Technology Department

5/29/25

Dear Southern Fulton Families,

As in the past, student Chromebooks will be sent home for the summer and are expected to return with students at the start of the next school year. One of the primary reasons we allow students to take devices home is to help bridge the digital divide and ensure continued access to educational resources during the summer months.

It is ultimately the student's responsibility to care for their assigned Chromebook. Devices should be stored securely, charged regularly, and handled appropriately throughout the summer.

Please note that Chromebooks will continue to be filtered through **Securly**, which blocks inappropriate content and sends alerts to our system for any potential self-harm or concerning online behavior. This helps us maintain a safe and supportive digital environment for all students.

Important Notice Regarding Device Damage:
Effective immediately, **there will be zero warnings for intentional damage** to Chromebooks. This includes damage resulting from TikTok or other social media trends that promote destruction of property. **Intentional damage will not be covered by insurance**, and families will be **billed in full** for the cost of time, materials, and replacement of the device.

We appreciate your continued support in helping students be responsible digital citizens. If you have any questions, please don't hesitate to contact the Southern Fulton Technology Department.

Sincerely,

David Cason
Technology Director
Southern Fulton School District
