**Thank you for your guidance and feedback as State Library staff developed this tool to track challenges of library materials. Here is the live link for your use: https://nyslibrary.libwizard.com/f/ifchallengesnys**

**The purpose of this tool is to collect data on the number of materials challenged in libraries, the types of materials being challenged, and circumstances around the challenges.**

**We are considering this a "soft launch." Feel free to use the link and/or share with the libraries you support. We intend to add the link to the State Library's website next week. Please share any feedback you have about the tool so that we can continue to improve it.**

**If you have any questions, don't hesitate to reach out. Thank you again for your support on this important project.**
