BCS Elementary Summer Math Packet Fourth Grade for 2025-2026

This is the 4th grade summer math packet for Briarcrest Christian Elementary School. The material contained in this packet is a review from third grade. Please have your child complete this work over the summer. Feel free to assist if your child needs help. The math packet is due on the first day of school, Tuesday, August 12. It will count as a daily grade. Please help your child review multiplication facts over the summer. All multiplication facts 0's through 10's should be memorized before 4th grade. We will introduce and master 11's and 12's during the first few weeks if you would like to get a head start with your child!

The first week of school, we will review the information in this packet as well as start an intensive multiplication facts review.

Thank you,
Fourth Grade Teachers
