

Administrative **Policies** and Procedures
Series: 6000 – Administrative and Management Support
RECESS AND PHYSICAL ACTIVITY: 6701

The District recognizes that recess is an essential part of the day for elementary school students; young students learn through play and recess supports the mental, physical, and emotional health of students and positively impacts their learning and behavior. Similarly, the District recognizes that students who engage in regular exercise are more likely to learn in the classroom and supports the district's increased emphasis on physical activity at all grade levels to enhance the well-being of the district's students. Therefore, it is the policy of the District to provide students with recess and opportunities for physical activity.

Recess

The District aims to make elementary school recess safe, inclusive, and high quality for all students. All district elementary schools will receive a minimum of 30 minutes per day of unstructured physical activity as recess. The accompanying procedure will specify how the District will meet other legal requirements.

Physical Activity

All schools, as a best practice and subject to available funding, will participate in a multi-component approach by which schools use all opportunities for students to be physically active, such as the Comprehensive School Physical Activity Program recommended by the Centers for Disease Control and Prevention, and will provide the following:

- Quality physical education;
- Physical activity during the school day (e.g., brain boosters/energizers);
- Opportunities for physical activity before and after school;
- Recess that aims to be safe, inclusive, and high quality;
- Family and community engagement;
- Staff wellness and health promotion;
- Opportunities for active transportation to school; and
- Access to school district facilities for physical activity, fitness, sports, and recreation programs.
