

Kinship Navigator Program

The HCCAO Kinship Navigator helps kinship families access the supports and services that they need.

We work with grandparents and other relatives who are caring for kids who aren't their biological children.

We work with the caregivers, the children, and other service providers to help identify needs and find the resources to fill those needs through:

- Kinship Peer Support Groups
- Emergency Assistance
- Advocacy for the family
- Help finding and getting available services from other agencies

Highland County Community Action Organization, Inc. strives to empower individuals and families through opportunities and support to achieve self-sufficiency.
