Dublin City Schools K-12 Health Education

K-12 Health Education Vision Statement

A Dublin City Schools Health Education empowers students with the knowledge, skills, and tools to make informed decisions, cultivate healthy habits, and develop lifelong well-being. By fostering a comprehensive understanding of their own physical, mental, emotional, social, and spiritual health, students are equipped to navigate life's challenges, build resilience, and thrive in all aspects of their lives. Course content aims to build transferable skills, foster self-regulation, and promote healthy habits through a comprehensive, inclusive, and developmentally appropriate curriculum including:

- Experiential learning that prioritizes skill development and real-world application.
- Instruction that grounds curriculum and practices in the latest research on health education and brain development.
- A collaboration with the community that fosters partnerships with families, community organizations, and healthcare providers to support student learning and well-being.

By embracing these principles, DCS can create a K-12 health education program that empowers students to live healthy, fulfilling lives, and contribute positively to their communities.

Instructional Essential Questions:

- How do my choices impact my mental health? physical health? social health?
- How are my mental, physical and social health connected?
- How do my choices impact the health of my communities?

Dublin City Schools K-12 Health Education

2nd Grade

Course Goals

Second grade students will be taught a foundational understanding of health concepts that promote physical, emotional, and social well-being, enabling them to make informed choices and develop healthy habits. The second grade year focuses on defining, understanding, and practicing strategies and skills related to feelings, healthy choices, bullying, personal wellness/safety, conflict resolution, life readiness, and self/cultural awareness.

Course Content Standards

Feelings/Coping Skills		
Standard	Indicator	Student Outcomes
1. Use functional health information to support health and well-being of self and others.	1.2.2 Identify dimensions of wellness.	Define stress/anxiety. (counselor)
