

Parent Friendly Summary of the Mathias Parent and Family Engagement Plan

Mathias Elementary recognizes the value of a strong home/school connection. Families, administrators, teachers, and support staff must work together as a team to support high standards for all students. The Mathias Parent and Family Engagement Plan addresses the ways in which the school and the home can work together to meet the specific academic needs of our students. This plan is available to all parents including those with limited English proficiency. Copies are available in welcome packets, through the school office, on the district's website at www.rogersschools.net, or by scanning the QR code below.
