

Health Course Options 2025-26

For the 2025–2026 school year, LVJUSD is offering flexibility for students who are unable to fit Health into their schedule. You may complete one semester of Health through a WASC-accredited online school. While we cannot endorse a specific program, the following institutions are WASC-accredited, CSU/UC-approved, and meet the CA state standards for Health:

- [Mt. San Antonio College High School Program](#) (Course: Health)
- [Silicon Valley High School](#) (Course: Health, Part 1)

Please contact the school of choice directly if you have registration questions.

ENROLLMENT PROCESS

Step 1:

Choose one of the approved online schools listed above. Please note that if there is a fee for enrolling in a non-district course, the student is responsible for covering the cost.

Step 2:

Complete the [Course Plan Agreement Form](#) on or before **June 6, 2025**. **No exceptions will be made if turned in after this date. This agreement must be completed by the student using their LVJUSD account.**

Step 3:

After completing the course, request that an official transcript be sent to your school site's registrar (Ms. Keck, kkeck@lvjsud.org). If the institution allows transcripts to be emailed directly to your school counselor, this is acceptable and considered official.

Note: Transcripts sent by students or parents are not official and will not be accepted. The completed course will be included in your high school GPA and count toward graduation requirements.
