

# AP Psychology Summer Assignments

## 2025-2026 - Mr. McCauley

### Welcome to AP Psychology:

The AP Psychology course introduces students to the systematic and scientific study of human behavior and mental processes. While considering the studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with major units of study, including biological bases of behavior, cognition, development, learning, social psychology, personality, and mental and physical health. Throughout the course, students apply psychological concepts and employ psychological research methods and data interpretation to evaluate claims, consider evidence, and effectively communicate ideas.

### Assignment #1: 100 points

Read and take Cornell notes on ALL of Unit 0 [Modules 0.1-0.6]

If you do not have access to the textbook, I have uploaded all of Unit 0 from the text for you. The formatting is a bit weird, sorry.

### [Myers Psychology 4th Ed. Unit 0](#)

If you have not used the Cornell style of note-taking, click on this link below for guidance.

### [Cornell Style of note-taking](#)

### Assignment #2: 50 points

You will be required to read 5 articles from the link below. You may choose any 5 that you like.

### [40 Studies That Changed Psychology](#)

Complete questions regarding the 5 articles
