

## CHRISTOPHER COLUMBUS

A Marist Brothers High School 1958

Dear AP Chemistry Students,

Welcome to AP Chemistry! I'm Ms. Reynaldo, and I am pleased to be your teacher for the upcoming school year. This course is both challenging and rewarding, and I'm excited to help guide you through it.

To ensure a strong start, you will be assigned required summer work through AP Classroom, focusing on reviewing material previously covered in Honors Chemistry. Although this is a review, mastery of these foundational concepts is essential for your success in AP Chemistry, as they will support everything we do throughout the year. You will receive my email in early July with all necessary instructions and details.

To access and complete assignments in AP Classroom:

- Log in to [College Board](#): Use your College Board username and password to sign in.
- Navigate to AP Classroom: Look for the "Go to AP Classroom" button in your course card, or use the yellow button in the top-right corner of your screen.
- Access Assignments and Resources: Once in AP Classroom, you'll find assignments from your teacher, AP Daily videos, and your personal assignment results.

The assigned unit must be completed by August 18, 2025. I encourage you to manage your time wisely over the break and e-mail me at [yreynaldo@columbushs.com](mailto:yreynaldo@columbushs.com) if you have any questions.

Wishing you a restful and enjoyable summer, I look forward to seeing you soon and embarking on a great year of chemistry together!

Sincerely,

*Ms. Reynaldo*
