

Games to Play in the Car or in line at the store

Any chance you have to spend with your child is a chance for them to learn. These simple games will help your child to learn and keep them busy and entertained.

Guess what letter I am thinking of? (Make the sound of a letter and let the student tell you what letter goes with that sound.)

Count the words. (Say a sentence slowly. Ask the student to tell you how many words were in the sentence.)

Silly Rhymes (Tell a rhyme or sing a song that your child knows well. Change one word in the rhyme and see if they can find the mistake. eg. Humpty Dumpty sat on a car.)

Do you hear what I hear? (Ask the student to close their eyes and identify sounds they hear around them. Horns honking, birds chirping, cash registers clicking, etc.)

Rhyming Words (Say a word that has lots of rhyming partners. eg. cat Ask your child to think of all the words they can that rhyme with "cat." They will need help at first.)
