

7th Grade Summer Reading

Your summer reading book is *The Magician's Nephew* by C.S. Lewis (ISBN: 0590254758). I enjoyed reading this book, and I hope that you will as well. I encourage you to think about how God created the world when you read this novel and look for ways Lewis incorporates creation into his storytelling.

It is beneficial for students to read the novel in the later part of the summer so the content is fresh in their minds when they return to school.

As you read, please complete the following assignment:

Create a typed summary for each chapter of the novel.

Place a heading at the top of the paper that includes your name, date, and title.

What to include in each summary:

Label each chapter summary with the chapter title.

Setting

Characters

Plot

Action

Five to seven sentences minimum for each chapter.

Correct spelling, punctuation, and grammar.

The English Department at GFCS expects that students will complete the summer reading assignment(s) **without** the assistance of ChatGPT or other generative AI platforms (including Grammarly and other Chrome extensions). Please ensure that all of the chapter summaries are in your own words and highlight significant points in the story. You can have multiple summaries on one page.

A printed copy of the chapter summaries must be brought to class on the second day of school. Please do not email assignments in advance.

In addition to the chapter summaries, there will be a novel quiz and class discussion in the second week of school.
