

SPECIAL SERVICES

Anna Telerski Shultz, Director
Tina Buhlman, Coordinator Grades 6-12
Letitia Bean, Coordinator Grades K-5

Department News

This year, we launched the W.O.R.L.D. program, which stands for Workforce Opportunities for Real Life Discovery. This program provides students ages 18-21 who have met all graduation requirements with help in employment skills and independent living skills.

We partner with the **Ohio Partnership for Excellence in Paraprofessional Preparation (OPEPP)** to support the vital role of paraprofessionals. Through collaboration and training, they grow in their roles to better support teachers and help students succeed.

We Serve

90

Students K-12
with Section
504 Plans

760

Students
PreK-12 with
IEPs

Frequently Asked Questions

- **What do I do if I think my child may have a disability?**
 - For next steps, contact the Student Intervention Coordinator for Preschool or Elementary students, or the school counselor for Middle and High School students.
- **What is the difference between a Section 504 Plan and an IEP?**
 - A 504 Plan provides accommodations to support access to the general education curriculum without altering the curriculum itself. An IEP (Individualized Education Program) includes specialized instruction, goals, and services under IDEA for students who meet specific eligibility criteria.
- **Who should I contact if I have a question about my child's IEP or 504 Plan?**
 - Start with your child's case manager, then the school principal, then the coordinator for your child's grade.
