Employee Use of Technology

The Governing Board recognizes that technological resources can enhance employee performance by improving access to and exchange of information, offering effective tools to assist in providing a quality instructional program, and facilitating district and school operations. The Board expects all employees to learn to use the available technological resources that will assist them in the performance of their job responsibilities. As needed, employees shall receive training in the appropriate use of these resources.

(cf. 0440 - District Technology Plan)
(cf. 1113 - District and School Web Sites)
(cf. 4032 - Reasonable Accommodation)
(cf. 4131 - Staff Development)
(cf. 4231 - Staff Development)
(cf. 4331 - Staff Development)
(cf. 6162.7 - Use of Technology in Instruction)
(cf. 6163.4 - Student Use of Technology)

Employees shall be responsible for the appropriate use of technology and shall use the district's technological resources only for purposes related to their employment. Such use is a privilege which may be revoked at any time.

(cf. 4119.25/4219.25/4319.25 - Political Activities of Employees)

Employees should be aware that computer files and communications over electronic networks, including e-mail and voice mail, are not private. These technologies shall not be used to transmit confidential information about students, employees or district operations without authority.

The Superintendent or designee shall ensure that all district computers with Internet access have a technology protection measure that prevents access to visual depictions that are obscene or child pornography, and that the operation of such measures is enforced.

The Superintendent or designee may disable the technology protection measure during use by an adult to enable access for bona fide research or other lawful purpose. (20 USC 7001; 47 USC 254)

To ensure proper use of the system, the Superintendent or designee may monitor the district's technological resources, including e-mail and voice mail systems. Monitoring may occur at any time without advance notice or consent. If passwords are used, they must be known to the Superintendent or designee so that he/she may have system access.

The Superintendent or designee shall establish administrative regulations which outline employee obligations and responsibilities related to the use of district technology. The Superintendent also may establish guidelines and limits on the use of technological resources. Inappropriate use shall result in a cancellation of the employee's user privileges, disciplinary action and/or legal action in accordance with law, Board policy and administrative regulations.

(cf. 4118 - Suspension/Disciplinary Action)
(cf. 4218 - Dismissal/Suspension/Disciplinary Action)

The Superintendent or designee shall provide copies of related policies, regulations and guidelines to all employees who use the district's technological resources. Employees shall be required to acknowledge in writing that they have read and understood these policies, regulations and guidelines.

(cf. 4112.9/4212.9/4312.9 - Employee Notifications)

In the event that the use of an electronic resource affects the working conditions of one or more employees, the Superintendent or designee shall notify the employees' exclusive representative.

(cf. 4143/4243 - Negotiations/Consultation)

Use of Cellular Phone or Mobile Communications Device

An employee shall not use a cellular phone or other mobile communications device for personal business while on duty, except in emergency situations and/or during scheduled work breaks.

Any employee that uses a cell phone or mobile communications device in violation of law, Board policy, or administrative regulation shall be subject to discipline and may be referred to law enforcement officials as appropriate.
