

Dear Students,

Welcome to fifth grade! My name is Mr. Williams, and I will be your fifth grade teacher (Mathematics) for the 2025-2026 school year. Whether you enjoy math or not, we are going to have a great time together working with numbers, and I am looking forward to working with you!

Let me tell you a bit about myself. I was born and raised in Fairfax, South Carolina but I've lived in Georgia for several years. I'm a husband to a wonderful wife (Daytrica) who is also a teacher and a father of one son (Germir) who is a sixth grader. Outside of school, I love to spend time with my family, travel, attend basketball and football games, and other sporting events. I absolutely love being a teacher, and I can't wait to learn about each of you and the things that you love to do!

Fifth grade is an exciting year for you, as it is the last step in your elementary career. I have no doubt that we will have a memorable year together, filled with standards-based instruction and lots of. You will learn a lot of new and exciting concepts, and I hope that you will fall in love with language and writing! This year you will rotate to all of the 5th grade teachers in order to receive instruction in Reading, ELA, Math, Science, and Social Studies.

Parents,

I believe that we are partners in the education of your scholar! To that end, I look forward to collaborating with you to best meet the needs of your child. This includes but is not limited to, weekly communication about your child's academic progress via Infinite Campus and the Remind app and parent-teacher conferences throughout the year. Additionally, I ask that you please ensure that your child has all needed school supplies, completes homework assignments, and puts forth their best effort in both academics and behavior. We are also requesting volunteers to serve as room parents and field trip chaperones for the year. If you are interested in one of these roles, please reach out to me.

We are going to have a wonderful school year together. Our classroom will be filled with fun, laughter, respect and a lot of learning! I look forward to an exciting school year!

Your 5th grade Math teacher, Mr. Williams
