

Trotwood- Madison City Schools Structured Literacy Program

In grades K-5 at Trotwood-Madison elementary schools our Structured Literacy Program encompasses the following:

- **McGraw Hill's Wonders Reading** is a high-quality literacy program supported by the Science of Reading. It provides a comprehensive, integrated plan for meeting the needs of all students, focusing on explicit instruction for phonemic awareness, phonics, text reading fluency, and vocabulary. The program has texts that are high quality, engaging, rigorous and knowledge building. The questions, tasks, lessons and practice support students' development of reading, writing, speaking, listening and critical thinking skills.
- **Reading Horizon (K-3 Discovery & 4-5 Elevate)** is an explicit and systematic program that teaches the necessary foundational skills for proficient reading. The program encompasses the following: phoneme blending and segmentation, accuracy and automaticity of grapheme-phoneme correspondences, and decoding automaticity of words with previously learned concepts. The unique marking system that is embedded in every skill lesson helps students recognize and decode sound, letter, and word patterns.
- **Heggerty- Phonemic Awareness Instruction K-2.**

- **LETRS.-** Teachers have been trained in Lexia LETRS (Language Essentials for Teachers of Reading and Spelling), a professional learning program for teachers which is rooted in the science of reading. The professional coursework teaches educators the how, what, and why of literacy acquisition to empower them with the knowledge and skill to master the fundamentals of literacy instruction.
