FOR IMMEDIATE RELEASE:

Jefferson High School announces 2024 inductees to the Hall of Fame

Jefferson High School is pleased to announce 2024 inductees into the Alumni Hall of Fame. The honorees were inducted at a ceremony at the Rohrman Center for the Performing Arts on Friday, Oct. 18.

The criteria used to select these candidates includes special achievements, honors, community service, responsibility, leadership, contributions to society, and national and/or world service.

New inductees include Timothy Davis, Class of 1970, Betty Steill Bolyard Schnepf, Class of 1959, and Dr. Erin Gillis Ramirez, MD, Class of 1997.

Timothy Davis had a long and distinguished career in the military and as a forensic scientist. In 2019, he retired as Director of Strategic Planning from the Defense Counterintelligence and Security Service and as a Fellow from the American of Forensic Sciences.

Betty Bolyard has been a longtime advocate for young women and girls in sports; she was a pioneer in the push for equality for women and girls in athletics.

Dr. Erin Ramirez was a cross country star while at Jefferson High School. She has been an OB/GYN in the Lafayette community since 2010 and is currently president of Franciscan Physician Network Obstetrics and Gynecology Department and serves on the perinatal quality council at Franciscan Health.

“We are proud to honor this distinguished group of alumni,” said Principal Mark Preston. “Each of these distinguished honorees credits getting their start to the experiences they had here at Jefferson High School.”

We are pleased to congratulate this year’s honorees.
