Shawnee Mission School District
RFP 25-007 – Food Service Equipment – Three-Door Reach-In Freezers
May 27, 2025

Addendum No. 2

Clarification of Delivery Requirements:

This District is issuing a clarification regarding the delivery requirements for the freezer units. There appears to be a discrepancy between the installation requirements listed on page 3 of the ITB document (which requires that the equipment will be delivered and uncrated in the receiving room of the designated school, with District personnel setting the equipment in place and making the final connections), and the requirements listed on page 5 of the document in Attachment A (which requires that the "freezer's price shall include delivery, uncrate and set new units in place" at the desired locations).

To ensure a fair "apples to apples" price comparison, as the ITB asks vendors to bid the freezers per the specifications listed in Attachment A, **all vendors are asked to bid per the specifications listed in Attachment A** (that is, the freezer's price shall include delivery, uncrate and set new units in place). However, the District reserves the right to work with the awarded bidder to issue a change order for the specifications listed on page 3 of the ITB (that is, final amended costs would include delivery and uncrating in the receiving room of the designated school, with no requirement to set the units in place, with District personnel setting the equipment in place and making final connections).

End of Addendum No. 2
