Drug and Alcohol-Free Workplace

DRUG AND ALCOHOL-FREE WORKPLACE NOTICE TO EMPLOYEES

YOU ARE HEREBY NOTIFIED that it is a violation of Board policy for any employee at a school district workplace to unlawfully manufacture, distribute, dispense, possess, use or be under the influence of any alcoholic beverage, drug, or controlled substance as defined in the Controlled Substances Act and Code of Federal Regulations.

"School District Workplace" is defined as any place where school district work is performed, including a school building or other school premises; any school-owned or school-approved vehicle used to transport students to and from school or school activities; any off-school sites when accommodating a school-sponsored or school-approved activity or function, such as a field trip or athletic event, where students are under district jurisdiction; or during any period of time when an employee is supervising students on behalf of the district or otherwise engaged in district business.

As a condition of your continued employment with the district, you will comply with the district's policy on Drug and Alcohol Free Workplace and will, any time you are convicted of any criminal drug or alcohol statute violation occurring in the workplace, notify your supervisor of this conviction no later than five (5) days after such conviction.

Pursuant to the Federal Omnibus Transportation Employee Testing Act of 1991, school bus drivers shall be subject to a drug and alcohol testing program that fulfills the requirements of the Code of Federal Regulation, Title 49, Part 382.

(cf. 4112.42/4212.42/4312.42 - Controlled Substance and Alcohol Testing)

Pursuant to California Education Code 44836 and 45123, the governing board of a school district shall not employ or retain in employment persons convicted of any controlled substance offense as defined in Education Code 44011. If any such conviction is reversed and the person acquitted in a new trial or the charges dismissed, his/her employment is no longer prohibited.

Pursuant to Education Code 45123, the governing board of a school district may employ a classified person who has been convicted of a controlled substance offense only if it determines, from evidence presented, that the person has been rehabilitated for at least five (5) years. The Board shall determine the type and manner of presentation of the evidence, and the Board's determination as to whether or not the person has been rehabilitated is final.

Pursuant to Education Code 44425, whenever the holder of any credential issued by the State Board or the Commission on Teacher Credentialing has been convicted of a controlled substance offense as defined in Education Code 44011, the Commission shall immediately suspend the credential. When the conviction becomes final or when imposition of sentence is suspended, the Commission shall revoke the credential.

Pursuant to Education Code 44940, the district shall immediately place on compulsory leave of absence any certificated employee charged with any offense involving aiding or abetting the unlawful sale, use or exchange to minors of certain controlled substances.

The following drug and alcohol counseling, rehabilitation, and/or employee assistance programs are available locally. In addition, your district employee benefits program may also provide drug and alcohol counseling and rehabilitation services.
