Dublin City Schools K-12 Health Education

K-12 Health Education Vision Statement

A Dublin City Schools Health Education empowers students with the knowledge, skills, and tools to make informed decisions, cultivate healthy habits, and develop lifelong well-being. By fostering a comprehensive understanding of their own physical, mental, emotional, social, and spiritual health, students are equipped to navigate life's challenges, build resilience, and thrive in all aspects of their lives. Course content aims to build transferable skills, foster self-regulation, and promote healthy habits through a comprehensive, inclusive, and developmentally appropriate curriculum including:

- Experiential learning that prioritizes skill development and real-world application.
- Instruction that grounds curriculum and practices in the latest research on health education and brain development.
- A collaboration with the community that fosters partnerships with families, community organizations, and healthcare providers to support student learning and well-being.

By embracing these principles, DCS can create a K-12 health education program that empowers students to live healthy, fulfilling lives, and contribute positively to their communities.

Instructional Essential Questions:

- How do my choices impact my mental health? physical health? social health?
- How are my mental, physical and social health connected?
- How do my choices impact the health of my communities?

Dublin City Schools K-12 Health Education

7th Grade

Health Course Goals

This course is designed to promote responsible decision-making resulting in healthy lifestyle choices. Areas of emphasis are: mental, emotional and social health; body systems; substance abuse and awareness, including the dangers of drug use leading to addiction (alcohol, tobacco, marijuana, vaping, and opioids); and nutrition and lifetime fitness.
