8. COMMUNICATIONS TO THE BOARD OF EDUCATION

*Communications
to the Board*

A. Chula Vista Classified Employees Organization

President Angela Reed emphasized the need for professional development for all classified employees. It is severely lacking. Although improvements have been made in the areas of office, transportation, and facilities, the shortfall continues for paraprofessionals who have the most direct contact with students. There continues to be a disparity from site to site.

She is hopeful this year the District implements a comprehensive, ongoing professional development program that includes classified educators.

B. Chula Vista Educators

President Rosi Martinez shared that the positive working relationship with District leadership continues. There are many committees through consultation which focus on instruction, curriculum, and professional development with the Instructional Services department and Language Development department. Collaboration with Human Resources continues with supporting staff and establishing a new contract. The positive relationships allow for this work to move forward to ensure CVESD is the best place for staff, students, and families.

Unfortunately, several grievances were recently submitted which have a potential to go into arbitration. This was a result of District leaders or site leaders sending communication or holding meetings which impact member employment. Not only is it a violation of members' rights but creates mistrust and bypasses the bargaining process. She emphasized the importance of site leaders and all leaders to be familiar with the union agreements. There is an expectation that the District bargains in good faith. An example of a grievance she shared was related to preschool teachers.

CVE asked that the Board Direct district leadership to settle grievances before they go to arbitration.

Campus Clinic continues to offer COVID-19 testing kiosk locations at Clearview, Castle Park, Eastlake, and the District Office, and kiosks will remain open during holidays. Cal/OSHA adopted prevention nonemergency regulations. Influenza and RSV cases are declining.

School security assessment walkthroughs include key security personnel. Meetings were held with the security consultant to review the current project goal to find hazards and vulnerabilities at each school. An update on the camera project was also shared.

Board Members thanked Mr. Romero for the update and asked questions about the camera project timeline and the security assessment report.

B. Report by District Parent Leaders

Ms. Casey introduced Senior Director of Student, Family, Community, and Instruction Dr. Lisa Forehand who provided an overview of Parent and Family Engagement. Through surveys and family communication CVESD gained valuable input on what families most need: parenting tips, support for behavior at home, and real-life issues including fentanyl, human trafficking, bullying, and cyberbullying. As a result, a Parent Engagement Series was established. The Family Focus Series consists of six workshops throughout the year addressing the important issues that parents addressed.

CVE Council of PTA President Janice Oani shared that the PTA's mission is to make every child's potential a reality by engaging and empowering families and communities to advocate for all children. It serves our community through education, collaboration, and resource services. Activities held throughout the District this year were mentioned.

Black Learners Advisory Council (B-LAC) Co-Chair Allyson Dopwell shared the vision and values. Learning is meaningful and relevant, connected with each child's individual needs, ethics, culture, and experiences and is linked with the world outside the classroom.

District English Learner Advisory Committee (DELAC) role is to advise the District on programs and services for English Learner students. District Advisory Committee Chair Tiffany Gonzalez shared some of the milestones and achievements and the increase on parent participation.

Board Members thanked Dr. Forehand and parent representatives for the presentation. Appreciation is given to all stakeholders and our parents.

C. Report on Youth for a Sustainable Future

Mr. Esquivel introduced South Bay Sustainable Communities Network Founder and Executive Director Tina Mathias. She gave a presentation about the network and highlighted the need to establish a partnership with CVESD to support efforts on sustainable future. The mission of the network is to build healthy and sustain communities by encouraging them to create lasting change in their daily lives through education and community engagement in

environmental conservation, neighborhood composting, and sustainable urban farming. Also presenting were three high school and college students who are active participants in this network.

The presentation included information on composting, the SB1383 new law which mandates the reduction of methane emission from landfills caused by food waste, schools rescuing edible foods by sorting lunch waste, and combating climate change.
