Please share your ASB and athletic fee data with your ASB student council before filling out this gap reduction plan. Gap Plans for 2024-2025 are required for either Opportunity Gaps over 5%.

4. Describe the action steps the school/district will take to reduce the opportunity gap in student possession of ASB cards and/or participation in extracurricular activities for the upcoming school year.

Our ASB Executive Board met and discussed the opportunity gap of 19% in extra curricular participation. Students came up with ideas on how to communicate with the student body/guardians about the free/reduced benefits if the permission to share form is filled out. We will communicate to families about the free/reduced benefits and about a local clinic that offers free physicals and how to sign up. This will include newsletters, social media, emails and announcements. Cavelero has a large turn out for clubs after school. We are asking to be able to include our students that are in clubs in the report to get an accurate percentage of our opportunity gap. Not all students are athletic and we offer many options for extracurricular participation.
