SB 117 COVID-19 LEA Response Funds

Funding is allocated to each county office of education, school district, and charter school (both local and direct funded) on the basis of average daily attendance (ADA), <http://www.cnn.com/> excluding charter school nonclassroom based (NCB) ADA, funded as of the 2019–20 First Principal Apportionment. SB 117 Funds are allowed to be used for costs associated with maintaining nutrition services, cleaning and disinfecting facilities, personal protective equipment, and materials necessary to provide students with opportunities for distance learning. The priority for these funds is health and safety needs for LEAs, including for student meal access, during COVID-19 closure periods.

Expanded Learning Opportunity Program (ELO-P)

The Expanded Learning Opportunities Program (ELO-P) provides funding for afterschool and summer school enrichment programs for transitional kindergarten through sixth grade.

“Expanded learning” means before school, after school, summer, or intersession learning programs that focus on developing the academic, social, emotional, and physical needs and interests of pupils through hands-on, engaging learning experiences. It is the intent of the Legislature that expanded learning programs are pupil-centered, results driven, include community partners, and complement, but do not replicate, learning activities in the regular school day and school year.

Lottery-Unrestricted

Resource 1100 lottery funds are unrestricted, except that these funds shall not be used for acquisition of real property, construction of facilities, financing of research, or for any other noninstructional purpose (Government Code Section 8880.5(m)). Pursuant to Government Code Section 8880.5(k), a separate account must be maintained for recording the receipt and expenditure of lottery funds. Funds may not be contributed to Resource 1100, but funds may be contributed from Resource 1100 for other program purposes. Feaster’s unrestricted lottery funds have been used to offset the salary and benefit costs of classroom teachers

Resource 6300 lottery funds are restricted and should be used for the purchase of instructional materials. "Instructional materials" is defined in Education Code Section 60010 (h) as "all materials that are designed for use by pupils and their teachers as a learning resource and help pupils to acquire facts, skills, or opinions or to develop cognitive processes. Instructional materials may be printed or nonprinted, and may include textbooks, technology-based materials, other educational materials, and tests." Education Code Section 60010(m)(1)(2) further defines "technology-based materials" as "those basic or supplemental instructional materials that are designed for use by pupils and teachers as learning resources and that require the availability of electronic equipment in order to be used as a learning resource. Technology-based materials include, but are not limited to, software programs, video disks, compact disks, optical disks, video and audio tapes, lesson plans, and data bases." Technology-based materials also includes the electronic equipment required to make use of those materials used by pupils and teachers as a learning resource, including, but not limited to, laptop computers and devices that provide internet access.
