

UNDERSTANDING FUNCTIONAL CAPACITY

Functional Capacity is the total number of students a school can **hold**, based **only** on **standard classrooms** — **not specialized rooms** like Art, Music, or Science.

Standard Classroom

✓ **Counted**

Specialized Classroom

✗ **Not Counted**

QUICK FUNCTIONAL CAPACITY CALCULATION

This school has 10 classrooms total:

✓ **7 Standard Classrooms** | ✗ **3 Specialized (Art, Music, Science) Classrooms**

Even if students are assigned to Art, Music, or Science rooms, they are **not included** in the functional capacity total because specialized rooms have equipment that **can't be shared or moved**.
