

Medical

Parkway School District's medical coverage provides you and your family the protection you need for everyday health issues or unexpected medical expenses.

How Medical Coverage Works

When you enroll in medical coverage, you pay a portion of your health care costs when you receive care and the plan pays a portion, as detailed below. Note that preventive care – like physical exams, flu shots and screenings – is always covered 100% when you use in-network providers. The key difference between the plans is the amount of money you'll pay each pay period and when you need care.

The plans have different:

- **Deductibles** – the amount you pay each year for eligible in-network and out-of-network charges before the plan begins to pay a portion of the costs.
- **Copays** – a fixed amount you pay for a health care service. Copays do not count toward your annual deductible but do count toward your annual out-of-pocket maximum.
- **Coinsurances** – Once you've met your deductible, you and the plan share the cost of care, which is called coinsurance. For example, you pay 20% for services and the plan pays 80% of the cost until you reach your annual out-of-pocket maximum.
- **Out-of-pocket maximums** – the most you will pay each year for eligible in- or out-of-network services, including prescriptions. After you reach your out-of-pocket maximum, the plan pays the full cost of eligible health care services for the rest of the year.

Before You Enroll

Consider this:

1. Think about the per-pay-period cost and out-of-pocket expenses you will incur and your possible future medical expenses.
2. Want to stay with your doctor? Ensure they are in the plan's network by visiting the myuhc.com. If they're out of network, services may not be covered or may be more expensive.
3. Consider the cost of services and prescription drugs you expect to receive during the year.
