IN THIS CLASS

Graduation Requirement Satisfied: Junior English

Graduation Requirement; Potential College Credit - AP Research, the second course in the AP Capstone experience, allows students to deeply explore an academic topic, problem, issue, or idea of individual interest. Students design, plan, and implement a yearlong investigation to address a research question. Through this inquiry, they further the skills they acquired in the AP Seminar course by learning research methodology, employing ethical research practices, and accessing, analyzing, and synthesizing information. Students reflect on their skill development, document their processes, and curate the artifacts of their scholarly work through a process and reflection portfolio. The course culminates in an academic paper of 4,000–5,000 words (accompanied by a performance, exhibit, or product where applicable) and a presentation with an oral defense. Students must complete AP Seminar in order to enroll in this course. Students who earn scores of 3 or higher in AP Seminar and AP Research and on four additional AP Exams of their choosing will receive the AP Capstone Diploma. Students who earn scores of 3 or higher in AP Seminar and AP Research but not on four additional AP Exams will receive the AP Seminar and Research Certificate.

ENG398 AP LITERATURE AND COMPOSITION (DUAL CREDIT)

Credit: 1.0

Term: Year

Open to: 12

Prerequisite: None

Graduation Requirement Satisfied: Senior English

Graduation Requirement; Potential College Credit -This college-level course is a survey of important works of world literature with particular emphasis on British literature. Summer reading assignments and personal reading are required of students enrolled in this course. This course has been reviewed by the College Board and has met College Board criteria. Students will read texts appropriate to first-year college students. **Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.**

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

FINE ARTS

Two (2.0) credits (4 semesters) are required for graduation. Fine Art credit can be met through the personalized pathway requirement that leads to a specific post high school career or educational outcome chosen by the student. See pages 3-5 for details.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

FINE ARTS COURSE DESCRIPTIONS

VISUAL ARTS

AGR847 [FLORICULTURE](#) (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Fine Arts

This course is designed to provide students with introductory training and skills needed for employment as a floral designer or employment related to nursery management and ornamental horticulture. Students will design and fashion live, cut, dried, and artificial floral arrangements for special events. Activities include learning retail-pricing methods, gaining knowledge of design and design patterns, use of industry standard supplies, and employment opportunities. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied to Horticulture and/or Biotechnology.

ART250 [DIGITAL PHOTOGRAPHY](#)

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Fine Arts

Students will learn the basics of manual camera operation and image exposure as well as compositional use of principles and elements. Specific assignments take each student through a progression of camera operation, exposure experience and compositional learning. Cameras are provided, however, students may use their own manual DSLR. This course will prepare students with foundational knowledge and skills applied in Graphic Arts Design, Yearbook Staff, Social Media Marketing, or Audio and Video Production at SEATech Skill Center.

ART262 DRAWING AND PAINTING

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Fine Arts

Drawing and Painting is a year long class that teaches how to think and behave like an artist. The class will take you through the artistic process, from concept through art making and revisions to final product and critique. New techniques and new media are explored through a variety of class activities, sketchbook entries, choice-based projects, and a reflection process. Students will create a digital art portfolio using Blogger, Sites, Spark, or YouTube. Art history and current artists will be introduced.

ART265 POTTERY AND SCULPTURE 1

Credit: .5 or 1.0

Term: Sem or Year

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Fine Arts

Students in this class will work with clay using hand-building techniques, as well as a potter's wheel. A specific number of projects are required each semester. Students will create a digital portfolio of projects that will be added to all year. This class can only be taken one time, for either a year or two semesters.

ART266 POTTERY AND SCULPTURE 2

Credit: .5 or 1.0

Term: Sem or Year

Open to: 11-12

Prerequisite: Pottery 1 with a grade of A

Graduation Requirement Satisfied: Fine Arts

This course is for students to further develop their skills, their style, and their interest in pottery and sculpture. Additional sculptural materials beyond clay will be used. Students will also be active members of the learning community by mentoring beginning pottery students. A grade of A in Pottery I is required, (or with written permission from the pottery teacher). Students will also create artwork to build a digital portfolio for college or career.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

ART273 ADVANCED STUDIO ART

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Drawing and Painting (ART262)

Graduation Requirement Satisfied: Fine Arts

This course is for students to further develop their skills, their style, and their interest in drawing, painting, and printmaking. Students will create artwork to build a digital portfolio for college or career.

ART280 AP DRAWING (Dual Credit)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Drawing and Painting (ART262) and Advanced Studio Art (ART273)

Graduation Requirement Satisfied: Fine Arts

As an AP student, you'll develop and apply skills of inquiry and investigation, practice, experimentation, revision, communication, and reflection. Portfolio Exams contain two sections. The Sustained Investigation section requires you to conduct an inquiry-guided investigation through practice, experimentation, and revision. For the Selected Works section, work is expected to demonstrate skillful synthesis of materials, processes, and ideas. For both sections of the portfolio, you are expected to share information in writing about your work and submit digital images of your work. If you submit an AP Drawing Portfolio Exam, you'll also send in 5 physical works. The AP Drawing portfolio is designated for work that focuses on the use of drawing skills, including mark-making, line, surface, space, light and shade, and composition. Consider marks that can be used to make drawings, the arrangement of marks, the materials and processes used to make marks, and relationships of marks and ideas. Drawing, painting, printmaking, and mixed media work are among the possibilities for submission. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

****ART290 AP 2-D ART & DESIGN (Dual Credit)**

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Drawing and Painting (ART262) and Advanced Studio Art (ART273)

Graduation Requirement Satisfied: Fine Arts

As an AP student, you'll develop and apply skills of inquiry and investigation, practice, experimentation, revision, communication, and reflection. Portfolio Exams contain two sections. The Sustained Investigation section requires you to conduct an inquiry-guided investigation through practice, experimentation, and revision. For the Selected Works section, work is expected to demonstrate skillful synthesis of materials, processes, and ideas. For both sections of the portfolio, you are expected to share information in writing about your work and submit digital images of your work. If you submit an AP 2-D Art and Design Portfolio Exam, you'll also send in physical work or high-quality printed reproductions of physical work. The AP 2-D Art and Design portfolio is designated for work that focuses on the use of two-dimensional (2-D) elements and principles of art and design, including point, line, shape, plane, layer, form, space, texture, color, value, opacity, transparency, time, unity, variety, rhythm, movement, proportion, scale, balance, emphasis, contrast, repetition, figure/ground relationship, connection, juxtaposition, and hierarchy. Consider how materials, processes, and ideas can be used to make work that exists on a flat surface. Collage, fabric design, weaving, fashion design, illustration, painting, and printmaking are among the possibilities for submission. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

BUS772 [GRAPHIC ARTS DESIGN](#)

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Fine Arts

Students will explore and apply the principles of design to create computer-generated art. Areas of study will include typography, vector and bitmap imaging, illustration, video, motion graphics, and 2D animation. Graphic Arts combines the design skills of the artist with computer techniques used in today's digital media industry. This course will prepare students for Yearbook Staff, Social Media Marketing, or Audio & Video Production at SEATech Skill Center.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

DRAMA

DRM260 ACTING WORKSHOP

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Fine Arts

This course is designed as an overview of the theatrical process for any student interested in learning about the theatre with an emphasis on acting. Students will take an active role in the class, taking part daily in physical and vocal warm-ups, drama games, improvisation, acting exercises, and much more. Students will also learn movement skills, basic play analysis skills, acting technique, theatre terminology, theatre history, and stagecraft techniques. Students will leave the course with an exposure to many different elements of the theatre. The focus of the course is on developing the students' acting skills. Students will prepare and present a variety of scenes and monologues.

DRM280 ACTING ENSEMBLE

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Acting Workshop (DRM260) or Teacher Permission

Graduation Requirement Satisfied: Fine Arts

This class is a performance course for students who have completed DRM260 or auditioned for and been selected as a member of the Acting Ensemble. Auditions occur each spring. Students will study acting and directing techniques in more depth than in previous drama courses. There will be focus on working as an ensemble. Performance is mandatory for all students involved in this course.

DRM285 THEATRE PRODUCTION AND TECHNOLOGY

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Fine Arts

This course will introduce students to many aspects of theater, showing how the pieces come together to create an artistic expression. Students will participate in several hands-on projects to help them achieve this goal. Students will focus on design and creation in areas including set, costume, critique, playwriting, lighting, directing, and production.

DRM290 HONORS CHAMBER DRAMA

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Audition Only

Graduation Requirement Satisfied: Fine Arts

This course is designed to teach students how to utilize their voices to their full potential, while using their improvisational skills, making sure the student is both aware and comfortable on the stage. They will be the face of the Drama Department and be expected to maintain appropriate behavior as such. The students will create audition packages, explore new works, and develop college and career ready skills for the future. Students work toward the assimilation of mind, body and soul to create believable characters for their audiences.

MUSIC

MUS231 CONCERT BAND

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Middle School Band Level Experience

Graduation Requirement Satisfied: Fine Arts

An entry-level course open to students who wish to study instrumental music. This course deals with the fundamentals of music and instrumental techniques to prepare students for Wind Ensemble. The first two months are devoted to marching activities and the remainder to concert band music. Some evening and out-of-class time is required. Performances are mandatory.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

MUS234 BELLES VOIX

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Audition only (Spring)

Graduation Requirement Satisfied: Fine Arts

This course is open to students with treble voices (alto, mezzo, and soprano) who function at the intermediate/advanced level. Some knowledge of vocal technique, pitch-matching facility, and music reading is expected as a prerequisite. Course covers vocal production, part-singing, sight reading, and advanced music theory concepts. Some evening and out-of-class time is required. Attendance is mandatory at all performances.

MUS235 TREBLE CHOIR

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Fine Arts

This course is open to students with treble voices (alto, mezzo, and soprano) who function at the beginning/intermediate level. Course covers vocal production, part-singing, sight-reading, and basic music theory concepts. This class combines with Il Divo to perform music as well. Some evening and out-of-class time is required. Attendance is mandatory at all performances.

MUS250 MUSICAL THEATER/MODERN MUSICAL ENSEMBLE

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Audition Only (Spring)/See Teacher

Graduation Requirement Satisfied: Fine Arts

This course is open to all students, but must meet with the instructor before registering. Course emphasizes basic concepts in vocal production in the musical theater and modern styles of singing, and preparing, blocking, choreographing, and performing music for a showcase concert at the end of each semester. Some evening and out-of-class time is required. Attendance is mandatory at all performances.

MUS284 BEGINNING GUITAR

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Fine Arts

This course deals with the fundamentals of guitar playing for students with no musical training. Students will learn to read music, play melodies, chords and a variety of strum and picking patterns, with an emphasis on folk, classic rock (Beatles, Elvis, Creedence Clearwater Revival, Eagles).

MUS286 CONCERT CHOIR

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Fine Arts

This is a choir designed for growing and less experienced voices. Vocalists in this ensemble will learn vocal production, musicality, and how to read music. It is an excellent class for students who enjoy performing choral music as an addition to their other interests, or people who would like to train and improve for future participation in upper-level choral ensembles. This is a performance-based class and all performances are mandatory. Some outside of the school day time is required.

MUS287 HONORS SYMPHONY ORCHESTRA

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Audition Only - 1 year String Orchestra (MUS289) and Teacher Permission

Graduation Requirement Satisfied: Fine Arts

In this course, members of the orchestra study music of all historical periods and styles. Students will improve their skills in music reading, instrumental technique, and group dynamics. Performance opportunities include both large and small ensemble as well as solo experiences. This class will sometimes combine with the String Orchestra for rehearsals and performances. Some evening and out-of-class time is required. All performances are mandatory and students are expected to adhere to the concert dress code.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

MUS289 STRING ORCHESTRA

Credit: 1.0

Term: Year

Open to: 9-10

Prerequisite: Audition Only (Spring)

Graduation Requirement Satisfied: Fine Arts

This course is designed primarily for students in grades 9-10. In this course, members of the orchestra study music of all historical periods and styles. Students will improve their skills in music reading, instrumental technique, and group dynamics. Performance opportunities include both large and small ensembles as well as solo experiences. This class will sometimes combine with the Symphony Orchestra for rehearsals and performances. Some evening and out-of-class time is required. All performances are mandatory and students are expected to adhere to the concert dress code.

MUS294 HONORS JAZZ ENSEMBLE

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Teacher Permission plus additional course (see below)

Graduation Requirement Satisfied: Fine Arts

This is a course for students interested in performing jazz literature. Some evening and out-of-class time is required. Performances are mandatory. Students are required to take this course concurrently with Concert Band (MUS231) or Wind Ensemble (MUS298) (exceptions may be made with the teacher's permission).

MUS296 HONORS CHAMBER SINGERS

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Audition only (Spring) plus one year of Treble Choir (MUS235), Belle Voix (MUS 234)

Graduation Requirement Satisfied: Fine Arts

This is a course for advanced mixed voices (soprano, mezzo, alto, tenor, baritone, and bass) by audition only. Audition is held in the spring of the previous year. This course promotes upper-level vocal production, part-singing, sight-reading, and advanced music theory concepts through study of some of the very finest of choral ensemble literature. There is a heavy emphasis on public performance. Some evening and out-of-class time is required. Attendance is mandatory at all performances and a summer retreat. Other expenses may be incurred.

If students pass 4 years of consecutive vocal or instrumental music courses with a B- or higher at semester, they can receive 1.0 Occupational Education credit. They must submit their portfolio to the principal prior to the 2nd semester of their senior year. See music teacher for details.

MUS298 WIND ENSEMBLE

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Teacher Permission

Graduation Requirement Satisfied: Fine Arts

This is a course devoted to the study of advanced band literature. The wind ensemble is Wa-Hi's top band ensemble. Students are expected to be highly motivated and eager to achieve at a very high performance level. The first two months of the year involve marching activities, while the remaining months are devoted to concert literature. Some evening and out of class time is required. Performances are mandatory.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

MATHEMATICS

Three (3.0) credits (6 semesters) are required for graduation, which must include Algebra 1, Geometry, and a 3rd year Math.

MATHEMATICS COURSE DESCRIPTIONS

Students must pass the math state testing requirement. Additionally the majority of Washington State 4-year colleges require a minimum of successful completion of Algebra 2 or its equivalent for admission and a placement test, which covers the material in Algebra 2.

BUS746 [ACCOUNTING 1 \(Dual Credit\)](#)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math

Students will learn the "language of business." Areas include keeping track of money for business and personal use, and record and understand the transactions that occur in a business. Students will learn how to reconcile a checking account with the bank, understand accounting concepts, principles and practices, and apply procedures using the computerized accounting program, QuickBooks. This class will provide students with foundational knowledge and skills applied in Accounting 2.

BUS786 ACCOUNTING 2

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Accounting 1 (BUS746)

Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math

Study will cover manual and computerized accounting, partnerships, departmental, and corporate accounting practices. This course is a must for students who want to: become accounting clerks upon graduation, obtain the accounting skills necessary to advance to the level of junior or assistant accountant following experience as accounting clerks, go to college and major in accounting or some phase of business, or broaden and improve knowledge, understanding, and application of accounting competencies.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

ITE762 GEOMETRY IN CONSTRUCTION (Two Period Block)

Credits: 2.0

Term: Year

Open to: 9 -11

Prerequisite: None

Graduation Requirement Satisfied: 1.0 Occupational Education Elective AND 1.0 Geometry

Geometry in Construction is a two period block course that combines geometry and construction to give students an incredible opportunity with a hands-on introduction to the construction building trades. This integrated hands-on approach for learning math blends geometry concepts with real-world construction skills. Students will be exposed to construction careers such as engineering, architecture, construction trades and management, interior design, and surveying. Students will learn: geometry in the context of construction, safety, problem solving, employability and leadership skills, tool use, and drawing interpretation as they build a functional, full sized structure on campus. Leadership and 21st century skills development is an integral component of this program. This class will provide students with foundational knowledge and skills applied in the Construction Technology program at SEATech Skill Center. Successful completion of this course prepares the student to take Algebra 1 or AMPED/Algebra 1.

MAT435 ALGEBRA 1

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Geometry (MAT448)

Graduation Requirement Satisfied: Algebra 1

College Entrance Requirement-Students will develop mathematical reasoning and problem-solving skills. First semester studies linear equations, inequalities, systems of linear equations and functions. Second semester studies polynomial operations, quadratic equations, exponential functions and statistics. Successful completion of this course prepares the student to take College Prep Algebra 2.

MAT448 GEOMETRY

Credit: 1.0

Term: Year

Open to: 9-11

Prerequisite: None

Graduation Requirement Satisfied: Geometry

College Entrance Requirement-Students will develop reasoning and problem-solving skills as they study topics such as construction, congruence, similarity, trigonometry, circles, coordinate geometry and three-dimensional objects. Successful completion of this course prepares the student to take Algebra 1.

MAT460 COLLEGE PREP ALGEBRA 2

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Algebra 1 (MAT435) and completion of or concurrent enrollment in Geometry (MAT448) or Hon Geometry (MAT480)

Graduation Requirement Satisfied: 3rd Year Math

College Entrance Requirement-This course reviews and extends elementary Algebraic concepts. It includes a study of quadratic, polynomial, rational, exponential, and logarithmic functions, their operations and their graphs. Successful completion of this course prepares students for a variety of high level, rigorous mathematics courses.

MAT480 HONORS GEOMETRY

Credit: 1.0

Term: Year

Open to: 9-10

Prerequisite: Algebra 1 (MAT435)

Graduation Requirement Satisfied: Geometry

College Entrance Requirement-This course covers Geometric concepts in more depth than in standard Geometry. Students will perform proofs to show their understanding of concepts and logic. Students will develop reasoning and problem-solving skills as they study topics such as congruence and similarity, and apply properties of lines, triangles, quadrilaterals, circles and constructions. Students will develop problem-solving skills by using length, perimeter, area, circumference, surface area, and volume to solve problems. In addition to geometry content, this course includes numerous examples and exercises involving algebra. Successful completion of this course prepares the student to take Honors Algebra 2 or CP Algebra 2.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

MAT483 HONORS ALGEBRA 2

Credit: 1.0

Term: Year

Open to: 9-11

Prerequisite: Algebra 1 (MAT435) and completion of or concurrent enrollment in Geometry (MAT448) or Hon Geometry (MAT480)

Graduation Requirement Satisfied: 3rd Year Math

College Entrance Requirement- This course is designed for those students who plan to continue STEM based learning at high school or college. This course is taught at a faster pace than CP Algebra 2 (above) and some topics are covered in more depth. It includes a study of quadratic, polynomial, rational, exponential, and logarithmic functions, their operations and their graphs. It also includes an overview of Conic sections. Successful completion of this course prepares the student to take the next rigorous level course.

MAT486 BRIDGE TO COLLEGE MATH

Credit: 1.0

Term: Year

Open to: 12

Prerequisite: Completion of CP Algebra 2 (MAT460) OR Honors Algebra 2 (MAT483) and Placement

Graduation Requirement Satisfied: 3rd Year Math

Bridge to College Mathematics is a year-long course focusing on the key mathematics readiness standards from Washington State's K-12 Learning Standards for Mathematics (the Common Core State Standards for Mathematics) as well as the eight Standards of Mathematical Practices. The course is designed to prepare students for entrance into non-calculus pathway introductory college level mathematics courses. The course addresses key learning standards for high school including Algebra 1, statistics, geometry, and Algebra 2 standards essential for college and career-readiness. The course is only open to seniors who have completed Algebra 2 and earned a 2 on the SBAC.

MAT488 PRE-CALCULUS

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: College Prep Algebra 2 (MAT460)

Graduation Requirement Satisfied: 3rd Year Math

The major emphasis of this course is on study of functions. Some of the topics covered are elementary logic, trigonometry, vectors, limits, series and sequences, and complex numbers. Successful completion of this course prepares students for the next rigorous course. This course will use the same text as the AP Pre-Calculus but go at a slightly slower pace.

MAT495 AP CALCULUS AB (Dual Credit)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Completion of Pre-Calculus (MAT488) or AP Pre-Calculus (MAT499)

Graduation Requirement Satisfied: 3rd Year Math

This course is designed to provide students with a background in mathematics, which will prepare them for mathematics and science courses at the college level. Students who complete this course may receive college credit for the course if they score a passing mark (3, 4, or 5) on the AB Advanced Placement Test. The course includes an intensive review of algebra, geometry, trigonometry, and analytic geometry. The course focuses on a study of limits, differentiation, and integration. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

MAT496 AP CALCULUS BC (Dual Credit)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Completion of AP Calculus AB (MAT495)

Graduation Requirement Satisfied: Math

This course is designed to provide students with a background in mathematics, which will prepare them for mathematics and science courses at the college level. Students who complete this course may receive college credit for the course if they score a passing mark (3, 4, or 5) on the BC Advanced Placement Test. The course includes an intensive review of limits, differentiation, and integration. The course focuses on the study of a series of constants, polynomial series, and further techniques of differentiation and integration studied in AP Calculus AB. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

MAT497 AP STATISTICS (Dual Credit)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Completion of College Prep Algebra 2 (MAT460), Honors Algebra 2 (MAT483)

Graduation Requirement Satisfied: 3rd Year Math

Statistics is a course designed for students who have successfully completed Algebra 2 or a higher math course and are seeking to obtain college credit by successfully completing the AP Stats Exam. This is an Advancement Placement course in Statistics and between the start of school and the 1st of May will complete a course that covers the majority of topics on the AP Stats Exam. Students that are considering studying business, math, science, education, sociology, psychology and/or engineering would benefit from taking this course. Students will cover descriptive statistics, probability, probability distributions, confidence intervals, hypothesis testing, correlation and regression. Students who take this class need to be self-motivated, organized and willing to study and complete homework to be successful. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

****MAT498 MATH 121 CIH STATISTICS (DUAL CREDIT)**

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Completion of College Prep Algebra 2 (MAT460), Honors Algebra 2 (MAT483)

Graduation Requirement Satisfied: 3rd Year Math

Statistics is a course designed for students who have successfully completed Algebra 2 or a higher math course. This is an introductory statistics course and over the entire year, students will complete a course that covers the majority of a college introductory statistics course. Students who are considering studying business, math, science, education, or engineering would benefit from taking this course. Students will cover descriptive statistics, probability, probability distributions, confidence intervals, hypothesis testing, correlation, and regression. Students who take this class will need to study and complete homework to be successful. (5 CIH credits available from Eastern Washington University.)

MAT499 AP PRE-CALCULUS (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Honors Algebra 2 (MAT483) or College Prep Algebra 2 (MAT460)

Graduation Requirement Satisfied: 3rd Year Math

AP Precalculus is designed to be the equivalent of a first semester college precalculus course. AP Precalculus provides students with an understanding of the concepts of college algebra, trigonometry, and additional topics that prepare students for further college level mathematics courses. This course explores a variety of function types and their applications—polynomial, rational, exponential, logarithmic, trigonometric, polar, parametric, vector-valued, implicitly defined, and linear transformation functions using matrices. Throughout the course, the mathematical practices of procedural and symbolic fluency, multiple representations, and communication and reasoning are developed. Students experience the concepts and skills related to each function type through the lenses of modeling and covariation and engage each function type through their graphical, numerical, analytical, and verbal representations. Successful completion of this course prepares students to take AP Calculus and/or AP Statistics.

TIE806 AMPED/ALGEBRA 1 (Two Period Block)

Credits: 2.0

Term: Year

Open to: 10-11

Prerequisite: Completion of Geoconn. (ITE762 or Geometry MAT488)

Graduation Requirement Satisfied: 1.0 Occupational Education AND 1.0 Algebra 1

Algebra I in Manufacturing Processes, Entrepreneurship and Design (AMPED) is a two block learning experience. Students will learn and apply Algebra concepts and practices while running an advanced lab business. This business customizes and manufactures textile products and other merchandise composed of wood, metal, and/or plastic. Students will develop skill sets and engineering techniques in composite technologies, laser cutting and engraving, and computer graphics and design. This class also deals with principles of entrepreneurship and use of spreadsheets. Students will receive fundamental knowledge and skills that can be applied in Welding and Fabrication at WWJS and Advanced Manufacturing and Welding at SEATech Skill Center, while also ensuring students have covered the essential topics in Algebra allowing them success in future math classes.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

TIE881 [AP COMPUTER SCIENCE PRINCIPLES \(Dual Credit\)](#)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Introduction to Computer Programming (TIE874) recommended but not required.

Graduation Requirement Satisfied: Occupational Education AND 3rd Year Math

Students will explore the 7 “Big Ideas” in computer science using project-based approaches. The course introduces students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity, and how computing impacts our world. Students will develop the computational thinking skills needed to fully exploit the power of digital technology and help build a strong foundation in core programming and problem-solving. This course is designed to be equivalent to a first-semester introductory college level computing course. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

TIE883 [AP COMPUTER SCIENCE A \(Dual Credit\)](#)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Concurrent enrollment of CP Algebra 2 (MAT460) or higher AND Introduction to Computer Programming (TIE874) recommended but not required

Graduation Requirement Satisfied: Occupational Education AND 3rd year Math

AP Computer Science A is equivalent to a first-semester, college level course in computer science. The course introduces students to computer science with the fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structure), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object-oriented and imperative problem solving and design using Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

PHYSICAL EDUCATION COURSE DESCRIPTIONS

Walla Walla High School PE courses aim to make fitness enjoyable and accessible while educating students on the benefits of a healthy lifestyle. These courses provide a foundation for physical well-being and offer students practical tools to manage stress, build confidence, and develop a balanced approach to health.

PHYSICAL EDUCATION

PEM901 HEALTH

Credit: .5

Term: Semester

Open to: 9-10

Prerequisite: None

Graduation Requirement Satisfied: Health

This class is designed to provide students with a foundation for making healthy choices, understanding the resources available to them, and fostering a sense of responsibility for their own health and well-being. Topics covered include, overall wellness, mental/emotional health, substance abuse prevention, safety/first aid, nutrition, consent, sexual health.

PEM903 TEAM SPORTS

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Physical Education

This course is designed to introduce students to a variety of team and individual sports, such as ultimate frisbee, soccer, badminton, pickleball, volleyball, basketball, tag games, etc. Instruction includes both fundamental skills and advanced techniques, providing a well-rounded skill set for each sport.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

PEM905 LIFETIME FITNESS

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Physical Education

This course is designed to provide an increased level of aerobic fitness through power walking utilizing both paced walks and non paced walks. Students will participate in high intensity walks that include longer duration and distance. Conditioning programs will emphasize development of endurance, strength, flexibility, progressive increases in caloric expenditure, and improvements in body composition. Topics will include advanced walking strategies, equipment and safety, and the ability to construct effective walking programs for continued benefit. Students will also be guided through occasional online fitness resources (Yoga, Pilates, Tae Bo, etc..)

PEM955 WEIGHT TRAINING AND AEROBICS

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Physical Education

Improve your strength, muscle tone and develop your core. This course is designed for all levels of ability and experience. Functional strength training and conditioning will emphasize both traditional and non-traditional strength training methods and various forms of cardiovascular exercise. The course is designed to develop full body strength, muscle tone, bone density, improve your balance and increase your metabolic rate.

PEM965 STRENGTH TRAINING AND CONDITIONING

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Physical Education

This class is designed for the student to increase strength, speed, mobility, & cardiovascular fitness by utilizing functional strength training, speed and agility drills, and basic plyometrics and to develop strength, lean muscle mass, and overall fitness by utilizing functional strength training, metabolic training, and aerobic exercise. Emphasis will be placed on proper nutrition and wellness. Running is a class component.

PEM995 ADVANCED STRENGTH TRAINING AND CONDITIONING **Credit:** .5 or 1.0 **Term:** Sem or Year **Open to:** 10-12

Prerequisite: A minimum of 1 semester of Strength Training and Conditioning (PEM965) and/or approval of teacher and/or summer strength training staff after completing summer session, for incoming grades 10-12.

Graduation Requirement Satisfied: Physical Education

This class is designed for the serious student-athlete to enhance athletic ability and help prevent injury through strength training, speed and agility drills, and plyometrics. Additional emphasis will be placed on unilateral training, core stability, proper nutrition and recovery methods.

SCI580 [EXERCISE AND SPORTS SCIENCE](#)

Credit: .5

Term: Semester

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Science Elective OR Physical Education

This introductory elective course will introduce students to the world of sports and athletic performance through the lenses of biomechanics, exercise physiology and sports psychology. Students will understand the physiological factors affecting health, fitness and performance and how the body responds to exercise, how natural laws and forces affect the body in sports movement and performance, learn how to analyze technique and learn about the mind and body connection focusing on the concepts of self-efficacy, factors affecting anxiety and stress and motivation, and mental preparation.

This is a great course to complement Human Body Systems and Sports Medicine. Students interested in the medical field, physical therapy, athletic training and/or coaching will find this course both engaging and informative.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

MILITARY SCIENCE

MSC930 [MILITARY SCIENCE 1: Introduction to Citizenship](#)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years

Introduction to citizenship, basic duties of the branches of the military, understanding of our national symbols (Anthem, flag, etc.), and organizational principles. This course introduces teamwork and leadership development through team building scenarios, group activities, and team sports. Continual discussion and practice of fitness and healthy lifestyles. This class will provide students with foundational knowledge and skills applied in Military Science 2.

MSC940 [MILITARY SCIENCE 2: Introduction to Leadership Development](#)

Credit: 1.0 **Term:** Year

Open to: 10-12

Prerequisite: Military Science 1 (MSC930) and Teacher Permission

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years

Discussion of managerial techniques, the aspects of mutual respect (leader/subordinate relationship), duties of a leader/manager, the building of teamwork and team spirit, the flow of communications, and the problem-solving process. Students begin the process of transitioning to college or the workplace through instruction and practical application. This class will provide students with foundational knowledge and skills applied in Military Science 3.

MSC945 [LEADERSHIP TECHNIQUES: Introduction to Leadership Development](#)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Military Science 1 (MSC930) and Teacher Permission

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken JROTC taken 2 consecutive years (American Military History not included).

Discussion of managerial techniques, the aspects of mutual respect (leader/subordinate relationship), duties of a leader/manager, the building of teamwork and team spirit, the flow of communications, and the problem-solving process. Students begin the process of transitioning to college or the workplace through instruction and practical application. This class will provide students with foundational knowledge and skills applied in Military Science 2-4. This class will teach cadets the necessary techniques they need to use to be successful on the JROTC team(s) they plan to participate in.

MSC949 [RIFLE MARKSMANSHIP 1](#)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years

Introduction to firearms safety, and rifle marksmanship. Instruction is performed with the use of air rifles and includes the opportunity to participate as a member of the Wa-Hi Competition Rifle Team. This class will provide students with foundational knowledge and skills applied in Rifle Marksmanship 2.

MSC950 [MILITARY SCIENCE 3: Intermediate Leadership Development](#)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Military Science 2 (MSC940) and Teacher Permission

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years

Discussion of managerial techniques, the aspects of mutual respect (leader/subordinate relationship), duties of a leader/manager, the building of teamwork and team spirit, the flow of communications, and the problem-solving process. Students begin the process of transitioning to college or the workplace through instruction and practical application. This class will provide students with foundational knowledge and skills applied in Military Science 4.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

MSC969 [RIFLE MARKSMANSHIP 2](#)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Rifle Marksmanship 1 (MSC949) or Hunter Education with a B average or higher

Graduation Requirement Satisfied: Occupational Education AND Physical Education; Health requirement is satisfied if taken 2 consecutive years

Advanced Rifle Marksmanship offers the theory and practice of Three Position air rifle shooting. Curriculum includes sports physiology, and the technical aspects of Olympic caliber competition rifles and equipment. Students also learn many components of leadership theory and application and aspects of peer coaching using the Army JROTC model. This course is offered to advanced competitive rifle shooters and requires instructor permission.

MSC980 [MILITARY SCIENCE 4: Advanced Leadership Development](#)

Credit: 1.0

Term: Year

Open to: 12

Prerequisite: Military Science 3 (MSC950), Senior Standing and Teacher Permission

Graduation Requirement Satisfied: Occupational Education AND Physical Education

Students will learn the psychology of leadership, moral aspects of leadership, group relations and behavior, communications management resources. Students assume leadership roles and manage major projects throughout the year. This course also prepares for post high school endeavors including college, managerial employment, and service in the military. Students learn basic real world financial management including insurance, investment, banking, and day-to-day budgeting.

SCIENCE COURSE DESCRIPTIONS

AGR841 [VETERINARY ASSISTANT](#)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Lab Science

This course is designed to prepare students for careers relating to veterinary science. Students in this class will learn about companion animals and livestock with emphasis in animal handling, restraint procedures, medical examinations, vaccinations, routine medical procedures, office administration skills, patient and owner management, animal health, and nutrition. Students will have the opportunity to bring their own animals to class for examinations and assist with the birthing and care of school farm animals. Be prepared to get your hands dirty.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

****AGR843** [PHYSICAL SCIENCE IN AGRICULTURE](#)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Lab Science

Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 2 in a 3-year sequence designed to meet high school and college requirements. The focus of this class is to expose students to mechanics, power, technology, and career options in the world of agriculture. Students participating in this course will have experiences in various mechanical and engineering concepts with hands-on activities, projects, and problems. Student's experiences will involve the study of energy, tool operation and safety, material properties, machine operation, and structural components. Students will acquire the basic skills to operate, repair, engineer, and design agricultural tools and equipment. Throughout the course, students will apply the engineering principles to the construction of machines and structures. Students will explore projects and problems similar to those that a technician or engineer may face in their respective careers. In addition, students will understand specific connections between science, math, and technical skills applied to Supervised Agricultural Experiences and FFA components that play an important role in developing an informed agricultural education student. Students will investigate, experiment, and learn about documenting a project, solving problems, and communicating their solutions to their peers and members of the professional community. Although not a required prerequisite, this class will provide students with foundational knowledge and skills applied in Plant Biology, Animal Biology, or Agricultural Mechanics. This course will prepare students For the WCAS, Washington's State Science Assessment.

AGR851 [ANIMAL BIOLOGY \(Dual Credit\)](#)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Lab Science

Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 1 in a 3-year sequence designed to meet high school and college requirements. Animal Biology is designed to provide learning experiences for students in the areas of animal nutrition, cell structures, anatomy and physiology. Students will investigate, experiment, and learn about documenting a research project, solving problems, and communicating their solutions to their peers and members of the professional community. Leadership development in FFA will also be encouraged. This course will prepare students for the WCAS, Washington's State Science Assessment.

AGR861 [PLANT BIOLOGY \(Dual Credit\)](#)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Lab Science

Satisfies 2 High School Graduation requirements. Lab Science and Occupational Education. Year 1 in a 3-year sequence designed to meet high school and college requirements. Plant Biology is designed to provide "hands-on" activities, projects, and problems. Student experiences will include the study of plant anatomy and physiology, soil science, hydroponics and the fundamentals of growing and propagating plants. Students will learn how to apply scientific knowledge and skills to use plants effectively for agronomic, forestry, and horticultural industries. Students will discover the value of plant production and its impact on the individual, the local, and the global economy.

HFL764 [CULINARY METHODS](#) (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: None, but Foods & You is highly recommended to be taken beforehand

Graduation Requirement Satisfied: Occupational Education AND Lab Science; with a maximum of 1.0 Science credit for Culinary Methods and/or Principles

Culinary Methods is a National Restaurant Association approved program. Students work in teams to prepare and serve food. They develop an understanding of the Restaurant and Food Industry, Service and Management. This class focuses on the identification of ingredients, employing various cooking techniques, and the selection and proper use of tools and equipment. Students learn professional knife cuts, various types of moist and dry heat cooking methods and preparation methods for a variety of dishes and introduction to baking such as cookies, cakes, and desserts. All students will obtain a food handlers card included in the class. ServSafe will be taught and testing will be offered to the student. Students passing the ServSafe test will earn 6 credits through Walla Walla Community College. Upon completion of this class a student will earn 6 credits towards a Culinary Degree at Walla Walla Community College. Students have opportunities to compete in cooking contests and will participate in National ProStart level testing and ServSafe Certification.

Note: The hat and jacket are provided/or students may purchase their own.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

HFL766 [CULINARY PRINCIPLES](#) (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Foods & You is highly recommended

Graduation Requirement Satisfied: Occupational Education AND Lab Science; with a maximum of 1.0 Science credit for Culinary Methods and/or Principles

Culinary Principles is a National Restaurant Association approved program. Students work in teams to prepare and serve food, practicing entry-level culinary skills needed to work in the food industry. In addition to developing professional cooking and baking skills, students will learn budgeting, purchasing, marketing, personnel management and menu planning. A hands-on introduction to the fundamentals of professional cooking, includes kitchen safety operations, professional knife skills, basic food cooking and stock preparation, meat and seafood fabrication, teamwork, leadership, general housekeeping, sanitation, clean up and inventory. Students completing this class with a B or better are eligible to earn 12 community college credits towards a Culinary Degree at Walla Walla Community College. This class will provide students with foundational knowledge and skills applied in Food Production Services.

Note: The hat and jacket are provided/or students may purchase their own.

SCI554 PHYSICS

Credit: 1.0

Term: Year

Open to: 10

Prerequisite: None

Graduation Requirement Satisfied: Lab Science

Physics is an introductory course designed to meet high school graduation and college entrance requirements. Physics is a conceptual science class that will focus on creating arguments from evidence. Semester 1 will cover the basic concepts of motion, energy, and forces. Semester 2 will focus on wave phenomena, light, and electricity and magnetism. Specific attention will be placed on the Science and Engineering practices of properly collecting, displaying, and analyzing patterns in data. This course will prepare students for the Washington's State Science Assessment (WCAS).

SCI564 BIOLOGY

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Lab Science

Biology is an introductory course designed to meet high school graduation and college entrance requirements. In this lab-based course, students will have the opportunity to better understand their relationship with other living things. Students will explore the fundamental characteristics of living matter and the unifying principles of life. The course is framed around the themes of structure and function as well as interaction and change. Students will study and learn about biodiversity, cell biology, genetics, ecology, environmental issues and evolution. Additional skills such as data analysis, collaboration, and communication will be present in all units. This course will prepare students for Washington's State Science Assessment (WCAS).

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

SCI573 AP BIOLOGY (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Chemistry (SCI584) OR AP Environmental Science (SCI594) OR AP Chemistry (SCI591). Teacher recommendation required.

Graduation Requirement Satisfied: Lab Science

AP Biology is equivalent to a college class usually taken by students in their first year of college. It prepares students to take the Biology Advanced Placement Exam in the spring. This is an extremely rigorous course for the highly motivated student. The curriculum includes the chemistry of life, cells and cellular energetics, genetics and heredity, evolution, diversity of organisms, structure and function of both plants and animals and ecology. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify. *10th graders are required to have a teacher recommendation from their 9th grade science teacher.

SCI580 [EXERCISE AND SPORTS SCIENCE](#)

Credit: 0.5

Term: Semester

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Science Elective OR Physical Education

This introductory elective course will introduce students to the basic anatomy, physiology, and psychology of exercise and sports science with a heavy focus on independent exploration and student choice. Students will learn how to use science to design and evaluate strength training and nutritional programs for various student-chosen athletic and exercise demands. This is a great partner course for Human Body Systems and Sports Medicine. Students interested in the medical field, physical therapy, athletic training and/or coaching will find this course both engaging and informative.

SCI585 [HUMAN BODY SYSTEMS](#)

Credit: 1.0

Term: Year

Open to: 9*-12

Prerequisite: *9th graders required to be concurrently enrolled in an approved 9th science class in addition to Human Body Systems (SCI585).

Graduation Requirement Satisfied: Occupational Education AND Lab Science

Students investigate the structures and functions of the human body, engage in a series of hands-on laboratory and special projects about human anatomy and physiology. Students learn about a variety of human organ systems, diseases associated with each, and how each system is connected with another. With each of the systems, students explore science in action, building clay organs and tissues on a skeletal Maniken, and using the Anatomage virtual dissection table. The goal of the course is to prepare and equip students with basic skills and terminology they will need for college and career development in the medical field.

SCI587 CP CHEMISTRY

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Algebra 1 (MAT435) or AMPED Algebra 1 (TIE806)

Graduation Requirement Satisfied: Lab Science AND Quantitative (Algebra Based) Science

Chemistry is an introductory course designed to meet high school graduation and college entrance requirements. This introductory course covers the concepts of measurement, dimensional analysis, the nature of matter, chemical reactions, chemical bonding, nuclear chemistry and argument from evidence. This course meets the requirements of an algebra-based science required for entry to most four-year colleges and universities. This course will prepare students for the WCAS, Washington's State Science Assessment. This course is STRONGLY recommended for all students who plan to attend a two or four year institution and is STRONGLY recommended before students take an AP science course.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

SCI591 AP CHEMISTRY (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Honors Algebra 2 (MAT483) OR CP Algebra 2 (MAT460)

Graduation Requirement Satisfied: Lab Science AND Quantitative (Algebra Based) Science

This course is designed to be the equivalent of the general chemistry course usually taken during the first year of college and follows the College Board's AP Chemistry syllabus. This course presents a rigorous treatment of the following concepts: the nature of matter, gas laws, thermodynamics, stoichiometry, bonding, chemical kinetics, chemical equilibria, and more. Students are expected to be motivated and spend extra time outside of class. The problem-solving strategies obtained during this course will prepare college-bound students for careers in the sciences, medicine, engineering, and other technical areas. This course meets the requirements of an algebra-based science required for entry to most four-year colleges and universities. AP Chemistry is available to sophomores, juniors and seniors only. Successful completion of this course will prepare students for AP Biology, AP Physics 1, or AP Environmental Science. Satisfies quantitative course requirements many colleges have for senior year. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

*10th graders are required to have a teacher recommendation from their 9th grade science teacher.

SCI593 AP PHYSICS 1 (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Honors Algebra 2 (MAT483) OR CP Algebra 2 (MAT460)

Graduation Requirement Satisfied: Lab Science AND Quantitative (Algebra Based) Science

This introductory course is equivalent to a first-semester college course in algebra-based physics. The course covers Newtonian mechanics (including rotational dynamics and angular momentum): work, energy and power. Knowledge of algebra and basic trigonometry is required for the course. This course meets the requirements of an algebra-based science required for entry to most four-year colleges and universities. Successful completion of this course will prepare students for AP Biology, AP Chemistry, and AP Environmental Science. Satisfies quantitative course requirements many colleges have for senior year. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify. *10th graders are required to have a teacher recommendation from their 9th grade science teacher.

SCI594 [AP ENVIRONMENTAL SCIENCE \(Dual Credit\)](#)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Honors Geometry (MAT448) OR Geometry (MAT480) OR Geometry in Construction (ITE762)

Graduation Requirement Satisfied: Lab Science AND Occupational Education (CTE)

This introductory course is designed to be the equivalent of a one-semester, introductory college course in environmental science covering the following topics: energy conversions underlie all ecological processes, the Earth itself is one interconnected system, humans alter natural systems, environmental problems have a cultural and social context, human survival depends on developing practices that will achieve sustainable systems. Successful completion of this course will prepare students for AP Biology, AP Chemistry, or AP Physics. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

*All 9th and 10th grade students are required to have a recommendation from their previous science teacher to enroll in this course.

SCI598 CIH GLB WRM ISS (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Chemistry or AP Environmental Science

Graduation Requirement Satisfied: Lab Science

**Pending approval: This introductory course is designed to be the equivalent of a five credits of "non-STEM major" elective science at the University of Washington. As a broad overview of the science of climate change, this course focuses on causes, evidence, future projections, societal and environmental impacts and potential solutions. It introduces the debate on climate change with a focus on scientific evidence. (5 CIH credits available from University of Washington.)

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

TIE882 [BIOTECHNOLOGY](#)

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Successful completion of a biology class: Biology (SCI564), Animal Biology (AGR851), or Plant Biology (AGR861)

Graduation Requirement Satisfied: Occupational Education AND Lab Science

Animal and Plant Biotechnology, provides students with experiences in industry appropriate applications of biotechnology related to plant and animal agriculture as well as medicine. Students will complete hands-on activities, projects, and problems designed to build content knowledge and technical skills involving micro-pipetting, bacterial cultures and transformations, electrophoresis, polymerase chain reaction, bioremediation and tissue culture.

TIE895 [SPORTS MEDICINE 1](#)

Credit: 1.0

Term: Year

Open to: 9*-12

Prerequisite: *Freshman should have a strong science background and/or interest in a medical field

Graduation Requirement Satisfied: Occupational Education AND Science Elective OR Health

Sports Medicine 1 students will be introduced to the concept of the sports medicine team and the wide variety of professions within that field. They will also gain basic knowledge and skills related to the lower extremity, human performance, concussions, medical terminology, medical research, emergency procedures, and become certified in First Aid and CPR. Students will also participate in community/school engagement activities. Students will be expected to get practical experience working with the athletic training staff during practices and athletic competitions. The Sports Medicine program will include hands-on classroom and lab instruction on how to safely evaluate, treat, rehabilitate, and tape to support athletic injuries. Students will also have the opportunity to compete in the Washington Career and Technical Sports Medicine Associate state competition. Leadership development in the Washington Career and Technical Sports Medicine Association will be encouraged.

TIE898 [SPORTS MEDICINE 2](#)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Sports Medicine 1 (TIE895)

Graduation Requirement Satisfied: Occupational Education AND Science Elective OR Health

Sports Medicine 2 students will build upon basic knowledge gained in Sports Medicine 1, with a focus on the upper extremity, head, neck, spine, general medical conditions, and current events in sports medicine. Students will also participate in and lead community/school engagement activities. Students will be expected to get practical experience working with the athletic training staff during practices and athletic competitions. The Sports Medicine program will include hands-on classroom and lab instruction on how to safely evaluate, treat, rehabilitate, and tape to support athletic injuries. Students will also have the opportunity to compete in the Washington Career and Technical Sports Medicine Association state competition. Leadership development in the Washington Career and Technical Sports Medicine Association will be encouraged.

SERVICE COURSE DESCRIPTIONS

LDR700 INTRODUCTION TO LEADERSHIP

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: A desire to positively impact the culture of the school community

Graduation Requirement Satisfied: Elective

This course is designed for future and current leaders who have not been elected to a particular office. This course will explore themes of leadership as well as practical skills for project implementation, advertisement and inclusive planning. Students will study great leaders, as well as concepts such as belonging, school spirit and servant leadership. Students will plan and implement projects around campus.

LDR701 ASB LEADERSHIP

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9-12

Prerequisite: Election to ASB Executive Office or Class Office, or by application

Graduation Requirement Satisfied: Elective

This course is for elected ASB and Class officers and commissioners. Students will develop leadership skills while positively impacting the culture of the school. Students will plan all-school events such as dances, assemblies, social events and spirit activities. Students will study concepts such as belonging, school spirit and servant leadership.

SSC110 TEACHER ASSISTANT

Credit: .5 or 1.0

Term: Sem or Year

Open to: 11-12

Prerequisite: Teacher Permission

Graduation Requirement Satisfied: Elective

Open to the student who wishes to work as a teaching assistant on campus. This course applies toward meeting an elective graduation requirement. This is a Pass/Fail course.

SSC160 OFFICE ASSISTANT

Credit: .5 or 1.0

Term: Sem or Year

Open to: 11-12

Prerequisite: Attendance Secretary or Administrator permission

Graduation Requirement Satisfied: Elective

See your counselor for more information.

SSC170 PEER TUTOR

Credit: .5 or 1.0

Term: Sem or Year

Open to: 11-12

Prerequisite: Teacher Permission

Graduation Requirement Satisfied: Elective

Open to the student who wishes to work as a peer tutor. Peer tutors act as role models and assist students in a variety of settings. Peer tutors will be asked to do specific work with one or more students focused on helping those students' academic progress. This course applies toward meeting an elective graduation requirement. This is a Pass/Fail course.

SSC199 COLLEGE ENRICHMENT

Credit: Varies

Term: Sem or Year

Open to: 11-12

Prerequisite: Application

Graduation Requirement Satisfied: None

The Whitman College and Walla Walla University Enrichment Programs offer outstanding Wa-Hi juniors and seniors the opportunity to expand their academic experience by enrolling in one college course that provides content not available at Wa-Hi. Students will earn both college and high school credit upon successful completion, but they must submit their college transcripts to the high school registrar for credit transcription. Whitman College waives tuition and fees, while Walla Walla University offers a reduced credit hour rate. However, students are responsible for textbooks, supplies, materials, fees, and transportation. Participation requires a full Wa-Hi course load unless administrative approval is granted. These programs are highly competitive and rigorous, and students must apply through the Wa-Hi Counseling Department in the spring prior to enrollment. For more details and application instructions, visit the respective program websites.

***NOTE: Information regarding application procedures for Enrichment Programs is available in the Counseling Office.**

RST191 RUNNING START WWCC PART TIME/WA-HI AND WWCC

Credit: Varies

Term: Sem or Year

Open to: 11-12

Prerequisite: Application

Graduation Requirement Satisfied: Various

Students have the opportunity to enroll in the "Running Start" program at Walla Walla Community College. Applicants must score into college level work on the WWCC entrance exam; the Accuplacer Test. Students may earn both high school credits toward graduation and transferable college credit or college vocational credit simultaneously. Regular tuition fees are incurred by Walla Walla School District. A bulletin, announcing parent meetings in the spring for those interested, will be sent to the homes of all sophomores and juniors.

Graduation Requirement Satisfied: Occupational Education AND .5 credit Contemporary World Problems OR Social Studies Elective; AND Completion of both semesters satisfy .5 credit of Civics OR Social Studies Elective

Students will study criminal, civil and contract law, which involve sales, insurance, banking, employment, and buying and renting property, and the basics of personal finance. Students will review Supreme Court cases and research current and historical developments in law.

MSC960 [MSL 314 MILITARY HISTORY](#) (Dual Credit)

Credit: .5 or 1.0

Term: Sem or Year

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Occupational Education AND Social Studies Elective OR Contemporary World Problems

This class examines the development of western warfare from the Greeks to the Civil War first semester and World War I to modern day second semester. The course includes technological and weapon development, battle tactics, great warrior leaders, and the relationship between the military, the nation, and society. Course instruction includes lecture, discussion of current events and links to the past, historical video presentation, hands on artifacts, and real world in-class presentations and experiences from military veterans. (5 CIH credits available from Central Washington University)

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

SOC603 WORLD HISTORY: 1450-1900

Credit: .5

Term: Semester

Open to: 9-10

Prerequisite: None

Graduation Requirement Satisfied: Social Studies Elective

This course covers historical events that have occurred in world history in the 17th century including the Scientific Revolution, Enlightenment, the French Revolution, the Industrial Revolution, and the reach of Imperialism. Students will be expected to take lecture and textbook based Cornell Notes, examine primary documents, and complete unit exams and comprehensive finals. *This class is only offered 1st Semester

SO 605 WORLD HISTORY: 1900-PRESENT DAY

Credit: .5

Term: Semester

Open to: 9-10

Prerequisite: None

Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective

This course covers historical events that have occurred in World History in the 20th century including World War I, World War II, and the Cold War. Students will be expected to take lecture and textbook based Cornell Notes, examine primary documents, and complete unit exams and comprehensive finals.

*This class is a prerequisite for US History.

SOC632 WASHINGTON STATE HISTORY AND GOVERNMENT

Credit: .5

Term: Semester

Open to: 9-12

Prerequisite: Only open to students who need this graduation requirement.

Graduation Requirement Satisfied: Washington State History Graduation Requirement

This class will cover the physical beginnings of the Pacific Northwest, human history and settlement of the Northwest, as well as Washington's State's government and structure. This class fulfills the Washington State History requirement if not previously met in middle school or if a student transfers from another state and did not complete that state's history requirement. Junior or Senior transfers may receive a waiver.

SOC636 CURRENT WORLD PROBLEMS

Credit: .5

Term: Semester

Open to: 11-12

Prerequisite: None

Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective

This class examines the global issues shaping our world today, including conflict, human rights, environmental challenges, and economic inequalities through a range of media, such as current news sources, documentaries, and digital content. Students will develop media literacy, enabling them to critically analyze information. By engaging in discussions, research, and presentations, students will gain a deeper understanding of these issues and their roles as informed global citizens.

SOC655 UNITED STATES HISTORY

Credit: 1.0

Term: Year

Open to: 10-11

Prerequisite: World History: 1900-Present Day (SOC605) or GEOS 200 AP HUG (SOC682) or Psych 100 AP Psych (SOC669)

Graduation Requirement Satisfied: U.S. History

This class is a survey of US History events in the 20th century covering topics from Progressivism to the Persian Gulf War. Students will be expected to take lecture and textbook based Cornell Notes, examine primary documents, write a CBA historical research paper, and complete unit exams and comprehensive finals.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

SOC657 SOCIOLOGY

Credit: .5

Term: Semester

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective

This course is intended to give a broad picture in the field of sociology, emphasizing critical thinking skills, using the sociological perspective to analyze topics in society, and helping students gain a new understanding of human behavior and social relationships that apply to everyday life. This includes valuable tools for understanding society, examining everything from group dynamics to the factors shaping today's most pressing issues. Expect an interactive class where your thoughts, collaboration, group participation, and feedback are essential to success in this course and to creating a more accurate understanding of the society we live in. Along with taking Cornell Notes, unit tests, and a final exam, you'll also engage in hands-on projects that challenge you to apply sociological ideas to real-world scenarios. This course includes units which may be classified as controversial.

SOC665 CIVICS

Credit: .5

Term: Semester

Open to: 11- 12

Prerequisite: US History (SOC655) - Seniors are given preference

Graduation Requirement Satisfied: Civics

The content of the civics course must include, but is not limited to: (a) Federal, state, tribal, and local government organization and procedures; (b) Rights and responsibilities of citizens addressed in the Washington state and United States Constitutions; (c) Current issues addressed at each level of government; (d) Electoral issues, including elections, ballot measures, initiatives, and referenda; (e) The study and completion of the civics component of the federally administered naturalization test required of persons seeking to become naturalized United States citizens; (f) The importance in a free society of living the basic values and character traits that are essential to individual liberty, fulfillment, and happiness. Students will apply the knowledge and skills gained in the class towards the completion of a Constitutional Issue/Citizen Advocacy project.

SOC667 PSYCHOLOGY

Credit: .5

Term: Semester

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective

This course introduces students to the field of psychology by studying biology and behavior, sensation and perception, consciousness, learning, motivation and emotion, theories of personality, psychological disorders, and methods of therapy. Students are required to take Cornell Notes. Tests are given after every chapter and students will complete a final exam. This course includes units which may be classified as controversial.

SOC669 PSYCH 100 AP PSYCH (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: None

Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective

AP Psychology is equivalent to an entry-level college course and introduces students to the systematic and scientific study of the behavior and mental processes of human beings and other animals. Major units of study include the history and approaches of psychology, sensation and perception, developmental psychology, cognition, memory, psychological disorders, and social psychology. Some units may be classified as controversial. This course requires daily reading and note-taking, weekly vocabulary quizzes, and unit exams with multiple-choice and extended response questions. For a fee, students have an option to take the Advanced Placement exam in May, where they can earn College credit with a passing score. (5 CIH credits available from Eastern Washington University.)

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

SOC682 GEOS 200 AP HUG (Dual Credit)

Credit: 1.0

Term: Year

Open to: 9*-12

Prerequisite: * Teacher Recommendation for 9th graders

Graduation Requirement Satisfied: Contemporary World Problems OR Social Studies Elective

AP Human Geography focuses on the why of the where. Units of study include population, migration, culture, political geography, economic development, industry, agriculture, and urban geography. This course is equivalent to an entry-level college course and requires nightly reading and note-taking, weekly quizzes, and chapter tests consisting of multiple choice and extended response. For a fee, students have an option to take the Advanced Placement exam in May, where they can earn college credit with a passing score. (5 CIH credits available from Eastern Washington University GEOS230-World History, and 5 credits of GEOS200-Globalization and the Environment)

****This class counts as a prerequisite for US History.**

SOC683 HIST 111/HIST112 AP US (Dual Credit)

Credit: 1.0

Term: Year

Open to: 11

Prerequisite: World History: 1900-Present Day (SOC605) or GEOS 200 AP HUG (SOC682) or Psych 100 AP Psych (SOC669)

Graduation Requirement Satisfied: U.S. History

This course is designed to prepare students to pass the Advanced Placement United States History exam. An entry-level college course requires homework five days per week. The college level text will be read from cover to cover, and students will be asked to take Cornell Notes from all their reading. Quizzes are given daily with tests consisting of fifty multiple-choice questions, short answer questions, long essays, and primary document based questions. Students will write a minimum of 8 essays with a culminating research paper at the end of the year. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify. (10 CIH credits available from Eastern Washington University (HIST111 1st semester and HIST 112 2nd semester).

SOC687 POLI 100 AP GOV (Dual Credit)

Credit: 1.0

Term: Year

Open to: 12

Prerequisite: Interest in government and willingness to work hard

Graduation Requirement Satisfied: Civics .5 AND Contemporary World Problems OR Social Studies Elective .5

This AP Course will give students the opportunity to understand their government, political parties, civil rights, components of the United States Constitution, and the influences that create public policy. The textbook, current events and class lectures are the primary resource of information. Students will be required to read on average four pages in the text nightly, including course and unit specific vocabulary. Students will be expected to take Cornell style notes on their reading, as well as participate in daily lectures and class discussion. Students will be assessed by daily reading quizzes, unit tests, and vocabulary quizzes. The objective of this class is to prepare students for the AP College Board exam. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify. (5 CIH credits available from Eastern Washington University)

SPECIAL EDUCATION COURSE DESCRIPTIONS

Placement in special education courses is based on Individualized Education Plans (IEPs) for students who receive specialized services. Course placement is determined by the IEP team, which includes the student, family, special education teacher(s), case manager, general education teacher(s), building administrator, school psychologist, and other service providers. Based on the Individualized Educational Program, courses may be substituted for graduation requirements and repeated for additional credit. For questions, please contact your assigned case manager.

SPE105 Braille

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: IEP

Graduation Requirement Satisfied: IEP determined

This course is designed for students who are blind or visually impaired and need to develop Braille literacy skills. Students will learn Braille reading and writing, along with essential tactile skills and assistive technology. The course emphasizes practical applications for academics and daily life, fostering independence and confidence in communication.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

SPE106 COMMUNITY-BASED INSTRUCTION

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: IEP

Graduation Requirement Satisfied: IEP determined

The program primarily focuses on work exploration, work readiness, and work experience. This program teaches skills to obtain employment (i.e., work ethic, worker characteristics, interpersonal skills, initiative, dependability, employability skills, etc.). The students are placed in both school based and community based job sites in small groups and independent placements. Leisure activities are another focus and will be experienced through community-based learning. The experience matches post-school outcomes as outlined in the student's IEP.

Students enrolled in this course are placed in a work-based learning opportunity that matches post-school outcomes as outlined in the student's IEP.

SPE114 INDEPENDENT LIVING

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: IEP

Graduation Requirement Satisfied: IEP determined

The class focuses on strengthening and building daily living skills and other competencies necessary for successful, independent living after high school. Students also receive instruction in academic, adaptive, and social skills to support vocational goals and independent living post-high school.

SPE220 SOCIAL SKILLS

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: IEP

Graduation Requirement Satisfied: Elective

This course focuses on increasing social skills related to allowing school access, developing/maintaining appropriate relationships, and managing social/societal issues.

STE710 STUDENTS TRANSITIONING INTO EMPLOYMENT POSSIBILITIES (S.T.E.P.)

Credit: 1.0

Term: Year

Open to: Graduates Ages 18-22 year-old Transition Program

Prerequisite: IEP

Graduation Requirement Satisfied: Elective

Students Transitioning into Employment Possibilities (S.T.E.P)- The S.T.E.P program is designed for students 18-22 years of age with mild to moderate disabilities. Students who their IEP Team identifies, including the student, as continuing to need specially designed instruction in vocational, job skills, community access, public transportation access, and independent living skills may be eligible for this program.

SUPPORT COURSE DESCRIPTIONS

CAP102 CREDIT RETRIEVAL

Credit: .5 or 1.0

Term: Sem or Year

Open to: 11-12

Prerequisite: Teacher Recommendation

Graduation Requirement Satisfied: Elective

Guided Credit Retrieval classes are designed to help students get back on track for graduation and feature prescriptive pretests to identify what a student has learned previously and areas of deficiency for each unit of content. An individual learning plan is automatically generated based on pretest results to direct each student to the specific material they have yet to master.

ELD140 ENGLISH LANGUAGE DEVELOPMENT 1

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Placement by ELL staff

Graduation Requirement Satisfied: Elective

This is a one year course which focuses on the development of English for students of other languages who are emerging in English proficiency. Students will focus on listening, speaking, reading and writing skills for conversational and academic purposes along with learning academic and conversational vocabulary. Instruction is based on WIDA's Level 1-2 English Language Proficiency Standards: students will read and analyze adapted and original text in English, develop and apply a range of reading comprehension strategies, and write in a variety of forms. Computers are used for vocabulary and language practice, word processing, and multimedia presentations. Participation in discussions and homework completion are essential to this class. Outside personal reading is required in order to enhance rapid language development and prepare students for college and careers.

ELD150 ENGLISH LANGUAGE DEVELOPMENT 2

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Placement by ELL staff

Graduation Requirement Satisfied: Elective

This is a one year course which focuses on the development of English for students of other languages who are progressing in English fluency and accuracy. Students will extend their listening, speaking, reading and writing skills for conversational and academic purposes along with learning academic and conversational vocabulary. Instruction is based on WIDA's Level 2-3 English Language Proficiency Standards: students will read and analyze adapted and original text in English, develop and apply a range of reading comprehension strategies, respond critically to print and media texts, and write in a variety of forms with an emphasis on argumentative and informational writing. Computers are used for vocabulary and language practice, word processing, and multimedia presentations. Participation in discussions and homework completion are essential to this class. Outside personal reading is required in order to enhance rapid language development and prepare students for college and careers.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

ELD160 ENGLISH LANGUAGE DEVELOPMENT 3

Credit: 1.0

Term: Year

Open to: 9-10

Prerequisite: Placement by ELL staff

Graduation Requirement Satisfied: Elective

This is a one year course which focuses on the development of English for students of other languages who are advancing in English proficiency. Students will extend their listening, speaking, reading and writing skills for conversational and academic purposes along with learning academic and conversational vocabulary. Instruction is based on WIDA's Level 4-5 English Language Proficiency Standards: students will read and analyze original text in English, develop and apply a range of reading comprehension strategies, respond critically to print and media texts; and write in a variety of forms with an emphasis on argumentative and informational writing. Computers are used for vocabulary and language practice, word processing, research, multimedia presentations. Outside personal reading is required in order to enhance rapid language development and prepare students for college and careers.

ELD170 ENGLISH LITERATURE AND LANGUAGE DEVELOPMENT

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Placement by ELL staff

Graduation Requirement Satisfied: Elective

This is a one year course which focuses on the development of English for students of other languages who are advancing in proficiency. Students will extend their listening, speaking, reading and writing skills for conversational and academic purposes along with learning academic and conversational vocabulary. Instruction is based on WIDA's Level 5-6 English Language Proficiency Standards aligned to the ELA 11-12 Common Core State Standards: students will read and analyze literary elements, figurative language and author's point of view/bias in original English literature or informational texts; develop and apply a range of reading strategies; respond critically to print and media texts; write in a variety of forms and learn effective research skills. Computers are used for vocabulary and language practice, word processing, research, multimedia presentations. Outside personal reading is required in order to enhance rapid language development and prepare students for college and careers.

SUP109 STUDENT SUCCESS 9

Credit: .5 or 1.0

Term: Sem or Year

Open to: 9

Prerequisite: Teacher Recommendation

Graduation Requirement Satisfied: Elective

This course will focus on helping students make connections to school and mentor them in developing key academic behaviors and skills. Academic responsibility and accountability are encouraged via monitoring and checking student attendance, setting goals and providing support and resources for improved attendance, tracking and monitoring in-progress grades; providing time and support for completion of missing assignments and projects for current classes, and reinforcing necessary academic skills of identified need: math fluency (multiplication facts), close reading skills, note-taking/study of notes.

SUP110 STUDENT SUCCESS 10

Credit: .5 or 1.0

Term: Sem or Year

Open to: 10

Prerequisite: Teacher Recommendation

Graduation Requirement Satisfied: Elective

This course will focus on helping students make connections to school and mentor them in developing key academic behaviors and skills. WORLD LANGUAGES COURSE DESCRIPTIONS

LAN252 FRENCH 1

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: World Language

This course enables students to read, write and engage in conversations involving everyday topics. Students will develop a mastery of basic questions and responses through a variety of common themes & vocabulary acquisition. Activities include audio and video instruction, speaking practice with partners and table groups, note-taking, online activities and written assignments. French culture is experienced through video, films, and music.

LAN262 FRENCH 2

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Successful completion of French 1 (LAN252)

Graduation Requirement Satisfied: World Language

In this course students will continue taking steps toward fluency in French, through the introduction of more complex grammar concepts and verb tenses. Continued emphasis is placed on listening, speaking and reading skills. More emphasis is placed on written composition and oral presentations in the form of dialogues and skits. French culture will continue to be experienced through video, films, and music.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

LAN282 HONORS FRENCH 3

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Successful completion of French 1 (LAN252) French 2 (LAN 262) and/or teacher recommendation

Graduation Requirement Satisfied: World Language

The students in this course continue their journey toward fluency in French. Students will make greater efforts to speak in the target language during class sessions. This class includes amplification of vocabulary, speaking and writing topics, language structures, and the study of French culture, community and civilization. French culture will continue to be experienced through video, films, and music.

LAN292 HONORS FRENCH 4

Credit: 1.0

Term: Year

Open to: 12

Prerequisite: Successful completion of French 1 (LAN252) French 2 (LAN262), French 3 (LAN282) and/or teacher recommendation

Graduation Requirement Satisfied: World Language

In this course, students continue with the materials and methods used in the third year with the emphasis on speaking and presenting. Though language structure is still a part of the course, more time is devoted to writing original composition and interpreting literature.

LAN253 GERMAN 1

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: World Language

This course enables students to speak, understand, read, and write basic German covering everyday topics. Activities include speaking practice with classmates, note-taking and written assignments, role-playing, watching and discussing video stories about young people in Germany, singing, and mastery of basic questions and answers. Students have the option to host a student from Germany and travel to Germany.

LAN263 GERMAN 2

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Successful completion of German 1 (LAN253 and/or teacher recommendation)

Graduation Requirement Satisfied: World Language

Students in this course develop a greater ability to speak, understand, read, and write German. Activities include speaking practice with classmates, note-taking and written assignments, role-playing, watching and discussing video stories about young people in Germany, and singing. Students continue to master basic questions and answers, and develop greater ease with creative and extended conversations. Class is conducted primarily in German. Students have the option to host a student from Germany and travel to Germany.

LAN283 HONORS GERMAN 3

Credit: 1.0

Term: Year

Open to: 11-12

Prerequisite: Demonstrate ability to work independently and take initiative. Work in a small group with other students. Class format is semi-independent study.

Graduation Requirement Satisfied: World Language

The students in this course continue their journey towards fluency in German. Students speak German to each other the whole time, and take turns assuming the role of teacher/facilitator. This class includes amplification of vocabulary, speaking and writing topics, language structures, and the study of German history and civilization. Ability to work independently and self-motivation are necessary. Students have the option to host a student from Germany and travel to Germany.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

LAN293 HONORS GERMAN 4

Credit: 1.0

Term: Year

Open to: 12

Prerequisite: Demonstrate ability to work independently and take initiative. Work in a small group with other students. Class format is semi-independent study.

Graduation Requirement Satisfied: World Language

The students in this course continue their journey towards fluency in German. Students speak German to each other the whole time, and take turns assuming the role of teacher/facilitator. This class includes amplification of vocabulary, speaking and writing topics, language structures, and the study of German history and civilization. Ability to work independently and self-motivation are necessary. Students have the option to host a student from Germany and travel to Germany.

LAN255 SPANISH 1

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: None

Graduation Requirement Satisfied: World Language

This course enables students to read, write and engage in conversations involving everyday topics. Students will develop a mastery of basic questions and responses through a variety of common themes & vocabulary acquisition. Activities include audio and video instruction, speaking practice with partners and table groups, note-taking, online activities and written assignments. Spanish speaking cultures are experienced through video, films, and music.

LAN257 SPANISH FOR SPANISH SPEAKERS

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Students should be able to speak Spanish

Graduation Requirement Satisfied: World Language

Spanish for Spanish speakers is designed specifically for **Native, Heritage, and Dual Language** or students who have successfully completed **Spanish 3**. This course can be taken for 2 years consecutively, with alternating content. The course emphasizes reading, writing, grammar as well as the history of Mexico from independence from Spain to the present. The student's prior ability to write or read Spanish is not a prerequisite. Students completing this course will achieve a level of Advanced-Low.

LAN265 SPANISH 2

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Successful completion of Spanish 1 (LAN255) or teacher recommendation

Graduation Requirement Satisfied: World Language

In this course students will continue taking steps towards fluency in Spanish, through the introduction of more complex grammar concepts and verb tenses. Continued emphasis is placed on listening, speaking and reading skills. More emphasis is placed on written composition and oral presentations in the form of dialogues and skits. Spanish speaking cultures will continue to be experienced through video, films, and music.

LAN285 HONORS SPANISH 3

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Successful completion of LAN255 (Spanish 1), Spanish 2 (LAN265) and/or teacher recommendation

Graduation Requirement Satisfied: World Language

The students in this course continue their journey towards fluency in Spanish. The course will be taught almost exclusively in Spanish and it is expected that students will make greater efforts to speak in the target language during class sessions. This class includes amplification of vocabulary, speaking and writing topics, language structures, and the study of Spanish-speaking cultures, communities and civilizations. Spanish speaking cultures will continue to be experienced through video, films, and music.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

LAN 296 AP SPANISH LANGUAGE (Dual Credit)

Credit: 1.0

Term: Year

Open to: 9-12

Prerequisite: Successful completion of Honors Spanish 3 (LAN285) and teacher recommendation

Graduation Requirement Satisfied: World Language

This course focuses on preparation for the Spanish Advanced Placement Exam. The course will be taught exclusively in Spanish and it is expected that students will speak Spanish during the class. This course encompasses aural/oral skills, reading, grammar, composition and culture components of the language. A strong work ethic is required, as much homework and study will be expected. Students can achieve a level of advance-mid to advance-high during this course. Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

LAN298 AP SPANISH LITERATURE AND CULTURE (Dual Credit)

Credit: 1.0

Term: Year

Open to: 10-12

Prerequisite: Successful completion of AP Spanish Language (LAN296) and teacher recommendation

Graduation Requirement Satisfied: World Language

The AP Spanish Literature and Culture course uses a thematic approach to introduce students to representative texts (short stories, novels, poetry, and essays) from Peninsular Spanish, Latin American, and United States Hispanic literature. Students continue to develop proficiencies across the full range of the modes of communication (interpersonal, presentational, and interpretive), honing their critical reading and analytical writing skills. Literature is examined within the context of its time and place, as students reflect on the many voices and cultures present in the required readings. The course also includes a strong focus on cultural connections and comparisons, including exploration of various media (e.g., art, film, articles, and literary criticism). Students are strongly encouraged to take the Advanced Placement exam in May, where they can earn college credit. The registration for AP testing is in November. There is a fee for this test; however, there are partial fee waivers and payment plans available to students who qualify.

To sign up for the [SEATech Skills Center](#), students input their preferred class in their SchoolLinks Course Planner at the time of registration AND fill out a SEATech [application](#). Current students who submit a SEATech application will be given priority based on seniority and the timeliness of their request according to the number of seats allotted to a student's district. After priority registration concludes, all applications will be accepted on a first-come first-served basis, pending confirmation of eligibility and approval of a student's application. Students are not accepted until they receive official notification from SEATech. Students should check with their Wa-Hi counselor for equivalency credit approval.

SEATech SKILLS CENTER PROGRAMS

[ADVANCED MANUFACTURING AND WELDING TECHNOLOGY 1](#) (Dual Credit) **Credit:** 3.0 **Term:** Year **Open to:** 11-12

Prerequisite: Approval

Graduation Requirement Satisfied: .5 3rd Year Math; .5 Junior OR Senior English; .5 Lab Science OR .5 Science Elective; Occupational Education OR Elective for a total of 3 credits*

ADVANCED MANUFACTURING AND WELDING TECHNOLOGY 1 is a state of the art, industry based shop environment designed for the student who is ready to develop skills and understanding of manufacturing, welding and metal fabrication. Students will learn skills that will prepare them to further their education/career for industries such as building fabrication, machining, construction, foundry work, agriculture, aerospace and many more. This learning opportunity will provide hands-on practice and knowledge, which could lead to industry certification and college credits. Students who are successful in this class are ready for their post high school step of career, trade school, community college, or university. **This is a Boeing partner program and students who earn their CorePlus Certification are eligible for employment.**

Class subjects include: Safety, Computer Aided Drafting (CAD), Welding (GMAW, SMAW, GTAW), fabrication, safety, aerospace drilling and riveting, CNC Plasma Cutting, CNC Laser cutting/engraving, and more. Students have the opportunity to earn the following certifications/qualifications: COREPlus Manufacturing Certification; OSHA 10 hr Safety; Forklift/Scissor Lift Operator; First Aid/CPR; Students in the program may qualify for as many as 13.4 Walla Walla Community College credits.

***A Welding jacket, helmet, safety glasses, gloves and a tape measure will be provided for student use.**

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

ADVANCED MANUFACTURING AND WELDING TECHNOLOGY 2 (Dual Credit) **Credit:** 3.0 **Term:** Year **Open to:** 12

Prerequisite: Approval, Advanced Manufacturing and Welding Technology 1, earning a B or better (or have teacher approval)

Graduation Requirement Satisfied: .5 3rd Year Math; .5 Junior OR Senior English; .5 Lab Science OR .5 Science Elective; Occupational Education OR Elective for a total of 3 credits*

ADVANCED MANUFACTURING AND WELDING TECHNOLOGY 2 is a continuation of the skills learned in AMWT 1. Students will widen their manufacturing skills by getting hands-on experience using manual and CNC lathes and milling machines. They will also learn to weld on aluminum and stainless steel as well as continue to improve their overall welding and fabrication skills. A particular emphasis will be placed on quality assurance and project management.

This learning opportunity will provide hands-on practice and knowledge, which could lead to industry certification and college credits. Students who are successful in this class are ready for their post high school step of career, trade school, community college, or university. **This is a Boeing partner program and students who earn their CorePlus Certification are eligible for an interview.**

Students have the opportunity to earn the following certifications/qualifications: COREPlus Manufacturing Certification; OSHA 10 hr Safety; Forklift/Scissor Lift Operator; First Aid/CPR; Rigging; Students in the program may qualify for as many as 13.4 Walla Walla Community College credits, dependant upon the number of credits earned in year one.

***A Welding helmet, safety glasses, gloves, precision measurement equipment and a tape measure will be provided for student use.**

CAREERS IN EDUCATION 1 (NEW) (Dual Credit)

Credit: 3.0

Term: Year

Open to: 11-12

Prerequisite: Approval

Graduation Requirement Satisfied: 1.0 Junior OR Senior English; .5 Health; .5 Contemporary World Problems OR Social Studies Elective; Occupational Education OR Elective for a total of 3 credits*

The Careers in Education Program is a comprehensive, career-preparatory course designed for high school juniors and seniors interested in becoming PreK-12 educators, preschool teachers or childcare providers. This three-period block program immerses students in the educational field through a combination of classroom instruction and hands-on practicum experiences. Students start with foundational coursework that explores current issues in education, effective teaching strategies, and educational theories. Through observations and interactive extensions, including field trips and guest speakers, students gain a broad understanding of the teaching profession and develop skills to apply in real classroom settings.

In addition to the classroom-based learning, students are paired with mentor teachers at area schools in grade levels and subjects aligned with their interests. This hands-on practicum allows students to assist and work directly with students under the guidance of experienced educators. Additionally, seminars held throughout this practicum offer support and the chance to reflect on experiences, fostering further development as future educators.

Additional Experiences and Certifications: The program includes a focus on child development from infancy through adolescence, with students participating in field trips, professional talks, and an Infant Simulation experience. Students have opportunities to earn valuable certifications, such as the STARS Certification, CPR/First Aid Certification, and a Food Worker Card, and to gain practical training for roles in early childhood education and childcare. Curriculum will engage students in training that prepares them to attain a Paraeducator General Certificate. By the program's end, students will have developed a professional portfolio that highlights their growth, understanding, and readiness for further education or careers in teaching.

College Credit and Career Pathways: Through successful completion, students can earn dual credit in courses such as CBC EDUC 101, ECED 120, WWCC ECED & 100, and EDUC & 115 (subject to change). This course supports graduation pathways within all CTE program areas, setting students on a meaningful path toward careers in education.

***Students in the program may qualify for as many as 14 college credits through Walla Walla Community College and/or Columbia Basin College.**

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

CAREERS IN MEDIA & ENTERTAINMENT 1 (Dual Credit)

Credit: 3.0

Term: Year

Open to: 11-12

Prerequisite: Approval

Graduation Requirement Satisfied: 1.0 Fine Arts; 1.0 Junior OR Senior English; Occupational Education OR Elective for a total of 3 credits*

Students will elevate their skills, readying themselves for the dynamic world of media and entertainment. Today's media landscape sees more audio and video content uploaded monthly than all major U.S. media networks released over the past three decades combined. Websites, apps, and social platforms now rely on engaging animation, motion graphics, and video to connect with audiences. The demand is also growing for video game design and interactive media, which require not only technical skills but also great storytellers who can create immersive experiences. This creates even more opportunities for media professionals skilled in consistent, high-quality content creation.

Our hands-on curriculum, grounded in 21st-century skills, emphasizes story structure and advanced storytelling techniques—skills that give content creators the competitive edge they need. Students will complete a variety of projects, from classroom assignments and personal creative work to client-based projects for schools, nonprofits, and local organizations. Through training in documentary, public service, advocacy, corporate, and narrative filmmaking, as well as skills relevant to game design, students gain the tools to explore employment in diverse media and content creation roles or to continue their studies in media-related fields.

*Students in the program may qualify for as many as 10.4 Walla Walla Community College credits.

CAREERS IN MEDIA AND ENTERTAINMENT 2 (Dual Credit)

Credit: 3.0

Term: Year

Open to: 12

Prerequisite: Careers in Media & Entertainment 1, earning a B or better (or have teacher approval)

Graduation Requirement Satisfied: 1.0 Fine Arts; 1.0 Junior OR Senior English (if not already earned); Occupational Education OR Elective for a total of 3 credits*

This program gives students who have completed Careers in Media and Entertainment 1 a chance to make a series of choices, quarter by quarter, to either pursue more advanced and challenging projects, to set up an individualized program of study to focus on a specific discipline—such as storyboarding, visual effects, or animation—or to provide leadership to first-year students on their projects.

The program's focus remains on achieving a greater fluency in story structure and storytelling techniques while bearing down on the range of technical skills expected of successful content creators in an ever-changing marketplace. It is also customary for second-year students to spend some significant time with the instructor working through career and post-secondary planning and preparation.

***Students in the program may qualify for as many as 10.4 Walla Walla Community College credits, dependent on the credits earned in year one.**

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

CONSTRUCTION TECHNOLOGY 1 (Dual Credit)

Credit: 3.0

Term: Year

Open to: 11-12

Prerequisite: Approval

Graduation Requirement Satisfied: 1.0 3rd Year Math; .5 Junior OR Senior English; .5 Lab Science OR Science Elective; .5 Fine Arts; Occupational Education OR Elective for a total of 3 credits*

Construction Technology 1 will prepare students with occupational skills in areas of blueprint reading, carpentry, electrical systems, masonry, and plumbing. This incredible opportunity introduces the individual to the construction building trades. Each year students will research and design both renewable and nonrenewable energy sources including the construction of residential structures. These skills are applicable to a wide range of careers. In addition, safety is key in this industry which is why it is our priority to identify appropriate hand and power tool usage. Upon completing this course, students will also be eligible to earn college credits and industry certification including an introduction to apprenticeship opportunities.

Course Goals: Students will understand the career options, career ladders, and job search techniques within their area of career preparation; Students will be able to work cooperatively and demonstrate a positive attitude; identify, use, and maintain tools, equipment and materials; perform mathematical calculations needed for industry and the common skills of general construction, electrical systems, print reading, carpentry, masonry, and plumbing. Students will develop a quality work ethic.

Students have the opportunity to earn the following certifications/qualifications: Core Plus Construction, OSHA 10 hr Construction Safety; Forklift/Scissor Lift Operator; First Aid/CPR; Rigging; Students in the program may qualify for Walla Walla Community College credits.

It is expected that students in this class develop and maintain a professional and respectful ethic. Because this is a Career and Technical Education class, work ethic is extremely important to success in this class. Students must be ready to work in class each day. Students must strive to do their best and be self-motivated. Students will be expected to work in small and large groups.

CONSTRUCTION TECHNOLOGY 2 (Dual Credit)

Credit: 3.0

Term: Year

Open to: 12

Prerequisite: Construction Technology 1, earning a B or better (or have teacher approval)

Graduation Requirement Satisfied: 1.0 3rd Year Math (if not already earned); .5 Junior OR Senior English; .5 Lab Science OR Science Elective, .5 Fine Arts; Occupational Education OR Elective for a total of 3 credits*

Construction Technology 2 is the next step in the construction program. It gives students who have completed Construction Technology 1 a chance to develop more experience in the industry. They will gain project management as well as leadership skills. Second year students will also take a more advanced approach in the trades developing skills needed for a future in the construction industry.

Each year students will research and design both renewable and nonrenewable energy sources including the construction of residential structures. These skills are applicable to a wide range of careers. In addition, safety is key in this industry, which is why it is our priority to identify appropriate hand and power tool usage. Upon completing this course, students will also be eligible to earn college credits and industry certification including an introduction to apprenticeship opportunities.

Course Goals: Students will understand the career options, career ladders, and job search techniques within their area of career preparation. Students will be able to work cooperatively and demonstrate a positive attitude; identify, use, and maintain tools, equipment and materials; perform mathematical calculations needed for industry and the common skills of general construction, electrical systems, print reading, carpentry, masonry, and plumbing. Students will develop a quality work ethic.

Students have the opportunity to renew the following certifications: First Aid/CPR; Forklift/Scissor Lift Operator; Rigging; Students in the program may qualify for as many as 34 college credits through Bates Technical College and Clover Park Technical College.

It is expected that students in this class develop and maintain a professional and respectful ethic. Because this is a Career and Technical Education class, work ethic is extremely important to success in this class. Students must be ready to work in class each day. Students must strive to do their best and be self-motivated. Students will be expected to work in small and large groups.

WALLA WALLA HIGH SCHOOL COURSE CATALOG 2025-2026

CRIMINAL JUSTICE 1 (Dual Credit)

Credit: 3.0

Term: Year

Open to: 11-12

Prerequisite: Approval

Graduation Requirement Satisfied: 1.0 Junior OR Senior English; .5 Civics; .5 Contemporary World Problems OR Social Studies Elective (up to 1.0 Social Studies credit); .5 Physical Education; Occupational Education OR Elective for a total of 3 credits*

Criminal Justice 1 is an overview of the criminal justice system and the careers available in this growing employment field such as policing, corrections, criminal justice support and homeland security. Students will investigate the roles of local and state law enforcement agencies, federal agencies, corrections and supporting careers. Learning opportunities include field trips to criminal justice and public service facilities, discovering pathways through guest speakers, as well as participating in career level training in the criminal justice community. Students will receive training in critical analysis, conflict resolution, record keeping, technical writing, fingerprinting, investigative procedures, patrol procedures and criminal/traffic laws. How laws are created, the difference between criminal and civil laws, and law enforcement ethics will also be explored. This course is delivered in a police academy style setting where mental and physical fitness is emphasized. Classes are conducted in a professional and disciplined manner with a strong team building and a participation environment paralleling the criminal justice field. This course includes progress towards an Associates of Applied Science Degree in Criminal Justice and career pathway to a variety of criminal justice careers including law enforcement, corrections, security and law. CPR certification included in the course. **Students in the program may qualify for up to 5 Walla Walla Community College Credits.**

CRIMINAL JUSTICE 2 (Dual Credit)

Credit: 3.0

Term: Year

Open to: 12

Prerequisite: Criminal Justice 1, earning a B or better (or have teacher approval)

Graduation Requirement Satisfied: 1.0 Social Studies Elective or .5 Social Studies Elective and .5 Contemporary World Problems; 0.5 Physical Education; .5 Lab Science or Science Elective (satisfied with successful completion of Criminal Justice 1 and Criminal Justice 2); Occupational Education OR Elective for a total of 3 credits*

Criminal Justice 2 is a continuation of Criminal Justice 1, with additional instruction, exploration, and course work in leadership, middle management, and administration within all three subcategories of the criminal justice system. Students will have the opportunity to focus on a more direct career path as well as receive additional off site experiences within the local criminal justice community. Students in Criminal Justice 2 will have the chance to develop additional skills to help prepare them for this demanding and rewarding career field. Learning opportunities include field trips to criminal justice and public service facilities, discovering pathways through guest speakers, as well as participating in career level training in the criminal justice community. Students will receive training in critical analysis, conflict resolution, record keeping, technical writing, fingerprinting, investigative procedures, patrol procedures and criminal/traffic laws. How laws are created, the difference between criminal and civil laws, and law enforcement ethics will also be explored. This course is delivered in a police academy style setting where mental and physical fitness are emphasized. Classes are conducted in a professional and disciplined manner with a strong team building and participation environment paralleling the criminal justice field. This course includes progress towards an Associates of Applied Science Degree in Criminal Justice and career pathway to a variety of criminal justice careers including law enforcement, corrections, security and law. CPR certification included in the course. **Students in the program may qualify for up to 10.4 Walla Walla Community College Credits,** dependent upon the number of credits earned in year one.

HEALTH SCIENCE CAREERS (Pre-Nursing) (Dual Credit)

Credit: 3.0

Term: Year

Open to: 11-12

Prerequisite: Approval

Graduation Requirement Satisfied: 1.0 Junior OR Senior English; .5 Health; 1.0 Lab Science OR Science Elective; Occupational Education OR Elective for a total of 3 credits*

Students will be introduced to the healthcare field, with an emphasis on knowledge and skills applicable to many healthcare occupations. Students explore health careers in their areas of interest, as well as target high demand areas for future job opportunities. Students successfully completing all coursework and the clinical internship will be eligible to take the Washington State Nurse Assistant Certification (NAC) exam. Students successfully completing the course with a B or better grade may qualify to earn college credits. *Personal transportation is required for clinicals.

Students in the program may qualify for as many as 13.4 Walla Walla Community College credits. Students prepare to take the Washington State Certified Nurse Assistant (NAC) Exam (fees apply) and meet several entry requirements for Allied Health and Nursing courses. Food Handler's Card, CPR, First Aid Certification and Blood Borne Pathogens are included in the course. Scrubs and stethoscopes will be provided for student use. A background check, flu vaccine, and 2-step TB test are state requirements to participate in clinical rotations at partner facilities.

Career Connected Classes

DESCRIPTION: The following visual diagrams are designed to help students select classes that align to careers. You might utilize the visual diagrams in this document to select classes that allow you to explore career options, deepen your knowledge and skills related to one or multiple careers or areas of interest, or choose classes that are eligible for the Career and Technical Education (CTE) Graduation Pathway. See page 4 of the Walla Walla High School Course Catalog for more information regarding education pathways.

SELECTING CAREER CONNECTED CLASSES

OR

HOW TO FULFILL THE CTE GRADUATION PATHWAY REQUIREMENTS

PROGRAM AREA REQUIREMENTS

- Earn CTE credits that align to your High School and Beyond Plan
- Earn two CTE credits in the same program area: Agricultural Education, Business and Marketing Education, Family and Consumer Sciences, Health Sciences, Skilled and Technical Sciences, or STEM (Science, Technology, Engineering, and Math)
- Ensure your coursework offers an opportunity for you to earn college credit (i.e. CTE Dual Credit or Advanced Placement) and/or leads to a credential/certification (i.e. CNA Certification)

PATHWAY SPECIFIC REQUIREMENTS

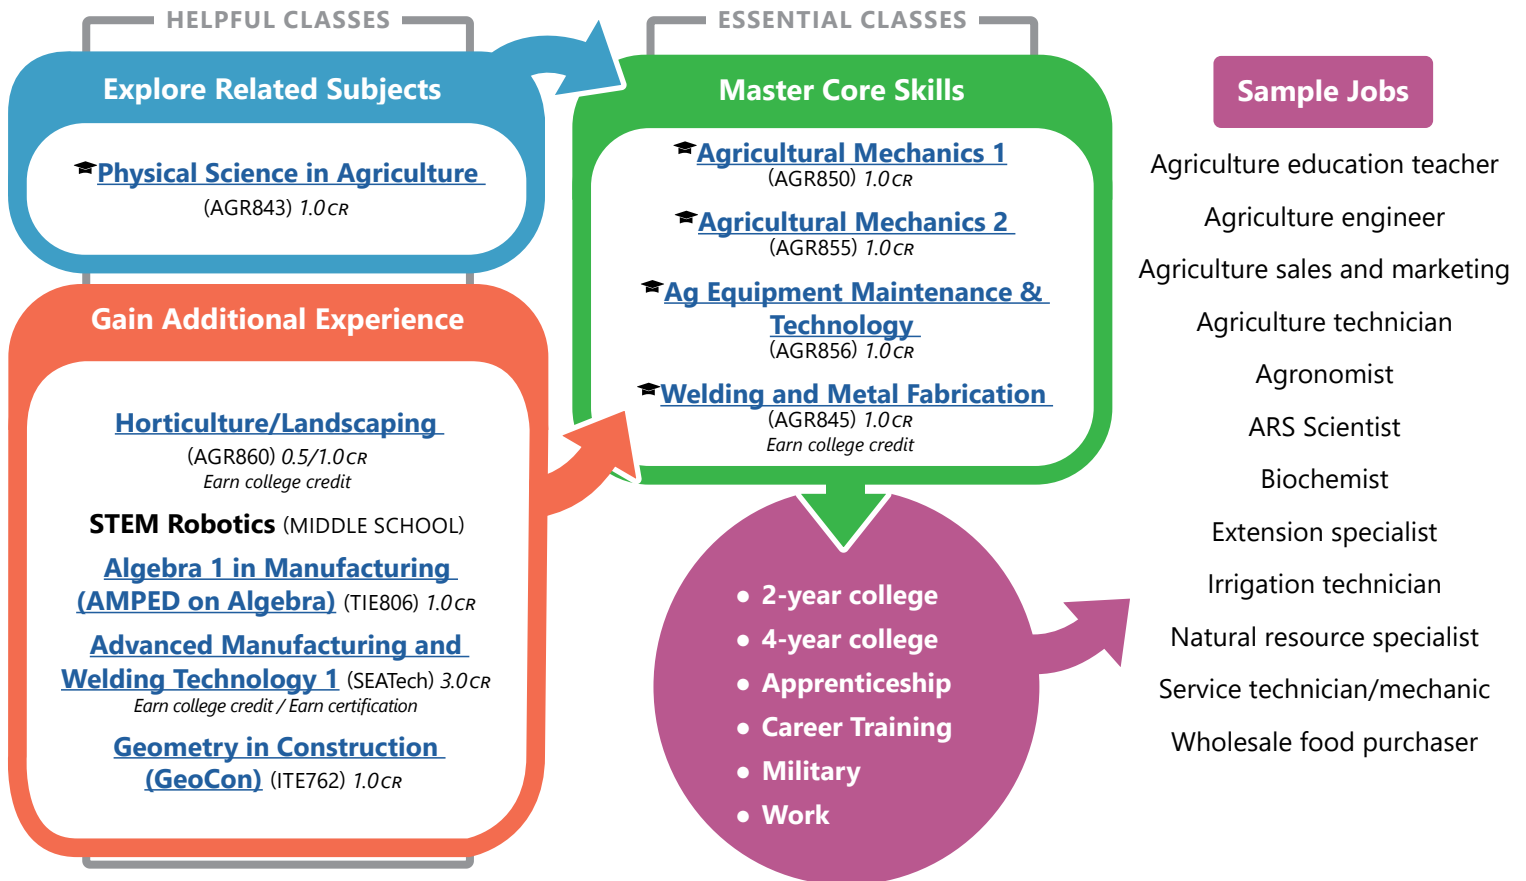

- Earn CTE credits that align to your High School and Beyond Plan
- Earn two credits identified by 📎 in the same CTE Graduation Pathway (i.e. Construction and Design)
- Ensure your coursework offers an opportunity for you to earn college credit (i.e. CTE Dual Credit or Advanced Placement) and/or leads to a credential/certification (i.e. CNA Certification)

📎 Credits are eligible for CTE Graduation Pathway (partially completed classes may not qualify)

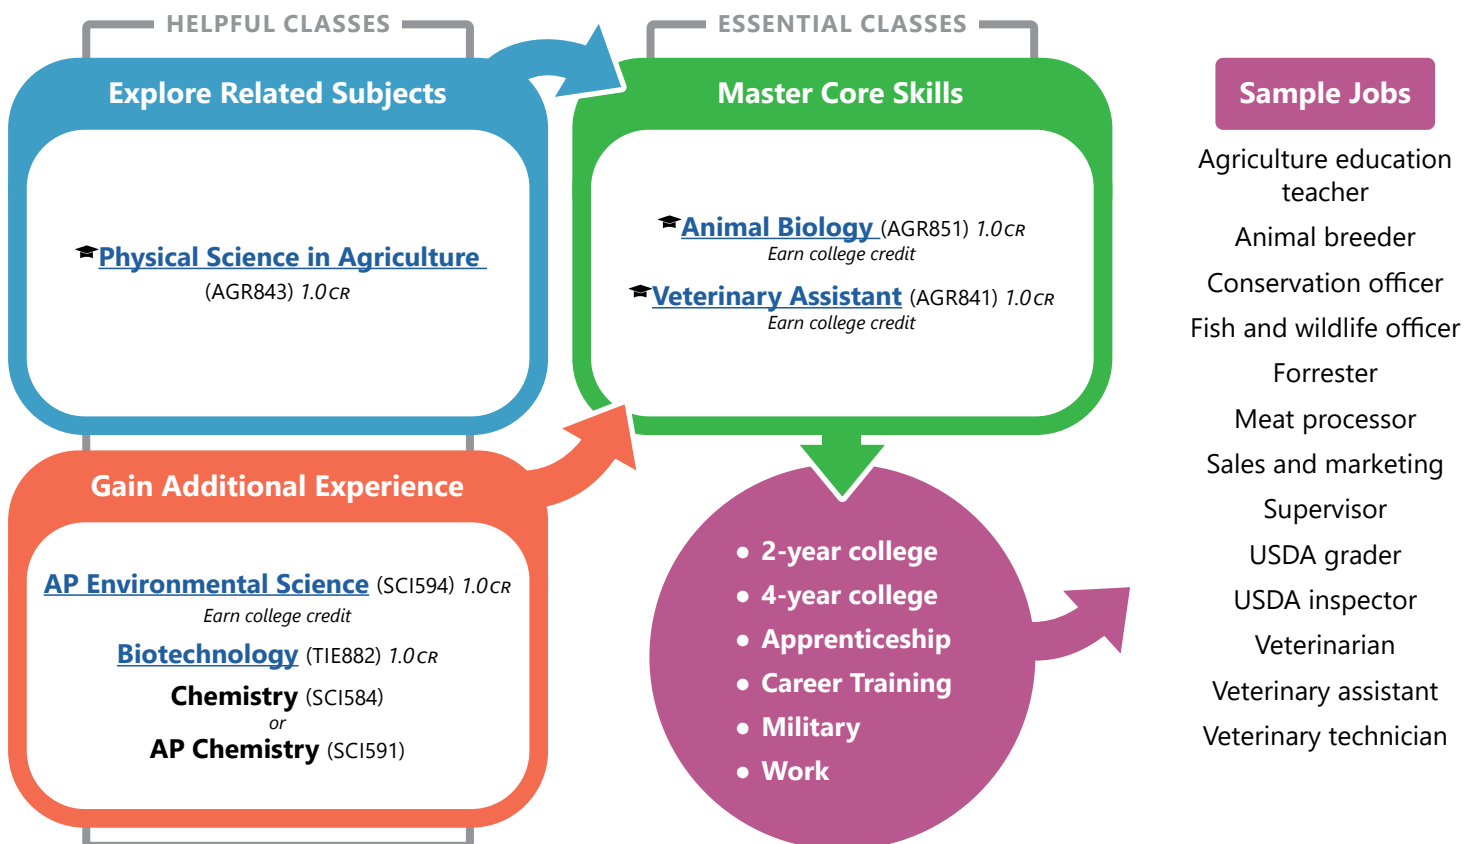

📎 Credits may satisfy CTE Graduation Pathway requirements, pending OSPI Approval

To qualify, must earn 2.0 credits specific to CTE Graduation Pathway which includes the opportunity to earn college/dual credit and/or leads to an industry credential/certification

Agricultural Power, Structural, and Technical Systems

Animal Systems

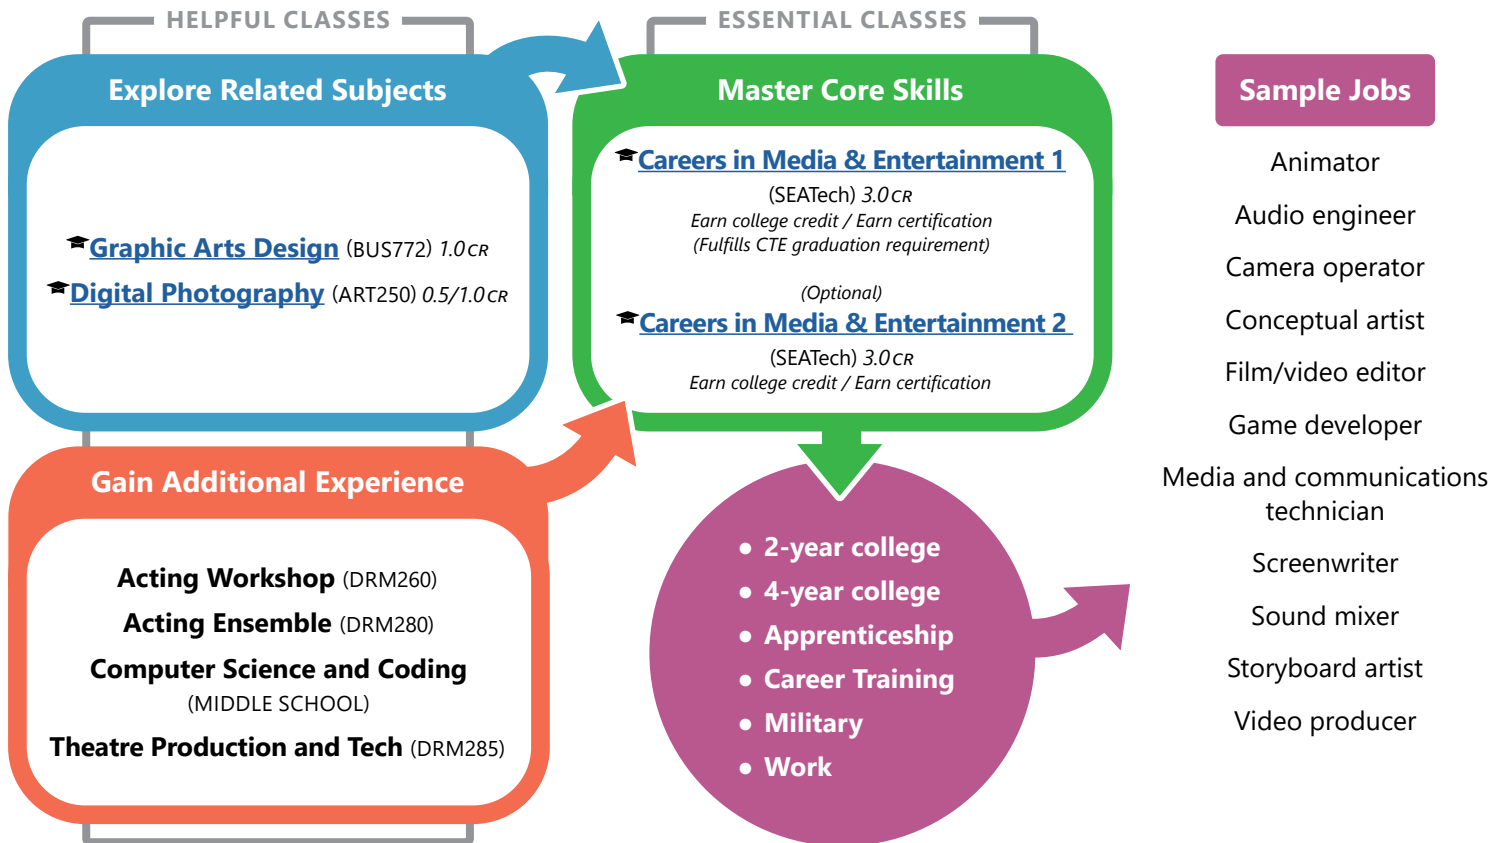

☛ Credits are eligible for CTE Graduation Pathway (partially completed classes may not qualify)

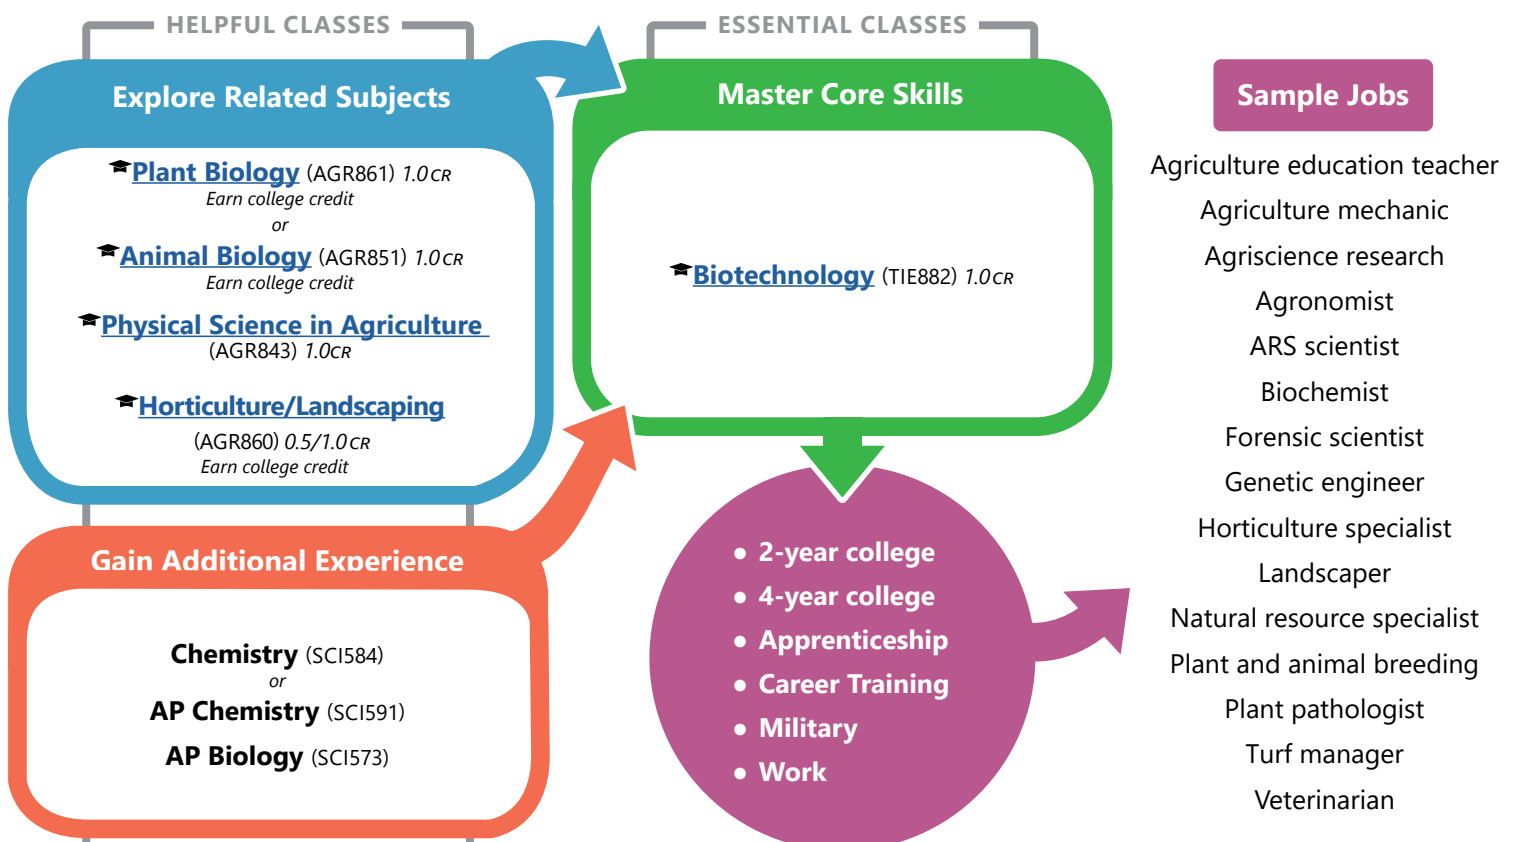

☞ Credits may satisfy CTE Graduation Pathway requirements, pending OSPI Approval

To qualify, must earn 2.0 credits specific to CTE Graduation Pathway which includes the opportunity to earn college/dual credit and/or leads to an industry credential/certification

Audio and Video Technology and Film

Biotechnology Systems

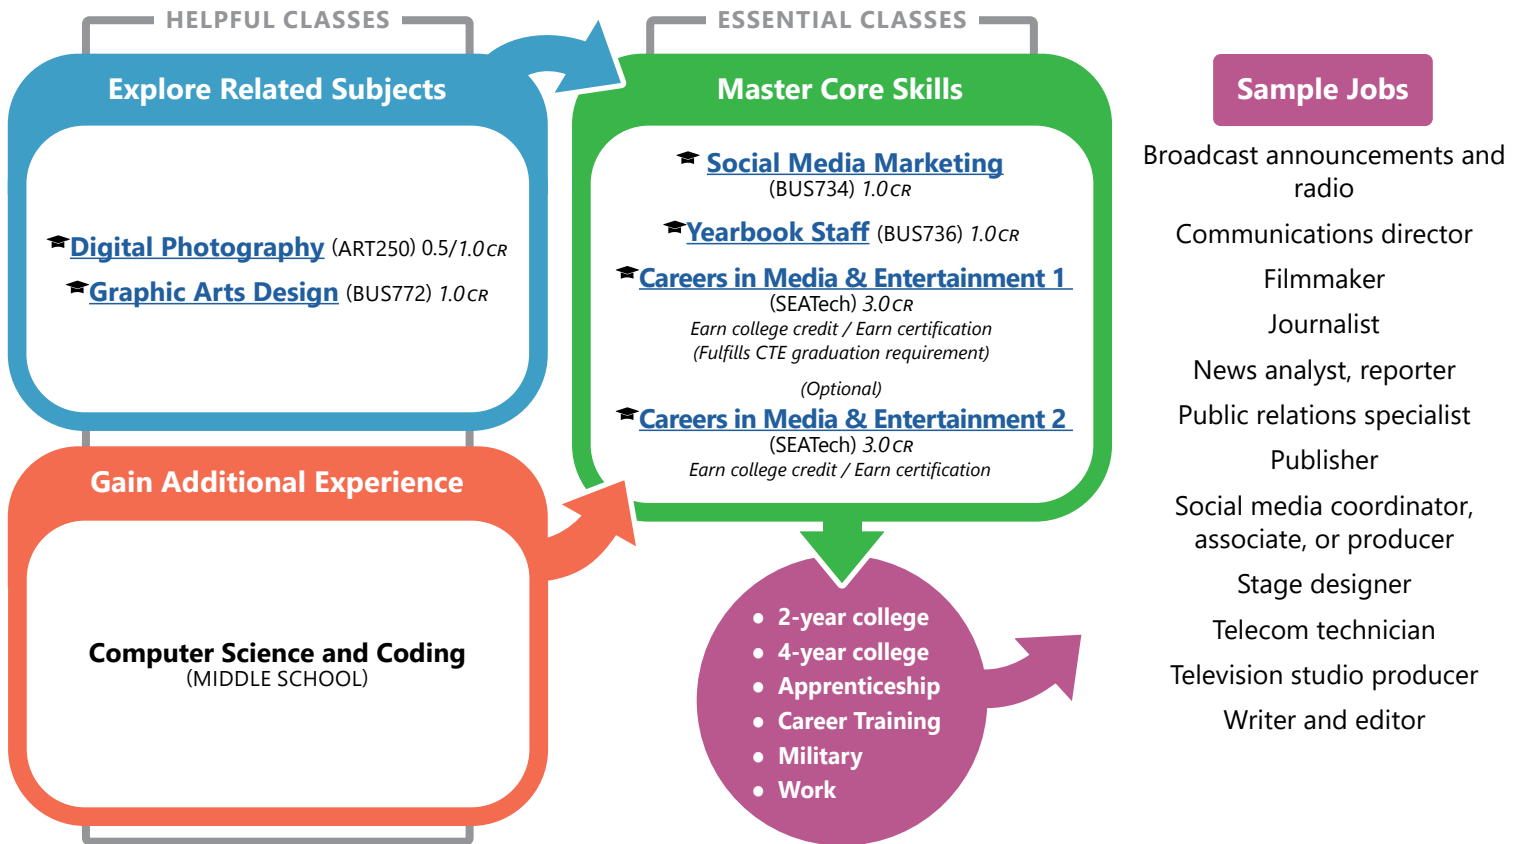

✦ Credits are eligible for CTE Graduation Pathway (partially completed classes may not qualify)

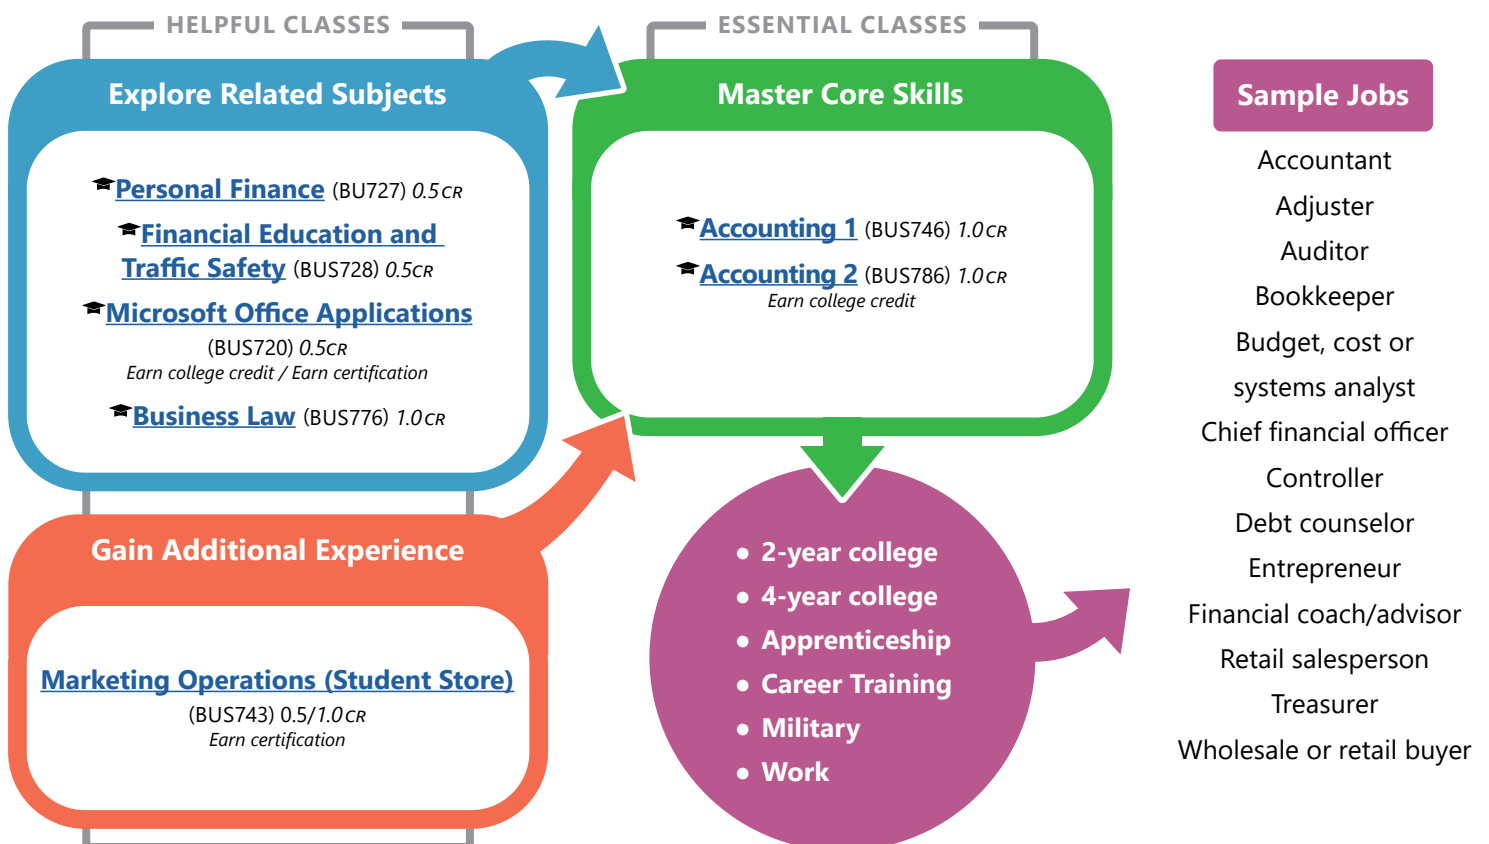

✦ Credits may satisfy CTE Graduation Pathway requirements, pending OSPI Approval

To qualify, must earn 2.0 credits specific to CTE Graduation Pathway which includes the opportunity to earn college/dual credit and/or leads to an industry credential/certification

Broadcasting and Journalism

Business Financial Management

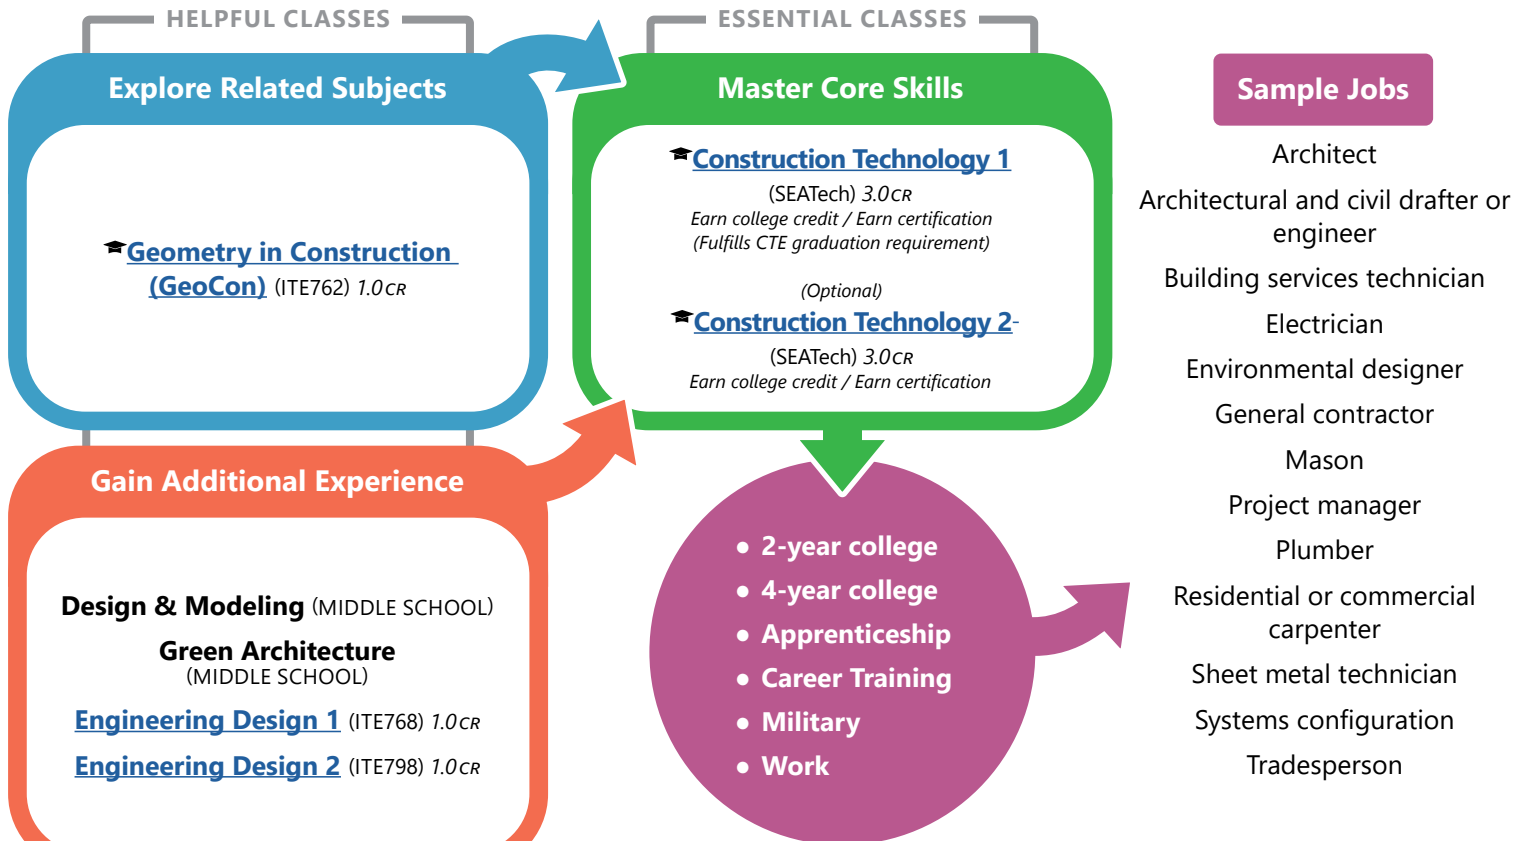

✦ Credits are eligible for CTE Graduation Pathway (partially completed classes may not qualify)

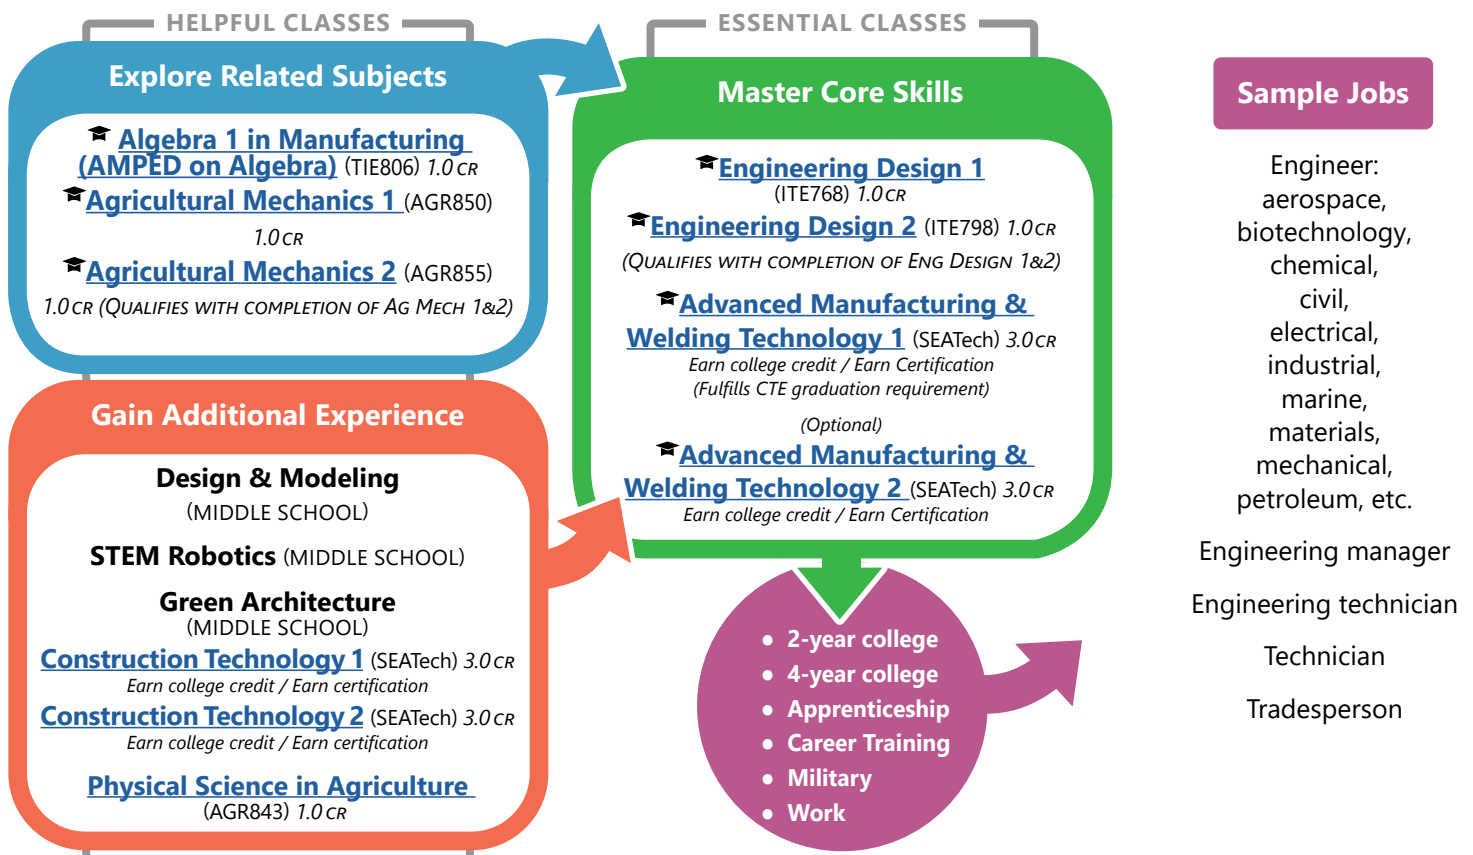

✦ Credits may satisfy CTE Graduation Pathway requirements, pending OSPI Approval

To qualify, must earn 2.0 credits specific to CTE Graduation Pathway which includes the opportunity to earn college/dual credit and/or leads to an industry credential/certification

Construction and Design

Engineering

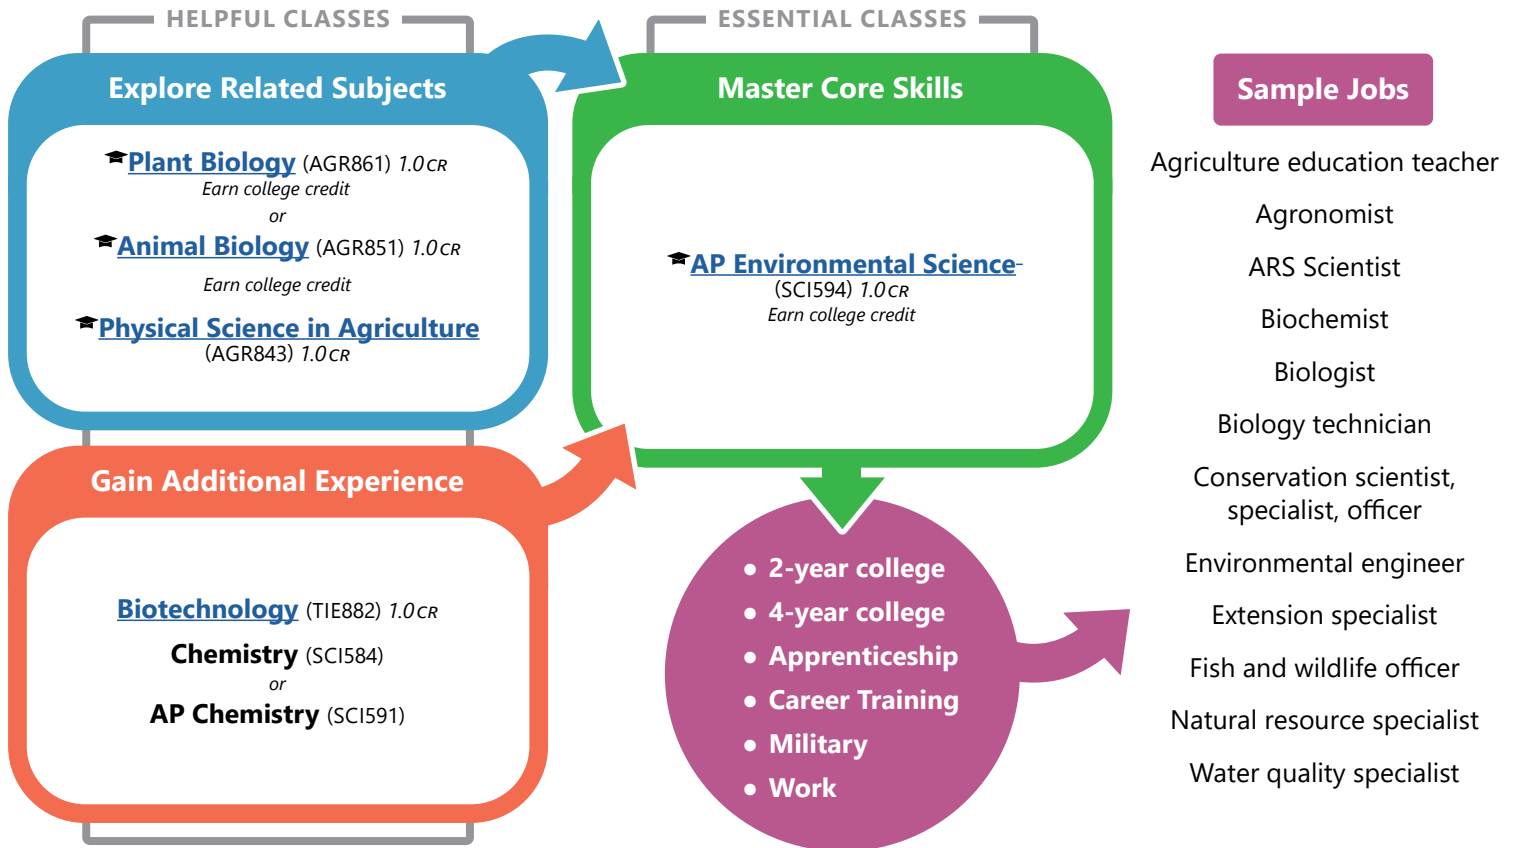

✦ Credits are eligible for CTE Graduation Pathway (partially completed classes may not qualify)

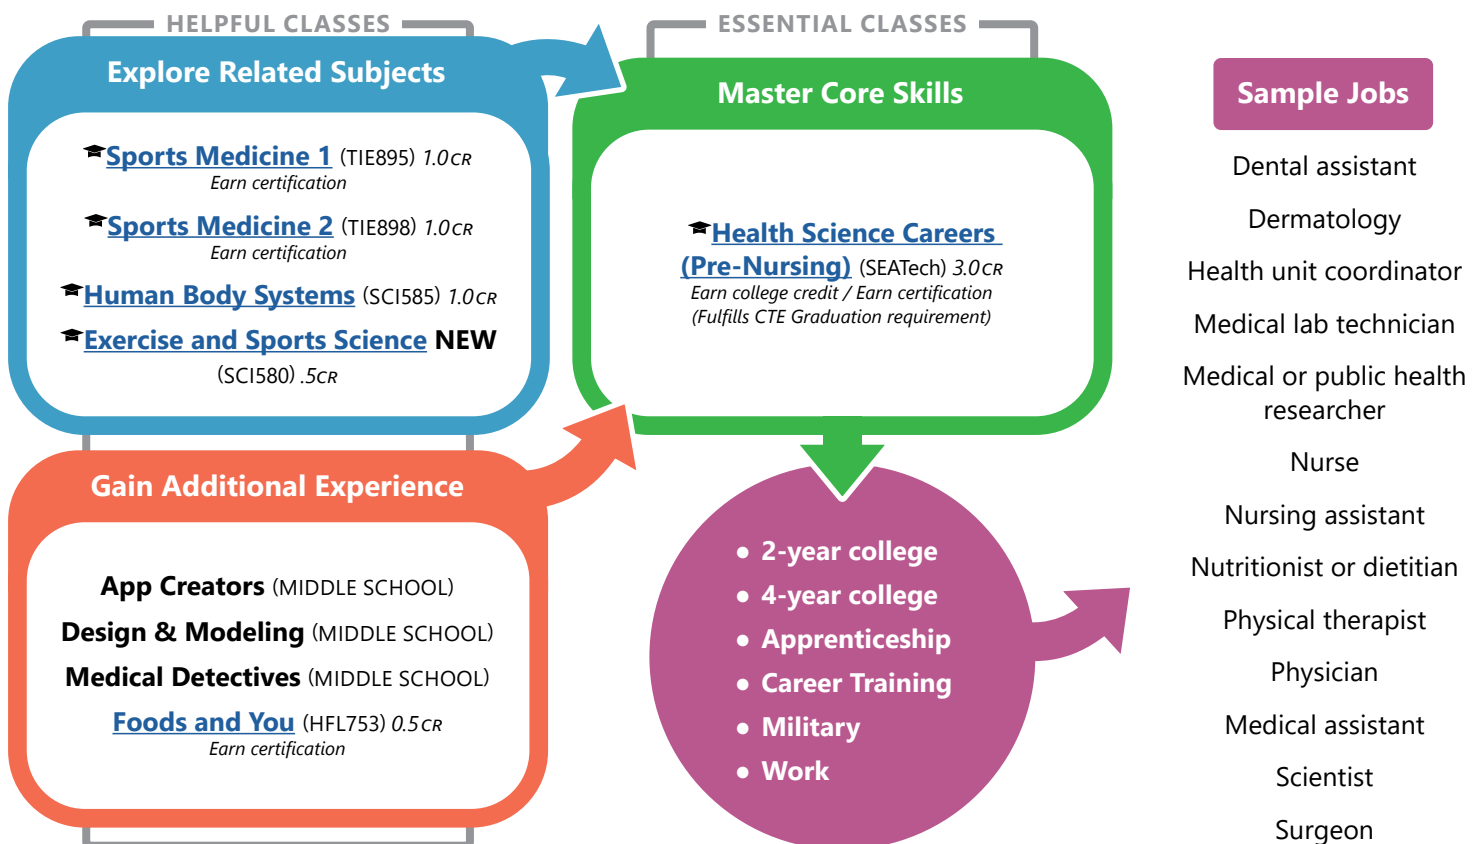

✦ Credits may satisfy CTE Graduation Pathway requirements, pending OSPI Approval

To qualify, must earn 2.0 credits specific to CTE Graduation Pathway which includes the opportunity to earn college/dual credit and/or leads to an industry credential/certification

Environment Services and Natural Resources

Health Science Careers/Pre-Nursing (Therapeutic Services)

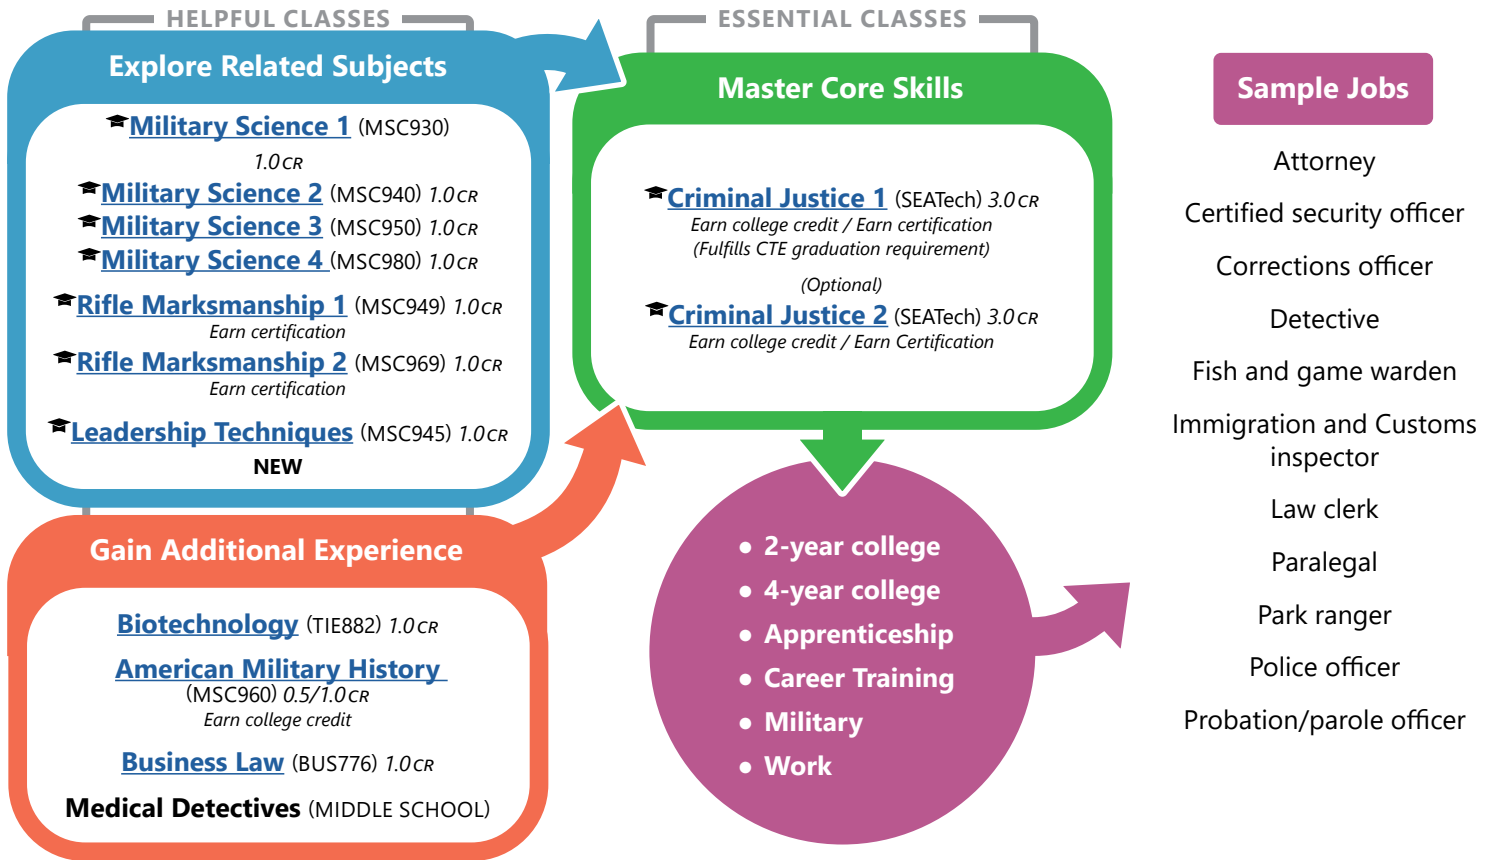

🏠 Credits are eligible for CTE Graduation Pathway (partially completed classes may not qualify)

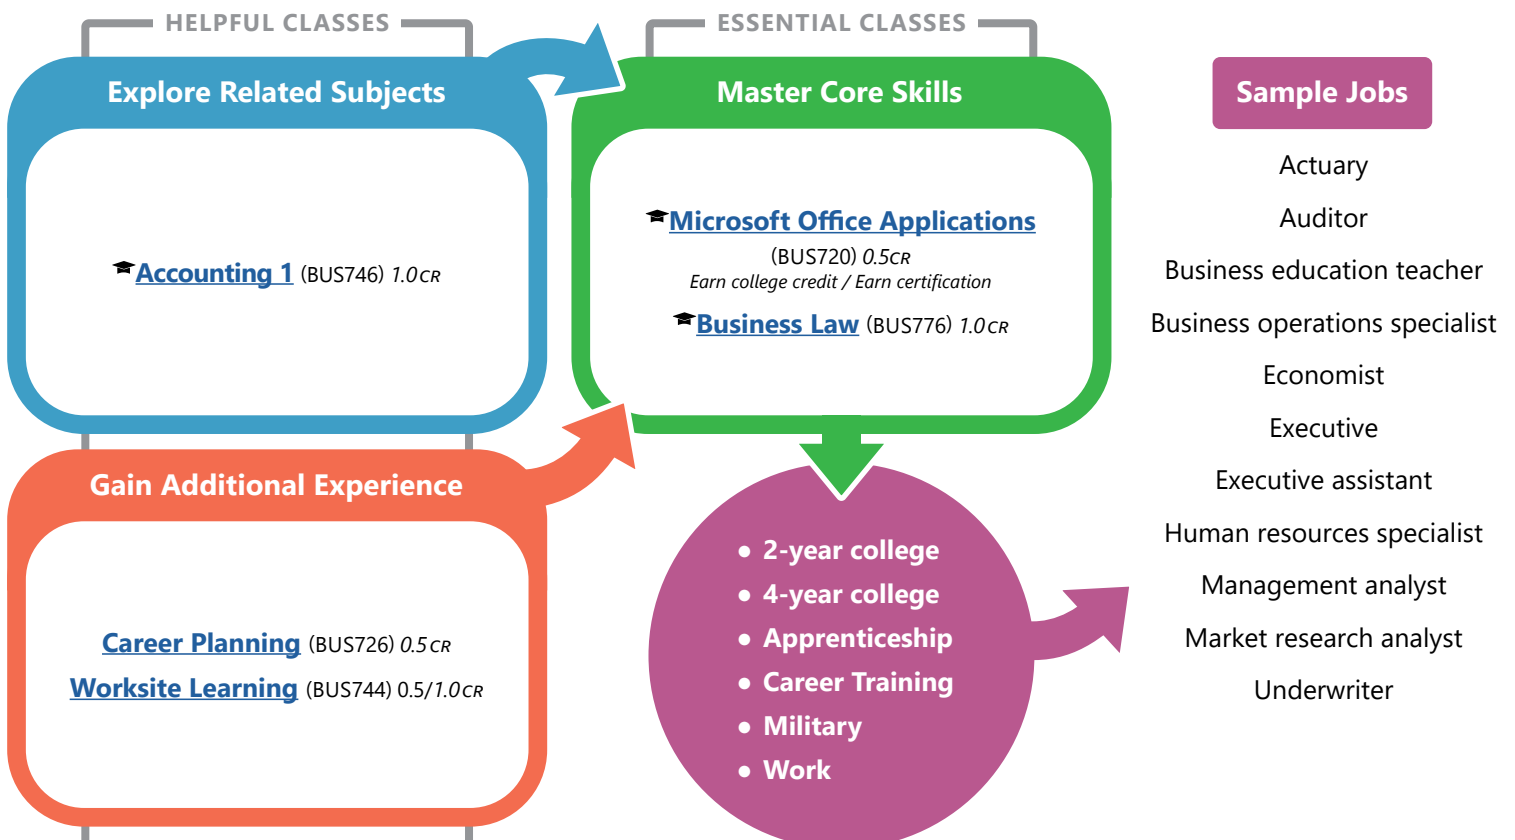

🏠 Credits may satisfy CTE Graduation Pathway requirements, pending OSPI Approval

To qualify, must earn 2.0 credits specific to CTE Graduation Pathway which includes the opportunity to earn college/dual credit and/or leads to an industry credential/certification

Law Enforcement Services

Management; Administrative and Information Support

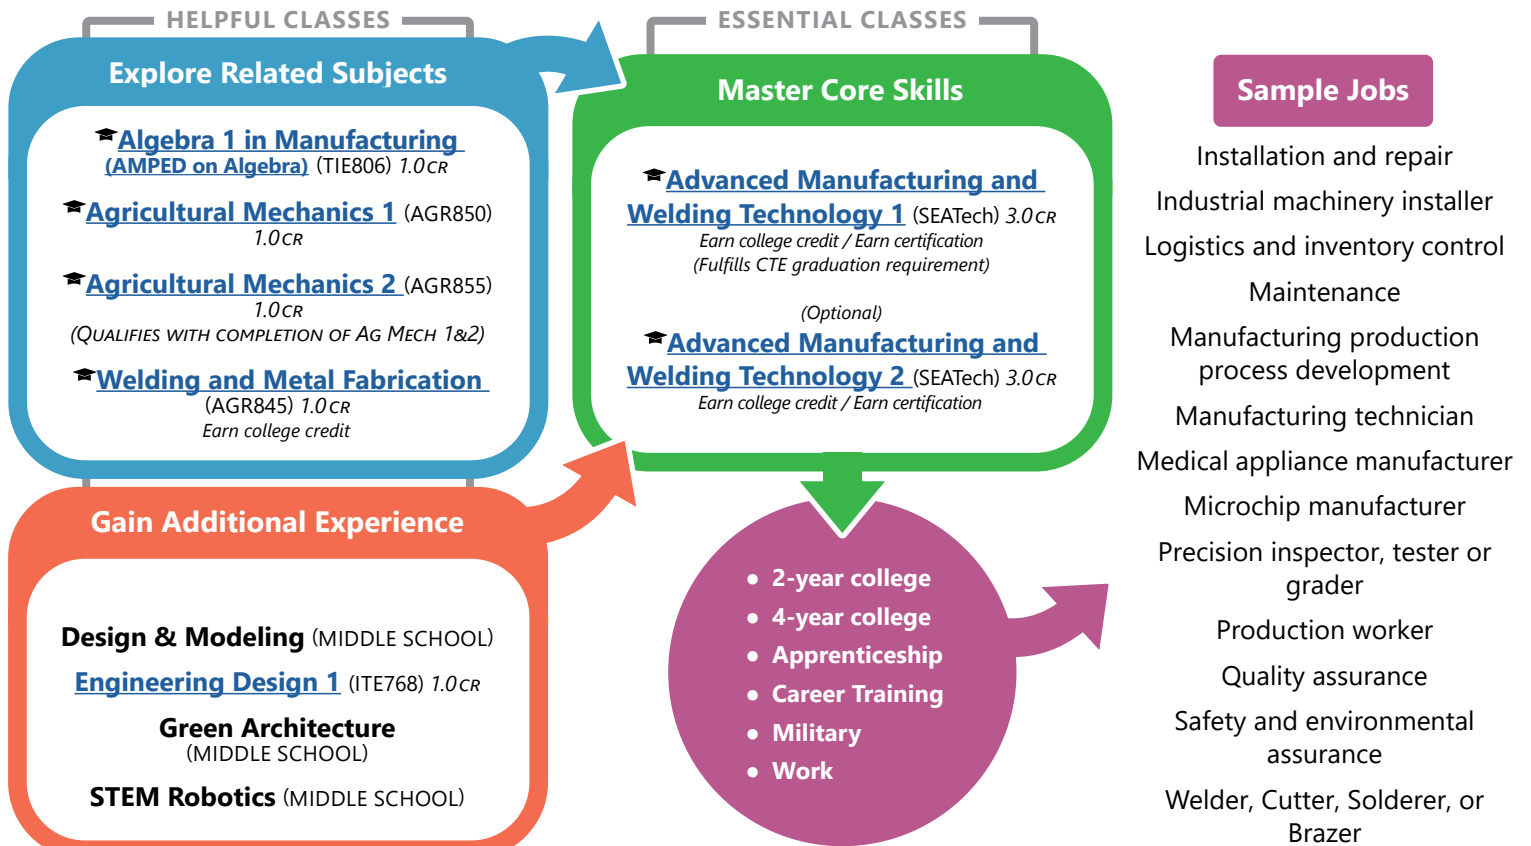

✦ Credits are eligible for CTE Graduation Pathway (partially completed classes may not qualify)

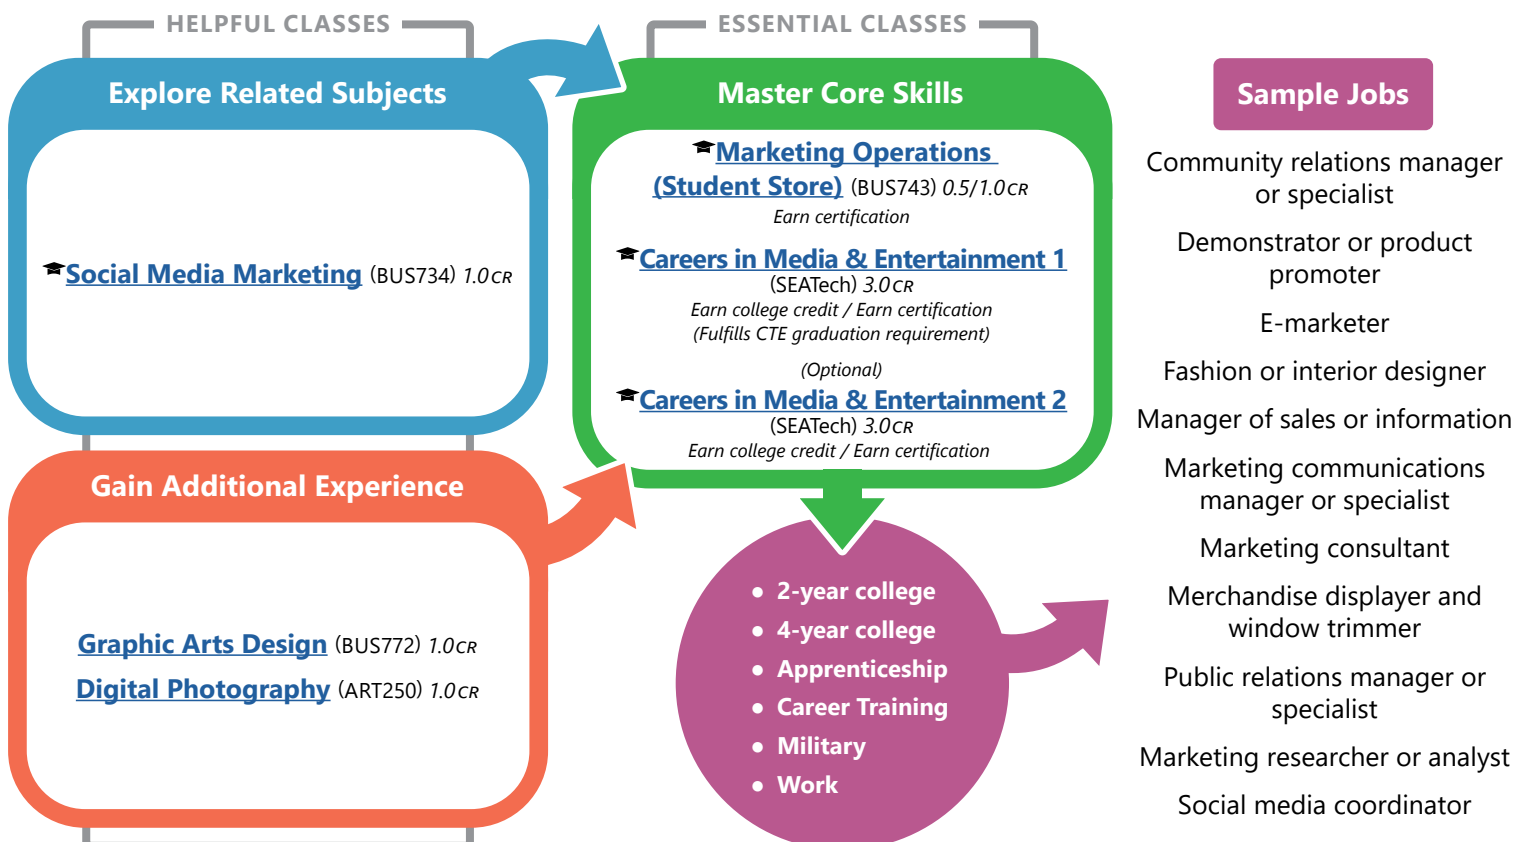

✦ Credits may satisfy CTE Graduation Pathway requirements, pending OSPI Approval
