

Board Policy LEBA: Parental Involvement in Education

Status: DRAFT

Original Adopted Date: 10/14/2013 | **Last Revised Date:** 07/18/2022 | **Last Reviewed Date:** 05/12/2025

The Henry County School District is committed to building a strong Home - School - Community relationship because we realize that parents are the child's first and most impressionable teacher. As such, parental involvement helps to foster an environment where families have the opportunity to be active participants in the life of our schools and their students. To achieve this goal, the Superintendent shall:

- Empower families as advocates for their students by involving families in decision making about their child and their child's education,
- Ensure consistent two-way communication with families to ensure families are aware of their student's learning and progress and opportunities for families to be involved, and
- Consistently provide opportunities to engage families through parental involvement programming and family activities.

The Board of Education authorizes the Superintendent or designee to develop administrative regulations to implement this policy.
