199 REPORTER

INVER GROVE HEIGHTS SCHOOLS | SUMMER 2025

ISD 199 Thanks IGH Voters as State & Federal Funding is Reduced

Inver Grove Heights Schools (ISD 199) is in the process of finalizing its budget for the upcoming 2025-2026 school year. We have been monitoring the Minnesota Legislative Session and news coming from the federal government, and we understand it is likely that we will need to adjust for cuts in federal funding and reductions in state aid for required programs. However, we are in a much better position to keep cuts away from students thanks to our voters.

Our current budget for next school year is based on information we have received about likely federal and state funding changes. Based on those changes, we project a budget deficit of about $580,000. Our goal is to create a budget that addresses our referendum promises and that is sustainable moving forward. To do so, we plan to make the following adjustments:

- Class size and school-based services: No adjustments
- Annual right-sizing adjustments: -17,000
- Fine arts opportunities: No adjustments
- Activities and athletics: No adjustments
- District-level reductions: -$405,415
- Remaining deficit: $157,000

These adjustments are based on preliminary news about state and federal funding as well as conversations with representatives. The information has given us a chance to create different scenarios and best prepare ahead of the legislative session's end. However, the remaining deficit will be addressed once the session ends and we get a clearer idea of state requirements and funding for the 2025-2026 and 2026-2027 school years.

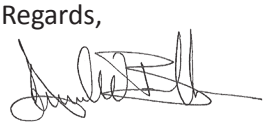

The areas with no adjustments were part of our 2024 Referendum conversation. Adjustments to our fine arts, activities, and athletics opportunities were discussed as a possibility if the 2024 referendum failed. To honor our voters' support, we will not make adjustments to these programs. We do not plan for class size and school-based services adjustments outside of our annual right-sizing process. Local levy dollars, approved by voters, will be earmarked for the referendum promise of maintaining class sizes. We will fulfill this promise to the extent that we can control.

As a reminder, ISD 199 follows a right-sizing process every year when creating its budget. Right-sizing means we match staffing to projected enrollment and student needs. We are projecting a slight decrease in enrollment for next school year, with more seniors graduating this summer than potential kindergarten students enrolling this fall. So we will slightly decrease staffing to match enrollment numbers. Right-sizing additions and reductions were made to strategically place staffing based on the needs of our students for 2025-2026. Our right-sizing process helps us live within our means while providing quality education to our students.

Right-sizing allows us to control the budget where we can. However, school districts are required to provide certain programs with little or no financial support from the state or federal government that creates the requirement. When federal or state funding is cut, the school district has no choice but to use more of the limited dollars in its general education fund to support those required programs. This leaves less, if any, funds for the district to respond to the unique needs of our ISD 199 students.

We expect the 2025-2026 budget to be a difficult one. However, thanks to our community, we are in a much better budget position than most Minnesota school districts. Without voter support, we would have been facing nearly $3 million in cuts. Receiving voter approval on our operating levy increase last November means we will have a better chance of keeping reductions away from students. Thank you to our community. Your support makes a difference.

Regards,

Dave Bernhardson, Superintendent

FORUMS

Inver Grove Heights Schools residents are invited to attend school board listening sessions. Listening sessions are an informal meeting where members of the ISD 199 School Board hear questions, comments, and concerns from residents. To sign up for a listening session or for more information, visit *www.isd199.org/boardmeetings*.

Simley Teacher Named Educator of Excellence

Simley High School Language Arts and TriDistrict CAPS (Center for Advanced Professional Studies) Teacher Carol Sayre has been selected as a BestPrep Educator of Excellence! Of the more than 500 teachers who participate in BestPrep programs annually, Ms. Sayre was chosen as part of the top 2% who go above and beyond in their commitment to educating Minnesota youth.

BestPrep, a nonprofit organization, aims to prepare students for life after high school with business, career, and financial literacy skills. They offer hands-on experiences that inspire success in work and life. Ms. Sayre was recognized for her participation in and support of BestPrep's Classroom Plus and eMentors programs. Classroom Plus teaches students the business and career skills necessary for professional success. The eMentors Program pairs students with a mentor in a professional field who provides real-world lessons about topics like college and career, interviews, and workplace etiquette.

Ms. Sayre was honored at BestPrep's Annual Luncheon at the Saint Paul RiverCentre this spring. Congratulations on your outstanding work, Ms. Sayre!

Pine Bend 5th Graders Get Pilot Lessons

A group of Pine Bend Elementary School 5th graders met with a Southwest Airlines pilot recently. The visit is part of the company's Adopt-A-Pilot program that teaches 5th graders about aviation and what it takes to be a pilot.

Students learned about scheduling flights and time zones at their most recent meeting. They will meet with an airline pilot a few more times before the end of the year.

IGH Middle School Holds Poetry Slam

Inver Grove Heights Middle School students in 8th grade wrapped up their poetry lessons with the annual Poetry Slam. Students performed their own poems for a panel of staff judges.

Finalists were chosen from each class period, and they performed their poems in the Simley Performing Arts Center for the whole 8th-grade class. Three winners were chosen by a final panel of judges: Congratulations to Leila, Justus, and Estrella! Scan the QR code with your smartphone camera to see highlights from the Poetry Slam.

Inver Grove Heights Schools does not discriminate in employment or in any of its programs and activities, including vocational opportunities, on the basis of race, color, creed, religion, national origin, sex, marital status, status with regard to public assistance, familial status, membership or activity in a commission, disability, sexual orientation, or age. Inver Grove Heights Schools provides equal access to designated youth groups. Student-related inquiries about non-discrimination policies should be sent to Abel Riodique at 2990 80th Street East in Inver Grove Heights, RiodiqueA@isd199.org, or 651-306-7828. More information is available at www.isd199.org/nondiscrimination.

ISD 199 Says Farewell to Influential 2024-2025 Retirees

Inver Grove Heights Schools (ISD 199) will say farewell to nine dedicated, influential members of its staff this school year. This year's retirees include long-time teachers and leaders. During their time with our district, they have created a lasting impact. They have thoughtfully built pathways to success for hundreds of students and staff members. Each of these wonderful staff members will be greatly missed, but the hard work they did and the care they showed will have positive effects long into the future.

ISD 199 2024-2025 Retirees

- Shelley Ausen, Hilltop Elementary School, 21 years of service
- Sheila Dramdahl Maddio, Pine Bend Elementary School, 35 years of service
- Linda Geist, Salem Hills Elementary School, 20 years of service
- Lora Lambert, IGH Early Learning Center, 12 years of service
- Theresa Leonard, Transportation, 9 years of service
- Barb Pierce, Districtwide, 8 years of service
- Kathy Unruh, Salem Hills Elementary School, 10 years of service
- Susan Van Dale, Pine Bend Elementary School, 3 years of service
- Jodi Wendel, Inver Grove Heights Middle School, 30 years of service

ISD 199 wishes retirees the very best as they begin their new adventures. Thank you, retirees, for your dedication to students and this community over the years, and congratulations on your retirement!

Elementary School Students Donate & Get Active With Kids Heart Challenge

Hilltop, Pine Bend, and Salem Hills elementary schools and the Atheneum Gifted Magnet Program participated in the Kids Heart Challenge this year. The schools raised a combined total of more than $30,000 for the American Heart Association to help fight heart disease and stroke.

The Kids Heart Challenge, which evolved from the Jump Rope for Heart program, encourages students to drink more water, find enjoyable ways to get active and get active more often, and do more acts of kindness for a healthier life overall. As part of the challenge, students had the opportunity to learn life-saving skills, including family trainings on hands-only CPR and how to recognize the signs of a stroke. Students finished the Kids Heart Challenge lessons and collected donation pledges over the course of a month. They wrapped up their challenges with all-school jump rope events. Students did jump rope games, showed each other tricks, and enjoyed music and their own song requests during their physical education specialist time.

The American Heart Association will contribute some funds to the school to help keep students healthy. Great job to the students on their hard work to improve their lives and those of others through the Kids Heart Challenge! Thank you to everyone who donated and made this year's events outstanding!

Simley & UW-Eau Claire Wind Ensembles Perform & Learn Together

The Simley High School Wind Ensemble shared a concert with the University of Wisconsin-Eau Claire Wind Ensemble. Each band performed separately before joining together to play their final song of the night. Simley students also had a chance to work with the college students during class and get a glimpse of the college experience.

The college students arrived at Simley early to rehearse alongside Simley students. They got direction and notes from both Simley's band director and UW-Eau Claire's director to prepare them for their concert.

During the last period of school, UW-Eau Claire students got into small groups with Simley band students in their section and provided some additional support and guidance. Most UW-Eau Claire students in the university's music program are pursuing a degree in music education. The shared concert and rehearsal gave college students a unique opportunity to work with high school students. They asked Simley students which parts of their wind ensemble pieces they struggled with and provided suggestions, and they practiced difficult notes and techniques with them. The opportunity gave Simley students the experience of a college music class, and they left with a better understanding of their options for the future.

Thank you to everyone who attended the concert, and thank you to the UW-Eau Claire Wind Ensemble for bringing this opportunity to Simley!

Gold Medal Olympian Billy Mills Visits Simley

Billy Mills, a 1964 Olympic gold medalist in the 10,000-meter run and an American Oglala Lakota, visited Simley High School to tell his story and encourage students and the community to follow their dreams. The event included a screening of the movie "Running Brave" that focused on Mr. Mills's life, a presentation by Mr. Mills, and a book signing, featuring his new autobiographical picture book, "Wings of an Eagle: The Gold Medal Dreams of Billy Mills."

During the school day, Mr. Mills talked to students about the struggles of his early years. He encouraged them to find a dream and follow it, saying he found peace in running and following his dream of winning an Olympic gold medal.

In the evening, families and community members came to Simley to hear his story as well. Mr. Mills talked about his life and told stories from the Olympics, including the story of how he won the gold medal in the 10,000-meter run during the 1964 Tokyo Olympics. Mr. Mills remains the only American to have won gold in the event to this day.

He took questions at the end of his presentation and had further conversations with attendees as he signed books for students and their families.

At every event and in all of his stories, Mr. Mills came back to the same message: Find a dream and follow it. Thank you to Mr. Mills for visiting Simley and to everyone who organized and attended the event!

ISD 199 Announces the Next Director of Community Education

Inver Grove Heights Schools (ISD 199) is pleased to announce Chad Sexauer as its next director of community education. A longtime member of the Inver Grove Heights and South St. Paul area, Mr. Sexauer brings a deep understanding of our community to the position as well as his extensive experience. He will continue the work that the current director of community education, Barb Pierce, began in 2016 as she retires this summer.

Mr. Sexauer has more than 20 years of experience in extracurricular programming, starting out as the head football coach at South St. Paul High School while he taught social studies there. He gained experience in both school and activities administration as the South St. Paul High School Assistant Principal and Activities Director. He looks forward to returning to the community after working most recently as the Lakeville South High School Activities Director.

"I'm excited to join Inver Grove Heights Schools and become part of the community that values lifelong learning," he said. "I look forward to collaborating with all of our community members and bringing positive energy to our work. Together, we can create meaningful learning opportunities that empower and connect students, families, and neighbors of all ages."

Mr. Sexauer will join the ISD 199 team as Ms. Pierce starts her retirement this summer. Thank you to Ms. Pierce for developing the community education program to serve even more learners of all ages. During her time with ISD 199, she also used her American Red Cross experience to guide the district's health and safety initiatives during the COVID-19 Pandemic. Congratulations to Ms. Pierce as she begins her retirement, and welcome, Mr. Sexauer!

METEOROLOGIST VISIT • • • • • • • • • • • • • • • • • •

KARE 11 Meteorologist Jamie Kagol visited some Simley High School science classes to talk about his career. He gave students a behind-the-scenes look at his job and answered questions.

Mr. Kagol gave students a glimpse into his work as a broadcast meteorologist. He showed students how to read meteorological maps and talked about the weather models and technology that are available today compared to when he began his career. He also talked about his experiences at different television stations, his educational background, and the ways he's had to adapt on live broadcasts.

Students asked him questions about storm chasing, his favorite place that he's lived, and more. Thank you, Mr. Kagol, for visiting Simley science classes to connect their current learning with their future possibilities.

Next IGH Middle School Principal Announced

Congratulations to Inver Grove Heights Middle School Principal Jodi Wendel on her upcoming retirement and on the outstanding work she has done to advocate for her students and staff over the last 15 years as principal. Throughout April, Inver Grove Heights Schools (ISD 199) worked on identifying IGH Middle School's next principal. The district is pleased to announce that Matt Drugg, current Assistant Principal at Simley High School, has been chosen for the role.

Mr. Drugg brings nearly 20 years of experience as an educator to the position, including time in middle school classrooms and leadership roles. His focus has consistently been on student support and data-driven decision-making. His leadership in all of his positions has resulted in increased engagement, fewer referrals, and more effective support for students and families. During his time with Simley alone, he has demonstrated an ability to build community and make school a place where students want to be.

"I'm thrilled to join the IGHMS community," Mr. Drugg said. "I look forward to building strong partnerships with students, families, and staff as we work together to create an engaging, welcoming environment where everyone can thrive."

Mr. Drugg is anticipated to start in his new role on July 1. Congratulations, Mr. Drugg, and best wishes in your well-deserved retirement, Ms. Wendel!

NASA Engineer Talks STEM Careers at Salem Hills

Retired NASA engineer Ann Micklos held a video call with STEAMM classes at Salem Hills Elementary School and its Atheneum Gifted Magnet Program. In STEAMM (Science, Technology, Engineering, Art, Math, and Media) classes, students explore technology and find new approaches to existing problems. Ms. Micklos's visit gave students an opportunity to hear how NASA is innovating new ways to solve different problems. Students also had a chance to talk through their own ideas with Ms. Micklos and hear about future careers.

Ms. Micklos worked as a NASA engineer for 33 years. She created and updated heat shields for shuttles to keep astronauts safe during launch and reentry. She talked about her experiences working for NASA, but she also showed students some of the projects that NASA is working on now. Students learned about NASA's experiments with 3D printing, something they do regularly in STEAMM class. They learned that engineers are finding ways to 3D print shuttle parts with substances like moon soil or materials that astronauts would typically discard. They also discussed new rocket engines that were entirely made of 3D printed parts.

Ms. Micklos talked about all of the new careers that are on the horizon as organizations like NASA improve on current practices and develop new solutions to problems. She encouraged students to think about different STEM careers that might interest them.

The session wrapped up as students brainstormed what they would 3D print for NASA and the steps they would take to create a reliable product. They also had an opportunity to ask Ms. Micklos questions.

Thank you to Ms. Micklos for giving students an up-close look at the aeronautics field and careers in STEM!

Summer Meals for Kids

All children, ages 18 and younger, can get free meals during the summer. Our schools will provide breakfast and lunch through the U.S. Department of Agriculture (USDA).

Any child can eat at a participating site for free during the listed dates and times. No registration is needed, but meals must be eaten on site.

Hilltop Elementary School Cafeteria
June 23 - July 17, Mondays - Thursdays
No meals on July 3
Breakfast Hours: 7:40 - 8:10 AM
Lunch Hours: 11:15 - 11:45 AM

Simley/IGH Middle School Cafeteria
June 23 - July 17, Mondays - Thursdays
No meals on July 3
Breakfast Hours: 8:30 - 8:45 AM
Lunch Hours: 10:40 - 11:15 AM

Open Door Food Truck
June 23 - July 25, Mondays - Fridays
No meals July 3 or 4

Salem Green Apartments - Pool
1455 Upper 55th Street East
11:00 - 11:30 AM

Brent Avenue Homes Near Toppers
4 Brent Avenue
11:40 AM - 12:05 PM

Skyline Village - Office
7510 Harper Street
12:15 - 12:45 PM

Anyone over age 18 can purchase a breakfast meal for $3.25 or lunch meal for $5.50 at the above locations.

Visit *www.isd199.org/meals* for details. Also, learn more about the USDA SUN Bucks program for families, formerly Summer EBT, at *dcyf.mn.gov/sun-bucks*. If you have any questions about the SUN Bucks program, please call 651-431-4608.

Pine Bend Community Makes SALT Day a Success

Dozens of volunteers from the community volunteered at Pine Bend Elementary School for Students and Adults Learning Together (SALT) Day. Pine Bend has held an annual SALT Day event for more than 30 years! Each year, school community members run classes on sports and activities, career pathways, STEAM (Science, Technology, Engineering, Art, and Math), and more so students can explore new topics and discover new interests.

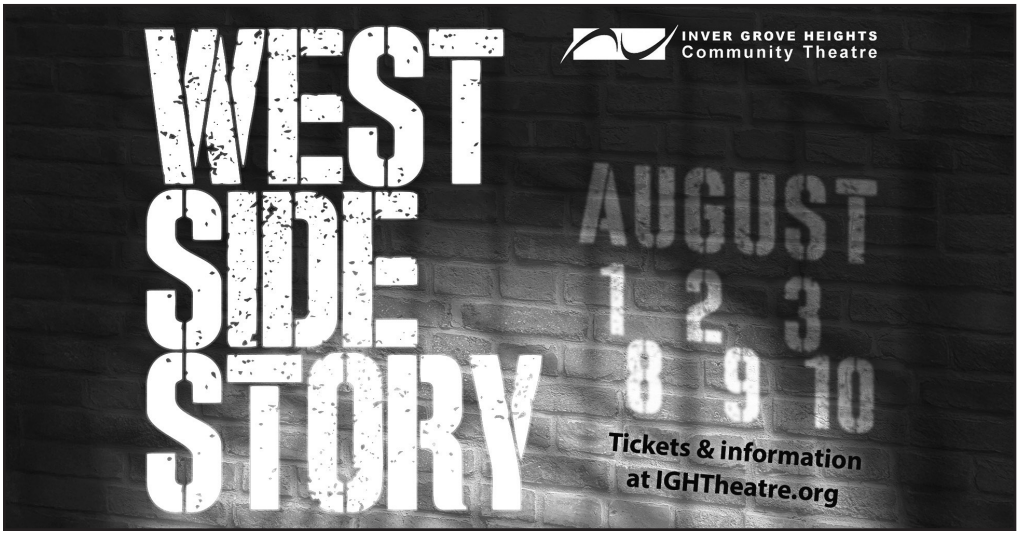

This year, students got a hands-on look at careers as a police officer, veterinarian, and scientist in careers classes. Some students chose to try sports like dodgeball, yoga, and thanks to help from Simley High School Hockey players, knee hockey. They also tried crafts like building and painting toy sailboats with Home Depot employees or designing their own personal gardens.

Students did all of that and so much more thanks to the staff, parents and relatives, Simley students, community members, donors, and especially the Pine Bend PTSA who worked hard to make each class possible. Anyone interested in volunteer opportunities or joining the PTSA should follow “Pine Bend Elementary PTSA” on Facebook.

SUMMER WEBSITE UPDATE • • • • • •

Inver Grove Heights Schools (ISD 199) is updating its website to better serve its families, staff, and community! The update is based on a review of the website that started in November with the Website Feedback Survey. We heard from our school community about their experiences with the current website and their suggestions for improvements. We also reviewed the website’s analytics to understand how the website is used on a daily basis. Based on the review, we are making website renovations that will include a fresh, new look and, more importantly, improved navigation and streamlined information.

The district gathered an advisory committee of interested parents and staff to guide the update. The group has reviewed the survey results and analytics and provided perspective on ways our website can better meet the needs of our community. Thanks to their input, we are excited to be creating an easier, more welcoming, and more informative experience for current and potential families, staff, and community members. Watch for the update launch this summer.

MSHSL Band Contest

The Simley High School Symphonic Band and Wind Ensemble participated in the Minnesota State High School League (MSHSL) Large Group Band Contest again this year with impressive results! Simley hosted the competition, which included bands from Park High School and Two Rivers High School as well. Simley was the only school to enter two bands into the competition.

Each band had a chance to play their piece for the panel of judges. The judges provided ratings for the band after their first performance, and then one of the judges worked with the band to advise them on any areas in need of improvement.

Both the Simley Symphonic Band and Wind Ensemble received Superior ratings, the highest ranking in the scoring system. This was the 29th year in a row that all three judges gave the Simley Wind Ensemble a Superior rating and the second year in a row that the Simley Symphonic Band has earned the Superior rating. Judges also recognized the Simley musicians for their respectfulness, willingness to grow, welcoming energy, and team mindset. Congratulations to the Simley bands!

Educational Benefits

When families apply and qualify for Educational Benefits, they get deals on student activity fees, student parking, school device protection plans, tickets to school events like prom, and local services like electric and gas utilities.

Every qualifying application can also help your child’s school receive funding for student support services. This July, visit *www.isd199.org* to apply for 2025-2026 Educational Benefits.

2025 Athena Award Winner Demonstrates Excellence & Versatility

Simley High School senior Emerson Hocking has been selected as a 2025 Athena Athlete of the Year! Simley head coaches chose Emerson for her outstanding athletic abilities in a variety of events and impressive records in soccer, track, and gymnastics.

A 4-year letter winner and starter, Emerson has been a powerful, skilled part of the Simley Soccer team. She has scored 13 goals with seven assists in her career. She earned All Conference Honorable Mentions in 2021 and 2023 before becoming team captain and earning All Conference in 2024. Demonstrating excellence on the field and in the classroom, she was also part of the All Section Academic Team in 2022, 2023, and 2024.

"Emerson always emptied the tank and played each game as if it were her last," Simley Girls Soccer Head Coach Nora Austin said. "She's lightning-fast all over the field and has caused headaches for opponents who tried to mark her or slow her down."

Emerson may earn the 16th letter of her athletic career in the upcoming track season. So far, she has earned All Conference in the 4 x 400, 400-meter, and Triple Jump events. She was also part of the school's True Team section champion teams in 2022, 2023, and 2024. Emerson holds the 3rd-place record in school history for Triple Jump. Her record is so outstanding, her coaches say, that it would qualify her for state and earn her at least 6th place if Simley were part of any other section.

As well as Emerson performs in soccer and track, her passion lies in gymnastics. Her accolades include Rookie of the Year, Most Improved, the Sportwomanship Award, and being named Most Supportive Gymnast twice. She holds six varsity letters and was team captain twice. She has earned an All Conference Honorable Mention twice and All Conference four times. She has earned All Section in Vault five times, in Beam twice, and in All-Around, or all four events, once. Her All State accomplishments include earning All State Honorable Mentions in Vault three times, in Floor and Beam twice, and in All-Around once. She has also earned All State in All-Around and Vault once and has qualified for State five times. Even as she prepares for graduation, Emerson will hold the 6th spot in school history for Floor, the 8th spot for All-Around, and the 1st-place school record for Vault!

She will start at Auburn University this fall. Congratulations on an extraordinary athletic career and the 2025 Athena Award, Emerson!

FAST FACTS • • • • • • • • • • • • INSPIRE. INNOVATE. EXCEL.

Stay informed of the current issues, challenges, and changes facing the Inver Grove Heights School District.

#1. PINE BEND PARKING LOT

Inver Grove Heights Schools (ISD 199) will renovate the Pine Bend Elementary School parking lot this summer, using funds that can only be applied to facilities improvements. The renovation will increase the safety of students, families, and staff while relieving congestion in the lot and on the street during school pick-up and drop-off.

The district will use abatement bonds as it did when it updated the Salem Hills Elementary School and Hilltop Elementary School parking lots. Abatement bonds can only be used for parking lot repairs, replacements, or renovations. The school board approved these abatement bonds in 2022 when interest rates were low, so they have only accounted for $2 per month on the average homeowner's taxes.

The renovation will also use any remaining one-time funds from the sale of the South Grove Elementary School property. South Grove closed in 2008. Selling the property eliminated annual maintenance fees while providing one-time funds for the necessary safety renovations at the district's elementary schools.

Construction will take place this summer so the parking lot is ready by the start of next school year.

#2. SECOND SRO HIRED

Inver Grove Heights Schools (ISD 199) is pleased to introduce its second districtwide School Resource Officer (SRO), Nathan Taarud!

IGH Police Department staff, school and district leaders, and a student representative interviewed interested officers from the IGH Police Department, and Officer Taarud was selected. Officer Taarud has been with the IGH Police Department for about two years. Before joining the department, he worked for the Eagan Police Department and the highway patrol in North Dakota. He served active duty in the United States Air Force and the North Dakota National Air Force. Officer Taarud also has experience working with students with autism as a paraprofessional.

He has begun work alongside current districtwide SRO Ericka Eid to build relationships within the schools ahead of the 2025-2026 school year. Officer Taarud and Officer Eid will work together to support the district's more than 3,400 students as well as their families and the staff to create an even safer community.

Thank you to our voters for passing the district's operating levy increase last November. The increase has made it possible to hire a second SRO who will benefit both our schools and the broader community.
